INTRODUCTION

Start-up Charter Applications are proposals to create new or renew existing start-up charter schools. Conversion charter Applications are for existing public schools that wish to convert to charter schools. The evaluation of your Application will focus on whether implementing the proposals in your Application will lead to the improved academic, organizational, and financial performance you are promising in exchange for freedom from much of Georgia's education law, rules and guidelines. It will also determine whether the proposed charter school would comply with all applicable laws, rules, regulations, policies and procedures (including the Charter Schools Act of 1998, as amended [O.C.G.A. §§ 20-2-2060 through 20-2-2071], State Board of Education Rule 160-4-9-.04 et. seq., and Department of Education Guidelines accompanying the Charter School Rules); whether the academic, organizational and financial plans are viable; and whether the charter school is in the public interest.

Filing an application for a charter school does not guarantee that a charter will be granted.

DEADLINE AND SUBMISSION PROCEDURES

Your Application must be approved by your local Board of Education in accordance with the rules and regulations of your local board. After local submission, review and approval, you must submit your application to the address below for GaDOE review. Initial start-up applications must be received Please note that applications are processed and interviews are scheduled on a first-come, first-served basis. The application approval process consists of local board review, GaDOE review and panel interview, SBOE approval (generally 2 months). Your application must go through this entire process in the year before you plan to open, convert or renew.

Interviews are currently scheduled for August 13, August 14, September 16, September 17, October 15, October 16, November 18, November 19, December 3, December 4, December 10, and December 11. Applications must be received at least two weeks prior to your panel interview. General guidelines to remember:

Applications should be sent to:

Georgia Department of Education
Charter Schools Division
2053 Twin Towers East
205 Jesse Hill Jr. Drive, SE

Charter School Letter of Assurances

This Letter of Assurances (hereinafter "Assurances") is made effective the ____ day of _____, 20_____, by and between DeKalb County School District (the "District" or "DCSD") and the petitioner of a proposed charter school: DeKalb High School for Accelerated Learning, in which the petitioner assures that, if approved, the following procedures and obligations will be followed throughout the term of the charter in accordance with the terms of the Charter and all applicable federal, state, and local laws, rules, and regulations. These Assurances enumerate all of these requirements and, the Petitioner hereby provides the legal assurance that the proposed charter school understands and will do these things.

Students, Academic Performance & Student Growth

1. The charter school understands that as a public school, it cannot charge tuition or fees for attendance.

2. The recruitment of students is the responsibility of the petitioner and the charter school. During the recruitment process, the charter will provide parents of potential students with accurate information about the programs, services and amenities available at the school.

3. The charter shall comply with the accountability provisions of O.C.G.A. § 20-14-30 through § 20-14-41, and federal accountability requirements, and participate in statewide assessments. Additionally, the charter school will adhere to all assessment guidelines and procedures as outlined by the State Assessment Handbook, the State Accommodations Manual, and other state and local guidance on assessment.

4. The charter school agrees to unannounced visits and announced instructional audits conducted by the DeKalb School District's Charter School Office, or the Internal Audit Team, as needed.

5. The charter school will adopt the DCSD Student Code of Conduct, and modify this document to meet the due process needs of the school. An electronic copy of the charter school's Student Code of Conduct will be submitted to the Charter Office by August 1st, each school year.

6. The charter school shall comply with federal due process procedures regarding student discipline and dismissal.

Student Support Services

1. The provision of services and due process procedures will be implemented for students with disabilities and English Language Learners in accordance with all relevant Federal and State laws, rules, and regulations.

2. Establish a Student Support Team (SST) in accordance with state guidelines and local school board policies manual and use DCSD forms for SST.

3. Establish a Section 504 team in accordance with state guidelines and local school board policies.

4. Use DCSD forms for Section 504, special education, counseling services, psychological services, social services and health services.

5. Handle all discipline issues regarding Section 504 students in accordance with federal regulations, state guidelines, and local school board policies.

Petitioner's Initials: _____

6. Comply with Section 504 by providing the appropriate accommodations and equipment.

7. Immediately notify the DCSD Charter Office, upon receipt of a complaint made by a parent/guardian or student concerning the Individuals with Disabilities in Education Act or §504 Plan, furnish a copy of such complaint and cooperate fully in the investigation, defense and resolution of such complaint.

8. Hire or contract certified Special Education teacher(s), a licensed school counselor, a licensed certified school psychologist or a licensed clinical psychologist, a licensed school social worker, a licensed school nurse, and special education paraprofessionals, to provide services to eligible students (in accordance with State guidelines and DCSD policy).

9. Develop, maintain, and implement an Individualized Education Plan (IEP) for each student identified as needing special education services.

10. If the charter school does not have a certified or Hi-Q identified special education teacher, the school must employ substitute teachers as required by state guidelines until a certified/Hi-Q teacher is hired, and the substitute must be able to knowledgably maintain and implement students' Individualized Education Plans.

11. Handle discipline issues regarding special education students in accordance with federal guidelines, state rules and DCSD policy.

12. Report all allegations of child abuse and/or neglect to the charter school social worker and to the persons required to receive such reports pursuant to state law.

Governance

1. The charter school shall be subject to the control and management of the local board of the local school system in which the charter school is located, as provided in the charter and in a manner consistent with the Constitution.
2. The charter school's governing board members shall receive initial training and annual training thereafter.

3. The local governance of the charter school shall operate under a structure that retains a local school level governance body of parents, teachers, administrators, and others who are involved in school level governance within the charter.

4. Charter school board members will not constitute a voting majority on any other charter school board, will be voluntary and fully insured and bonded prior to final approval of the charter, and will maintain fully bonded status throughout the term of the charter.

5. No Petitioner and no member of the governing board of the Petitioner or the charter school shall sell, lease, or receive payment for providing textbooks, supplies, services, equipment, facilities, or land to a charter school or other public school in this school system. Nor will the board members receive payment for services as board members.

6. All meetings of the charter governance board are subject to the provisions of O.C.G.A. § 50-14-1 et seq. (Open and Public Meetings) and O.C.G.A. § 50-18-70 et seq. (Inspection of Public Records).

7. The governing board will be held accountable for the school's operational functions including, but not limited to fiscal oversight and facilities planning.

8. The charter school's governance board members may only receive compensation for reasonable and actual expenses incurred in connection with performance of their duties.

9. The charter school will have a written grievance procedure to resolve student, parent, and teacher complaints, and a written procedure for resolving conflicts between the charter school and the local board of education.

DeKalb County School District
Letter of Assurances for DeKalb High School for Accelerated Learning **Charter School**

Financial

1. Any surplus funds remaining at the close of each fiscal year, may be placed in a reserve fund, but the reserves should be used to enhance the charter school's academic program, facilities, or personnel plans, in the following school years.

2. The charter school's annual audit will meet GASB guidelines and will contain a complete asset inventory.

3. The charter school is subject to an audit by the District's Internal Audit Department.

4. The DeKalb County School Board requires an annual financial audit by an independent Georgia-licensed Certified Public Accountant, in accordance with O.C.G.A. § 20-2-2065(b)(7), at the school. The financial reporting format shall be in conformity with generally accepted accounting principles.

5. The school will comply and adhere to the State's October 1 financial audit deadline, and forward a copy of the school's annual audit to the DeKalb County School District's Director of Finance and Charter Office no later than November 1st of each year.

6. The school will be responsible for providing various financial reports to the DCSD Charter Schools Office and DeKalb County Board of Education, including but not limited to monthly budget status report, monthly cash reports and quarterly statements.

7. Any qualified audit findings, or non-conformity with generally accepted accounting principles, may result in termination of the charter after review of by the DCSD Finance Department.

8. The charter school will comply with the federal monitoring requirements for schools receiving federal funds.

9. Any deficit occurring during or at the end of a fiscal year shall be eliminated by funds to be provided by the Petitioner. The charter school shall not request any additional funds from the DCSD to cover any deficit created by the charter school and the DCSD shall not allocate funds for the charter school for the next fiscal year until the deficit has been resolved satisfactorily.

10. The charter school is solely responsible for all debts incurred by the charter school and its governing body, and the DCSD shall not be contractually bound to the charter school or to any third party with whom the charter school has a contract or from whom the charter school has purchased goods or services, except as otherwise agreed in the charter contract.

11. The charter will provide evidence that it has obtained appropriate bonding of the governing board and administrators by October 1st of its first year of operation.

12. In the event the charter school ceases operation for any reason, the charter school and its governing body shall be responsible for closing out the business affairs of the charter school. The charter school shall cooperate with the DCSD to the extent necessary to provide an orderly return of the students to the appropriate schools for which they are zoned. Any surplus remaining at the time any charter school ceases operations shall be remitted to the DCSD. Any furniture and equipment purchased with state or local funds shall be delivered to DCSD.

13. If the charter school plans to cease operation, the school will notify the DCSD Charter Office within 24 hours of the governing board's decision and include the name and contact information for the person responsible for the closing procedures. Unless an emergency closure is necessary, the charter school will ensure that a transition plan is developed, and the school will close at the end of the fiscal year in which it is operating, or another mutually agreed upon date. The charter school shall submit a financial audit for the final year of operation, prepared by an independent Georgia-licensed certified public accountant. This audit shall include a detailed inventory of all assets. Further, should the charter school not have sufficient funds to pay all of its bills, invoices, or other evidence of indebtedness at the time it ceases operation, DCSD shall not be responsible for any debts incurred or contracts signed by the charter school.

Petitioner's Initials: _____

14. The petitioner acknowledges that a charter may be terminated or non-renewed by the DeKalb Board of Education if the Board determines that the charter school failed to meet generally accepted standards of fiscal management as described by the District's financial division.

15. The petitioner acknowledges that if, in the judgment of the DeKalb Board of Education, the charter petitioner is in material breach of one or more provisions of this charter and if such material breach is not fully rectified within 30 days after the receipt of written notice to the petitioner identifying the breach and what must be done to rectify it, the DeKalb Board shall be authorized to suspend all payments to the charter school by the District, until such breach is satisfactorily resolved, and/or pursue termination of the charter.

Facilities

1. The school will comply with the Uniform Building Code Inspection and the Standard Building Code, Standard Plumbing Code, Standard Mechanical Gas Code, Americans with Disabilities Act as Amended (ADAAA) access requirements and other applicable fire, health and structural safety requirements, local state, and federal laws.

2. The charter school will meet all applicable codes for sanitation, fire, construction, stability, temperature, ventilation, and suitability of physical space. The charter school will maintain a certificate of occupancy from the required government agency. The charter school will grant access to local health and fire department officials for inspection of the premises or operations of the school for purposes of ensuring the health, safety, and welfare of students and employees pursuant to Georgia Statutes and National Fire Protection Association Life Safety Code, N.F.P.A. 101.

3. The charter school is subject to all federal, state, and local rules, regulations, court orders, and statutes relating to civil rights; insurance; the protection of physical health and safety of school students, employees and visitors; conflicting interest transactions; and the prevention of unlawful conduct.

4. Any future facilities, beyond those proposed in the petition, which will be used to educate students are subject to approval by the local board of education and the State Board of Education prior to occupancy.

School Nutrition & Transportation

1. If the charter elects to participate in the National School Breakfast and Lunch Program, the charter will submit its own application to the GADOE and will be responsible for accurately counting meals and submitting financial reimbursement claims to the GADOE for meals meeting specified nutrient standards.

2. The charter school agree to provide the system with transportation safety documentation, if any, as required by the GADOE no later than June 1 for the pending school year.

3. The charter school's transportation program will comply with applicable law and any vehicles or drivers used for transporting students will meet the same safety standards applicable to public schools in this State.

Personnel

1. The charter school shall submit the Certified Personnel Index (CPI) survey to the DeKalb County School District's Human Resources Department no later than October 1, May 1 and July 1, and other times upon request by Human Resources personnel.

2. The charter school will provide documented annual professional development for all instructional staff.

3. The faculty, instructional staff and all other personnel necessary for the operation of the Charter School shall be employees of the Charter School. Charter School instructors of core subjects shall be certified in those subjects by the Georgia Professional Standards Commission, and any applicable state or federal laws. Teachers will meet all other GAPSC requirements for highly qualified teachers working at charter schools. Paraprofessionals with instructional support duties will meet guidelines and regulations of the Georgia Professional Standards Commission, and any applicable state or federal laws.

Petitioner's Initials: 

4. The charter school shall comply with O.C.G.A. §20-2-210(b)(1) and implement an evaluation system as adopted and defined by the State Board of Education for elementary and secondary school teachers of record, assistant principals, and principals.

5. The charter school shall remit payments to TRS on behalf of employees and shall employ teachers in accordance with TRS.

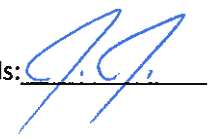
Administrative

1. Representatives from the charter school will attend any workshop, in-services and/or training and other meeting(s) as required by the DeKalb County School District. Charter school administrators are responsible for informing the charter staff of all required meetings. Charter school administrators will use the school district's email system and will check the email system daily to ensure they stay informed on all required events and information by DCSD, as this will be DCSD's primary means of communication with the schools.

2. No administrator will be directly responsible for the supervision or evaluation of a member of his/her immediate family.

3. The charter school may not open except at the beginning of each school year. The charter may commence the school year at an earlier or later date than DCSD, however, the charter school's school year must begin no more than two weeks before or two weeks after the beginning of the District's school year.

4. The charter school shall report daily attendance to the DeKalb County School System (DCSD) using the standard, approved method of data collection. Master schedules and student schedules must exist for students in grades K-12, as well as final marks for each course after each semester. DCSD will provide the necessary software and training for the student information system application while the charter school shall provide hardware and the necessary internet service connection. The DCSD Student Information System is to be used for the collection of all data and information required by O.C.G.A. 20-2-320 for mandatory reporting to the State Department of Education (SDOE) and federal agencies (example: discipline). The method of data collection will be that which is currently in use by DCSD and may be changed from time to time based on technology currently in use. Existing periodic and end-of-year checklists provided by DCSD will be used to define when progress reports, report cards and other verifications that are to be produced.



5. The charter school shall maintain all student records in accordance with applicable federal and state laws, regulations, rules and policies. The charter school shall maintain all student records on behalf of the Board during each student's enrollment in the charter school. Upon a student's withdrawal or other matriculation from the charter school, the student's educational records shall be returned within ten (10) business days to the Board's student records center for retention. The charter school shall maintain and ensure the privacy and confidentiality of each student's educational record in accordance with the Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. § 1232g, and shall not disclose to any unauthorized third party any personally identifiable information concerning any student enrolled in the charter school without first obtaining prior written parental permission.

6. Petitioners must ensure that they adhere to all standards as set forth by the Southern Association of Colleges and Schools (SACS) and AdvancED.

Maximum Flexibility

1. Local charter schools are subject to the control and management of the DCSD Board of Education and are expected to abide by and enforce all laws and regulations governing the health, safety, and welfare of its students.

2. Pursuant to O.C.G.A. §20-2-2065(a), the charter school will meet or exceed the performance-based goals and measureable objectives, in exchange for maximum flexibility afforded by the law from the provisions of Title 20 of the Official Code of Georgia Annotated and from any state or local rule, regulation, policy, or procedure established by a local board of education, the State Board of Education, or the Georgia Department of Education. Notwithstanding this maximum flexibility, the charter school shall comply with the terms of the Charter, the Charter Schools Act, and compliance with all applicable federal and state and local laws that may not be waived, pursuant to O.C.G.A. §20-2-2065, and any rules, regulations, policies, or procedures established by the State Board consistent with the Charter Schools Act.

Annual Report and Monitoring

1. The charter school shall and will, by November 1st or the date published by the GADOE, submit an annual report to the Georgia Department of Education, the DeKalb County Board of Education and parents/guardians of students enrolled in the school. This report shall include all state-mandated assessment and accountability scores and comply with all requirements set out in O.C.G.A. § 20-2-2067.1(c)(1)-(6). The annual report must indicate the progress made in the previous year in meeting the performance based goals identified in the charter and include all state-mandated assessment scores and state mandated accountability indicators.

2. The charter school must use the template provided by the Georgia Department of Education to complete and submit the annual report, but will adhere to any additional survey or questionnaire requirements provided by the District. The District may exercise its right to include notice of deficiencies or provide comments and feedback in the annual report.

3. The charter school shall complete annual reports and surveys, as mandated by the DeKalb County School District, and shall be supervised and monitored by the DeKalb County School District's Charter Office.

Charter Adherence of State and Federal Laws

1. The charter school will not waive and is not exempt from Federal law, nor the following state laws:
    a. School Accountability Provisions, Part 3 of Article 2 of Chapter 14 of Title 20 O.C.G.A. § 20-14-30 through O.C.G.A. § 20-14-41
    b. Shall Not Charge Tuition, O.C.G.A. § 20-2-133
    c. Unlawful Conduct in or near a Public School, O.C.G.A. § 20-2-1180 through O.C.G.A. § 20-2-1182
    d. Reporting Requirements – Student Data Collection, O.C.G.A.§ 20-2-320
    e. Brief Period of Quiet Reflection, O.C.G.A. §§ 20-2-1050, 20-2-1051
    f. Open and Public Meetings, O.C.G.A. § 50-14-1 et seq.
    g. Inspection of Public Records, O.C.G.A. § 50-18-70 et seq.
    h. Fingerprinting and Criminal Record Check of All Personnel Employed by the Charter School, O.C.G.A. § 20-2-211
2. The charter school shall be nonsectarian in its programs, admissions policies, employment practices, and all other operations.
3. The charter school shall not discriminate against any student or employee on the basis of race, color, ethnic background, national origin, gender, disability or age. Moreover, the charter school will seek to ensure that a diverse representation of DeKalb students is enrolled in the charter school.

4. The charter school will provide documentation that the school has applied for accreditation and received probationary status by the Southern Association of Colleges and Schools (SACS), Georgia Accrediting Commission (GAC), or other recognized accrediting commission approved by the State Board of Education no later than October 1st of its first year of operation. The charter school understands if it does not receive full accreditation by the end of its second year of operation, DCSD may pursue termination of its charter.

5. The charter agrees to complete registration for the upcoming school year and provide the names, addresses and home school of all accepted students to DCSD no later than April 1st annually. It is understood that the school can continue to accept students after this date and will continue to update the system on the number of students registered and all other student information as requested. If the charter school does not meet its projected enrollment within twenty percent (20%), DCSD may pursue termination of its charter. If the enrollment levels create a financial hardship that puts student achievement in jeopardy, DCSD may pursue termination of its charter unless the charter school can document additional independent financial support.

6. The charter agrees that if any significant expansion is to occur at the school after its 1st year of operation, the charter will provide in writing to the GADOE and DCSD, by April 1st of the preceding year the school's plans to significantly expand. The Charter understands that if this action does not occur with timely notice, the SEA or LEA is relieved of most of its obligation to provide the federal funds.

    a. In order for a charter school in the state of Georgia to meet qualifications for status as a significantly expanding school, a charter school must meet at least one of the following:

Petitioner's Initials: 

i. Projected enrollment growth must exceed 33% of the previous year's October FTE-1 enrollment.
ii. Expansion of more than one grade level as outlined in a predetermined program growth design in the charter school approved charter or a newly approved charter school amendment.

7. The charter school shall provide an electronic copy of the complete charter school petition and contract to every parent as a part of the student enrollment procedures.

Assurances for Charter Schools with an EMO/CMO Agreement

1. No provision of the [EMO/CMO] agreement shall interfere with the Charter Board's duty to exercise its statutory, contractual and fiduciary responsibilities governing the operation of the charter school.

2. No provision of the [EMO/CMO] agreement shall prohibit the Charter Board from acting as an independent, self-governing public body, or allow public decisions to be made other than in compliance with the Open Meetings Act.

3. Upon termination of the agreement, the charter school governing board shall ensure that the management company immediately turns over all student, personnel, fiscal, and other charter school records to the governing board.

4. Nothing in the agreement between the charter school and the [EMO/CMO] shall be construed in any way to limit the authority of the DeKalb County Board of Education including, but not limited to, the authority to take and enforce action pursuant to O.C.G.A. § 50-14-1 et seq. and O.C.G.A. §50-18-70 et seq.

5. To the extent there are any conflicts between the terms of the charter school's charter and the terms of the management agreement, the terms of the charter will control.

6. The Governance team of the school will solely retain authority over the budget. Representatives of the [EMO/CMO] will not serve on the Governing Board.

7. This [EMO/CMO] is the charter school's only management partner.

8. The term of the contract with the [EMO/CMO] does not exceed the term of the charter agreement.

9. If an [EMO/CMO] purchases equipment, materials and supplies for the use of, on behalf of or as the agent of the charter, the [EMO/CMO] agreement shall provide that such equipment, materials and supplies shall be and remain the property of the charter. The [EMO/CMO] shall not charge additional commission, mark-up or similar fees, for the items purchased for the use of, on behalf of or as the agent of the charter. Any such purchases must be made from a third party supplier, unless set forth in the charter petition.

10. The governing board must ensure that, while management partners may make recommendations to the governing board, the Board will not be under any contractual obligation to accept these recommendations.

11. The governing board will ensure that the management agreement contains a section that will reasonably permit either party to terminate the contract.

12. The contract should include provisions dealing with ownership of physical and intellectual property developed by the [EMO/CMO] or by the charter school's employees.

Indemnification Rights & Responsibilities

1. The charter school agrees to indemnify, defend and hold harmless the DeKalb County Board of Education, the DeKalb County School District, and the DeKalb County School System (hereinafter collectively referred to as "DCSD"), their officials, officers, employees, agents, volunteers, and assigns (all of whom hereinafter may collectively be referred to as "Indemnitees"), from any and all claims, demands, suits, actions, legal or administrative proceedings, losses, liabilities, costs, interest, and damages of every kind and description, including any attorneys' fees and/or litigation and investigative expenses, for bodily injury, personal injury, (including but not limited to the charter school's employees), patent, copyright, or infringement on any intellectual property rights, or loss or destruction of property (including loss of use, damage or

destruction of DCSD owned property) to the extent that any such claim or suit was caused by, arose out of, or contributed to, in whole or in part, by reason of any act, omission, professional error, fault, mistake, or negligence whether active, passive or imputed, of the charter school, its employees, agents, representatives, or subcontractors, their employees, agents, or representatives in connection with or incidental to the charter school's performance of the charter contract, regardless of whether such liability, claim, damage, loss, cost or expense is caused in part by an Indemnitee.

2. The charter school shall be excused from its indemnification obligations, as stated in Paragraph 1 above:
    b. If the claims, demands, suits, actions, proceedings, losses, liabilities arise solely and exclusively out of the negligence of DCSD or one of the Indemnitees; or
    c. If DCSD fails to:
        i. provide written notice of the third party claim or suit as soon as practicable;
        ii. cooperate with all legally reasonable requests of the charter school; or
        iii. assists the charter school with the defense and/or settlement of such claim or suit.

3. The charter school's obligation to indemnify any Indemnitee shall survive the completion, expiration, or termination of the charter contract, for any reason.

Insurance

1. The charter school shall procure and maintain throughout the term of the charter contract, a policy or policies of insurance providing coverage as set forth below that shall protect the charter school and the Indemnitees from any and all claims as set forth in the Indemnification clause that may arise out of charter school's operations under the charter contract.

2. The policies shall be obtained from insurance companies approved to do business in the State of Georgia or companies acceptable to DCSD. The Charter School shall procure the insurance policy(ies) at it's own expense and shall furnish to DCSD a certificate(s) of insurance containing the following information:
    a. Name and address of agent/broker;
    b. Name and address of insured;
    c. Name of insurance company, underwriting syndicate, or other insuring entity;
    d. Description of coverage in standard terminology;
    e. Policy period;
    f. Policy Number;
    g. Limits of liability;
    h. Name and address of certificate holder;
    i. Acknowledgment to the DCSD of notice requirements of material adverse change;
    j. Signature of authorized agent/broker;
    k. Telephone number of authorized agent/broker; and
    l. Details of policy exclusions applicable to this Agreement in comments section of Insurance Certificate.

3. In addition to the Certificates of Insurance, the charter school's broker/ insurer shall provide copies of the policy endorsements evidencing the coverage(s) for DCSD through the Indemnification and Insurance obligations assumed by **the charter school.** All certificates/endorsements evidencing primary and excess layers shall be renewed and kept current and up to date on an annual or lesser time basis as needed.

4. The charter school is required to maintain the following insurance coverage(s) during the Term of this Agreement:

    a. **Workers' Compensation Insurance** in the amount of the statutory limits established by the General Assembly of the State of Georgia. The charter school shall have the ability to self-insure its required workers compensation coverage if it is an approved self-insurer in the State of Georgia.

    b. **Comprehensive General Liability Policy** (CGL) including Products and Completed Operations, or equivalent coverage, to include the contractual obligation of the charter school for any liability assumed hereunder.

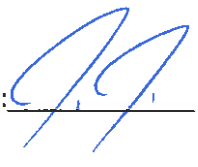
c. **Business Auto Policy** to include but not be limited to liability coverage on any owned, non-owned and hired vehicle used by **the charter school** or charter school's personnel in the performance of this Agreement and their operations.

d. **Educators Professional Liability Insurance (Errors and Omissions)** in the amount of $1,000,000 per Insured per Wrongful Act and $3,000,000 in the annual aggregate per Insured for all Wrongful Acts.

e. **Crime and Fidelity Insurance** in the amount of $500,000 per loss subject to a deductible of not more than $10,000 per occurrence covering Employee Theft and Dishonesty, Forgery or Alteration, Theft of Money and Securities, Robbery or Safe Burglary, Computer Fraud, and Money Orders and Counterfeit Currency.

5. Should the charter school desire to structure their insurance program utilizing a Commercial Umbrella or Excess Liability Policy, all such policies shall have sufficient limits to provide that there is no gap in coverage between an underlying policy and the secondary layer;

6. All **Risk Property Insurance** in sufficient amounts to cover the replacement cost of all structures and contents to their full value for property owned or leased by **the charter school.** Policy(ies) shall be endorsed to name DCSD as a Loss Payee as their interest may appear. Deductible or Self-Insured Retentions shall not exceed $250,000 per claim;



7. Under all coverage required hereunder, the policy(ies) shall be endorsed to include the following terms and conditions:
   a. Except for Professional Liability policies, all coverage shall be on an "occurrence" not "claims made" basis;
   b. The foregoing policies shall contain a provision that coverage afforded under the policies will not be canceled, allowed to lapse, fail to be renewed, or endorsed to adversely change any coverage applicable to DCSD or an Indemnitee for any reason until at least thirty (30) days prior written notice has been given to DCSD;
   c. Shall waive all right of subrogation against Indemnitees for any losses arising out of this Agreement;
   d. All such coverage shall remain in full force and effect during the Term and any renewal or extension thereof; and
   e. Except for any acceptable secondary layer of protection, the policies shall be primary and not excess to any other coverage provided by or available to the Indemnitees.

8. Under coverage required under Sections 7 (b), (c), (d) and (e) above, the policy(ies) shall be endorsed to include the following terms and conditions:
   a. Except as provided otherwise above, minimum limits of $1,000,000 per occurrence $2,000,000 in the annual aggregate (if applicable) with insurers approved to conduct business in the State of Georgia.
   b. Contractual liability coverage, specifically referencing this Agreement and the Indemnification herein.
   c. Shall include Indemnitees as "Additional Insureds."
   d. A severability of interest or cross liability clause or endorsement applicable to Comprehensive General Liability, Auto, and any Excess Liability policy(ies).

9. The charter school shall require any and all subcontractors performing work under this Agreement to carry insurance of the type and with limits of liability as the charter school shall deem appropriate and adequate for the work being performed. However, the obligations of the charter school to the Indemnitees assumed in Sections "Indemnification", and "Insurance" shall not be reduced or diminished by the standards set for the subcontractors. Further, the charter school agrees that their obligation to indemnify and insure the Indemnitees shall pertain to all losses arising out of the subcontractor's acts or negligence in the same manner and to the same extent as if committed by the charter school. The charter school shall obtain and make available for inspection by DCSD, current certificates of insurance evidencing insurance coverage by such subcontractors.

Other Obligations

1. **Entire Agreement.** This Letter of Assurances constitutes the entire agreement between the Charter school, DeKalb Board of Education, and District, with respect to the matters set forth herein and supersedes all prior, contemporaneous, written or oral negotiations, agreements, or understandings between the Parties regarding such matters, but does not supersede the charter contract, which sets forth an entire agreement between the charter school, DeKalb Board of education, and State Board of Education.

Petitioner's Initials: 

2. **Modification.** The DeKalb Board of Education, or District Designee, reserves the right to require the charter school to sign updated versions of this Letter of Assurances throughout the charter term, as necessary.

3. **Waiver.** No failure or delay by the DeKalb Board of Education, or District Designee, in exercising any right or remedy herein shall operate as a waiver thereof. The rights and remedies of the DeKalb District under this Letter of Assurances are cumulative and are not exclusive of any rights or remedies which it would otherwise have herein.

4. **No Violation.** The charter school represents and warrants that the execution of, and performance under, this Letter of Assurances will not be a breach of, violation of, or conflict with any other contract or agreement to which it is a party or subject, including the charter contract.

5. **Headings/Interpretation of MOU.** The headings contained in this Letter of Assurances are for convenience only and shall not affect in any way the meaning or interpretation of this document.

6. **Severability.** In the event that any term or provision of this Letter of Assurances is found to be, or becomes by operation of law, invalid, unenforceable or void, the remaining terms and provisions shall not be affected thereby and shall remain in full force and effect, and the invalid, unenforceable or void term or provision shall be deemed not to be a part of this Letter of Assurances.

7. **Governing Law.** This Letter of Assurances shall be governed by and construed and enforced in accordance with the laws of the State of Georgia.

8. **Notices.** Unless otherwise provided in the charter contract, or this Letter of Assurances, all notices shall be in writing and shall be sent by electronic mail, U.S.P. regular mail, personally delivered, overnight delivery service or certified mail, postage prepaid. Notices shall be deemed given (a) on the date delivered if delivered personally or by electronic mail, (b) on the first business day following the date of dispatch if delivered by overnight delivery service, certified mail, or regular mail, or (c) on the earlier of confirmed receipt or the fifth business day following the date of mailing if sent by certified mail.

   Notices shall be addressed as follows:

   To the DeKalb District:

PETITION NARRATIVE

I. THE CASE

1. Why do you want a charter school?

The Governing Board of DeKalb High School for Accelerated Learning ("DHSAL" or "the School") wants to establish a charter school to offer students who have not been successful in a traditional high school an alternative means to earn a high school diploma and pursue a postsecondary path.

1.a. Motivation for applying to be a charter school.

The Board understands that there are students in DeKalb County struggling with life's challenges. Often, these students drop out of school or are likely to drop out as a result of barriers to educational success unrelated to their traditional school experience. Students report that family obligations, pregnancy, child care, mental health issues, addiction, homelessness, lack of financial support, or the need to be employed can distract from their ability to earn a high school diploma. Unless social, emotional and behavioral needs are effectively addressed, learning will be difficult and academic growth will be an unrealistic objective. It is because of these students and their needs that we propose to provide this dropout prevention and dropout recovery high school as an alternative to traditional high schools.

1.b. What will you be able to do with a charter that you cannot do without a charter?

A charter will allow us to provide a program and instructional model with features such as: flexible scheduling for students; a longer school year; a blended learning instructional model; and wraparound social services to meet the individual needs of students. The School's blended learning program uses technology to: individualize educational plans; address foundational gaps; and provide accelerated credit earning opportunities for students. This model combines direct, face-to-face, small and large group, individual, and technology-based instruction. The goal of this blended approach is to join the best aspects of both face-to-face and online instruction. Using this approach, students will also receive instruction and guidance regarding employability skills, career and college readiness, and postsecondary options. An essential component of this model is the flexibility to earn units of credit outside of the traditional instructional hour minimum (See State Board of Education Rule 160-4-2-.48(h)).

Specifically, a charter will allow us to offer up to three (3) four-hour sessions daily for instruction. Students may choose to attend one or more of these sessions each day. The School's proposed annual calendar, which includes 205 instructional days, and a draft of the daily school schedule are included in Appendices 3 and 4.

1.c. Parent, community member, and other interested party involvement.

This petition is submitted by Board members who represent a broad cross-section of the community. Board members have started conversations with other stakeholders in the community who have a passion for helping students who are off-track to graduate and who face personal and social challenges. After the charter is awarded, the Board will develop a community stakeholder plan (Appendix 23) that will include input and guidance from the DeKalb County School District (DCSD) school board and leadership, teachers, staff, students, parents, elected officials, the faith-based community, and other influential community leaders. Once the petition is approved, we will begin working with community stakeholders to build the strong parent and community involvement Board members observed when we visited ALS-managed schools.

A variety of strategies are planned to include stakeholders in the life of the School. Parents, students, and other community members will be invited to attend open houses to learn about the School, meet the School Principal and key staff, and understand how the School will benefit students and the community. Throughout the year, parents and community members will be encouraged to visit the School and participate in school functions and events, including parent nights, conferences, and student award ceremonies. This will be supplemented by e-mails, mailings to homes, newsletters and phone calls from teaching staff, and conferences with the student and parent(s). Parents and community members will be invited to regular public, open meetings with the board.

i. ***Community support and the need for this particular school in the community it will serve.***

The School campuses will be located in north central and south central DeKalb County – south of I-85. We plan to serve off-track students who will likely be recommended or transferred primarily from the following DCSD high schools: Cedar Grove, Clarkston, Columbia, Druid Hills, Lakeside, Lithonia,

McNair, MLK Jr., Redan, SW DeKalb, Stephenson, Stone Mountain, Towers, and Tucker. These schools, along with the five specialty high schools in the area, have the following challenges: 3,433 students from the combined Classes of 2014 and 2015 did not graduate; 2,776 students were repeating grade 9, 10, 11 or 12 in 2015-15; over 2,000 students scored "Does Not Meet Expectations" on the 2014 9th Grade and American Literature end of course exams; and over 8,000 students scored "Does Not Meet Expectations" on the 2014 math end of course exam. Only five of the above-listed schools achieved a 2015, four-year graduation rate that was higher than the statewide average of 78.8%. A research-based summary of the need for our School in the central DeKalb County area is presented in Appendix 23. Letters of community support are also included in this appendix.

ii. ***Evidence from parents/guardians of intent to enroll their child in the proposed school.***

Because of the unique mission of the proposed school, parent support will be best demonstrated once the school has been approved and opened. The need, as shown in Appendix 23, will be supported when parents observe: 1) high school principals recommending referral to the school; 2) a high-quality and flexible academic program, social services support, post-secondary counseling; and 3) knowledge of students who have graduated..

iii. ***Community partnerships.***

The Board has begun conversations with social service agencies serving the community surrounding the school, faith based organizations, university school of social work and counseling departments, mental health providers, substance abuse counselors, and anti-gang intervention groups to assist in removing barriers and to provide support so each student can earn a high school diploma. Through the partnership development efforts of the School's Family Support Specialist, providers and community-based organizations will be integrated into the life of the School and become important team members and critical supporters of student success.

iv. ***Organizations that have committed to partner and the potential nature of the partnerships.***

Should the Charter be approved, the Board will draw upon its resources and with the assistance of

the education management company, Accelerated Learning Solutions (ALS), these partnerships will be established. ALS already has MOUs with the University of Southern California and Florida State University's Georgia program to provide clinical interns from their schools of social work. A list of potential DeKalb County partners and the referenced Memoranda of Understanding (MOUs) are included in Appendix 30.

2. ***Charter school mission and support for the legislative intent.***

The mission of the School is to help at-risk students earn a standard high school diploma and prepare for postsecondary success. This School will support the legislative intent to "increase student achievement through academic and organizational innovation" because the School is dedicated solely to providing an option to high school students who have dropped out or are in danger of dropping out.

While existing public schools face the challenges of serving all students with the full range of needs, our School will be able to focus resources and efforts towards meeting the needs of the target student population. As detailed further below, the proposed instructional model is **personalized** and tailored to each student's needs; social and behavioral support services as well as career guidance are delivered on-site by trained staff and through **partnerships** with outside agencies; and student outcomes and **data are monitored** frequently to allow faculty to revise classroom activities and support services to maximize student success. School administrators and faculty will receive extensive **training and preparation** to ensure fidelity to the School mission and model.

Personalized Instruction:

The School will be small, serving approximately 200 students in each of up to three sessions, for a total maximum enrollment of 600 students. DCSD high schools, in comparison, have an average student enrollment of 1,532.[1] Our small school size will allow each student to be known by name by faculty and staff. More importantly, individual student support needs will be known and addressed. The academic program is built around a unique mastery-based curriculum which allows for personalized

[1] http://www.dekalb.k12.ga.us/www/documents/planning/2016/student-population-and-school-enrollment.pdf

instruction that begins with an individualized learning plan for each student. This curriculum is a true blended learning model of direct instruction and computer-based delivery in which students learn at their own, often accelerated, pace.

As described in the answer to question 4.b., personalized learning will begin with a **baseline academic assessment** using the Wonderlic General Assessment of Instructional Needs (GAIN), a criterion-referenced measure of English and math skills, or other similar diagnostic assessments, administered on the first or second day of attendance. Next, a **baseline profile** will be developed for each student to use as a comparison by which to record each student's strengths and needs, and determine incremental academic progress and growth, annual learning gains, and ongoing improvement. Third, an **Individual Success Plan (ISP)** will be developed that is specifically designed to take students where they are and outline all of the coursework and necessary intervention and supplemental instruction needed to ensure that course and graduation standards and requirements are met.

The foundation of our proposed **educational program** will be a teacher-directed, individualized, mastery-based, self-paced, and technology-enhanced teaching and learning environment designed to address each student's unique learning needs and life circumstances. The curriculum, delivered through a blended learning model, will be based on the Georgia Performance Standards (GPS) and Georgia Standards of Excellence (GSE), but informed by each student's foundational skills in reading and math as determined through a standardized assessment completed during the student's orientation to the program.

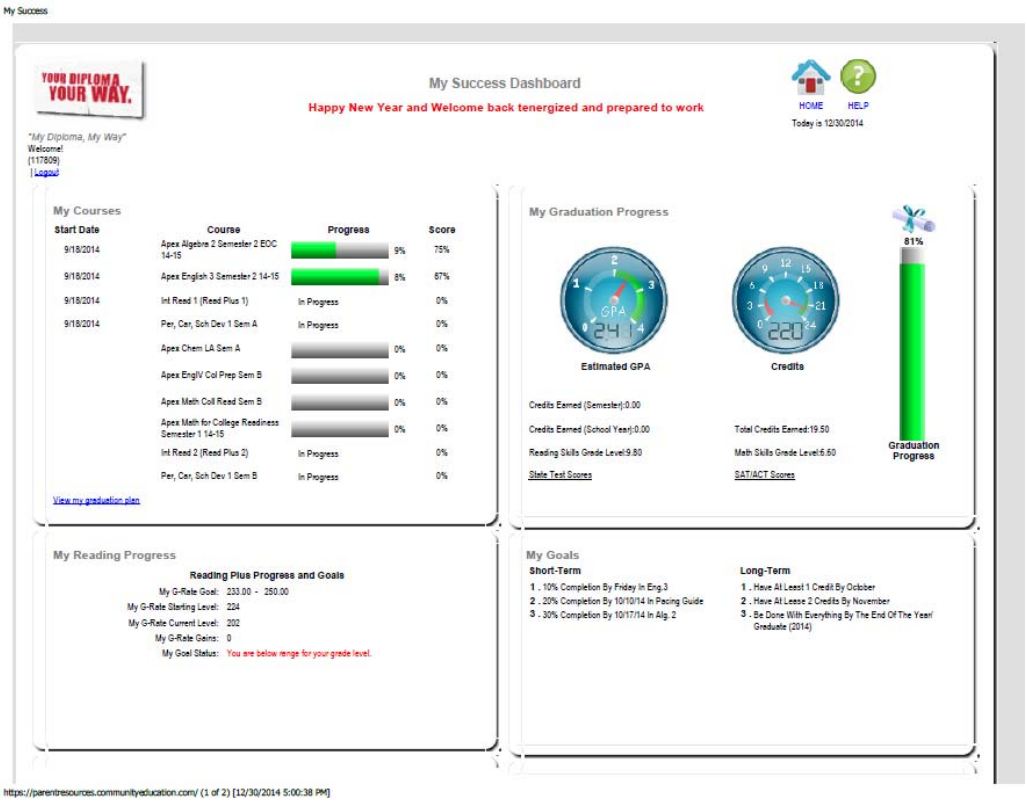
A blended learning approach combines face-to-face classroom methods with computer-generated activities to form an integrated instructional approach. "Blended learning combines classroom learning with online learning, in which students can, in part, control the time, pace, and place of their learning."[2] The School's blended learning model will be fully implemented on-site at the School, and will combine technology-based education with direct, face-to-face, small and large group, and individual instruction. This will allow students to work at their own pace while having access to personal attention, assistance,

[2] Tucker, C.R. (2013). The basics of blended learning. Educational Leadership, 70(6), 57-60, online at http://www.ascd.org/publications/educational-leadership/mar13/vol70/num06/The-Basics-of-Blended-Instruction.aspx

and instruction from a certified teacher along with supplementary resources, as needed.[3] The goal of this blended approach is to join the best aspects of both face-to-face and online instruction.

While working through assigned courses, teacher-initiated interaction will occur daily regardless of the student's performance in the course, as teachers implement the blended learning instructional model. The teacher-student interaction at these meetings will include a review of course progress and student performance on online and offline assignments and assessments. The interaction will also involve direct instruction of course content as the student moves through the units and assignments for each course. This direct instruction may occur one-on-one or in small groups when groups of students are at the same juncture of the course at the same time. To receive credit for a high school class, students must demonstrate mastery by earning a passing average (70% or above) in the course.

HOW IT WORKS



Kevin J. is 16 years old and not on track with his cohort group because he has only earned enough credits to be classified as a 9th grade student. Kevin's mother is a single parent and is working two jobs to support her family, yet still finds her income below the poverty line. Kevin has three younger siblings and is expected to help with childcare and hold a part-time job to contribute to the household income. These family responsibilities distracted him from focusing on his schoolwork and prevented him from regular attendance at his neighborhood school. He found himself falling farther and farther behind his peers. Enrollment in a non-traditional high school is helping Kevin get back on track. Not only is he optimistic about finishing high school and graduating, but he has been able to identify dreams for his future, and has received guidance on the path necessary to realize those dreams.

When Kevin arrives at School each day, he is greeted with a handshake at the door by an administrator and a support staff member. There are multiple, "Hellos," and "Good morning/afternoons" as staff greet everyone as they come through the school entrance and throughout the hallways.

Kevin settles into his classroom and logs into the computer to review his Dashboard, which provides

[3] Hidden curriculum (2014, August 26). In S. Abbott (Ed.), The glossary of education reform. Retrieved from: http://edglossary.org/hidden-curriculum

him with up-to-the-minute information about his progress in the courses in which he is currently enrolled, his progress towards graduation, his reading progress, and his goals.

This helps him stay focused and provides motivation as he sees how much progress he is making. Kevin logs into one of the courses in which he is enrolled through Apex Learning, an online learning portal. Apex courses can accommodate just about any student from those reading far below grade level to English Language Learners, to advanced students. The Literacy Advantage version of Kevin's English class embeds reading strategies that will ensure that he can access grade-level content and learn the material being presented.

Kevin logs into his English course and begins the lesson on *The Most Dangerous Game* by Richard Connell. Kevin opens his binder and uses note-taking strategies taught to him during orientation. As Kevin reads, he is taking notes, writing down key terms that are confusing or giving him trouble, highlighting, and annotating. Apex is a multi-modality program, so with head phones on, Kevin clicks on words for definition or pronunciation. After he finishes the text, Kevin prints his assignment where he

is required to answer comprehension questions, including short response. As the teacher monitors the class, she notices that Kevin appears to be struggling with his assignment. She meets with him at a small table in the classroom for direct instruction and support. When he finishes, Kevin turns in the assignment to the teacher for grading. At the end of the lesson, Kevin will take a quiz to ensure mastery of the lesson. Kevin won't be able to move onto the next lesson unless he shows mastery. At the end of Kevin's instructional session, he opens his Dashboard to review his progress. He then meets with the teacher to review the day's progress together and establish goals for the next day.

Kevin's time at school includes a reading block where he receives direct instruction in a small group from a certified teacher along with independent work using a digital reading curriculum, Reading Plus. In addition, he works on two courses at a time (core or elective), making progress at his own pace.

Supportive Environment and Services:

Students will be surrounded by a climate of respect in which school leadership, faculty, and staff understand that the complex, often unstable lives of these students frequently impede school attendance and learning. The tone of the School will be generated through respect and care from all administrators and staff members for all students regardless of their circumstances. Underpinnings of this climate of respect will include significant adult connections, positive adult interactions, greeting of students by name and with a handshake at the door, celebrations of successes, and a spirit of hard work.

Each student will have daily contact with an adult who will respond to their instructional needs and connect them to other key staff, along with external partner providers.

The Family Support Specialist (FSS) and/or Career Coach, in conjunction with the Principal and/or Assistant Principal, will identify service providers that can work with students on- or off-campus. College and industry partners will participate in School career fairs, postsecondary presentations, work experience programs, and many other college and career readiness programs. Community agencies and universities will work with the FSS to provide services that meet a wide range of student needs.

Monitoring of Student Data and Outcomes:

Data collection, analysis, and decision making are critical to our program. Each day, students will be provided with an individual dashboard (see above and Appendix 32) that allows them to track their progress and work with their advisor to answer questions and seek additional supports if required. This unique progress monitoring feature can be accessed by students, parents, and staff to enhance performance and motivate students to establish and achieve goals.

The principal and assistant principal will review data daily using the School Dashboard (Appendix 33) and meet with teacher teams and individual staff throughout the week to analyze progress for the School, classes, and individual students. This information will drive decision making and necessary adjustments to the instructional program and support services to respond to student needs. We firmly believe in a continuous improvement model and see data decision making as key to this process.

In addition, the School will utilize the DCSD student management system, *Infinite Campus.*

Professional Development to Ensure Exceptional Leadership and Staff:

Prior to leading our school, or becoming a faculty member, our staff will be given extensive and rigorous training. In alignment with the Standards for Professional Learning from Learning Forward: The Professional Learning Association, staff development has been designed to ensure that educators in our school "...develop the knowledge, skills, practices, and dispositions they need to help students perform at higher levels."[4] The Standards for Professional Learning outline characteristics of professional learning that lead to effective teaching practices, supportive leadership, and improved student results. These include the use of professional learning communities (PLCs) to strengthen pedagogy , allocation of appropriate resources, integration of current research and theories, skillful leaders, effective use of data, support for implementation, and outcomes aligned with educator performance and student achievement, each of which is included in the School's professional development plan.

All leadership, instructional, and support staff will participate in two weeks of summer

[4] learningforward: The Professional Learning Association, online at: http://learningforward.org/standards#.VKLN3l4AKA

professional development prior to the first year of operation and one week before school opening in subsequent years.

Our extensive professional development plan is supported by findings from Yoon, et al. (2007), which reveal "...that teachers who receive substantial professional development—an average of 49 hours in the nine studies—can boost their students' achievement by about 21 percentile points."[5] In addition, our professional development plan is of significant duration, provides support for implementation, includes active (rather than passive) learning opportunities for teachers and administrators, and is targeted to the needs of the population being served.[6]

Summary: Our target population of students often must overcome challenges that impacted their previous attempts in school. Therefore, our School will provide a safe, supportive learning environment which assists these young adults in handling these barriers. Teachers will have small caseloads, which allows them to develop solid connections with students and their families, leading to greater learning gains. The School will also employ staff members, such as a Family Support Specialist, who will assist in the navigation and acquisition of any needed social services. While school social workers are an essential "link to and resource for intervention and prevention strategies," the School recognizes the need to leverage and maximize supportive services available for at-risk youth.[7]

No other high school in the local school district provides the same program to students who are as severely off-track as our anticipated population. The two most similar options in the School District are Elizabeth Andrews High School (operated by DCSD) and Destiny Achievers Academy (charter). There are notable differences. Among those differences, Elizabeth Andrews requires enrolling students to have completed six courses successfully, including three of the five core 9th grade courses. Our program will

not have any course-related prerequisite to enrollment. For example, nearly half of 2014-15 students enrolling in other ALS-managed schools had not yet passed three or more core 9th grade courses upon enrollment. Elizabeth Andrews and Destiny Achievers operate on a traditional full-day bell schedule while our proposed school will provide 2 to 3 sessions daily for students who work or have other responsibilities. Destiny Achievers allows credit earning from home while our proposed program specifies that all learning occurs in a teacher-led classroom.

Our School's single mission is to serve this at-risk and underserved population. The power of the start-up charter school model is that it can establish a mission that is collaborative and aligned with the School District, yet singularly focused on addressing an identified need in the community.

II. ACADEMIC OBJECTIVES, PLANS, AND WAIVERS

3. What are your school's performance objectives for the proposed charter term?

Objective 1 – Increase reading skills to improve the school's College and Career Ready Performance Index (CCRPI) and to reduce gaps between economically disadvantaged students and others on the Beating the Odds system.

For students who have enrolled in the School and completed the baseline academic assessment with reading skills in the 5th-8th grade level and who attend the school for 90+ days, at least 50% will improve by one or more grade skill levels in reading during the first year of operation. Both the baseline and post-intervention skill levels will be measured using the Reading Plus program or a successor reading intervention and assessment instrument selected by the School.

Year 2 improvement will be 55%, using the measurements above. Year 3 improvement will be 60% using the measurements above. Year 4 improvement will be 65% using the measurements above. Year 5 improvement will be 65% using the measurements above.

Objective 2 – Increase math skills to improve the School's CCRPI and to reduce gaps between economically disadvantaged students and others on the Beating the Odds system.

For students who have enrolled in the School and completed the baseline academic assessment with math skills in the 5th-8th grade level and who attend the school for 90+ days, at least 50% will

improve by one or more grade skill levels in math during the first year of operation. Both the entry and post-intervention skill levels will be measured using the GAIN assessment or a successor assessment instrument selected by the School.

Year 2 improvement will be 55%, using the measurements above. Year 3 improvement will be 60% using the measurements above. Year 4 improvement will be 65% using the measurements above. Year 5 improvement will be 65% using the measurements above.

Objective 3 – Increase high school credit earning rates to improve the likelihood that previously off-track students will graduate.

For students who have enrolled in the School, who previously were earning high school credits at a rate of less than 2.5 credits per semester and who attend for 90+ days, the average credit earning rate per semester attended will improve by at least 10% in the first year of operation as shown on eSchool Plus.

Year 2 improvement will be 20%, using the measurements above. Year 3 improvement will be 30% using the measurements above. Year 4 improvement will be 35% using the measurements above. Year 5 improvement will be 35% using the measurements above.

Objective 4 -- Increase percentage of students with grade point averages (GPA) of 2.0 or higher to improve the post-secondary options available to students.

The percentage of students with a cumulative GPA of 2.0 or higher after attending at least 90 days will be 15 percentage points higher at the end of the first year than the percentage of these students who initially enrolled with a GPA of 2.0 or higher.

Year 2 improvement will be 20%, using the measurements above. Year 3 improvement will be 25% using the measurements above. Year 4 improvement will be 30% using the measurements above. Year 5 improvement will be 30% using the measurements above.

4. Meeting academic goals

The charter school governing board, management, and instructional leadership will know that students are on track to meet the academic goals by regularly and frequently reviewing performance data.

If the school is not on course to meet targets, the Board will direct the Principal to implement changes as defined by a researched based School Improvement Plan.

4.a. Assessments the school will administer to obtain performance data for each student.

The School will administer a variety of assessments, in addition to state assessments, to obtain performance data for each student, drive instruction, and improve the curriculum. Formative evaluations (e.g., classroom observations, quizzes, tests, and checklists) will be used in the classroom to monitor progress in foundation skills and coursework, and quickly identify students in need of support. Summative evaluations of content mastery are embedded in each course.

The School will also administer all required state assessments including the Georgia Milestones Assessment System; Georgia High School Writing Test; Assessing Comprehension and Communication in English State to State for English Language Learners (Access for ELLs); and Georgia Alternate Assessment (GAA). The School will utilize SLOs as required.

4.b. How the school will obtain baseline achievement data.

A baseline profile will be developed for each student to assess his/her strengths and needs, as well as track incremental academic progress. Students will take a baseline academic assessment on the first or second day of attendance using the General Assessment of Instructional Needs (GAIN), a criterion-referenced measure of English and math skills, or other similar diagnostic assessments. This initial assessment will allow an immediate identification of each individual student's academic strengths and needs, which will inform instructional decisions for that student to include placing students in courses that match their skill levels.

GAIN is a valid and reliable (both on internal consistency and parallel forms) assessment that has been approved for use by Adult Basic Education programs funded through the U.S. Department of Education's Office of Vocational and Adult Education, as well as by Workforce Investment Act Title I programs funded through the U.S. Department of Labor.[8] GAIN identifies skills according to 6

[8] http://www.wonderlic.com/sites/default/files/GAINApproval2013PressRelease.pdf

Educational Functioning Levels (EFLs) as defined by the National Reporting System (NRS); provides feedback to help place learners in appropriate instructional courses; assesses skill levels ranging from basic to more advanced literacy and numeracy, from grade level 0 to level 12; and provides individual feedback in specific areas.

The following data will be compiled to create a baseline profile for each student: age; gender; grade level; Special Education/ELL status; dropout status, if appropriate; reading and math skill level; number of credits earned; GPA; state assessment results; SLOs; attendance; truancy record; and discipline records, if available. This information will be compiled in an **Individual Success Plan (ISP)** developed for each student who enrolls in the School and tracked through the School's data management system. The ISP will document the student's current academic, social, and personal history; as well as his/her aspirations, and will illuminate the student's areas of strength and need and serve as his/her "roadmap" to successful graduation and transition. The ISP, developed during orientation, will be reviewed throughout the student's enrollment at the School to create a longitudinal performance profile.

4.c. How the school will benchmark student growth.

The School will use a formative assessment system that includes benchmark tests, online administration of the benchmarks, and disaggregation of student data. This system will provide staff with multiple reports allowing them to track standards-based student growth, addressing all high stakes state assessments. The purpose of the formative assessment system is to support a school-wide focus on targeted data to drive instruction and student growth. The data will provide detailed information that will be used to create school-wide actions and data-driven lesson plans for instruction and intervention.

The School will also measure student learning growth by administering the GAIN or other similar assessment, minimally twice each school year (fall and spring) to track educational gains (See sample GAIN report in Appendix 31).

The school will also create benchmark assessments using a variety of question banks created using the standards. The benchmark assessments will allow the school to track standards-based student growth.

All of the assessment, evaluation, monitoring, and feedback tools and strategies will be used in a student-centric way to inform targeted instruction; modify instructional program at the classroom, school, and program levels; develop targeted professional development and strengthen PLCs

4.d. ***Plans to formally and informally assess student performance in the core academic areas.***

The School will administer a variety of assessments, in addition to state assessments, to obtain performance data for each student, drive instruction, and improve the curriculum. Formative evaluations (e.g., classroom observations, quizzes, tests, and checklists) will be used in the classroom to monitor progress in foundation skills and coursework, and to quickly identify students in need of support so that intervention may occur. Summative evaluations of content mastery are embedded in each course.

The School will also measure student learning growth by administering the GAIN or other similar assessment, minimally twice each school year (fall and spring) to track educational gains.

Electronic Student Progress Reports (SPR) will track online mastery of the digital curriculum to prevent a student from proceeding to the next lesson until he/she reaches the mastery level on the current lesson. The School will also use DCSD's student information system, *Infinite Campus.*

4.e. ***Participation in all state- mandated assessments.***

The charter school will work with DCSD to participate in all state-mandated assessments and will administer all state assessments in accordance with the DCSD testing calendar.

4.f. ***Diagnosing educational strengths and needs of students and using data for instructional planning.***

The School will use several diagnostic instruments and measurement tools (e.g., formative assessment system, GAIN or other similar assessment, social/personal needs assessment, ISP, and end of course assessments) to diagnose educational strengths and needs, and track and monitor student progress. These progress tools allow for program customization to meet individual student needs ensuring mastery and success as described below in 4.g.

4.g. ***Using assessment data to monitor and improve achievement for all students over time.***

Teachers will **use data from standards-based progress monitoring assessments or the mini-**

benchmark as pre-test data to plan for instruction. Based on the standards gaps, the student or teacher will access the aligned online supplemental material to receive additional instruction in the gap areas. After instruction, the teacher will administer a pre-created standards-based assessment to determine if the student reached mastery of a specific skill.

The instructional team will **use data to outline specific reading and math support strategies and interventions**. Reading and math specialists will share data and best practices with teachers, as well as provide training on how to implement them. The teachers will then use the strategies and interventions through the supplementary online content to provide support.

A **student tracking tool** will be used to support students' reflection on their academic progress. Students will use this student reflection tool prior to progress monitoring meetings with teachers.

Detailed class and student reports available from an electronic Gradebook will provide teachers with on-going performance information for an entire class and individual students, allowing for quick review of progress and/or challenges. The Gradebook will show achievement in the course for the class as a whole and for each student.

Targeted, face-to-face direct instruction will be conducted in small groups or individually to address student needs illuminated by data review and teacher observation. This individualized instruction will address gaps in student learning and provide appropriate interventions and remediation. Instruction will be differentiated according to students' individual needs.

The school will also use SLOs as required to measure student growth.

4.h. ***Compliance with the accountability provisions of O.C.G.A. § 20- 14-30 through § 20-14-41 and federal accountability requirements.***

The School will comply with the provisions of O.C.G.A. § 20-14-30 through § 20-14-41 and federal accountability requirements as described in the responses above and provided in the Assurances.

4.i. ***Adherence to all assessment guidelines and procedures as outlined by the State Assessment Handbook, the State Accommodations Manual and other state and local guidance on assessment.***

The School will adhere to all assessment guidelines and procedures as outlined by the State

Assessment Handbook, the State Accommodations Manual, and other state and local guidance on assessment. Staff from the charter school will attend required test administration training held by DCSD to assure their understanding of the guidelines and procedures.

4.j. ***How staff will attend required test administration training held by DCSD.***

Staff from the charter school will attend required test administration training held by DCSD as provided in the Letter of Assurances. The School will provide release time and travel/expense stipends to staff attending the training.

5. Ensuring student performance objectives are met during the proposed charter term.

The School will ensure student performance objectives are met during the proposed charter term through the use of a full and complete curriculum aligned to the Common Core and Georgia Performance Standards and educational innovations designed to help at-risk students earn a standard high school diploma. These are described in detail in the responses to questions 5a-5f.

5.a. Focus of the curriculum including distinctive or unique instructional methods to be used.

The focus of the curriculum is to provide students with the coursework to meet Georgia and DeKalb County Schools' requirements to earn a standard high school diploma. The School uses an innovative curriculum aligned with Georgia Performance Standards (GPS) and Georgia Standards of Excellence (GSE) designed to address each student's unique and diverse learning needs. The core curriculum will be provided by *Apex Learning* supplemented with curriculum lessons from resources such as *Reading Plus, Achieve 3000, Khan Academy, Algebra Nation, MathVIDS, Gooru, TestGEAR, School Connect, FDIC Money Smart,* and Georgia Career Information System (GCIS). These chosen curricula are tools that teachers will use to support their students' learning Teachers will provide instruction aligned to the state standards; monitor students' goals and academic progress; assist students in course work; provide academic intervention when necessary; help students become independent learners; and communicate with each student and his/her family about the student's progress.

(1) *Apex Learning*: *Apex Learning* (accredited by the Commission on Schools of the Northwest

Association of Accredited Schools, an accreditation division of AdvancED) provides comprehensive online instructional content and assessments that help teachers individualize instruction, ensuring each student has the opportunity to achieve to his or her potential. The foundation underlying Apex Learning digital curriculum is the established body of learning research and best practices in teaching. Evidence-based work from leading learning theorists is used to develop curriculum that incorporates basic and higher levels of learning, builds critical thinking skills, deepens understanding, and engages and motivates students to succeed. The *Apex Learning* courses in math and English language arts fully incorporate the instructional intent of the Georgia Performance Standards (GPS) and Georgia Standards of Excellence (GSE), including rigorous instruction, active learning experiences, and meaningful assessment. In addition, *Apex* courses in science and social studies incorporate the GPS Literacy Standards.

Each lesson begins with learning objectives that are assessed at various levels of Bloom's Taxonomy. Rather than expecting students to learn by passively watching, reading, and listening, Apex Learning students learn by doing. Through 17 unique activity types, Apex Learning integrates interactive media into every lesson, bringing ideas to life. Students progress through course content by interacting with each concept as they are prompted to observe, inquire, create, connect, and confirm. Instructive feedback is immediately provided as students apply their understanding, creating a continuous interplay with the subject matter that keeps students attentive and motivated. A video overview of active learning in Apex Learning Comprehensive Courses is available online at:

http://www.apexlearning.com/Videos/Active_Learning.htm.

Formative and diagnostic assessments gauge student progress on an ongoing basis and pinpoint student strengths and weaknesses. Detailed reports provide teachers with performance information for an entire class and individual students. Summative assessments require students to demonstrate content mastery at the end of each unit and semester.

Through ongoing interaction with course content, students are able to take responsibility for, and ownership of, their individual learning experience. As students experience success, their confidence builds, and achievement increases.

HOW IT WORKS

Earlier in this petition we met Kevin, a 16 year old ninth grader helping his mother by providing child care for his younger siblings and holding a part-time job. We learned about his English lesson on *The Most Dangerous Game* by Richard Connell.

Kevin's time at school also includes a 60-minute reading block where, throughout the week, he receives direct instruction from a certified teacher along with independent work using a digital reading curriculum, Reading Plus. The reading block is a blended model beginning with whole group instruction led by the reading teacher to introduce the lesson objective based on state standards using the gradual release model. The gradual release model of responsibility is a framework for moving from teacher release of information to student understanding and application. This model has four interactive components: focused lesson, guided instruction, collaborative learning, and independent work.[9]

Kevin and his classmates respond to the teacher's read aloud and think aloud process that models habits of good readers. Kevin can access the grade level text that is used during whole group because the practice opportunities are guided by the reading teacher and completed together as a class. Kevin now feels more confident when asked to do similar tasks independently.

Kevin is not an avid reader, but he enjoys his time using Reading Plus. When Kevin logs into the program, he can select a story that he is able to read without assistance because of the placement test he took during orientation. The test not only determined Kevin's comprehension level and comfortable reading speed, but it also personalized his experience through a reading interest inventory. Kevin likes to read stories about sports, mysteries, and adventure. His favorite is the collection of passages in the section entitled, *Heroes and Trailblazers*. The progress tracker on the screen lets Kevin track his progress in completing each level of the program. Kevin knows that he needs 70% mastery of the text in order to be one step closer to unlocking the next level.

[9] Fisher, D. (2008). Effective use of the gradual release of responsibility model. Online at: https://www.mheonline.com/_treasures/pdf/douglas_fisher.pdf

At the end of each passage, Kevin is presented with standards-aligned questions that determine his comprehension of what was read, and also identify which anchor standards need to be remediated by the reading teacher. Kevin's reading teacher is able to generate a Skills Group Report from the Reading Plus database to form small groups for remediation. This report identifies the students in the class that have a deficiency with each anchor standard. Based on the instructional focus of the week, the reading teacher meets with Kevin and the other identified students to re-teach the standard in a small group setting. Kevin is provided with an Offline Comprehension Worksheet that the program has determined is best suited for Kevin's additional practice with the standard. The reading teacher allows the students to work independently and then corrects any additional points of confusion of misunderstanding. The Offline Comprehension Worksheet is based on Kevin's independent reading level in Reading Plus and is printed by the reading teacher for this purpose.

Kevin's individual reading needs and his growth toward mastery of grade level text is supported by this blended model of whole group instruction, small group reinforcement, and instructional technology.

(a) Standards Alignment. Standards are used to direct development of each *Apex Learning* course's scope and sequence, content, media, interactivity, and assessment. Correlation reports for GPS and GSE are available from *Apex* at the subject area, by course, and activity level. Correlations and alignment are kept up-to-date. Within 60 days of formal adoption of new standards, new correlations are developed. To ensure the highest levels of correlation, any gaps in coverage of the new correlations are evaluated, and plans for creation of new content or revision of existing content are made.

(b) Course Options: The School will offer the curriculum required for earning a graduation diploma and for meeting the GPS and GSE. Through utilization of the *Apex* curriculum, the School will be able to offer courses that can be aligned to individual student needs. These include Foundations, Literacy Advantage, Core, Honors, and Advanced Placement. Course descriptions are included in Appendix 11.

(2) Reading and Math Curricula:

To focus on and address language and reading development, scientifically-based reading

resources have been selected as the primary reading curricula for the School. Reading curricula will be delivered in classrooms, in one-on-one sessions, small groups, and via the use of *Reading Plus, Achieve 3000*, or other approved reading resource. Teachers will receive professional development in vocabulary development, use of word walls, integration of writing, English for Speakers of Other Languages (ESOL) strategies, and other language development related strategies. Technology-enhanced tools and resources will be used along with print resources to provide a text rich environment for students. A certified or endorsed teacher will work with students as identified through the Multi-tiered System of Support (MTSS) process on developing fluency, vocabulary, and comprehension.

Reading Plus is an online reading intervention system that uses adaptive technology to provide individualized, scaffolded silent reading practice for adolescent students. *Reading Plus* was chosen because of its ability to differentiate instruction and pinpoint student needs. It uses an online placement test to place students within the program in one of fourteen (14) levels. The readability of these levels ranges from elementary through college level reading.

Students who come to the School reading at or below a fifth grade level need a more intensive approach to increasing reading skills, therefore, instead of being enrolled in *Reading Plus*, they will be enrolled in *Achieve 3000* and will receive small group instruction with a certified teacher. The *Achieve 3000* curriculum integrates phonics and fluency to help students accelerate literacy gains.

It is also likely that some, if not many, of the School's students will struggle with math. To help students meet state assessment and graduation requirements, the School will use *Algebra Nation* or a similar resource as the math intervention curriculum. *Algebra Nation* instructs and motivates through the inclusion of video instruction and online explorations, and allows students to work at their own pace.

The School may use *Apex Learning* tutorials in math and English language arts, with lessons aligned to the GSE in subjects that include: English 9, 10, 11 and 12; Algebra I; Geometry; and Algebra II. Tutorials offer direct instruction, practice, review, and assessment to build the required knowledge and skills. Each unit has a diagnostic pre-test that identifies which learning objectives a student has mastered and which require additional focus. Based on pre-test results, an individualized learning plan directs each

student to the relevant content modules. The post-test for each unit assesses student knowledge and serves as a tool for teachers to evaluate student progress against the standards.

(3) Personal, Social, and Career Development Curriculum: In addition to the core academic content, the School will deliver an expansive personal, social, and career development curriculum designed to help students refine social skills, develop financial literacy, evaluate aptitudes and interests, and plan for postsecondary success. Direct instruction lessons by teachers will include interactive discussions and activities involving collaborative problem solving, respectful listening, effective communication, cooperative learning, and responsible decision making. Direct instruction is used to refer to explicit, guided instruction that is designed or selected by the teacher, and led by the teacher (Abbott, 2014; Rosenshine, 2008). More specifically,

> Direct Instruction is an approach to teaching. It is skills-oriented, and the teaching practices it implies are teacher-directed. It emphasizes the use of small-group, face-to-face instruction by teachers and aides using carefully articulated lessons in which cognitive skills are broken down into small units, sequenced deliberately, and taught explicitly (see Carnine, 2000, pp. 5-6; Traub, 1999).[10]

The personal, social, and career development curricula may include, but are not limited to:

***School-Connect*® Social Emotional Learning curriculum:** *School-Connect®: Optimizing the High School Experience* is a 38-lesson curriculum designed to improve high school students' social, emotional, and academic skills and strengthen relationships among students and teachers. The program consists of four modules, based on the Social and Emotional Learning Competencies identified by researchers[11] as critical to success in school, the workplace, and life in general: social awareness, self-awareness, self-management, relationship skills, and responsible decision making. Students will practice these skills

through direct instruction lessons by teacher advisors that include interactive discussions and activities involving collaborative problem solving, respectful listening, effective communication, cooperative learning, and responsible decision making. In addition, students will be expected to practice these skills throughout their daily lives, both within and outside of school.

Georgia Career Information System (GCIS) Career Planning software[12]: GCIS is web-based software that provides students with the opportunity for career and college exploration and planning. Students will prepare electronic portfolios that include a career plan of action using career information and assessments in GCIS along with career development worksheets and activities.

March 2 Success® is an online test preparation course that will provide help with taking standardized tests, and improve math, language arts and science skills. March 2 Success® was developed by the United States Army and is free. Students will utilize March 2 Success® for test preparation for: SAT/ACT college entrance tests; state assessment or exit tests; trade school entrance tests; military entrance test; high school/college placement tests; and/or applying for a job.

***Federal Deposit Insurance Corporation (FDIC) Money Smart* software:** *FDIC Money Smart* is a comprehensive financial education curriculum designed to help low- and moderate-income individuals enhance their financial skills. Research shows that the curriculum can positively influence how consumers manage their finances, and these changes are sustainable.

5.b. A full and complete curriculum aligned with Common Core and Georgia Performance Standards.

A complete curriculum, for all grade levels to be served, aligned with the Georgia Standards of Excellence and Georgia Performance Standards (where applicable) is included in Appendix 11.

5.c. Materials/programs that the school plans to obtain/purchase to support the stated curriculum.

Additional resources to support the curriculum will include *MathVIDS*, and other approved open source online material, and *Gooru*, an open source to create and deliver supplementary online instruction.

5.d. The educational innovations that will be implemented.

[12] http://www.gcic.peachnet.edu/content/service_gcis.aspx

Essential educational innovations include the use of a unique graduation and academic plan for each student, innovative teaching methods, daily schedule options, and attention to students' social, emotional, and behavioral needs and postsecondary goals. These innovations align with current trends in education where shifts towards student-driven learning, greater individual attention, and smarter use of data can be seen (Terrell, 2015; See article in Appendix 34).

An **individualized graduation and academic plan** will be designed based on each student's skills and course completions at enrollment. The remaining coursework, necessary interventions and appropriate supplemental instruction will be included in the plan to ensure that course requirements and graduation standards are met. The plan will then serve as the basis for accelerating each student's accumulation of course credits, resulting in improved student performance, grade promotion, and a high school diploma.

The School will offer **daily schedule options** where students can choose to attend one four-hour morning, afternoon, or evening instructional session (or more as space permits). This will provide a great advantage for young adults who have unique life challenges and circumstances that prevent them from attending school during a traditional school day.

The School's primary emphasis is on the use of **innovative teaching methods** in order to increase learning opportunities for students who are likely to drop out. A blended learning approach of direct instruction and technology enhancement will allow students to progress through coursework at their own pace while also receiving support for foundational gaps in any of the core areas.

The Principal will have access to a **School-level Dashboard** at any point in time (See Appendix 33), an electronic snapshot of pertinent School-wide data, such as enrollment, attendance, retention, courses passed, credits earned, number of eligible graduates, and number of students who have chosen a postsecondary pathway. The information provided in the Dashboard will allow the Principal to easily monitor student, class, grade, and School progress and achievement, and provide leadership that supports the School's mission, vision, and teaching and learning environment.

The Board understands that unless **social, emotional, and behavioral needs and postsecondary**

goals are effectively addressed for this population of students, learning can be difficult and academic growth can often be an unrealistic objective. The Family Support Specialist (FSS) and Career Coach (CC) will work with each student during enrollment and/or orientation to identify, address, and/or mitigate the personal, social, and behavioral barriers that prevent students from being successful. In addition, the FSS will work closely with other faculty and staff and/or an outside provider throughout the school year to identify students in need of ongoing support services, and will link with community resource providers to identify programs that will provide wraparound services to meet students' personal needs.

HOW IT WORKS

Mary, an 18 year old who dropped out of school two years ago, came with her mother to enroll in the School. They complete the Student Services Information Page which indicates they are uninsured and Mary suffers from health issues. The Family Support Specialist (FSS) sets up a meeting with them to help secure insurance and determine services that can be accessed onsite and in the community. The FSS refers Mary to a targeted case manager in the community who assists her in setting up a doctor's appointment to address her health issues. The Family Support Specialist also creates a schedule for a graduate-level Social Work intern to meet with Mary on a weekly basis to provide additional counseling.

The Career Coach (CC) will provide additional instructional time to students in the areas of employability skills, career and college readiness, and postsecondary options based on each student's Individual Success Plan (ISP). The CC will coordinate college and career-related group presentations and school events, facilitate off-campus field experiences, work individually with students on postsecondary exploration and planning, guide students through employment application and acquisition, provide test preparation and registration assistance, and offer academic guidance and support.

5.e. Explanation of how the innovations will increase student achievement.

Our School's program has been designed based on research regarding the needs of the target student population: students who are likely to drop out of school as well as those who have already dropped out. High-need students require a variety of instructional approaches, targeted resources, support

services, and intervention strategies to motivate them, support their learning, and ensure both short-term and long-term success. The School's instructional program, curriculum, and support services were developed based on the needs identified in the latest research on success with high-need students (See Research summary in Appendix 35).

The School's blended learning program uses technology to individualize educational plans, address foundational gaps and provide acceleration opportunities for students. The School will offer a variety of course pathways including foundational, core, honors, and Advanced Placement (AP) courses. Students will be assigned courses based on what they need to graduate. While working through assigned courses, instructor-initiated interaction will occur daily as teachers implement our blended learning instructional model.

Each course contains multiple off-line assignments including study guides, practice exercises, labs, journals, discussions, essays, and research projects. Each of the assignments is designed for the students to practice skills and are scaffolded within the course to build skills. All of these assignments require the teacher to provide instruction, then evaluate student performance and mastery of content.

Each lesson and unit within each course culminates with teacher-scored and computer-scored formative assessments for students to demonstrate mastery at each level within the course. Finally, each course is completed with a final exam which covers all content in the course. Students must demonstrate mastery of course content on the final exam in order to earn credit in the course. Students also take all state required assessments.

5.f. Why the innovations are appropriate for this unique school.

The innovations are appropriate because they address the needs of over-age, under-credited high school students who have been unsuccessful in traditional high school settings. These innovations include an individualized, mastery-based, blended learning model that offers flexible schedules, an extended year, and on-site social and behavioral services. Our approach focuses on remediating students' basic skills deficiencies while progressing in their high school coursework.

The educational program is designed to improve foundational skills in reading and math,

accelerate students toward passing core and elective courses, prepare each student for success on state assessments, ensure that each student is on track to earn a high school diploma, and successfully transition each student to a postsecondary opportunity.

5.g. Anticipated teacher-to-student ratios, rationale for these ratios, and intended class sizes.

The School will not exceed a 25:1 student-teacher ratio per class per session.

5.h. Determining satisfaction of graduation requirements.

(1) The Graduation Process: In order to be eligible for graduation, students must satisfy all of the following requirements: complete all of the required academic units, successfully complete state assessment requirements, and participate in an exit interview with the Career Coach to complete a postsecondary transition plan. On behalf of the Governing Board, the Graduation Committee (which is comprised of but not limited to the Principal, Assistant Principal, Career Coach, and Data Specialist) will review each student's Individual Success Plan and confirm that all requirements have been met by completing the Graduation Checklist (in Appendix 36) in order to deem the student ready for graduation.

(2) Graduation Requirements: The School's students will comply with graduation requirements in Rule 160-4-2-.48, which include twenty-three (23) units of high school credit. Unit credit shall be awarded only for courses that include concepts and skills based on the Georgia Performance Standards (GPS) and Georgia Standards of Excellence (GSE) for grades 9-12 or those approved by the State Board of Education. The Individualized Education Program (IEP) shall specify whether core courses taken as part of an IEP shall receive core unit credit. The following options for high school graduation will be offered:

- High School Diploma - awarded to students certifying that they have met attendance, unit, and state assessment requirements.
- High School Certificate - awarded to students who do not complete all the criteria for a diploma or have not passed the state assessment requirements, but have earned 23 units of high school credit

- Special Education Diploma - awarded to students with disabilities who have not met state assessment requirements or who have not completed all of the requirements for a high school diploma, but who have completed their IEP.

The School will comply with all GADOE graduation requirements.

(3) Students with Disabilities: Successful transition to postsecondary adult life for students with disabilities requires comprehensive planning, goal setting, and decision making. One of the most important decisions for students with disabilities is the type of high school diploma the student will work toward. This decision is usually made by the student and family prior to entering high school with the IEP team. Diploma options will be considered in the following order according to the student's needs and abilities: a) High School Diploma; b) High School Certificate; c) Special Education Diploma.

6. Plans for educating special populations.

Students of all abilities, including those who are members of special populations, will be welcomed at the School and will be provided with a rigorous and relevant education that incorporates the accommodations specified on their individual plans. Instead of expecting students facing challenges to modify themselves to the curriculum, the School will differentiate the curriculum and instructional strategies until an approach is found that meets students' needs and leads to success. Specific plans for meeting the needs of students identified as gifted and talented, students with disabilities, and English Language Learners are detailed below. In addition to academic opportunities, special populations will also have access to the wrap-around social services described in this application (e.g., the services provided by the Family Support Specialist and Career Coach).

7. Meeting the needs of students identified as gifted and talented.

Gifted students will have access to programs that provide the maximum development of each student's academic talents including differentiated services and educational opportunities that are challenging, accelerated, enriched, and innovative. Curricular modifications for gifted learners will be

designed to develop advanced research methods and independent learning, generate new ideas and products, develop higher order and critical thinking skills, and develop advanced communication skills.

Honors and Advanced Placement (AP) courses will be offered to provide challenging, college-level course work for high ability high school students. Qualified students will be allowed to enroll in Dual Enrollment/Dual Credit in college courses through local and state colleges and universities while still in high school that will be used towards fulfillment of high school graduation requirements and can also be used as college credit. Students who meet the qualifications are able to participate in Move On When Ready (M.O.W.R.) with eligible institutions once they meet the requirements as set by the eligible institution in addition to the GaDOE guidelines. Teachers of gifted students will hold an endorsement in Gifted Education from the Professional Standards Commission.

8. Providing state and federally mandated services for students with disabilities.

The School will adhere to all provisions of State and federal law relating to students with disabilities, including the IDEA, Section 504 of the Rehabilitation Act of 1974, and Title II of the Americans with Disabilities Act of 1990, as applicable. The School will implement the same identification, evaluation, placement, reporting, and due process procedures; use the same special education forms; and submit to program review by state and district officials to the same extent required of similar charter high schools in the School District. The School will use the DCSD IEP management system, and provide free transportation and other related services as required by a student's IEP. Additionally, the School will include reasonably anticipated special education costs in the budget(s) to provide eligible students with disabilities with the special education, related services, program accommodations, and due process to which they are entitled under state and federal law.

Identification: For students not making satisfactory progress in the curriculum, data-based interventions implemented within the context of a multi-tiered system of support (MTSS), such as response to intervention (RTI) or Positive Behavior Interventions and Supports (PBIS) will be implemented. If the student continues to be unresponsive, diagnostic data will be collected and analyzed to identify the

specific skill deficits that need to be targeted. If a student has been through the MTSS process and does not show adequate academic progress, a referral for special education evaluation may be made to assess the student's specific needs. The evaluation will be a comprehensive assessment, consisting of the following or similar: administration of standardized developmental tests; comprehensive psycho-educational assessment such as the Woodcock-Johnson Tests of Cognitive Abilities or similar test used by the DeKalb schools to evaluate cognitive, academic achievement, social-emotional, and adaptive behavior; classroom work samples; parent and/or teacher interviews; and observation of the child. School professionals who may take part in the evaluation include of a school psychologist, a teacher, a social worker, a speech and language pathologist, an occupational therapist, and/or a physical therapist.

Services: The School will provide a full continuum of services to disabled students, which constitutes a free appropriate public education (FAPE), to the same extent as similar charter high schools in the District. It will allocate sufficient monies in the annual operating budget to provide these services. The School will require instructional support teachers and special education teachers to attend the School District's special education professional development programs to the same extent required of similar charter high schools in the School District. Additionally, the School's special education staff will participate in ongoing training focused on linking instruction, curriculum, special education and Section 504.

The School will provide special education, supplementary aids and related services to meet the unique needs of students with disabilities in the least restrictive environment (LRE) to the maximum extent appropriate. The School will utilize Personnel Supports such as consultation at least once per month or direct service from the special education teacher. The School will provide Supportive Instruction from someone other than a certified teacher in the general education classroom (i.e., Reading Teacher and Career Coach). Additionally, the special education teacher or related service providers will collaborate in the general classroom with the classroom teacher for a portion of a class period or for the full class period.

The School will ensure that students with disabilities and students with or eligible for a 504 plan

receive appropriate accommodations or modification within all classrooms as documented on each student's IEP.

9. Methods, strategies and/or programs for students receiving supplemental education services.

If the School is deemed a Title I school and is in need of corrective action, the School will provide Supplemental Education Services to the extent required by SBOE Rule 160-4-5-.03 and the Elementary and Secondary Education Act and/or any amendments thereto. Should the need arise, any contracts will be provided at that time.

10. Methods, strategies and/or programs for meeting the needs of students at-risk of academic failures through remediation.

Our School's educational program is specifically designed to meet the needs of students at-risk of academic failure. As described above, an individualized academic plan will be designed based on each student's skill (as determined by the GAIN and prior academic records) and course completions at enrollment. Our instructional plan, including teacher-directed and technology-based instruction, will allow students to progress through coursework at their own pace while also receiving support for foundational gaps in any of the core areas.

11. State and federally mandated services for English Language Learners (ESOL.

The School will adhere to all provisions of State and federal law relating to English Learners (ELs). The School will provide state and federally mandated services to EL students to the same extent as other schools in DCSD. The School will not discourage EL students from enrollment in the program based on their language acquisition, and will ask for English for Speakers of Other Languages (ESOL) documentation from previous schools once students are fully enrolled.

New students in DCSD will be administered the Home Language Survey (HLS) during enrollment. The School will further assess all students who answer "Yes" to any of the questions on the HLS with the state-identified English language proficiency screener/test, the W-APT. If the student's grade level adjusted score is less than 5.0, the student will be eligible for English language assistance services. Additionally, if the student's score is a borderline grade level adjusted score approaching 5.0,

this score in conjunction with the professional judgment of the student's Language Assessment Conference (LAC) committee will make the final decision for the type of placement and intensity of services provided. Parents will be notified once the student has been identified as eligible for language assistance in a language that they can understand. ESOL staff will document the identification, appropriate language instructional program goals, and appropriate instructional and testing accommodations in an LEP plan.

11.a. The special language instructional program to be provided to ELLs.

The School will utilize the WIDA Consortium English language proficiency standards with the Georgia Performance Standards (GPS).

Advisory teachers will utilize instructional methods and ESOL accommodation in the general education classes to facilitate academic instruction. Our School will use the push-in model for service delivery in accordance with Rule 160-4-5.02 that involves collaboration between the classroom teacher and ESOL teacher. In the ESOL Push-in model, the ESOL teacher and the content teacher are co-equals in the classroom, but each has a distinct role. The ESOL teacher is responsible for language support, while the content teacher is responsible for delivery of academic content. Classroom accommodations may include differentiated instruction, visuals and graphic organizers, simplified language of instruction without changing the content, and alternate assessment as necessary. The ESOL teacher will be responsible for coordinating EL student services.

The instructional software to be used by the School offers courses with extensive scaffolding. Controlled vocabulary and syntax, chunked text, and short page lengths with limited scrolling facilitate reading comprehension. Students will be able to listen to instructional text read aloud in English (and in Spanish for math courses), review rollover vocabulary supporting academic language proficiency, use media to observe and study multiple representations of concepts, and participate in interactive self-assessments with immediate feedback.

11.b. ELL students will not be excluded from curricular and extracurricular activities in school.

ELL students will not be excluded from curricular and extracurricular activities in school because

of the inability to speak and understand the language of instruction.

11.c. Measuring the linguistic and academic progress of ELL students, including program exit criteria.

The academic progress of EL students will be measured and monitored the same way as other students at the School, including formative and summative assessments in the classroom and required state assessments. Additionally, all EL students will participate in the state-required *ACCESS for ELLs* assessment to measure linguistic progress. Results on the *ACCESS for ELLs* will be used as the basis for determining if a student is ready to exit the ESOL program in alignment with state criteria.

Students who exit the program will be monitored after exiting for two (2) calendar years. Additional academic and English language support shall be provided if students begin to have difficulty. If it is determined that a student is not making satisfactory progress, a Language Assessment Conference (LAC) meeting with parental participation will take place to review all pertinent information and recommend an appropriate plan. A LAC will be held for EL students who are not making reasonable progress after two (2) or more years of ESOL services, for ESOL re-entry candidates, and for EL students who appear ready to exit but don't meet the minimum exit criteria.

12. Extracurricular or other auxiliary educational activities.

No extracurricular or auxiliary education activities are planned.

13. Specific actions in the academic plan that require a waiver of state law, rule, or guidelines.

Examples of actions in the academic plan that require a waiver of state law, rule, or guidelines are included in 13a below.

13.a. Examples of significant components of the academic plan for which a waiver is needed.

DHSAL is requesting and will utilize the broad flexibility provided under O.C.G.A. § 20-2-2065(a). The following are examples of some of the ways in which the School will use § 20-2-2065(a)'s flexibility to depart from the provisions of Title 20 applicable to traditional schools:

Waiver Request	Rationale
School Day and School Year - SBOE	DHSAL will utilize its broad flexibility waiver to waive the

Waiver Request	Rationale
Rule 160-5-1-.02	school day and instructional hour requirements in this rule. The School intends to employ a 205-day school year. To accommodate challenges in our students' lives, we allow them to choose 1 of 3 different 4-hour instructional periods, or more if space permits.
Teacher Salary Schedules and Increases – O.C.G.A §§ 20-2-201(c), 20-2-212, 20-2-212.1, 20-2-212.2 and SBE Rule 160-5-2-.05	DHSAL seeks to use its flexibility to establish teachers' salary schedules and increases that reflect local market conditions and individual educational credentials, support a balanced budget, and fit with the school's mission and instructional approaches.
Meals - O.C.G.A. § 20-2-66, O.C.G.A. § 20-2-187 & SBOE Rule 16--5-6.01	Due to the age of the students attending the School and the flexible schedule of the school day, the School will not provide meals (breakfast or lunch) typically provided in a traditional high school. The School will have vending machines with healthy snacks on-site for students who wish to purchase food.
Earning Credits. SBOE Rule 160-4-2-.48(h)	This rule establishes that one unit of credit is awarded for a minimum of 150 clock hours of instruction or 135 hours of instruction in an approved block schedule. The school will use its broad flexibility waiver to award credit based on mastery rather than clock hours.

III. ORGANIZATIONAL OBJECTIVES, PLANS, AND WAIVERS
14. State the school's Organizational Goals and Measures.

14.a. Organizational performance objectives.
14.b. Objectives should include areas such as: governing board training, student and teacher retention, and student, parent and teacher satisfaction.

Goal 1: The Governing Board is effective in overseeing the performance of the school management company in the areas of school operations and finances.	
Objective # 1	**Performance Measure(s)**
Board will review and evaluate student performance and performance of the management company.	• Student performance data and analyses will be reviewed quarterly at regularly scheduled Board meetings. • An assessment of student achievement progress will be completed semi-annually and reviewed at Board meetings. • The school management company will be formally and annually evaluated on its performance under the management agreement.
Objective # 2	**Performance Measure(s)**
The Board will effectively oversee the School's financial performance.	• The School's Financial statements will be reviewed at each regularly scheduled Board meeting to assure that the school is operating within its approved budget. • Board will adjust the budget as necessary based on financial needs and the actual enrollment of the School. • The Board will have an annual audit of its financial statements to ensure the accuracy and completeness of the financial information. • The Board will ensure that required financial reports are accurate and submitted by due dates to the authorizer.
Goal 2: The School provides a positive school experience that engages parents/guardians.	
Objective # 1	**Performance Measure(s)**
Parents / guardians / responsible adults will attend new student orientation with their minor child.	Minor students are accompanied by parents / guardians/ responsible adults at new student orientation during the academic year.

Objective # 2	**Performance Measure(s)**
The School will provide opportunities for parents/ guardians to interact with and provide input to faculty, administration, and social services providers.	• The School will provide a minimum of 4 opportunities for parents/ guardians to engage with faculty, administration, and social services providers. • Parents whose minor child is seen by one of the School's partner social services providers also interact with these providers. • Parents will attend at least one parent meeting, open house, or other school-sponsored event during the academic year.

15. Specific actions the school will take to achieve its organizational performance objectives.

Specific actions are outlined in 15a – 15c below.

15.a. Organizational innovations that will be implemented during the proposed charter term.

1. **Partnership with DCSD** - An emphasis on strong partnerships with DCSD high school principals, guidance counselors and central office staff. The Governing Board has a strong desire for our school to be a resource to high school principals, not a competitor, in serving high-need students. The Board and management company will foster a culture of collegiality, support and engagement with DCSD leadership. We desire our school to be the model for DCSD charter partnerships.
2. **Access to a Network of Resources** - Immediately upon application approval, the School will have access to the resources of a network of over 20 dropout prevention and recovery SACS-accredited schools through the Board's contract with ALS. These resources will include, but are not limited to, professional development opportunities, Professional Learning Communities, mentors, curriculum support, instructional pedagogy, data analysis and use, and school building design.
3. **Partnerships with Local Resources** - Partnerships will be formed with, and office space made available for, community social service providers, organizations, and agencies so that students can meet with these providers on-site. A list of potential organizations has been included in Appendix 30. These partners will help students learn to manage social and emotional issues and prepare for

postsecondary transitions. Our innovative high school program assures that students receive the broad-cross section of services needed to re-engage, stay in school, and graduate..

4. **Partnerships with Parents/Guardians** – Teachers will make regular phone calls to students' homes to connect with families. These calls will relay positive information about student achievement and/or behavior or follow up on issues related to limited achievement (attendance, engagement, etc.). In addition, staff will make home visits to support students who are struggling with academics, attendance, or behavior; address challenging life issues (such as homelessness, neglect, addiction, etc.); and connect families to local services.

15.b. Explanation of how the innovations will increase organizational effectiveness.

1. A **partnership with DCSD** will ensure that high-need students have access to a program specifically designed to meet their unique needs.

2. Immediate access to the **resources of a successful, SACS-accredited organizational network** will provide focused training and targeted resources quickly and efficiently.

3. **Partnerships with community social service providers, organizations, and agencies** with dedicated space in the school will ensure that students have immediate access to appropriate support services that remove the barriers preventing students from attending and focusing on learning.

4. **Partnerships with parents/guardians** will ensure that families are connected to the School and able to support their child's success. Through these relationships, School staff can deepen their understanding of students' unique needs, and connect students and families to appropriate services and/or providers.

All these partnerships will ensure that students are surrounded by a climate of respect and support that will effectively lead to a standard high school diploma and preparation for postsecondary success.

15.c. Why the innovations are appropriate for this unique school.

We believe that these innovations, in conjunction with the use of an experienced EMO to provide them, are appropriate because they improve the effectiveness of the School's unique program for the students being served.

16. Specific actions in the organizational plan that require a waiver of state law, rule, or guidelines.

The specific actions which require a waiver are outlined in the table below. DHSAL is requesting and will utilize the broad flexibility provided under O.C.G.A. § 20-2-2065(a). The following are examples of some of the ways in which the School will use § 20-2-2065(a)'s flexibility to depart from the provisions of Title 20 applicable to traditional schools:

Waiver Request	Rationale
State Board to Prescribe Textbooks - O.G.C.A. 20-2-1010	This waiver will allow the School to use on-line courses provided by Apex Learning Systems as well as other curriculum providers described in the charter petition.
School Day and School Year – State Board Rule 160-5-1-.02	This waiver will allow the School to operate on the daily schedule described in the charter petition.
School Administrator - O.C.G.A. 20-2-942 (1.1)	This waiver will allow the School to have the flexibility to hire a school administrator/principal who has appropriate general management and education leadership skills, but may not have met the requirements of the Professional Standards Commission.
School Size – State Board Rule 160-5-4-.08	This waiver will permit Capital Outlay funding if the School does not meet all of the criteria in this State Board of Education policy.

IV. GOVERNANCE

17. How an autonomous governing board will make decisions for the school.

The Governing Board will make decisions through monthly meetings during which it will establish school policy and provide oversight for assuring that the School meets the required organizational, financial, and student achievement objectives set by the Board.

17.a. Governing board members, composition, selection, terms, and recruitment plan.

Composition: A diverse Board of no fewer than five (5) and no more than nine (9) individuals will provide governing oversight and leadership. The founding Board is comprised of community leaders who are committed to the success of public education in under-served areas of Atlanta that need additional solutions to address high dropout rates. Many of our Governing Board members have visited dropout prevention and recovery schools operated by ALS and we have formed our own vision for how this program and instructional model can help young people in DeKalb County. This program allows us to lead and govern a program that addresses a problem we have known for many years.

Board Members: The founding Board includes seven (7) members. Board members include individuals with a range of professional skills and specific expertise in engineering, technology, educational leadership, curriculum, law, and finance. The Board members' experience and capabilities assure that they are capable of governing and overseeing the School.

Joshua Chamberlin is a Product Manager for Infinite Home where he is responsible for setting strategy, driving development teams, and engaging with customers. Mr. Chamberlin has experience as a software development manager, customer services manager, associate staff software engineer, and network engineer. He earned his Bachelor of Science degree in engineering from Georgia Institute of Technology, and his Masters of Business Administration (MBA) from Georgia State University.

Dr. Barbara Hill is an Assistant Professor in the Department of Educational Leadership at Clark Atlanta University in Atlanta, Georgia where she teaches courses in effective leadership, urban school systems, and curriculum planning. Her research interests include effective leadership programs and coaching/mentoring school administrators. She earned a Bachelor's degree from Spelman College, a Master's degree and an Educational Specialist degree from Atlanta University, and her Ed.D from Clark Atlanta University.

Jarrod Jordan is a self-employed entrepreneur and founder of Sovereign Executive Transportation Company in the Atlanta-metro area. Prior to this role, he was the Regional Director of the Leadership for Educational Equity an Atlanta, an arm of Teach for America, a governmental relations and community development organization. Mr. Jordan was also the Founder and Executive Director of the Vanguard

Leadership Group, a leadership development firm for minority college students. At an earlier point in his career, he was a senior council aide with the Atlanta City Council. Mr. Jordan holds a BA in business administration from Clark Atlanta University. He served on the board of directors for the Atlanta Business League, where he was vice chair of the Public Policy Committee, AIPAC Atlanta Executive Council and AIPAC National Council. Jarrod grew up in DeKalb County, attended DeKalb County schools and is very familiar with the political and civic leadership of the County.

Whitney "Whit" Miller is a Rotational Associate with McKesson Corporation in Alpharetta. He previously worked with Davita Healthcare Partners, Inc. after serving four years with the U.S. Navy, where he served in Stuttgart, Germany as International Acquisitions Program Manager. Miller received a Bachelor of Business Administration from the University of Georgia and an MBA with Healthcare Concentration from the Scheller College of Business, Georgia Institute of Technology. He is an Eagle Scout and is accomplished in business as exhibited by his Six Sigma Greenbelt Certification.

Bobby Slotkin is one of the founders and owners of the Slotkin & Caiola law firm. Mr. Slotkin served as campaign Treasurer for Sara Doyle, who won election to the Georgia Court of Appeals in 2008. He volunteers with L'Arche Atlanta, an organization that runs group homes for adults with intellectual disabilities, and frequently serves as a guardian ad litem in the DeKalb County Probate Court.

Harrison Sullivan is an attorney who serves as a Multistate Tax Consultant with Deloitte Tax, LLP in Atlanta, Georgia. His areas of expertise include state and local tax opportunities, tax controversy, state tax legislation, and state taxation issues for C corporations and pass-through entities. Mr. Sullivan has community service experience working with teenagers and veterans.

Natali Thompson is an attorney with the BlueLinx Corporation in Atlanta, Georgia. She has previously served as a Special Assistant to U.S. Senate candidate Michelle Nunn, an attorney with King & Spalding, LLP and with Cahill Gordon & Reindel, LLP, and Legal Services Coordinator for Philadelphia Volunteer Lawyer for the Arts. She earned a Bachelor's degree from University of Pennsylvania Wharton School and her law degree from University of Pennsylvania Law School.

Recruitment and Selection: As member terms expire and/or members resign from the Board, future

members will be nominated and elected by current Board members.

Terms: Board members have been divided into two classes as described in the Bylaws. Class 1 members will serve until June 2017 and Class 2 members until June 2018. Terms last for two (2) years.

The Board's executed Bylaws are included in Appendix 12.

17.b. Governing board's function, duties and roles.

The Governing Board establishes school policy and will have ultimate governing authority over the School's operation. This includes providing oversight and maintaining responsibility for assuring that the School meets the required organizational, financial, and student achievement objectives set by the Board. The most important aspects of this governing function are selecting the School Principal, selecting the management company, and overseeing both.

The Governing Board will not be involved in the day-to-day management or administration of the School. The Board will rely on the Principal, in consultation with ALS, to recommend staffing levels, and to recommend evaluate, discipline, transfer, and terminate personnel consistent with state and federal law. The Principal and teachers will be employees of the School and will be hired by the Board.

Specifically the Board will have responsibility for:

- Conducting regular meetings, with reasonable public notice and minutes available for review consistent with Georgia's Open Records and Open Meeting Laws
- Participation in state required/appropriate Board governance training
- Selecting and engaging the school management company; executing management agreement
- Negotiating and signing the school's charter agreement with the authorizer
- Selecting, hiring and evaluating the School Principal consistent with Georgia law and the state's mandated LKES system
- Hiring teachers and staff, an accountant, legal counsel, and independent auditor
- Ensuring that teachers are evaluated by the Principal in alignment with the Teacher Keys Evaluation System (TKES)

- Annually adopting and maintaining an operating budget
- Reviewing quarterly financial statements and school performance at regular intervals
- Reviewing and approving the audit report, including audit findings and recommendations for a financial recovery plan, if applicable
- Submitting an annual financial audit to DCSD and the GADOE prior to October 1 of each year
- Exercising continuing oversight over charter school operations
- Ensuring the program outlined in the charter application is implemented
- Approval of school's operating policies and procedures
- Submitting the School's annual progress report to the charter authorizer
- Adopting policies which establish standards of ethical conduct for School personnel
- Submitting an annual Conflict of Interest statement
- Promptly notifying the authorizer or other governmental entities immediately of any changes in Board membership and ensuring that Board Member terms are staggered

The responsibilities of the Board and ALS, the management company, are defined in the signed, management agreement between the Charter Board and ALS which is included as Appendix 15.

17.d. Narrative of the Governance matrix.

The Governing Board is the organization's governing body. As such, it will be responsible for personnel decisions, financial decisions, overseeing curriculum and instruction, resource allocation, establishing and monitoring the achievement of school improvement goals, and school operations. The Board understands that effective governance is characterized by a Board that sets policy and direction in support of the organization's mission, and is fiscally attentive and responsible. The Governing Board will not be involved in the day-to-day leadership or administration of the School and will empower the Principal and his/her staff with the responsibilities for daily operations, implementation of the Board's policies and procedures, and ensuring high student achievement.

17.e. Plan for ensuring a diverse board with broad skillsets.

Our Governing Board possesses skill sets that will allow us to operate a successful public school. This includes lawyers, business leaders, and individuals with experience in education. The Board is also diverse in age, ethnicity, and gender. The Board is committed to ensuring a diverse governing body with community connections and a broad range of skills and expertise.

17.f. How and why governing board members may be removed.

In accordance with the Bylaws, directors may be removed with or without cause at any regular or special meeting of the Board, by the affirmative vote of a majority of directors then in office, consistent with the Board's bylaws, which are included in Appendix 12.

17.g. Required governing board training.

Pursuant to O.C.G.A. § 20-2-2072, the Governing Board will participate in initial training and annual training thereafter conducted by the state board or a vendor approved by the state board. Such training will adhere to S.B.O.E. Rule 160-4-9-.06(4)(c).

17.h. Plan and timeline for securing a provider. Brief plan for continuous governance training, recruitment and retention of high quality governing board members.

Board members intend to participate in training by the Georgia Charter Schools Association, a state approved training provider, within two months of obtaining petition approval. In addition to the required training, Board members will also be trained on LKES and TKES evaluations. The Board's legal counsel, Christopher Adams, Krevolin and Horst, LLC (adams@hklawfirm.com, (404-888-9545), will regularly advise the Board on governance, reporting, and fiduciary responsibilities. The Board's independent accountant and financial auditor will ensure the Board thoroughly understands its financial statements and key indicators of financial performance and viability. Using monthly board meetings and regularly-scheduled workshops, ALS will provide the Board with the foundational knowledge of the pedagogy applicable to the students being served and key indicators of student achievement pursuant to the Georgia accountability standards.

On an ongoing basis, Board members will participate in training and professional development. This will include, but is not limited to: legislative updates, funding changes, understanding school performance reports, etc. The Board will annually evaluate its performance in fulfilling its responsibilities and its ability to work as a team.

17.i. ***Potential conflicts of interest and avoiding future conflicts of interest.***

There are no existing relationships that pose actual or perceived conflicts. The School's governing board is guided by its Bylaws (Appendix 12), which incorporates its Conflict of Interest Policy that defines how the board will prevent conflicts of interest. For example, a member of the board may not be an employee of the School (in any capacity, including, but not limited to, as a teacher or principal) and may not be an employee of the non-profit corporation's management company.

The Board will comply with S.B.O.E. Rule 160-4-9-.06 (4), including requirements for adoption of a code of ethics aligned with the model code of ethics adopted by the State Board of Education. All board members have executed Conflict of Interest forms, which are attached in Appendix 2. This disclosure will be signed annually by each Board member.

If the Board or committee has reasonable cause to believe that a member has failed to disclose actual or potential conflicts of interest, it shall inform the member of the basis for such belief and afford the member an opportunity to explain the alleged failure to disclose. If, after hearing the response of the member and making such further investigation as may be warranted in the circumstances, the Board or committee determines that the member has in fact failed to disclose an actual or possible conflict of interest, it shall take appropriate disciplinary and corrective action.

To avoid any actual conflicts and to mitigate perceived conflicts, ethics and conflicts of interests will be specifically addressed during the Board's orientation and training.

17.j. How the governing board will uphold the school's mission and vision.

A primary function of the Board is to uphold the School's mission and vision. Clearly defined responsibilities and reporting lines will ensure that board members, faculty, staff, and administration understand their roles and responsibilities as they pertain to the School's mission and student success. Also, the Board expects its legal counsel, accountant, auditor, and EMO, Accelerated Learning Solutions, to report on activities and results as they relate to the School's mission and vision.

An annual Satisfaction Survey will be administered to parents and students to assess School performance, and the results considered by the Board as important input regarding the success of the School.

17.k. How the governing board will evaluate the principal's performance.

The Board will conduct an annual review of the School Principal's performance in accordance with the required Georgia Leader Keys Effectiveness System (LKES) (Official Code of Georgia 20-2-210). ALS will provide the Board with all requested documentation regarding the School Principal's performance in a template approved by the Board. In addition, ALS will provide quarterly, interim evaluations of the

School Principal's performance.

17.l. How the governing board will ensure effective organizational planning and financial stability.

In order to ensure effective organizational planning, the board will direct school staff and administration, the management company, and its legal and financial advisors to prepare plans for each school year in the following areas: Academics, Operations, Governance, and Finance. These plans will outline the area objectives for the year and the steps necessary to meet them. All plans will be reviewed and, if necessary, integrated prior to adoption by the Board.

In order to ensure financial stability, the Board will review and regularly monitor the financial status of the School. The Board will ensure that the financial and administrative management of the School meets regulatory requirements, maintains sound fiscal standards, and remains financially viable. Specifically, the Board will review budget vs. actual financial statements at board meetings. If corrective action is needed with regard to the budget, the Board will agree on corrective action, which may include but is not limited to budget adjustments, expense reductions, consideration of other revenue sources, and, most importantly, a renewed effort to stimulate enrollment.

17.m. Parent, community member, or interested party involvement in the school's governing board.

The Board will welcome the involvement of community stakeholders, including teachers, staff, students, parents, state, local and county elected officials, school board members, civic and business leaders, faith-based organization leaders, representatives of institutions of higher education, and other community members. The Board will publicly notice its regular meetings to encourage the involvement of these individuals and organizations.

17.n. Promoting parental and staff involvement in school governance.

Parents and staff will always be welcome to attend monthly Board meetings. Notices of these meetings will be posted at the School and on the school website in accordance with all applicable open meetings laws. Parents and staff will be welcome to voice comments, concerns, or recommendations during the Public Comment period of any meeting of the Board.

17.o. Communicating with students' families.

Communication with students' families begins at enrollment, continues through orientation, and is found in every facet of the School program.

The **School website** will provide essential school information to all stakeholders, such as list of Board members, dates of Board meetings, school contact information, budget information, application and enrollment information, programs, etc.

The ***MY SUCCESS*® Student and Parent Dashboard** (see Appendix 32) an online, secured private portal available to students, School staff, and parents at all times, will serve as the primary tool for communicating and monitoring student learning. This web-based portal will provide up-to-date information on student attendance, course progress, grades, skills development, graduation progress, and postsecondary transition.

The School staff will make **telephone calls** and **home visits** to discuss student progress and successes, and will provide travel options for parents/guardians without transportation to attend School events. The School may also distribute an electronic **newsletter** to the school community to share the successes achieved by students and the School.

18. Grievances

18.a. School leadership's role in resolving teacher, parent and student grievances and other conflicts.

All grievances, from either parents or staff members, will be handled fairly and promptly, in a professional manner, with dignity and respect.

Grievance procedures for resolving student, parent and employee complaints are included in Appendix 39. These procedures will be made available as follows:

- To students and parents in the Student / Parent Handbook
- To teachers and other employees in the Personnel Policies

18.b. Governing board's role in resolving grievances and other conflicts.

Parent or Guardian Grievance: As outlined in Appendix 39, if a parent or guardian is not satisfied

with the administrator's resolution, the parent/guardian may contact the Governing Board Chair, whose contact information may be obtained at the School's front desk and/or on the website. The Board will make every effort to consider the grievance within thirty (30) days. The Board shall have final authority to hear and decide on actions as a result of parental concerns.

School District / Authorizer Grievance: It is anticipated that an ongoing policy of open communication between the School and the School District / Board will prevent the need for implementing a conflict resolution procedure. However, if the need arises, the School's procedure will be as follows:

1. Discussions will take place between representatives of the School and the District regarding the issue(s) in question. If the matter cannot be resolved through discussion, either party may elect to move to step 2 below.
2. Written notice will be provided by the School or the District to the other outlining the nature of the issue(s). If the matter is not resolved, either party may elect to move to step 3 below.
3. A meeting will be held between the governing board of the School and the District's staff or representative to attempt resolution of the issue(s). If the matter is not resolved through this meeting, either party may elect to move to step 4 below.
4. The parties may submit to binding or non-binding arbitration or mediation.

18.c. The method that the governing board plans to utilize for resolving internal conflicts.

Internal conflicts will be managed thoughtfully and professionally by the Board Chair. We believe that having a well-articulated mission, vision, and code of ethics; clear roles and responsibilities; and dedicated Board members will minimize the occasions of internal conflict. However, should conflict arise, the Board Chair will take the following actions:[13]

1. Establish a separate meeting to address the conflict. This will allow the Board to use regularly-scheduled Board meeting time to address Board business without distraction.

[13] Adams, R.S. (2003) Facing up to board conflict, Center for Association Leadership, online at http://www.asaecenter.org/Resources/AMMagArticleDetail.cfm?ItemNumber=557

2. Clearly identify the conflict and establish the goal for moving forward.
3. Identify issues contributing to the conflict.
4. Address issues and plan for accountability.

19. In the appendix, attach an official copy of the certificate of incorporation.

An official copy of the certificate of incorporation is included in Appendix 6.

20. Brief description for each governing board member.

Board Member	Role	Background
Joshua Chamberlin	Board Treasurer	Product Manager for Infinite Home
Dr. Barbara Hill	Board Member	Assistant Professor at Clark Atlanta University
Jarrod Jordan	Board Chair	President, Sovereign Executive Transportation
Whit Mitchell	Board Member	Healthcare Business Professional, McKesson
Bobby Slotkin	Board Member	Attorney with Slotkin & Caiola law firm
Harrison Sullivan	Board Vice Chair	Tax Consultant - Deloitte Tax, LLP
Natali Thompson	Board Secretary	Attorney with the BlueLinx Corporation

Brief bios are included in response to question 17.a. and resumes are included in Appendix 1.

21. In the appendix, please provide the proposed charter school's bylaws.

The Bylaws, which were recently amended to comply with district and state charter requirements, are included in Appendix 12.

22. Complete and signed conflict of interest form for each proposed founding board member.

Conflict of Interest forms for each governing board member are included in Appendix 2.

V. Contracts with Educational Service Providers or Other Charter Partners

23. Education service provider (ESP) to provide management or consulting services.

23.a. How the arrangement will be in the best educational and financial interests of the charter school.

The Governing Board has concluded that the educational and financial interests of the school are best served by contracting with Accelerated Learning Solutions, Inc. (ALS) as the School's ESP. ALS

has an educational approach that aligns with the philosophy of the Governing Board and school's mission and purpose. ALS has accumulated an exceptional track record of academic success for students who have dropped out or are likely to drop out of high school (See Appendix 15). ALS is now successfully operating twenty-two (22) charter high schools in Florida and two (2) in Charlotte, NC providing these services. ALS will also be managing a school approved by Fulton County Schools and the Georgia State Board of Education. This school will open to serve students in August 2016. The typical student enrolled in other ALS schools is very similar to the students we desire to serve.

The ALS leadership team has substantial experience in education, finance, business management, public relations, and related fields and has a proven record of successfully opening multiple schools each year within expected timelines and budgets. For example, in 2012 ALS simultaneously opened four (4) schools. In 2013 and 2014, ALS opened three (3) schools at the beginning of each school year. The Board has reviewed the organization's capabilities and track record, visited schools it operates in Florida, and believes that a successful school opening and ongoing management of the School are assured.

23.b. Other ESPs or partners that were considered and the reasons this ESP was selected.

The Board has found that ALS is best positioned to fulfill the school's mission. The Board has reviewed the report of an independent consultant on other options (including Richard Milburn Academies, SIATech, and White Hat Management Group). A summary of this competitive analysis is included in Appendix 37.

ALS is unlike other ESPs for the following reasons:

- In February 2012, ALS was awarded District AdvancED Corporation Systems Accreditation. With this award, every school managed by ALS is considered SACS accredited in its first year of operation as evidenced in Appendix 28. ALS has previously incurred the expense of obtaining SACS accreditation and will not allocate any of these expenses to the School.

  All ALS-managed schools are achieving positive financial results. Independent auditors to the charter boards have consistently issued clean financial audits to charter boards governing schools managed by ALS. Please see this link (http://www.myflorida.com/audgen/pages/chschools_efile%20a-h.htm)

for independent financial audits prepared for Florida charter school governing boards which have hired ALS as their school manager. The audited financials for the school operated by ALS in North Carolina, Commonwealth High School, are included in Appendix 15.

- ALS-managed schools partner and do not compete with district schools. ALS schools only serve high school students who have dropped out or are likely to drop out.
- ALS-managed schools arrange for or provide extensive social services support and post-secondary coaching to students. Each delivers extensive community-based support services to address barriers to academic success. All facility leases and utilities in ALS managed schools are paid directly by the charter school board or ALS at cost. There are no profit margins or financial gains to ALS in the schools' facility costs. ALS provides site selection and construction management services free of charge to the charter school board.
- ALS receives no vendor commissions nor does it have any financial incentives to arrange particular school vendor services.
- ALS provides a low-cost loan to the School to finance pre-start costs and operating losses. This loan will be financed at 3%, well below market rates.
- At the expiration of their initial 5-year terms, the contracts for 14 schools in 7 Florida school districts (these were all the schools eligible for renewal) were renewed by district authorizers at the conclusion of their initial terms, some for terms of up to 15 years.

23.c. History of the ESP selected, including academic results, closures, non-renewals and separations.

With a track record of serving students in urban communities, ALS has demonstrated a broad range of school management capabilities built from a single set of core competencies and values. Highlights over this period include: 1) Improvement in students' foundational reading and math skills; 2) Improved credit recovery and grade promotion rates for high school students; and 3) Increased graduation rates and successful postsecondary transitions for high school students. Charter school boards remain pleased with the performance of ALS. The contracts with Florida school district sponsors for three (3) schools in Broward County, one (1) school in Hillsborough County, two (2) schools in Lee County, three

(3) schools in Orange County three (3) schools in Miami-Dade County and two (2) schools in Palm Beach County expired at the end of an initial 5-year term. As the charter authorizer and renewal authority, each respective school district board voted to renew the contracts for all of the schools for terms up to 15 years.

ALS's academic results are promising and continue to improve. For example, a majority of the Board has visited Chancery and Aloma High Schools, ALS-managed schools in Orlando, Florida, where students earned an average of 3.3 credits per semester (or 6.6 credits per year). Additionally, when the achievement of students at Aloma was compared to their achievement at their prior school, these students showed a 65% improvement in their credit earning rate and a 25 percentage point improvement in the number of students earning a cumulative grade point average (GPA) of 2.0 or higher. A more detailed ALS Track Record is included in Appendix 15.

In its history, only one ALS school has closed. Murray Hill High School in Jacksonville, FL was closed by decision of the charter board because the enrollment was low and therefore the school could not be financially viable.

23.d. How the contract was negotiated.

In the management contract negotiations, the Governing Board was represented by Christopher Adams, legal counsel with Krevolin/Horst. ALS was represented by Robert Fortson, legal counsel with McGuire Woods Consulting. The process included detailed reviews of the board and management company's roles and responsibilities as well as financial, legal, and organizational considerations.

23.e. The range of services the education service provider will provide for the school.

The management agreement with ALS is included in Appendix 15. The services provided by ALS include, but are not limited to:

1. Facility development, design, renovation and financing.
2. Equipment procurement and maintenance including research and negotiation of terms.
3. Management consulting and financial services including day-to-day management of the school and training of staff.
4. Provision of an educational program designed to meet the needs of our students.

5. Procurement and implementation of technology and operational support services.
6. Identification and evaluation of necessary insurance coverage.

23.f. How the governing board will monitor and assess the performance of the ESP.

The Board will monitor the performance of ALS during its monthly Board meetings. The Board will hold ALS accountable for the following performance goals: meeting annual enrollment targets; successful recommendations for hiring of all requisite staff with appropriate credentials; proper training of all staff; quarterly reports detailing academic and financial performance; successful installation and maintenance of the School's network, computers, and peripherals; and annual improvement in student performance as measured by state assessment results, graduation rates, and postsecondary transitions.

Reports on these measures will be reviewed on a regular basis.

23.g. Termination requirements and effect on the school's ability to continue operations.

The school maintains the discretion to terminate its contractual relationship with ALS if it ALS fails to perform. Specifically, as detailed in the management agreement (Appendix 15), the School may terminate the agreement, among other reasons, if the ALS fails to: account for its expenditures; pay School operating costs in accordance with the Budget; follow policies adopted by the Board; or fails to perform academically, as evidenced by an unsatisfactory reports from ALS, an educational consultant, or an Authorizer. The Company may terminate the agreement if: any academic year results in operating deficits; the School fails to pay any overdue fees due to the Company; the School materially defaults under the agreement; or there is any material change in state or federal funding for the School's students.

The School will be able to continue operations because under the agreement:

- If the School or ALS terminates the management agreement for any reason other than failure to pay, then ALS is required to perform its obligations until the end of the then current academic year.
- ALS will assist the School in any transition of management and operations, including, but not limited to, (i) the orderly transition of all records and other School property, equipment and material (if any), and (ii) sending notices to students as reasonably requested by the School in compliance with

state and federal law and District policy.

In addition, based on the school's financial projections, if the school terminates its relationship with ALS, it anticipated that the school will have sufficient resources to remain financially stable. (See Appendices 7-9 & 19).

23.h. Reporting and organizational structure.

We believe effective governance is characterized by a Board that sets policy and direction in support of the organization's mission. The Board of Directors will not be involved in the day-to-day administration of the School and will empower the Principal and his/her staff with these duties.

The ALS Regional Director of Schools (RD), an employee of the EMO, will provide training and support to the principal; will hold the principal accountable for meeting the School's goals and objectives, including student performance; and will ensure fidelity to the School's mission and educational program.

The Principal, who is responsible for the day-to-day operations of the School, will oversee the planning, design and delivery of instruction; will supervise all staff; will communicate effectively with parents, the Board, and the broader community about the School's progress; and will provide leadership that will support the School's teaching and learning environment. He/she will be responsible for hiring, supervising, and evaluating all school staff. The Principal will be responsible and accountable for the educational and operational outcomes at the School as well as for ensuring that the School is meeting its stated goals and objectives.

The Principal, teachers, and support staff will be employees of the School.

23.i. In the Appendix, provide the latest annual report for the educational management company, including audited financial statements, if available.

ALS Education, Inc. (ALS) is a privately held company, and does not make available confidential financial statements. The Board of Directors attests that there were no significant findings in the last five years. Annual audited financial statements for schools managed by ALS in Florida may be reviewed here: http://www.myflorida.com/audgen/pages/chschools_efile%20a-h.htm (a list of schools managed by ALS is included in Appendix 15). The audited financials for Commonwealth High School in North

Carolina, which is managed by ALS, are also in Appendix 15.

23.j. Educational management contract with all applicable signatures and dates of execution.

The educational management contract is provided in Appendix 15.

23.k. Nature, duration, and cost of service commitments.

As specified in the management agreement, the School shall pay ALS fifteen percent (15%) of the School's Qualified Gross Revenues for as long as the contract is in effect.

23.l. List of all owners, directors and officers of the EMO/CMO.

ALS is privately held and does not disclose this information.

23.m. Name, address and telephone number of the legal representative and the accounting firm for the EMO/CMO.

Legal:	Mark Manner, Partner Bass Berry and Sims 150 3rd Avenue S., Suite 2800 Nashville, TN 37201 615-742-6200	Accounting:	Larry Felts, Principal PYA P.C. 215 Centerview Drive, Suite 330 Brentwood, TN 37027 615-620-3475

23.n. References from previous schools managed by the EMO/CMO.

References from previous schools managed by ALS along with evidence of student success and financial audits are included in Appendix 15.

23.o. A description of the EMO/CMO's partnerships with any other schools.

ALS has contracts with twenty independent non-profit charter school boards in Broward, Duval, Hillsborough, Lee, Miami-Dade, Orange and Palm Beach Counties in Florida. Additionally, it has contracts with and a charter school Board in Charlotte, North Carolina to operate two charter schools. A list of all schools managed or serviced by ALS in the last five (5) years is included in Appendix 15.

ALS has recently contracted with boards for additional schools in Florida, North Carolina, and in neighboring Fulton County, Georgia, all of which are scheduled to open in Fall 2016.

23.p. Leasing, lease-purchasing or other property or financing relationships with the [EMO/CMO].

In accordance with the management agreement, the EMO will assist the School in identifying,

evaluating and hiring architects, contractors, and other third party vendors the School may contract with to design, lease, construct and, when necessary, renovate at the School's expense, a facility to house the School. The Company shall provide these services at no cost (other than the overall fee set forth in the management agreement). As noted in the Letter of Financial Assurances (Appendix 38), the EMO will advance certain funds as necessary for the startup of the school. The advances will be repaid when the school is cash flow positive on a schedule mutually agreed upon between the board and the EMO. The advances will bear interest at a rate of three (3.0) percent.

24. Proposed business arrangements or partnerships.

To ensure all students' needs are met, the School will provide on-site comprehensive social services, crisis intervention, and behavioral health services, as well as referrals to outside agencies as appropriate. The Student Services team, comprised of the Career Coach, the Family Support Specialist, and other community providers, will deliver services to all students daily throughout the year. The Career Coach and Family Support Specialist will establish partnerships with postsecondary institutions, workforce organizations, and community agencies to ensure a regular delivery of quality services to support a wide range of student/family needs that include: individual/family/group counseling; crisis intervention; case management; health and medical childcare; postsecondary planning and preparation; employment assistance and training; job opportunities, internships and apprenticeships; mentoring; and academic interventions.

24.a. Contact information for a representative of each business and/or partnership listed.

Partnerships have not yet been established. However, given the success of ALS in building local partnerships at their other schools, we are confident that these services will be available at our proposed school. Additionally, our board members have strong relationships in the community that they can leverage to help build partnerships to benefit our students.

24.b. Any potential conflicts of interest within each arrangement or partnership.

The Board will not contract with partners with whom a conflict of interest exists.

24.c. Actual or intended contracts with each arrangement or partnership.

No actual or intended contracts are currently available.

VI. FINANCIAL OBJECTIVES, PLANS, AND WAIVERS
25. State the school's Financial Goals and Measures.

25.a. School financial performance objectives.
25.b. Objectives should emphasize fiscal health and sustainability.

Goal 1: The school will be managed in a fiscally responsible manner and financial information will be reviewed by the Board monthly and audited annually by an independent accountant.	
Objective # 1	**Performance Measure(s)**
Cash flow is positive.	Year-end positive cash balances for the School that increase each year.
Objective # 2	**Performance Measure(s)**
Actual enrollment ensures that the School is financially sound and meets budget objectives.	Comparison of actual enrollment numbers to budgeted enrollment numbers as presented in the Board approved budget. Target is for actual enrollment to equal or exceed 80% of budgeted enrollment.
Objective #3	**Performance Measure(s)**
Audit reports on the financial statements of the school will have "clean" audit opinions with no material findings.	Audits will be performed by an independent certified public accountant on an annual basis and reviewed by the Board.

25.c. The plans for fiscal management; and how the school will manage budgets and expenditures.

The Board is accountable for the financial performance of the School. It approves budgets, sets policy, establishes and approves procedures, ensures that financial reports are made and controls are in place, and makes certain that the financial management of the School meets regulatory requirements, maintains sound fiscal standards, and remains financially viable.

The Board will retain its own certified public accountant to compile monthly reports of the

results of the School operations. The monthly expenditures compared to budget will be reviewed and approved by the Board at each monthly meeting as evidenced by Board minutes. In addition, the Board will retain an independent auditor to provide audited financial statements at the School's fiscal year end.

The Board delegates to the management company, ALS, the responsibility for certain financial aspects of the School including purchasing, accounts payable, accounts receivable, payroll, human resources, benefits administration, information technology, and insurance and risk management. The Board is responsible for the oversight of ALS in performing these duties.

At the end of each month ALS will send the Board Accountant detail of actual expenses incurred for the month relating to payroll, instructional supplies, etc. for the operations of the School. The Board Accountant and ALS will discuss variances from the Budget. At the monthly Board meetings, the Board will review the monthly expenses of ALS and vote to approve the expenses for payment. ALS will send the Board an invoice for payment. The Board Treasurer will transfer the funds from the Board's bank account into the ALS bank account to pay the invoice.

25.d. Detailed budget information projecting revenues and expenditures for the first five years.

Detailed budget information projecting revenues and expenditures for the first five years of the proposed charter term is included in Appendices 7-9, and 19.

25.e. The school's Chief Financial Officer and that person's credentials.

The Chief Financial Officer (CFO) and Controller for ALS have a combined thirty (30) years of financial management experience in multi-unit operations and the operation is staffed by experienced accounting professionals. This skilled team supervises a staff which oversees all the company's financial functions: payroll, bookkeeping, accounts receivable and payable, production of financial statements, etc.

The CFO has decades of successful finance experience at the executive level with various companies in the states of Georgia and Florida, including serving as Vice President of Finance, Chief Operating Officer, and Chief Financial Officer. He received both his Bachelor of Science Degree in Business Administration/Accounting and Master of Accountancy Degree from the University of

Tennessee, Knoxville, and is a Certified Public Accountant.

25.f. Representatives responsible for the financial management of the charter, and plans to procure and maintain a $1 million Crime/Fidelity Bond covering all persons receiving or disbursing funds.

The Board will be responsible for financial oversight of the charter, and will contract with ALS for certain financial aspects of the School as previously described. A Crime/Fidelity Bond covering all persons receiving or disbursing funds in the amount of $1 million will be maintained during the entire length of the charter.

26. Specific actions to achieve the financial performance objectives.

26.a. Financial innovations that will be implemented during the proposed charter term.

Because of the gradual enrollment increases anticipated during the first year of operation, the Governing Board proposes that the School District fund the charter school for the first year based on a projection of 240 students as shown in the Start-up Budget (Appendix 19). The Governing Board proposes that:

- the School District is willing to waive the 10 Day Count process and pay the charter board an equal monthly funding level based on 240 students, regardless of the actual enrollment during any particular month;
- the School may enroll more than 240 students at any point during the year; however, each month's funding will not exceed an amount based on 240 students;
- the School will have the flexibility to adjust its staffing and non-payroll expenditures each month to effectively serve the number of students enrolled;
- the second and subsequent year's funding levels will be determined in February of each school year, and the agreed upon number of budgeted students who will be enrolled will be used as the basis for funding in equal monthly amounts, identical to the process used for first year funding; and
- the School District expects the School to not fall below the 80% enrollment projections per the Letter of Assurances included with this petition.

26.b. Explanation of how the innovations will increase financial effectiveness.

The financial innovation requested will allow the School to adequately staff and offer the full educational program necessary to attract and retain the identified student population even while the School is not at its full enrollment. This will ensure that students enrolling are able to receive the full range of academic, behavioral and social support services needed to be successful.

26.c. Why the innovations are appropriate for this unique school.

Our typical student is one who is highly mobile, has dropped out of high school, or is likely to drop out, and faces significant life challenges and barriers to success. As such, student enrollment does not follow the traditional pattern of most schools, but rather increases throughout the school year as students hear of another option for earning their high school diploma, and/or are recommended by schools, friends, and others. For example, a similar high school managed by ALS opened in Charlotte, North Carolina in August 2014. That school, Commonwealth High School, had enrollment of 118 on August 25 at school opening, 245 on November 25, and 305 on January 15. Without adequate funding that keeps pace with student enrollment, the resources needed to provide a full program for all the students who enroll will not be available. We understand this process is similar to how the District funds traditional schools with high mobility rates.

27. Fundraising or Other Sources of Income

27.a. Plan for securing other sources of funding.

The Board may apply to the EMO or other vendor for financing and/or credit enhancement related to its pre-start costs and other operating costs, acquisition, rental, and/or build out of its charter facility. If ALS is selected, the Charter School will reimburse the EMO for any such financing from its Charter Revenues and Additional Revenue. Documentation and/or terms of financing will be contained in a separate agreement. Such facilities financing shall be interest free and shall be subordinate to all obligations of the Charter School arising under the management agreement.

27.b. Fundraising efforts and who will lead and coordinate these efforts.

No fundraising efforts are planned as of the date of this application.

27.c. Independent private funding sources that have been secured.

ALS has offered a loan to the School in order to provide star-up funding for facilities and operations. This is reflected in the budget and noted in the EMO Support Letter in Appendix 38. The Board is not obligated to accept this loan and may seek other fund sources.

27.d. If established, provide evidence of your organization's federal tax-exempt status in the Appendix.

Federal tax-exempt status has not yet been received.

28. Financial plans that require a waiver of state law, rule, or guidelines.

DHSAL is requesting and will utilize the broad flexibility provided under O.C.G.A. § 20-2-2065(a). The following are examples of some of the ways in which the School will use § 20-2-2065(a)'s flexibility to depart from the provisions of Title 20 applicable to traditional schools:

Waiver Request	Rationale
Teacher Salary Schedules and Increases - O.C.G.A. 20-2-212, 20-2-212.1, 20-2-212.2	This waiver will allow the School to align teacher salaries with teacher credentials and experience.
Expenditure of Funds - O.C.G.A. 20-2-167, sections (a)(1), (a)(2), and (a)(3)	This waiver will allow state, local, and federal funding to be distributed and used by this charter school in a manner that assures financial viability and success.
Minimum Direct Classroom Expenditures - O.C.G.A. 20-2-171	This waiver will allow resources to be used in a manner that aligns with program and instructional model of the School.
Program weights - O.C.G.A. 20-2-182, O.C.G.A. 20-2-184, O.C.G.A. 20-2-185, O.C.G.A. 20-2-186	This waiver will permit flexibility in how resources are used in classrooms for students with varying and diverse needs.

VII. STUDENT ADMISSIONS

29. How will students be admitted to the charter school?

29.a. School attendance zone.

The School's precise attendance zone has not been determined because the school facility has not been identified. Our intent is to locate the school in an area of DeKalb County with optimal accessibility for off-track or dropout students. Students will be accepted from throughout the School District, but it is anticipated that the majority of students will likely be transferring from the following DeKalb County high schools: Cedar Grove, Clarkston, Columbia, Druid Hills, Lakeside, Lithonia, McNair, MLK Jr., Redan, SW DeKalb, Stephenson, Stone Mountain, Towers and Tucker.

29.b. Enrollment priorities in the rank order the school will use them.

The following categories of students may receive enrollment priority in compliance with O.C.G.A. § 20-2-2066(a)(1): a) a sibling of a student enrolled in the start-up charter school, b) a student whose parent or guardian is a member of the governing board of the charter school, or c) a student whose parent or guardian is a full-time teacher, professional, or other employee at the charter school.

29.c. Rules, procedures, and timelines that will govern admission and registration.

The School will have open admission procedures and policies, which allows students to transfer from District schools or the community into the School at any time throughout the summer and during the regular school year. An Enrollment Office will be opened in April 2017. The application period shall be no less than thirty (30) consecutive days. A toll free number will be available seven (7) days per week so that parents and students can speak to a staff member at any time about questions they have regarding admission and registration into the program. Registration will not be denied to any eligible applicants on the basis of ethnicity, gender, national origin, or disability.

The School will guide interested students through the following process: Interested students will complete an application (see Appendix 22) and meet with the Enrollment Specialist. If there is space available, the student/parent will complete an enrollment packet (also in Appendix 22) and receive

information about the School. If there is not space available, the student's application will be entered into the lottery.

Following the registration process, student enrollment information will be entered into the DCSD automated system, then each student will participate in a 3-day student orientation program that includes information concerning programs, assessments, procedures, and expectations. The student will complete individualized assessments to determine academic skill levels and vocational interests. The student and parent will meet with appropriate school staff to review assessment information and establish the student's ISP.

29.d. Procedures for situations if student applications for admissions exceed available space.

If the number of applicants exceeds School capacity, applications will be placed on a list and a lottery drawing will be held. The drawing will be advertised, and open to the public. All applicants shall have a fair and equal chance of being admitted. The lottery will be advertised at least thirty (30) days prior to the drawing through various forms of media. The family will be notified if selected and given 48 hours to respond regarding interest in the available spot, then will have 7 days to complete the registration process. Students that are not selected during the drawing will remain on the waitlist and offered a spot when available.

The Principal or his/ her designee will manage the lottery process as follows and maintain appropriate documentation.

1. Each application will be time and date stamped, assigned a number, and all numbers will be placed in a container. Numbers will be drawn on a random basis by a neutral party. All slots will be filled based on the order of the drawing. The remaining numbers will be drawn and used to create the wait list.
2. There will be at least two (2) staff members present during the lottery drawing. The lottery will be publicly noticed and open to the public.
3. Students will be contacted in the order in which names were randomly drawn and established on the waiting list. The School will provide the School System with a listing of registered students and students placed on the wait list by March 1.

4. As openings arise throughout the year, the next student on the wait list will be offered the "space." The parent or eligible student will have seven (7) days to accept/refuse the opening and complete required documentation for registration. If the parent or eligible student does not respond, the space will go to the next student on the waiting list.

29.e. Outreach to students representative of the diversity in the school system?

In order to promote a neighborhood school environment representative of the local racial and socioeconomic diversity, the marketing strategy will start in the immediate area and then broaden to the mass market. Marketing to residents in the surrounding communities will be the primary focus and is detailed in the response below. In order to ensure strong demand, marketing will occur to all appropriate populations (e.g., geographic, ethnic, age, etc.).

We anticipate that the majority of students will live within a 5-mile radius of the School and, thus, will reflect the local community being served.

29.f. Student recruitment and enrollment.

Student recruitment will not be done in the traditional manner associated with charter school outreach and "marketing." In the early stages of the School's outreach to the community, materials and information will be distributed to the community; however, the emphasis in student enrollment will be establishing relationships between the School and DCSD principals and/or guidance counselors who will refer students to the School. School enrollment is expected to increase and be maintained because of relationships and trust established with DCSD high school principals and guidance counselors who will regard the School as a partner and resource for students. In all of the schools managed by our selected EMO, (ALS), local high school principals and guidance counselors are actively working with their principals to provide students with a graduation option that has the flexibility and support each student needs to earn a standard high school diploma. We believe the relationship between our proposed school and DCSD high school principals and guidance counselors needs to involve regular communication and coordination to address the circumstances and needs of individual students. This "relationship building" will be supplemented with the following activities:

1. Informational meetings with local community, civic, and religious organizations; community leaders; and other people who may be able to encourage families and students to enroll at the School;
2. Briefings with organizations such as Junior Achievement, Boys and Girls Clubs, and 100 Black Men of America to explain the program and establish a referral network;
3. Advertisements (including print, social media, billboards, and transit) in nearby neighborhoods;
4. Distribution of informational materials at community outreach events;
5. Toll-free enrollment information number posted on the School website and included on enrollment and outreach literature.

29.g. Proposed annual calendar and draft of the charter school's daily school schedule.

The charter school's proposed annual calendar and a draft of the charter school's daily school schedule are provided in Appendices 3 and 4.

VIII. FACILITIES

30. The school facility that the charter school proposes to use.

The school facilities have not yet been identified. Each will be located in an area of high need to fulfill the School's mission and purpose.***30.a. Is the facility new or existing? Describe the quantity and types of rooms.***

The mission of the School will be delivered on two campuses. The facilities have not been identified at this point, but will likely be existing and will be retrofitted to accommodate this program. The specially-designed facility will be approximately 12-15,000 square feet and is expected to include 8 classrooms, a flex room, offices for the Principal, Assistant Principal, special education teacher, reading coach, math coach, enrollment/ data specialist, executive assistant, and 3 offices for service providers. The facility will also include a 2 hour fire rated file room, men's and women's staff toilets, unisex visitor toilet, boy's and girl's student toilets, student break area, staff break/work room, janitor closet, IT server/telephone room, and storage. (See sample School Layout in Appendix 16).

30.b. Facility Renovations.

i. Compliance with applicable local zoning and building codes and timetable.

Once the preferred site is chosen (planned by October, 2016) for the first campus (opening in August 2017), lease discussions will move forward promptly. While the lease is being negotiated (should be completed by February, 2017), extensive building inspections and design considerations will take place by local engineers, contractors, ALS architects, and other staff. The School's Board of Directors will maintain oversight responsibility throughout the entire process.

Once the 2017 facility has been secured, the permitting and renovation process will begin. ALS has typically used local architects and contractors to complete all of the design and renovation work, and intends to follow the same process for the School. All approvals and the Certificate of Occupancy will be secured at least forty-five (45) days before the first day of school.

ii. Any rehabilitation work necessary for this site to meet applicable building codes.

Once facilities have been located and leases executed, the scope of work and timeline will be overseen by ALS's Vice President of Facilities and Development, Martin Fugardi. Mr. Fugardi joined the company after 31 years of successful construction experience in New Jersey, New York and Tennessee, including serving as a Project Engineer, Project Manager, Vice President and President. He has a Bachelor's degree in Civil Engineering from Worcester Polytechnic Institute, is a Licensed Professional Engineer in New Jersey, a General Contractor in 23 states, and is a member of the National Society of Professional Engineers and the Tennessee Society of Professional Engineers.

iii. Written verification that zoning and land use regulations will permit the operation of a public school on the premises.

It is expected that both facilities will require renovations to effectively deliver the proposed educational program. ALS will arrange funding for renovations, identifying a suitable location and developing the property. Renovations to an existing property will require the removal of all interior structures and construction of classrooms and support space. New walls, flooring surfaces, ceilings, electrical, technology infrastructure, HVAC, common spaces, and general building fixtures will be newly

installed. Renovations will comply with all applicable local zoning and building codes. Depending on the property identified, financing will be a combination of the options below:

1. Direct ALS financing through its own banking arrangements. Per the letter in Appendix 38, ALS anticipates it will finance tenant improvements, equipment, and other start-up and working capital needs up to $1,100,000 per campus at 3.0% interest. Advances will not be limited to this amount.
2. Landlord financing of tenant improvements

30.c. What is the location of the facility?

i. "Building Lease with Religious Organization Form"

The charter does not intend to lease or contract with a church or religious organization.

ii. Ownership or lease of the facility, or timeline for obtaining such facilities.

A typical school campus takes six weeks to design, eight to ten weeks to permit, and twelve weeks to build and secure a Certificate of Occupancy. ALS has developed and arranged for financing of over 25 school facilities using this program and instructional model. The timetable below describes the anticipated timing of the major steps in the facility acquisition, permitting, and renovation process for the first campus.

Activity	Responsible Party	Date
Begin Site Search	Accelerated Learning Solutions (ALS)	June 2016
Begin Lease Negotiations	ALS/Board of Directors	October 2016
Sign Memorandum of Understanding for Facility Lease or Purchase Agreement	Board of Directors	January 2017
Finalize school facility design	ALS	February 2017
Execute Facility Lease or Purchase Agreement	Board of Directors	February 2017
Begin Plans and Permits	ALS	February 2017
Begin Facility Renovation	ALS	March 2017
Facility Renovation Completed	Principal/ Board of Directors	August 2017
Set up Administrative and Classroom Space	Principal / ALS	August 2017

Activity	Responsible Party	Date
Verify all appropriate inspections and clearances including Certificate of Occupancy	Principal / ALS	August 2017 (at least 15 days prior to school opening)
School Opening	Principal	August 2017

30.d. Meeting the required space needed for the proposed school.

In order to meet the required space for the proposed school, the Governing Board is planning that each campus be sized at 65-70 square feet per student. Each campus will offer three 4-hour sessions each day. Thus, the facility design for each campus will be based on serving up to 200 students in each of 3 sessions, for a total capacity of 600 students. The selected site will accommodate each campus of the School through the initial charter term and at full capacity.

30.e. If applicable, schools must submit a School Site Selection Form for Site and Facility Approval.

The School Site Selection Form for Site and Facility Approval is not applicable at this time.

31. MOU for the facility pending charter school and facility approval.

31.a. The MOU should include the total proposed facility cost.

The facilities to be retrofitted have not been identified and therefore an MOU has not yet been executed but will include the total proposed cost.

31.b. The MOU should set forth any material terms that will be reflected in a lease.

The MOU will set forth the material terms that will be included in the lease.

32. Certificate of Occupancy (CO) for the proposed facility.

The School does not have a Certificate of Occupancy (CO) for a proposed school campus. The CO will be obtained no later than 45 days before the start of the charter term on July 1.

33. Emergency safety plan pursuant to O.C.G.A. § 20-2-1185 for the proposed facility.

33.a. Provide the school's emergency/safety plan in the Appendix.

The School does not yet have an emergency safety plan pursuant to O.C.G.A. § 20-2-1185 for the proposed school campus facilities. A plan will be submitted to the Georgia Emergency Management

Agency and DCSD no later than 45 days before the start of the charter term on July 1.

33.b. How all local and state policies related to health and safety will be met.

The School will comply with all local and state policies related to health and safety as will be detailed in the emergency/safety plan.

IX. STUDENT DISCIPLINE

34. Adoption of the DeKalb County School District's Student Code of Conduct.

34.a. Student discipline policies and procedures.

The School will adopt the DCSD Student Code of Conduct as the discipline policy.

34.b. Federal due process requirements for students with disabilities, or students believed to have a disability, who are suspended or removed for disciplinary reasons.

The School will follow the DCSD Code of Conduct due process requirements for students with disabilities, or students believed to have a disability, who are suspended or removed for disciplinary reasons.

34.c. Dress code policy.

- Students not dressed appropriately, in accordance with the Student Handbook and as outlined below, will have their parents contacted, and depending on the nature of the dress code infraction, may be sent home. No headgear including, but not limited to hats, caps, do-rags, stocking caps, satin bonnets, or sunglasses are allowed to be worn in the School.
- No bedroom slippers of <u>any kind</u>.
- Each student must maintain a neat, clean, and professional appearance at all times.

The Principal reserves the right to make exceptions to the dress code based on a student's physical disability or other conditions. Students not conforming to the dress code will not be admitted to School and will be deemed absent.

X. EMPLOYMENT AND HUMAN RESOURCES

35. Organization and management of faculty, instructional staff, and other employees.

The organizational structure of the School will facilitate the delivery of instructional and support services to students in an effective and efficient manner. Clearly defined responsibilities and

reporting lines will ensure that everyone understands their responsibilities in the success of the School. The Assistant Principal and all support staff, including the executive assistant, security specialist, enrollment specialist, family support specialist, career coach, and data specialist, will report directly to the Principal. All instructional staff will report to the Assistant Principal.

A copy of the Faculty Handbook is included in Appendix 22.

36. Staff Qualifications, Recruitment and Hiring Practices & Procedures, and Compensation

36.a. Employment policies and procedures.

[1] Staff Qualifications

All (100%) of the classroom teachers at the School will hold a valid Georgia teaching license. All faculty and staff will hold the licenses and fulfill the roles and responsibilities identified in their job descriptions; provide the services for which they are licensed, consistent with the mission of the School and the needs of its unique target population; and be subject to the hiring and firing authority of the Board.

[2] Employee Recruitment and Hiring

Employee recruitment will include a variety of strategies, but may be modified slightly for particular positions. A nationwide search will be conducted, including job postings in Education Week, Monster.com, CareerBuilder.com, the Atlanta Journal-Constitution, and other pertinent publications.

The steps in the hiring process will include the following, but may be modified slightly for particular positions: The Principal will review all resumes for teachers and staff. Screening interviews will be conducted by phone. First round interviews will be conducted with the Principal or Assistant Principal. Background and extensive reference checks will be conducted. Upon the return of a successful background check, an offer of employment will be extended to the candidate.

[3] Compensation

The School will assure that a competitive, comprehensive salary and benefit package is used

for attracting and retaining high- performing teachers, administrators, and other staff members. The Board will continuously monitor the employee benefits levels, salaries, and other factors to ensure that all high-quality employees remain on the job. The School will use the salary schedule provided in Appendix 22.

36.b. Job descriptions are a required Appendix item.

Job descriptions are provided in Appendix 29.

36.c. Salary schedule.

The School will use the salary schedule provided in Appendix 22.

36.d. Indicate if substitute teachers will be utilized, for which positions, and at what rate of pay.

Substitute teachers will be utilized and paid at an hourly rate comparable to the DCSD rate.

36.e. A salary schedule for all certified employees is a required Appendix item.

The School will use the salary schedule provided in Appendix 22.

36.f. For Conversion Charters: Adherence to current DCSD policies, procedures and standards

This School is not a conversion charter.

37. Addendum Question 3- Certification & High-Qualified Teachers
How the school will ensure the teachers meet the definition of "highly qualified."

Certification by the Georgia Professional Standards Commission (GAPSC) is required.

38. Background Checks

The School will conduct background and extensive reference checks, and will ensure that fingerprinting takes place prior to employee hiring.

39. Employee Evaluation: *Methods of employee evaluations that will be utilized.*

The Board will ensure that teachers are evaluated in alignment with the Teacher Keys Evaluation System (TKES). The Principal will conduct summative performance evaluations which will include three components: Teacher Performance on Standards (TAPS), Surveys of Instructional Practice, and Student Growth; and will result in an overall Teacher Effectiveness Measure (TEM). Ten (10) performance domains will serve as the basis for the evaluation and teachers will be rated using the performance

appraisal rubrics. Non-certified employees will receive an informal mid-year evaluation coupled with an annual end-of-year evaluation by the Principal.

40. Addendum Question 6- State Health Benefit Plan Participation:

The charter school elect not to participate in the State Health Benefit Plan.

XI. OTHER INFORMATION

41. Transportation services.

The School will ensure that transportation is not a barrier to any student and will ensure that its program complies with applicable law. The School will be serving students ages 16-21, and will locate along major lines of the public transportation system in order to use public transportation passes to meet the transportation requirements. Students who live beyond a reasonable distance from the School, or reside in a hazardous zone between the home and the School, may receive a public bus pass if they choose to accept it. The School has allocated funds for purchasing transit passes and will issue the passes to meet students' transportation needs. Students will be required to sign for each pass provided to them solely for the use of getting to/from School. In addition, transportation service will be provided by the School to any student whose IEP stipulates that this must occur. Should a student with a disability require special transportation accommodations, the School will contract with the school district or an approved private transportation provider.

42. Food services (including participation in the National School Lunch Program).

42.a. Food services program.

Because the school sessions are four hours, food services will not be provided.

42.b. If food services will not be provided, please indicate your plans for providing for student lunches.

Since the School will operate multiple four-hour sessions daily, there will not be enough time to serve meals; however, the School will ensure that eligible students receive (at no cost) a nutritious snack based on need. Snacks may include, but will not be limited to: commercially-packaged fruit and nut bars, chewy granola/yogurt bars, protein bars, oatmeal bars, and peanut butter bars. Healthy snacks will also be available in vending machines to all students.

43. Information on the school's legal representation or counsel.

The Board has hired as its legal counsel Christopher Adams, Krevolin and Horst, LLC (adams@hklawfirm.com, 404-888-9545).

43.a. Compliance with the requirements of law with respect to legal issues.

The Board's legal counsel, Christopher Adams, will advise the Board on legal issues including governance, reporting, and fiduciary responsibilities.

43.b. Review of the DCSD charter petitioner guidelines and petition document to be submitted.

Mr. Adams has reviewed the DCSD charter petitioner guidelines and petition document.

44. Insurance coverage.

An insurance quote is provided in Appendix 17. Copies of each school insurance policy shall be provided to the DCSD Charter School Office one month prior to the opening of the School.

45. Additional information to support the information presented.

Additional information has been included throughout with references to Appendices 31 – 38.

46. Letter of Assurances.

A signed Letter of Assurances is included behind the Table of Contents.

47. Conversion Charter School Petition Requirements

This School is not a conversion charter school.

48. High School Cluster Petition Requirements

This is not a petition for a high school cluster.

49. Petition Renewal Requirements and Executive Summary

This is not a petition renewal application.

Aug 2006 – Aug 2014 *Cisco Systems* *Atlanta, GA*

Software Development Manager

Settop Field Engineering and Legacy Development team:

- Lead group of 18 talented multidisciplined settop engineers, focused on triaging and coding resolutions to fielded settop software and issues associated to MSO operations. Our goal is shielding product development from ongoing field issues that would impact key future customer deliverables.
- The team partners with Sales, customer Program Managers and internal/site Management to deal with revenue impacting, high priority issues that require hyper focus and quick resolution for companies such as Comcast, Cox, Time Warner, Charter Communications, Verizon.
- Created internal processes to help prioritize issues and push through high impact solutions. Succeeded in reducing issue resolution from 50 to 30 days, with roughly 20 open cases at any time.
- Focused on talent management, engagement and upgrading team skills. Worked to develop a collaborative team environment, and empowered team with a high degree of flexibility and autonomy.
- Recently implemented a plan where 8 additional resources have been added to the group to take on development responsibilities for legacy settop products. Working closely with Product Management and customers to understand requirements, create schedules, and build cost estimates.
- Team works in an agile (scrum) environment, driving complex feature implementations to meet customer requirements, collaborating across business units. Working with internal and external test teams and quality assurance. We meet scheduled deadlines.

M-card Development team:

- Lead cross border software development team of 12 engineers in Atlanta and Chennai, India for Cable Labs certified M-Cards. This product is the key crossroads between encryption and OOB data .
- Work closely with customers, Principal Engineers, developers and test teams to ensure product software goals and schedules are met.
- Manage high-level customer issues related to BETAs and deployed M-Card SW and HW. Ranging from daily status calls with Management, to co-locating for trouble shooting and issue resolution.
- Involved in production process setup at factory for M-Card mass production, as well as dealing with RMA analysis.
- Led certification process for M-Card software through Cable Labs for various Cert Waves.
- Lead internal quality and development processes to ensure high quality, on time, software delivery.

DAILY SCHOOL SCHEDULE

The School will operate as a multiple session school with an extended instructional calendar. The School will offer up to three (3) four-hour sessions for instruction. Students will choose to regularly attend one of the sessions (or more as space permits). As illustrated below, the School will implement a schedule that aligns with its mission and program. Below is a typical daily schedule at the School.

School Daily Schedule	
Session I	7:30 a.m. – 11:30 a.m.
Session II	12:00 p.m. – 4:00 p.m.
Session III	4:00 p.m. – 8:00 p.m.

Since this is an individualized program, not all students will participate in the same learning activities or counseling programs at the same time or in the same order. Below, however, is a description of a typical day for students enrolled in our School:

- Arrive at school, sign the classroom attendance roster, review *MY SUCCESS*® Student and Parent Dashboard, and prepare for instruction.
- Teachers facilitate learning, provide direct instruction, monitor student progress, and help students address any non-mastery of key concepts. This may occur individually or in a large or small group as determined by the teacher to best meet students' needs.
- Students identified as requiring instructional support are assigned to intervention sessions.
    - Student may spend time with the Family Support Specialist or onsite service provider to address any social/personal barriers to learning.
- Student may spend time with the Career Coach in the College and Career Center to work on college and/or career planning, preparation, and postsecondary transition.
- Student will have the option to remain on campus for an extra session to accelerate progress through course work or participate in a certificate program.
- Depart School at end of learning session.

Supplemental Education Services

If the School is deemed a Title I school and is in need of corrective action, the School will provide Supplemental Education Services to the extent required by SBOE Rule 160-4-5-.03 and the Elementary and Secondary Education Act and/or any amendments thereto. Should the need arise, any contracts will be provided at that time.

Accelerated Learning Solutions Courses and Descriptions 2016-2017 School Year

Accelerated Learning Solutions offers its students a wide variety of courses delivered through a blended model of direct teacher instruction, courses delivered through content providers and a combination of both in some courses. Any content delivered through a content provider is directly monitored and supervised by a teacher certified in that field.

Math

Mathematics Support I (2008-2009 through 2010-2011 school year students only) 1.0 Credit

Intensive Math 1 offers a structured remediation solution based on the NCTM Curricular Focal Points and is designed to expedite student progress through 3rd-to 5th-grade skills. The course is appropriate for use as remediation for students in grades 6 to 12. When used in combination, Math Foundations I and Math Foundations II (covering grades 6 to 8) effectively remediate computational skills and conceptual understanding needed to undertake high school–level math courses with confidence.

Intensive Math 1 empowers students to progress at their optimum pace through over 80 semester hours of interactive instruction and assessment spanning 3rd-to 5th-grade math skills. Carefully paced, guided instruction is accompanied by interactive practice that is engaging and accessible. Formative assessments help students to understand areas of weakness and improve performance, while summative assessments chart progress and skill development. Early in the course, students develop general strategies to hone their problem-solving skills. Subsequent units provide a problem-solving strand that asks students to practice applying specific math skills to a variety of real-world contexts.

The content is based on the National Council of Teachers of Math (NCTM) April 2006 publication, Curricular Focal Points for Prekindergarten through Grade 8 Mathematics: A Quest for Coherence and is aligned to state standards.

Mathematics Support II (2008-2009 through 2010-2011 school year students only) 1.0 Credit

Based on the NCTM Curricular Focal Points, Intensive Math 2 is designed to expedite student progress through 6th-to 8th-grade skills. The course is appropriate for use as remediation at the high school level or as a bridge-to-high-school or as middle school curriculum. The program simultaneously builds the computational skills and the conceptual understanding needed to undertake high school–level math courses with confidence.

The course's carefully paced guided instruction is accompanied by interactive practice that is engaging and accessible. Formative assessments help students to understand areas of weakness and improve performance, while summative assessments chart progress and skill development. Algebra I: 1.0 Credit

Algebra I builds students' command of linear, quadratic, and exponential relationships. Students learn through discovery and application, developing the skills they need to break down complex challenges and demonstrate their knowledge in new situations.

Course topics include problem-solving with basic equations and formulas; measurement; an introduction to functions and problem solving; linear equations and systems of linear equations; exponents and exponential functions; sequences and functions; descriptive statistics; polynomials and factoring; quadratic equations and functions; and function transformations and inverses.

This course supports all students as they develop computational fluency, deepen conceptual understanding, and apply Common Core's eight mathematical practice skills. Students begin each lesson by discovering new concepts through guided instruction, and then confirm their understanding in an interactive, feedback-rich environment. Modeling activities equip students with tools for analyzing a variety of real-world scenarios and mathematical ideas. Journaling activities allow students to reason abstractly and quantitatively, construct arguments, critique reasoning, and communicate precisely. Performance tasks prepare students to synthesize their knowledge in novel, real-world scenarios and require that they make sense of multifaceted problems and persevere in solving them. Throughout the course students are evaluated through a diversity of assessments specifically designed to prepare them for the content, form, and depth of the Common Core assessments.

This course is aligned with the Common Core State Standards for Mathematics.

Algebra II 1.0 Credit

Algebra II introduces students to advanced functions, with a focus on developing a strong conceptual grasp of the expressions that define them. Students learn through discovery and application, developing the skills they need to break down complex challenges and demonstrate their knowledge in new situations.

Course topics include quadratic equations; polynomial functions; rational expressions and equations; radical expressions and equations; exponential and logarithmic functions; trigonometric identities and functions; modeling with functions; probability and inferential statistics; probability distributions; and sample distributions and confidence intervals.

This course supports all students as they develop computational fluency, deepen conceptual understanding, and apply Common Core's eight mathematical practice skills. Students begin each lesson by discovering new concepts through guided instruction, and then confirm their understanding in an interactive, feedback-rich environment. Modeling activities equip students with tools for analyzing a variety of real-world scenarios and mathematical ideas. This course is aligned with the Common Core State Standards for Mathematics.

Geometry: 1.0 Credit

Geometry builds upon students' command of geometric relationships and formulating mathematical arguments. Students learn through discovery and application, developing the skills they need to break down complex challenges and demonstrate their knowledge in new situations.

Course topics include reasoning, proof, and the creation of sound mathematical arguments; points, lines, and angles; triangles and trigonometry; quadrilaterals and other polygons; circles; congruence, similarity, transformations, and constructions; coordinate geometry; three-dimensional solids; and applications of probability.

This course supports all students as they develop computational fluency, deepen conceptual understanding, and apply Common Core's eight mathematical practice skills. Students begin each lesson by discovering new concepts through guided instruction, and then confirm their understanding in an interactive, feedback-rich environment. Modeling activities equip students with tools for analyzing a variety of real-world scenarios and mathematical ideas. Journaling activities allow students to reason abstractly and quantitatively, construct arguments, critique reasoning, and communicate precisely. Throughout the course students are evaluated through a diversity of assessments specifically designed to prepare them for the content, form, and depth of the Common Core assessments.

This course is aligned with the Common Core State Standards for Mathematics.

Precalculus: 1.0 Credit

Precalculus is a course that combines reviews of algebra, geometry, and functions into a preparatory course for calculus. The course focuses on the mastery of critical skills and exposure to new skills necessary for success in subsequent math courses. The first semester includes linear, quadratic, exponential, logarithmic, radical, polynomial, and rational functions; systems of equations; and conic sections. The second semester covers trigonometric ratios and functions; inverse trigonometric functions; applications of trigonometry, including vectors and laws of cosine and sine; polar functions and notation; and arithmetic of complex numbers.

Within each Precalculus lesson, students are supplied with a post-study "Checkup" activity, providing them the opportunity to hone their computational skills by working through a low-stakes problem set before moving on to a formal assessment. Unit-level Precalculus assessments include a computer-scored test and a scaffolded, teacher-scored test.

The content is based on the National Council of Teachers of Mathematics (NCTM) standards and is aligned to state standards.

Math I 1.0 Credit

Mathematics I builds students' command of geometric knowledge and linear and exponential relationships. Students learn through discovery and application, developing the skills they need to break down complex challenges and demonstrate their knowledge in new situations.

Course topics include relationships between quantities; linear and exponential relationships; reasoning with equations; descriptive statistics; congruence, proof, and constructions; and connecting algebra and geometry through coordinates.

This course supports all students as they develop computational fluency, deepen conceptual understanding, and apply Common Core's eight mathematical practice skills. Students begin each lesson by discovering new concepts through guided instruction, and then confirm their understanding in an interactive, feedback-rich environment. Modeling activities equip students with tools for analyzing a variety of real-world scenarios and mathematical ideas. Journaling activities allow students to reason abstractly and quantitatively, construct arguments, critique reasoning, and communicate precisely. Throughout the course students are evaluated through a diversity of assessments specifically designed to prepare them for the content, form, and depth of the Common Core assessments.

This course is aligned with the Common Core State Standards for Mathematics.

Math II 1.0 Credit

Mathematics II extends students' geometric knowledge and introduces them to quadratic expressions, equations, and functions, exploring the relationship between these and their linear and exponential counterparts. Students learn through discovery and application, developing the skills they need to break down complex challenges and demonstrate their knowledge in new situations.

Course topics include extending the number system; quadratic functions and modeling; expressions and equations; applications of probability; similarity, right-triangle trigonometry, and proof; and circles with and without coordinates.

This course supports all students as they develop computational fluency, deepen conceptual understanding, and apply Common Core's eight mathematical practice skills. Students begin each lesson by discovering new concepts through guided instruction, and then confirm their understanding in an interactive, feedback-rich environment. Modeling activities equip students with tools for analyzing a variety of real-world scenarios and mathematical ideas. course students are evaluated through a diversity of assessments specifically designed to prepare them for the content, form, and depth of the Common Core assessments.

This course is aligned with the Common Core State Standards for Mathematics.

Math III 1.0 Credit

Mathematics III incorporates advanced functions, trigonometry, and probability and statistics as students synthesize their prior knowledge and solve increasingly challenging problems. Students learn through discovery and application, developing the skills they need to break down complex challenges and demonstrate their knowledge in new situations.

Course topics include formulating inferences and conclusions from data; polynomial, rational, and radical relationships; trigonometry of general triangles and trigonometric functions; and mathematical modeling.

This course supports all students as they simultaneously develop computational fluency, deepen conceptual understanding, and apply Common Core's eight mathematical practice skills. Students begin each lesson by discovering new concepts through guided instruction, and then confirm their understanding in an interactive, feedback-rich environment. Modeling activities equip students with tools for analyzing a variety of real-world scenarios and mathematical ideas. Mathematics of Finance 1.0 Credit

Mathematics of Finance focuses on real-world financial literacy, personal finance, and business subjects. Students apply what they learned in Algebra I and Geometry to topics including personal income, taxes, checking and savings accounts, credit, loans and payments, car leasing and purchasing, home mortgages, stocks, insurance, and retirement planning.

Students then extend their investigations using more advanced mathematics, such as systems of equations (when studying cost and profit issues) and exponential functions (when calculating interest problems). To assist students for whom language presents a barrier to learning or who are not reading at grade level, Mathematics of Personal Finance includes audio resources in both Spanish and English.

This course is aligned with state standards as they apply to Mathematics of Personal Finance and adheres to the National Council of Teachers of Mathematics' (NCTM) Problem Solving, Communication, Reasoning, and Mathematical Connections Process standards.

Semesters 1 and 2: Required
TI-84 Plus, TI-83, or TI-83 Plus Calculator

CCGPS Coordinate Algebra

Coordinate Algebra deepens and extends students' command of linear and exponential relationships as well as geometric concepts and skills. Students learn through discovery and application, developing the skills they need to break down complex challenges and demonstrate their knowledge in new situations. Course topics include modeling relationships between quantities; linear and exponential relationships; reasoning with equations; descriptive statistics; congruence and transformations; and connecting algebra and geometry through coordinates.

This course supports all students as they simultaneously develop computational fluency, deepen conceptual understanding, and apply the eight Mathematical Practice Standards. Students begin each lesson by discovering new concepts through guided instruction, and they then confirm their understanding in an interactive, feedback-rich environment. Modeling activities equip students with tools for analyzing a variety of real-world scenarios and mathematical ideas. Journaling activities allow students to reason abstractly and quantitatively, construct arguments, critique reasoning, and communicate precisely. Performance tasks help students synthesize their knowledge in novel, real-world scenarios that require them to make sense of multifaceted problems and persevere in solving them. Throughout the course, students are evaluated through a diversity of assessments specifically designed to prepare them for the content, form, and depth of Georgia's End of Course Test.

This course is aligned with the Common Core Georgia Performance Standards for Mathematics.

CCGPS Analytical Geometry

Analytic Geometry extends students' geometric knowledge and introduces them to quadratic expressions, equations, and functions, and helps them explore the relationship between these and their linear and exponential counterparts. Students learn through discovery and application, developing the skills they need to break down complex challenges and demonstrate their knowledge in new situations. Course topics include extending the number system; quadratic functions and modeling; expressions and equations; applications of probability; similarity, right triangle trigonometry, and proofs; and circles with and without coordinates.

This course supports all students as they simultaneously develop computational fluency, deepen conceptual understanding, and apply the eight Mathematical Practice Standards. Throughout the course, students are evaluated through a diversity of assessments specifically designed to prepare them for the content, form, and depth of Georgia's End of Course Test.

This course is aligned with the Common Core Georgia Performance Standards for Mathematics.

CCGPS Advanced Algebra

Advanced Algebra incorporates advanced functions, trigonometry, and probability and statistics as students synthesize their prior knowledge in order to solve increasingly challenging problems. Students learn through discovery and application, developing the skills they need to break down complex challenges and demonstrate their knowledge in new situations. Course topics include formulating inferences and conclusions from data; polynomial, rational, and radical relationships; trigonometry of general triangles; and mathematical modeling.

This course supports all students as they simultaneously develop computational fluency, deepen conceptual understanding, and apply the eight Mathematical Practice Standards. Students begin each lesson by discovering new concepts through guided instruction, and they then confirm their understanding in an interactive, feedback-rich environment. Modeling activities equip students with tools for analyzing a variety of real-world scenarios and mathematical ideas. This course is aligned with the Common Core Georgia Performance Standards for Mathematics.

Concepts of Probability and Statistics: 0.5 Credit

Probability and Statistics provides a curriculum focused on understanding key data analysis and probabilistic concepts, calculations, and relevance to real-world applications. Through a "Discovery-Confirmation-Practice"-based exploration of each concept, students are challenged to work toward a mastery of computational skills, deepen their conceptual understanding of key ideas and solution strategies, and extend their knowledge in a variety of problem-solving applications.

This course covers topics such as types of data; common methods used to collect data; and the various representations of data, including histograms, bar graphs, box plots, and scatterplots. Students learn to work with data by analyzing and employing methods of prediction, specifically involving samples and populations, distributions, summary statistics, regression analysis, transformations, simulations, and inference.

Ideas involving probability — including sample space, empirical and theoretical probability, expected value, and independent and compound events — are covered as students explore the relationship between probability and data analysis. The connection between geometry and probability is explored through basic geometric probability.

To assist students for whom language presents a barrier to learning or who are not reading at grade level, Probability and Statistics includes audio resources in English.

The content is based on the National Council of Teachers of Mathematics (NCTM) standards and is aligned with state standards.

Science

Earth Science 1.0 Credit

Earth Science offers a focused curriculum that explores Earth's composition, structure, processes, and history; its atmosphere, freshwater, and oceans; and its environment in space. Topics include an exploration of the major cycles that affect every aspect of life, including weather, climate, air movement, tectonics, volcanic eruptions, rocks, minerals, geologic history, Earth's environment, sustainability, and energy resources. Optional teacher-graded labs encourage students to apply the scientific method.

The content is based on the National Science Teachers Association (NSTA) standards and is aligned to state standards.

Physical Science: 1.0 Credit

Physical Science offers a focused curriculum designed around the understanding of critical physical science concepts, including the nature and structure of matter, the characteristics of energy, and the mastery of critical scientific skills. Topics include an introduction to kinematics, including gravity and two-dimensional motion; force; momentum; waves; electricity; atoms; the Periodic Table of Elements; molecular bonding; chemical reactivity; gases; and an introduction to nuclear energy. Teacher-graded labs encourage students to apply the scientific method.

The content is based on the National Science Teachers Association (NSTA) standards and is aligned to state standards.

Biology I: 1.0 Credit

Biology focuses on the mastery of basic biological concepts and models while building scientific inquiry skills and exploring the connections between living things and their environment.

The course begins with an introduction to the nature of science and biology, including the major themes of structure and function, matter and energy flow, systems, and interconnectedness of life. Students then apply those themes to the structure and function of the cell, cellular metabolism, and biogeochemical cycles. Building on this foundation, students explore the connections and interactions between living things by studying genetics, ecosystems and natural selection, and evolution. The course ends with an applied look at human biology.

Scientific inquiry skills are embedded in the direct instruction, wherein students learn to ask scientific questions, form and test hypotheses, and use logic and evidence to draw conclusions about the concepts.

Lab activities reinforce critical thinking, writing, and communication skills and help develop a deeper understanding of the nature of science.

The content is based on the National Science Education Standards (NSES) and is aligned to state standards.

Chemistry: 1.0 Credit

Chemistry offers a curriculum that facilitates students' understanding of chemistry concepts and critical scientific skills. Topics include the nature of matter; the structure of atoms and molecules; bond formations; the qualitative and quantitative aspects of chemical reactivity; the physical and chemical properties of solids, liquids, and gases; the states of matter; phase transitions; equilibrium; kinetics; thermodynamics; electrochemistry; nuclear chemistry; and an introduction to organic chemistry. Teacher-graded labs encourage students to apply the scientific method.

The content is based on the National Science Teachers Association (NSTA) standards and is aligned to state standards.

Physics 1: 1.0 Credit

Physics offers a curriculum that emphasizes students' understanding of fundamental physics concepts while helping them acquire tools to be conversant in a society highly influenced by science and technology.

The course provides students with opportunities to learn and practice critical scientific skills within the context of relevant scientific questions. Topics include the nature of science, math for physics, energy, kinematics, force and motion, momentum, gravitation, chemistry for physics, thermodynamics, electricity, magnetism, waves, nuclear physics, quantum physics, and cosmology.

Scientific inquiry skills are embedded in the direct instruction, wherein students learn to ask scientific questions, form and test hypotheses, and use logic and evidence to draw conclusions about the concepts. Lab activities reinforce critical thinking, writing, and communication skills and help students develop a deeper understanding of the nature of science.

Throughout this course, students are given an opportunity to understand how physics concepts are applied in technology and engineering. Journal and Practice activities provide additional opportunities for students to apply concepts learned in Studies and practice their writing skills.

The content is based on the American Association for the Advancement of Science (AAAS) Project 2061 benchmarks and the National Science Education Standards and is aligned with state standards.

Psychology: 0.5 Credit

Psychology provides a solid overview of the field’s major domains: methods, biopsychology, cognitive and developmental psychology, and variations in individual and group behavior.

By focusing on significant scientific research and on the questions that are most important to psychologists, students see psychology as an evolving science. Each topic clusters around challenge questions, such as “What is happiness?” Students answer these questions before, during, and after they interact with direct instruction.

Students learn about all the domains the American Psychological Association (APA) emphasizes: methods, biopsychology, cognitive and developmental psychology, and variations in individual and group behavior.

The content is based on the American Psychological Association’s National Standards for High School Psychology Curricula. The teaching methods draw from the National Science Teachers Association (NSTA) teaching standards.

English

Basic Reading/Writing I: 1.0 Credit

Intensive Language Arts 1 supports adolescent literacy development at the critical stage between decoding and making meaning from text. Through intensive reading and writing skills instruction, deep practice sets, consistent formative feedback, graduated reading levels, and helpful strategy tips, the course leads students to improved comprehension and text handling.

Semester 1 provides instruction in basic reading skills and vocabulary building. The student learns what a successful reader does to attack words and sentences and make meaning from them. Semester 2 provides instruction in basic writing skills, introduces academic tools, and demonstrates effective study skills. The student learns step-by-step processes for building effective paragraphs and learns how to use academic tools such as reference books and outlines. To provide additional support, the course uses text features and visual clues to draw students’ attention to important information. The use of text features is also designed to help students internalize strategies for comprehending informational text.

Characters appear throughout the instruction to offer tips and fix-up strategies in an authentic, first-person, think-aloud format. Their inclusion makes transparent the reading processes that go on inside the mind of a successful reader. This extra metacognitive support serves to bolster student confidence and provide a model of process and perseverance.

Numerous practice opportunities are provided in the form of assessments that move from no stakes to low stakes to high stakes throughout a unit. This practice is centered on authentic and age-appropriate passages that are written in a topical framework and use controlled syntax and vocabulary. The difficulty of these passages gradually increases from a 3rd-to 5th grade reading level over the duration of the course. Additional support is offered through significant formative feedback in practice and assessment.

This course guides students through the reading, writing, and basic academic skills needed to prepare for success in academic coursework. At the end of the course, the student should be poised for continued success in the academic world. The content is based on extensive national and state

standards research and consultation with reading specialists and classroom teachers. It aligns to state standards for reading and writing and to NCTE/IRA reading and writing standards.

Basic Reading/Writing: 1.0 Credit

Intensive Language Arts II offers a year of skill building and strategy development in reading and writing. Semester one is a reading program designed to help struggling readers develop mastery in the areas of reading comprehension, vocabulary building, study skills, and media literacy. Semester two is a writing program which builds confidence in composition fundamentals by focusing on the areas of composing, grammar, style, and media literacy. Both semesters are structured around ten mini-units which offer interactive instruction and guided practice in each of the four learning strands. Students read for a variety of purposes and write for a variety of audiences. The workshops stress high interest, engaging use of technology, relevant topics, and robustly scaffolded practice. Students learn to use different types of graphic organizers as they develop and internalize reading and writing process strategies. They build confidence as they develop skills and experience success on numerous low stakes assessments that encourage growth and reinforce learning.

The reading program content is based on the National Council of Teachers of English (NCTE), International Reading Association (IRA), National Reading Program (NRP), and McREL, standards and aligned to state standards. The writing program is based on the National Council of Teachers of English (NCTE) standards and aligned to state standards.

Ninth Grade Literature/and Composition

Ninth Grade Literature/and Composition provides an introduction to informational and literary genres and lays a foundation of critical reading and analytical writing skills. Through texts that range from essays, speeches, articles and historical documents to a novel, a play, poetry and short stories, students analyze the use of elements of literature and nonfiction. As they develop their writing skills and respond to claims, students learn to formulate arguments and use textual evidence to support their position. To hone their listening and speaking skills, students engage with a variety of media types through which they analyze and synthesize information, discuss material, create presentations, and share their work.

Ninth Grade Literature/and Composition supports all students in developing the depth of understanding and higher order skills required by the Common Core. Students break down increasingly complex readings with close reading tools, guided instruction and robust scaffolding as they apply each of the lesson's concepts back to its anchor text. Students build their writing and speaking skills in journal responses, discussions, frequent free response exercises, and essays or presentations, learning to communicate clearly and credibly in narrative, argumentative, and explanatory styles. Throughout the course students are evaluated through a diversity of assessments specifically designed to prepare them for the content, form, and depth of the Common Core assessments.

This course is aligned with the Common Core State Standards for English Language Arts.

Tenth Grade Literature/and Composition

Tenth Grade Literature/and Composition builds upon students' foundation of critical reading and analytical writing skills. Through texts that range from investigative journalism, essays, articles and historical documents to a novel, drama, poetry and short stories, students analyze the use of elements of literature and nonfiction. As they develop their writing skills and respond to claims, students learn to refine arguments and organize evidence to support their position. To hone their listening and speaking skills, students engage with a variety of media types through which they analyze and synthesize information, discuss material, create presentations, and share their work.

Tenth Grade Literature/and Composition supports all students in developing the depth of understanding and higher order skills required by the Common Core. This course is aligned with the Common Core State Standards for English Language Arts.

American Literature/Composition

In American Literature/Composition, students examine the belief systems, events, and literature that have shaped the United States. Starting with the Declaration of Independence, students explore how the greatest American literature tells the stories of individuals who have struggled for independence and freedom: freedom of self, freedom of thought, freedom of home and country. Students reflect on the role of the individual in Romantic and Transcendentalist literature that considers the relationship between citizens and government, and they question whether the American Dream is still achievable while examining Modernist disillusionment with American idealism. As well, reading the words of Frederick Douglass and those of the Civil Rights Act, students look carefully at the experience of African Americans and their struggle to achieve equal rights. Finally, students reflect on how individuals cope with the influence of war, cultural tensions, and technology in the midst of trying to build and secure their own personal identity.

American Literature/Composition supports all students in developing the depth of understanding and higher order skills required by the Common Core. Students break down increasingly complex readings with close reading tools, guided instruction, and robust scaffolding as they apply each of the lesson's concepts back to its anchor text. This course is aligned with the Common Core State Standards for English Language Arts.

World Literature/Composition

World Literature/Composition asks students to delve into the mingled history of British and World literature. It asks students to imagine: Face to face with a human being unlike any you've seen before, do you feel fear, awe, or curiosity? Do you look for what you can give, what you can take, or what you can share? Do you find unfamiliar people and customs magical, mysterious, or monstrous? Students explore how humans interact with and influence each other — historically, socially, and otherwise — and examine the complexities of cultural identity in our global and fast-changing world.

World Literature/Composition supports all students in developing the depth of understanding and higher order skills required by the Common Core. Students break down increasingly complex readings with close reading tools, guided instruction, and robust scaffolding as they apply each of the lesson's concepts back to its anchor text. Students build their writing and speaking skills in journal responses, discussions, frequent free response exercises, and essays or presentations, learning to communicate clearly and credibly in narrative, argumentative, and explanatory styles. Throughout the course, students are evaluated through a diversity of assessments specifically designed to prepare them for the content, form, and depth of the Common Core assessments.

This course is aligned with the Common Core State Standards for English Language Arts

Writers Workshop 1.0 Credit

Creative Writing is an English elective course that focuses on the exploration of short fiction and poetry, culminating in a written portfolio that includes one revised short story and three to five polished poems. Students draft, revise, and polish fiction and poetry through writing exercises, developing familiarity with literary terms and facility with the writing process as they study elements of creative writing.

Elements of fiction writing explored in this course include attention to specific detail, observation, character development, setting, plot, and point of view. In the poetry units, students learn about the use of sensory details and imagery, figurative language, and sound devices including rhyme, rhythm and alliteration. They also explore poetic forms ranging from found poems and slam poetry to traditional sonnets and villanelles.

In addition to applying literary craft elements in guided creative writing exercises, students engage in critical reading activities designed to emphasize the writing craft of a diverse group of authors. Students study short stories by authors such as Bharati Mukherjee and Edgar Allan Poe, learning how to create believable characters and develop setting and plot. Likewise, students read poetry by canonical greats such as W. B. Yeats and Emily Dickinson as well as contemporary writers such as Pablo Neruda, Sherman Alexie, and Alice Notley. Studying the writing technique of a range of authors provides students with models and inspiration as they develop their own voices and refine their understanding of the literary craft.

By taking a Creative Writing course, students find new approaches to reading and writing that can affect them on a personal level, as the skills they gain in each lesson directly benefit their own creative goals. Students who are already actively engaged writers and readers learn additional tools and insight into the

craft of writing to help them further hone their skills and encourage their creative as well as academic growth.

All English elective content is based on the National Council of Teachers of English (NCTE) standards.

Technology and Society: (0.5 Credit) 1 Semester

Technology and Society teaches students how to build the critical thinking, writing, and reading skills required in a media-rich and increasingly techno-centric world. In a world saturated with media messages, digital environments, and social networking, concepts of literacy must expand to include all forms of media. Today's students need to be able to read, comprehend, analyze, and respond to non-traditional media with the same skill level they engage with traditional print sources.

A major topic in Social Media is non-traditional media reading skills, including how to approach, analyze, and respond to advertisements, blogs, websites, social media, news media, and wikis. Students also engage in a variety of writing activities in non-traditional media genres, such as blogging and podcast scripting.

Students consider their own positions as consumers of media and explore ways to use non-traditional media to become more active and thoughtful citizens. Students learn how to ask critical questions about the intended audience and underlying purpose of media messages, and study factors which can contribute to bias and affect credibility.

The course content is based on The National Association for Media Literacy Education's Core Principles of Media Literacy Education, as well as aggregate state standards and research into best pedagogical practices.

Social Studies

Geography and World Cultures: 0.5 credit

Geography and World Cultures offers a tightly focused and scaffolded curriculum that enables students to explore how geographic features, human relationships, political and social structures, economics, science and technology, and the arts have developed and influenced life in countries around the world. Along the way, students are given rigorous instruction on how to read maps, charts, and graphs, and how to create them.

Geography and World Cultures is based on standards from the National Council for History Education (1997), the National Center for History in the Schools (1996), and the National Council for Social Studies (1994) and is aligned to state standards.

Geography and World Cultures is designed as the first course in the social studies sequence. It develops note-taking skills, teaches the basic elements of analytic writing, and introduces students to the close examination of primary documents.

World History: 1.0 Credit

World History offers a tightly focused and scaffolded curriculum that uses multiple perspectives to trace the development of civilizations around the world from prehistory to the present. The course covers major events in world history, including the development and influence of human-geographic relationships, political and social structures, economics, science and technology, and the arts. Students investigate the major religions and belief systems throughout history and learn about the importance of trade and cultural exchange. Other topics include the development of agriculture, the spread of democracy, the rise of nation-states, the industrial era, the spread of imperialism, and the issues and conflicts of the 20th century. Students learn to use primary historical documents as evidence as they learn about past events.

World History is designed as the second course in the social studies sequence. Students develop confidence in their analytic writing through a scaffolded sequence of short analytic pieces and short essays, including document-based questions. Primary documents are embedded in the instruction to encourage students to make frequent connections to evidence from the past.

The content is based on standards from the National Council for History Education (1997), the National Center for History in the Schools (1996), and the National Council for Social Studies (1994) and is aligned to state standards.

U.S. History: 1.0 Credit

U.S. History traces the nation's history from the pre-colonial period to the present. Students learn about the Native American, European, and African people who lived in America before it became the United States. They examine the beliefs and philosophies that informed the American Revolution and the subsequent formation of the government and political system. Students investigate the economic, cultural, and social motives for the nation's expansion, as well as the conflicting notions of liberty that eventually resulted in civil war. The course describes the emergence of the United States as an industrial nation and then focuses on its role in modern world affairs.

Moving into the 20th and 21st centuries, students probe the economic and diplomatic interactions between the United States and other world players while investigating how the world wars, the Cold War, and the "information revolution" affected the lives of ordinary Americans. Woven through this chronological sequence is a strong focus on the changing conditions of women, African Americans, and other minority groups.

The course emphasizes the development of historical analysis skills such as comparing and contrasting, differentiating between facts and interpretations, considering multiple perspectives, and analyzing cause-and-effect relationships. These skills are applied to text interpretation and in written assignments that guide learners step-by-step through problem-solving activities.

The content is based on standards from the National Council for History Education (1997), the National Center for History in the Schools (1996), and the National Council for Social Studies (1994) and is aligned to state standards.

American Government and Civics: 0.5 Credit

American Government and Civics offers a tightly focused and scaffolded curriculum that uses the perspective of political institutions to explore the history, organization, and functions of the U.S. government. Beginning with basic theories of government, moving to the Declaration of Independence, and continuing to the present day, the course explores the relationship between individual Americans and the governing bodies. It covers the political culture of the country and gains insight into the challenges faced by presidents, congressional representatives, and other political activists. It also covers the roles of political parties, interest groups, the media, and the Supreme Court.

U.S. Government and Politics is designed to fall in the fourth year of social studies instruction. Students perfect their analytic writing through a scaffolded series of analytic assignments and written lesson tests. Students read annotated primary documents and apply those documents to the course content.

The content is based on standards from the National Council for History Education (1997), the National Center for History in the Schools (1996), and the National Council for Social Studies (1994) and is aligned to state standards.

Economics: .5 Credit

Economics develops students' economic reasoning through an analysis of the U.S. economy, the global economy, and personal finance. The course covers fundamental principles of economics, including an examination of markets from both historical and current perspectives; the basics of supply and demand; the theories of early economic philosophers such as Adam Smith and David Ricardo; theories of value; the concept of money and how it evolved; the role of banks, investment houses, and the Federal Reserve; Keynesian economics; the productivity, wages, investment, and growth involved in capitalism; unemployment, inflation, and the national debt; and a survey of markets in areas such as China, Europe, and the Middle East. The course extends students' understanding of these principles in the context of personal finance, exploring issues such as career planning, budgeting, credit, taxes, investing, insurance, loans, and major purchases.

In the course, students hone their analytic writing through a scaffolded series of written assignments. They also apply basic mathematics to economic concepts. Students read selections from annotated primary documents and apply those readings to the course content. Journal activities provide introspective opportunities for students to apply concepts on a personal scale as well as analyze scenarios from a third-party perspective. Discussions help students network with each other by sharing personalized strategies and goals and recognizing the diversity of life and career plans within a group.

Ethnic Studies: 0.5 Credit

Ethnic Studies is a one-semester elective history and sociology course that examines the United States as a multicultural nation. The course emphasizes the perspectives of minority groups while allowing students from all backgrounds to better understand and appreciate how race, culture and ethnicity, and identity contribute to their experiences.

Major topics in the course include identity, immigration, assimilation and distinctiveness, power and oppression, struggles for rights, regionalism, culture and the media, and the formation of new cultures.

In online Discussions and Polls, students reflect critically on their own experiences as well as those of others. Interactive multimedia activities include personal and historical accounts to which students can respond using methods of inquiry from history, sociology, and psychology. Written assignments and Journals provide opportunities for students to practice and develop skills for thinking and communicating about race, culture, ethnicity, and identity.

The content and skill focus of this interdisciplinary course is based on the National Council for the Social Studies (NCSS) Expectations of Excellence: Curriculum Standards for Social Studies as well as the National Standards for History published by the National Center for History in Schools (NCHS).

Sociology: 0.5 Credit

Sociology examines why people think and behave as they do in relationships, groups, institutions, and societies.

Major course topics include individual and group identity, social structures and institutions, social change, social stratification, social dynamics in recent and current events, the effects of social change on individuals, and the research methods used by social scientists.

In online discussions and polls, students reflect critically on their own experiences and ideas, as well as on the ideas of sociologists. Interactive multimedia activities include personal and historical accounts to which students can respond, using methods of inquiry from sociology. Written assignments provide opportunities to practice and develop skills in thinking and communicating about human relationships, individual and group identity, and all other major course topics.

The course content is based on the National Council for the Social Studies (NCSS) Expectations of Excellence: Curriculum Standards for Social Studies.

World Languages

French I: 1.0 Credit

French I teaches students to greet people, describe family and friends, talk about hobbies, and communicate about other topics, such as sports, travel, and medicine. Each lesson presents vocabulary, grammar, and culture in context, followed by explanations and exercises. Vocabulary includes terms to describe school subjects, parts of the body, and people, as well as idiomatic phrases. Instruction in language structure and grammar includes the verb system, adjective agreement, formal and informal address, reflexive verbs, and past tense. Students also gain an understanding of the cultures of French-speaking countries and regions within and outside Europe, as well as insight into Francophone culture and people.

The material in this course is presented at a moderate pace.

The content is based on the American Council on the Teaching of Foreign Languages (ACTFL) standards.

French II: 1.0 Credit

French II teaches students to communicate more confidently about themselves, as well as about topics beyond their own lives -both in formal and informal address. Each lesson presents vocabulary, grammar, and culture in context, followed by explanations and exercises. Vocabulary includes terms in cooking, geography, and architecture. Instruction in language structure and grammar includes present-and past-tense verb forms and uses, negation, and direct and indirect objects. Students deepen their knowledge of French-speaking regions and cultures by learning about history, literature, culture, and contemporary issues.

The material in this course is presented at a moderate pace.

The content is based on the American Council on the Teaching of Foreign Languages (ACTFL) standards.

Spanish I: 1.0 Credit

Spanish I teaches students to greet people, describe family and friends, talk about hobbies, and communicate about other topics, such as home life, occupations, travel, and medicine. Each lesson presents vocabulary, grammar, and culture in context, followed by explanations and exercises. Vocabulary includes terms to describe school subjects, parts of the body, and people, as well as idiomatic phrases. Instruction in language structure and grammar includes the structures and uses of present-tense verb forms, imperatives, adjective agreement, impersonal constructions, formal and informal address, and reflexive verbs. Students explore words used in different Spanish-speaking regions and learn about the cultures of Spanish-speaking countries and regions within and outside Europe.

The material in this course is presented at a moderate pace.

The content is based on the American Council on the Teaching of Foreign Languages (ACTFL) standards.

Spanish II: 1.0 Credit

Building on Spanish I concepts, Spanish II students learn to communicate more confidently about themselves, as well as about topics beyond their own lives -both in formal and informal situations. Each lesson presents vocabulary, grammar, and culture in context, followed by explanations and exercises. Students expand their vocabulary in topics such as cooking, ecology, geography, and architecture. Instruction in language structure and grammar includes a review of present-tense verb forms, an introduction to the past tense, the conditional mood, imperatives, impersonal constructions, and reported speech. Students deepen their knowledge of Spanish-speaking regions and cultures by learning about history, literature, culture, and contemporary issues.

The material in this course is presented at a moderate pace.

The content is based on the American Council on the Teaching of Foreign Languages (ACTFL) standards.

Spanish III: 1.0 Credit

In Spanish III, students build upon the skills and knowledge they acquired in Spanish I and II. The course presents new vocabulary and grammatical concepts in context while providing students with ample opportunities to review and expand upon the material they have learned previously.

Students read and listen to authentic materials from newspapers, magazines, and television. The content is focused on contemporary and relevant topics such as urbanization and population growth in Latin American countries, global health concerns, jobs of the future, and scientific advancements. The materials engage students as they improve their command of Spanish.

Students review the formation and use of regular and irregular verbs in the present and future tenses, as well as the use of reflexive particles and infinitives. They also expand their understanding of noun and adjective agreement, the comparative and superlative degree of adjectives, and the placement and use of direct and indirect objects and pronouns. Students expand their vocabulary through exposure to word roots and families, popular slang, the correct use of words that are often confused for one another, and review of concepts such as proper placement of accents and stress.

Presentation of new materials is always followed by several interactive, online exercises, allowing students to master the material as they learn it. Teacher-scored activities provide students with opportunities to use their new Spanish skills both orally and in writing. Discussion activities allow students to interact with their peers in the target language.

The content is based on the American Council on the Teaching of Foreign Languages (ACTFL) standards.

Fine Arts

Art Appreciation: .5 Credit

Art Appreciation is a survey of the history of Western visual arts, with a primary focus on painting. Students begin with an introduction to the basic principles of painting and learn how to critique and compare works of art. Students then explore prehistoric and early Greek and Roman art before they move on to the Middle Ages. Emphasis is placed on the Renaissance and the principles and masters that emerged in Italy and northern Europe. Students end their art tour with the United States during the 20th century, a time of great innovation as abstract art took center stage. While Western art is the course's primary focus, students will also be exposed to art of Asia and the Americas.

Coverage of each artistic movement highlights historical context and introduces students to key artists that represent a variety of geographic locations. Throughout the course, students apply what they have learned about art critique to analyze and evaluate both individual artists and individual works of art.

Art Appreciation is based on national standards developed by the Consortium of National Arts Education Associations, as well as key state standards. It encompasses a variety of skills to enable students to critique, compare, and perhaps influence their own works of art.

Music of the World: (1.0 Credit) 2 Semesters

Music of the World is based on Apex Learning's Music Appreciation course. Music Appreciation is a streamlined course that introduces student to the history, theory, and genres of music, from the most primitive surviving examples, through the classical to the most contemporary in the world at large. The course is offered in a two-semester format: The first semester covers primitive musical forms, classical music, and American jazz. The second semester presents the rich modern traditions, including: gospel, folk, soul, blues, Latin rhythms, rock and roll, and hip-hop.

The course explores the interface of music and social movements and examines how the emergent global society and the Internet is bringing musical forms together in new ways from all around the world.

Students complete either a performance practicum or a listening practicum throughout the course. The performance practicum requirement can be met by participation in supervised instrumental or vocal lessons, participation in a church or community choirs, community musical performances, or anything that is structured to meet at regular intervals and legitimately provides opportunities for students to build vocal and/or instrumental skills. The listening practicum requires students to listen to a variety of music genres and comment. Parents or guardians will be required to validate their children's regular participation in the chosen performance or listening practicum.

Physical Education and Health

Physical Education: 0.5 credit

Physical Education combines the best of online instruction with actual student participation in weekly cardiovascular, aerobic, and muscle toning activities. The course promotes a keen understanding of the value of physical fitness and aims to motivate students to participate in physical activities throughout their lives.

Specific areas of study include: Cardiovascular exercise and care, safe exercising, building muscle strength and endurance, injury prevention, fitness skills and FITT benchmarks, goal setting, nutrition and diet (vitamins and minerals, food labels, evaluation product claims), and stress management. The course requires routine participation in adult-supervised physical activities. Successful completion of this course will require parent/legal guardian sign-off on student-selected physical activities and on weekly participation reports to verify the student is meeting his or her requirements and responsibilities.

Physical Education is aligned to national and state standards and the Presidential Council on Physical Fitness and Sports.

Skills for Health: 0.5 credit

Skills for Health is a valuable, skills-based health education course designed for general education in grades 9 through 12. Skills for Health helps students develop knowledge, attitudes, and essential skills in a variety of health-related subjects, including mental and emotional health; nutrition; physical activity;

substance use and abuse; injury prevention and safety; and personal health, environmental conservation, and community health resources.

Through use of accessible information and real-life simulations, students apply the seven health skills. These include access to valid health information; self-management; analysis of internal and external influences; interpersonal communication; decision-making; goal setting; and advocacy. Students who complete Skills for Health build the skills they need to protect, enhance, and promote their own health and the health of others.

The content is based on the National Science Teachers Association (NSTA) standards and is aligned to state standards.

College and Career

Jobs for Georgia Graduates Work Ethics: 1.0 Credit

The purpose of this course is to provide students with an opportunity to experience success in school and improve attitudes and behaviors towards learning, self, school and community. Through enrollment in this class, students (and their families) are connected with public and private health, employment, counseling and social services. The private sector is involved in the collaboration in a variety of ways. These include tutoring of students, mentoring, serving as guest speakers or workshop leaders, donating materials/equipment/facilities, providing financial/in-kind support for motivation and recognition awards, offering work experience or job-shadowing opportunities, funding scholarships. Institutions of higher education also join the partnership by providing interns, tutors, mentors and scholarships.

Personal, Career, School Development IV: 1.0 Credit

College and Career Preparation I

High school students have many questions about the college application process, what it takes to be a successful college student, and how to begin thinking about their careers.

In College and Career Preparation I, students obtain a deeper understanding of what it means to be ready for college. Students are informed about the importance of high school performance in college admissions and how to prepare for college testing. They know the types of schools and degrees they may choose to pursue after high school and gain wide exposure to the financial resources available that make college attainable.

Career readiness is also a focus. Students connect the link between interests, college majors, and future careers by analyzing career clusters. Students come away from this course understanding how smart preparation and skill development in high school can lead into expansive career opportunities after they have completed their education and are ready for the working world.

Students who complete College and Career Preparation I have the basic skills and foundation of knowledge to progress into College and Career Preparation II, the capstone course that provides hands-on information about the transition from high school to college and career.

The course is based on the American School Counselors Association National Standards for school counseling programs.

College and Career Preparation II

High school students have many questions about the college application process, what it takes to be a successful college student, and how to begin thinking about their careers.

College and Career Preparation II builds on the lessons and skills in College and Career Preparation I. The course provides a step-by-step guide to choosing a college. It walks students through the process of filling out an application, including opportunities to practice, and takes an in-depth look at the various college-admission tests and assessments, as well financial aid options.

College and Career Preparation II also instructs students in interviewing techniques and provides career guidance. Students explore valuable opportunities such as job shadowing and internships when preparing for a career.

Students who complete this course obtain a deeper understanding of college and career readiness through informative, interactive critical thinking and analysis activities while sharpening their time management, organization, and learning skills that they learned in College and Career Preparation I.

College and Career Preparation II prepares students with the knowledge and skills to be successful in college and beyond.

The course is based on the American School Counselors Association National Standards for school counseling programs.

Computer Applications 1 BCS-CA1: 1.0 Credit

Introduction to Information Technology prepares students to succeed in the workplace. Students begin by establishing an awareness of the roles essential to an organization's success, and then work to develop an understanding of professional communications and leadership skills. In doing so, students gain proficiency with word processing, email, and presentation management software. Students will also be able to demonstrate digital literacy through basic study of computer hardware, operating systems, networking, the Internet, web publishing, spreadsheets and database software.

This course allows students to explore careers in information technology and business while learning skills applicable to any professional setting. Through a series of hands-on activities, students will create, analyze, and critique reports, letters, project plans, presentations, and other professional communications. Students will learn what to expect in the field of Information Technology and begin exploring career options in the field. Regular engagement in active learning ensures students can continually refine the skills necessary to prepare them for work. In addition, students will evaluate the qualifications required for specific careers so they can identify opportunities that are of interest to them.

Principles of Information Technology is a full-year introductory Career and Technical Education course applicable to programs of study in business, management, and administration; information technology; and other career clusters. This course is aligned with state and national standards. Students who successfully complete the course will be prepared to pursue the Microsoft® Office Specialist certifications in Microsoft Word, Microsoft Excel and Microsoft Access*, as well as IC3 certification.

Program of Education and Career Exploration (PECE): 0.5 credit

The purpose of this course is to provide a practical introduction to the work environment through direct contact with professionals in the community.
The content should include, but not be limited to, the following:

- discussion of professional job requirements
- awareness and knowledge of career opportunities
- building vocabulary appropriate to the area of professional interest
- development of decision-making skills
- development of personal and educational job-related skills

Community Service/Learning I: 0.5 Credit

The purpose of this course is to develop an appreciation of the concept of service to the community and to develop skills necessary to evaluate the impact of service to others.
The content should include, but not be limited to, the following:

- identification of school community based needs
- organized response to identified needs
- the opportunity to examine and explore public service occupations and information regarding specific employment opportunities available
- methods that require students to identify, organize, and use resources appropriately
- interpersonal relationships and improved personal growth
- the ability to acquire and use information -an understanding of social, organizational, and technological systems
- acquiring skills to work with a variety of tools and equipment.
- improve personal qualities and higher-order thinking skills.
- development and implementation of a personal plan for involvement in school or community service

Honors Courses

Honors courses are standards-based general studies courses that meet the needs of motivated students seeking to accelerate their learning and deepen conceptual understanding. With many opportunities to apply, extend, and synthesize knowledge, Honors courses are ideally suited to prepare students for the rigors of Advanced Placement* courses. Each semester course offers 90–120 hours of interactive direct instruction, guided practice, and robust enrichment, with integrated formative, summative, and diagnostic assessment.

*Advanced Placement is a registered trademark of the College Board.

Math

Algebra I Honors: 1.0 Credit

Algebra I is a comprehensive course that provides an in-depth exploration of key algebraic concepts. Through a "Discovery-Confirmation-Practice" based exploration of algebraic concepts, students are challenged to work toward a mastery of computational skills, to deepen their conceptual understanding of key ideas and solution strategies, and to extend their knowledge in a variety of problem-solving applications. Course topics include an Introductory Algebra review; measurement; an introduction to functions; problem solving with functions; graphing; linear equations and systems of linear equations; polynomials and factoring; and data analysis and probability.

Within each Algebra I lesson, students are supplied with a post-study "Checkup" activity, providing them the opportunity to hone their computational skills in a low-stakes, 10-question problem set before moving on to a formal assessment. Additionally, many Algebra I lessons include interactive-tool-based

exercises and/or math explorations to further connect lesson concepts to a variety of real-world contexts.

To further assist students for whom language presents a barrier to learning, this course includes audio resources in both Spanish and English.

The content is based on the National Council of Teachers of Mathematics (NCTM) standards and is aligned to state standards.

Algebra II Honors: 1.0 Credit

Algebra II is a comprehensive course that builds on the algebraic concepts covered in Algebra I and prepares students for advanced-level courses. Through a "Discovery-Confirmation-Practice" based exploration of intermediate algebra concepts, students are challenged to work toward a mastery of computational skills, to deepen their conceptual understanding of key ideas and solution strategies, and to extend their knowledge in a variety of problem-solving applications. Course topics include conic sections; functions, relations, and their graphs; quadratic functions; inverse functions; and advanced polynomial functions. Students also cover topics relating to rational, radical, exponential, and logarithmic functions; sequences and series; and data analysis and probability.

Within each Algebra II lesson, students are supplied with a post-study "Checkup" activity, providing them the opportunity to hone their computational skills in a low-stakes, 10-question problem set before moving on to a formal assessment. Additionally, many Algebra II lessons include interactive-tool-based exercises and/or math explorations to further connect lesson concepts to a variety of real-world contexts.

The content is based on the National Council of Teachers of Mathematics (NCTM) standards and is aligned to state standards.

Geometry Honors: 1.0 Credit

Geometry is a comprehensive course that provides an in-depth exploration of geometric concepts. Through a "Discovery-Confirmation-Practice" based exploration of geometric concepts, students are challenged to work toward a mastery of computational skills, to deepen their conceptual understanding of key ideas and solution strategies, and to extend their knowledge in a variety of problem-solving applications. Course topics include reasoning, proof, and the creation of a sound mathematical argument; points, lines, and angles; triangles; quadrilaterals and other polygons; circles; coordinate geometry; and three-dimensional solids. The course concludes with a look at special topics in geometry, such as constructions, symmetry, tessellations, fractals, and non-Euclidean geometry.

Within each Geometry lesson, students are supplied with a post-study "Checkup" activity, providing them the opportunity to hone their computational skills in a low-stakes, 10-question problem set before moving on to a formal assessment. Additionally, many Geometry lessons include interactive-tool-based exercises and/or math explorations to further connect lesson concepts to a variety of real-world contexts.

To further assist students for whom language presents a barrier to learning, this course includes audio resources in both Spanish and English.

The content is based on the National Council of Teachers of Mathematics (NCTM) standards and is aligned to state standards.

Precalculus Honors: 1.0 Credit

Precalculus is a comprehensive course that weaves together previous study of algebra, geometry, and functions into a preparatory course for calculus. The course focuses on the mastery of critical skills and exposure to new skills necessary for success in subsequent math courses. The first semester includes linear, quadratic, exponential, logarithmic, radical, polynomial, and rational functions; systems of equations; and conic sections. The second semester covers trigonometric ratios and functions; inverse trigonometric functions; applications of trigonometry, including vectors and laws of cosine and sine; polar functions and notation; and arithmetic of complex numbers.

Within each Precalculus lesson, students are supplied with a post-study "Checkup" activity, providing them the opportunity to hone their computational skills in a low-stakes problem set before moving on to a formal assessment. Additionally, connections are made throughout the Precalculus course to calculus, art, history, and a variety of other fields related to mathematics.

The content is based on the National Council of Teachers of Mathematics (NCTM) standards and is aligned to state standards.

Science

Earth Science Honors: 1.0 Credit

Earth Science is a robust course that explores Earth's composition, structure, processes, and history; its atmosphere, freshwater, and oceans; and its environment in space. Students are encouraged to look at Earth science from both personal and worldly perspectives and to analyze the social implications of the topics covered. Laboratory experiments introduce students to different lab techniques while building their skills in critical thinking, inquiry, and observation. Topics include an exploration of the major cycles that affect every aspect of life, including weather, climate, air movement, tectonics, volcanic eruptions, rocks, minerals, geologic history, Earth's environment, sustainability, and energy resources.

The content is based on the National Science Teachers Association (NSTA) standards and is aligned to state standards.

Physical Science Honors: 1.0 Credit

Physical Science is a thorough course that provides students with an understanding of the nature and structure of matter, the characteristics of energy, and the societal implications of physical science concepts. Using the scientific method — observation, data collection, analysis, hypothesis, and conclusion — students are encouraged to extend their knowledge through the development of scientific explanations, hypotheses, and conclusions. Topics include an introduction to kinematics, including

gravity and two-dimensional motion; force; momentum; waves; electricity; atoms; the Periodic Table of Elements; molecular bonding; chemical reactivity; gases; and an introduction to nuclear energy.

The content is based on the National Science Teachers Association (NSTA) standards and is aligned to state standards.

Biology Honors: 1.0 Credit

Biology is an in-depth course that furthers mastery of scientific skills, fosters a deep understanding of key concepts, and promotes the application of the scientific method to biological topics.

The course begins with an introduction to the nature of science and biology, including the major themes of structure and function, matter and energy flow, systems, and interconnectedness of life. Students then apply those themes to the structure and function of the cell, cellular metabolism, and biogeochemical cycles. Building on this foundation, students explore the connections and interactions between living things by studying genetics, ecosystems and natural selection, and evolution. The course ends with an applied look at human biology.

Lab activities reinforce critical thinking, writing, and communication skills and help develop a deeper understanding of the nature of science.

Biology students are frequently asked to respond to scientific problems and issues via written assignments. Moreover, Exploration activities challenge Honors students to deconstruct scientific claims, analyze scientific articles, and suggest follow-up experiments or topics for further research.

The content is based on the National Science Education Standards (NSES) and is aligned to state standards.

Chemistry Honors: 1.0 Credit

Chemistry is a rigorous course that begins with an overview of chemistry concepts and critical scientific skills. Students then extend their knowledge by applying the scientific method — observation, data collection, analysis, hypothesis, and conclusion. They are encouraged to look at chemistry from both personal and worldly perspectives and to analyze the social implications of the topics covered. Topics include the nature of matter; the structure of atoms and molecules; bond formations; the qualitative and quantitative aspects of chemical reactivity; physical and chemical properties of solids, liquids, and gases; states of matter; phase transitions; equilibrium; kinetics; thermodynamics; electrochemistry; nuclear chemistry; and an introduction to organic chemistry.

The content is based on the National Science Teachers Association (NSTA) standards and is aligned to state standards.

Physics Honors: 1.0 Credit

Physics offers a curriculum that emphasizes students' understanding of fundamental physics concepts while helping them acquire tools to be conversant in a society highly influenced by science and technology.

The course provides students with opportunities to learn and practice critical scientific skills within the context of relevent scientific questions. Topics include the nature of science, math for physics, energy, kinematics, force and motion, momentum, gravitation, chemistry for physics, thermodynamics, electricity, magnetism, waves, nuclear physics, quantum physics, and cosmology.

Scientific inquiry skills are embedded in the direct instruction, wherein students learn to ask scientific questions, form and test hypotheses, and use logic and evidence to draw conclusions about the concepts. Lab activities reinforce critical thinking, writing, and communication skills and help students develop a deeper understanding of the nature of science.

Throughout this course, students are given an opportunity to understand how physics concepts are applied in technology and engineering. Journal and Practice activities provide additional opportunities to apply concepts learned in the Studies and practice their writing skills.

Exploration activities challenge students to deconstruct scientific claims, analyze scientific articles, and suggest follow-up experiments or topics for further research.

The content is based on the American Association for the Advancement of Science (AAAS) Project 2061 benchmarks and the National Science Education Standards and is aligned with state standards.

English

English I Honors: Introduction to Literature and Composition: 1.0 Credit

Introduction to Literature and Composition covers literature study, reading, writing, and language. Students explore literature from around the world, including the following genres: short story, poetry, memoir, autobiography, drama, and epic. They read examples of informational writing, such as a letter, Web site, magazine article, newspaper article, speech, editorial, and movie or book review. Along the way, they acquire and practice reading skills and strategies that are directly applicable to these literary and informational reading materials. In addition, students develop and practice writing and language skills. They employ the writing process to create narrative, expository, and persuasive compositions. They also learn to create and evaluate media presentations and oral presentations and to fine-tune their listening skills.

The content is based on the National Council of Teachers of English (NCTE) standards and is aligned to state standards.

English II Honors: Critical Reading and Effective Writing: 1.0 Credit

Critical Reading and Effective Writing offers a balanced curriculum that develops both academic and life skills. Concepts are presented in creative and lively ways that reinforce learning goals and engage students. Literary selections include short fiction and poetry from around the globe, Shakespearean and

modern drama, and contemporary novels. Nonfiction selections feature historical correspondence, diaries, logs, and famous courtroom arguments. Life reading skills target forms, applications, and work-related communication. Throughout both semesters, students build active reading strategies as they question, predict, clarify, and evaluate events and ideas presented in text.

The writing program builds confidence in young writers by targeting control of organization, effective sentences, and word choice. Students compose using the writing process. Grammar review and vocabulary development are included in every unit.

The content is based on the National Council of Teachers of English (NCTE) standards and is aligned to state standards.

English III Honors: American Literature: 1.0 Credit

American Literature is a general studies program in literature and composition, organized as a survey of American literature. It can stand alone as a complete year of general study in English without a specific prerequisite, but its modular design allows flexibility in how the program is used in the classroom; teachers may use a single unit, lesson, or activity to supplement regular class content. American Literature expands upon and deepens understanding of literary and communication skills covered in Critical Reading and Effective Writing, including reading, writing, language appreciation and aesthetics, listening and speaking, viewing and representing, and research.

Within these general topic areas, special emphasis is placed on writing expository, research, and creative compositions; honing critical and analytic skills through close readings of literary, historical, expository, and functional documents; using context strategies and an understanding of etymology to build vocabulary; and practicing communication skills in online discussions.

Reading selections cover a variety of genres and voices in literature and expository prose. Students read a survey of American literature from colonial to contemporary eras. They are encouraged to respond critically and personally to these works and to use them as a context for thinking about the unique and universal aspects of culture. They learn and practice skills for workplace communication in special activities. Finally, students practice gathering, evaluating, synthesizing, presenting, and documenting information in a unit dedicated to writing research reports.

The content is based on the National Council of Teachers of English (NCTE) standards and is aligned to state standards.

English IV Honors: British and World Literature: 1.0 Credit

British and World Literature offers a survey of British literature that illustrates the origins of English-language literature and reflects its reach beyond the British Isles. The course is standards-based. Each activity correlates to state standards in six core areas: reading, writing, language (appreciation and aesthetics), listening and speaking, viewing and representing (including media literacy), and research. The course gives students meaningful practice in fundamental literacy skills while introducing them to classics of British and world literature. Throughout the course, students are encouraged to think and

respond independently, critically, and creatively to the subject matter, whether it's a work of literature, a piece of nonfiction writing, or a media work. The course emboldens students to approach these works — both on their own terms and within a larger context

— while providing them with the tools and encouragement they need in order to do so.

The content is based on the National Council of Teachers of English (NCTE) standards and is aligned to state standards.

Social Studies

World History Honors: 1.0 Credit

World History is a robust, writing-intensive course that uses multiple perspectives to trace the development of civilizations around the world from prehistory to the present. Students are encouraged to use their knowledge of critical points in history to develop their points of view and apply what they have learned to the promotion of civic action in a rapidly globalizing world. The course explores how human-geographic relationships, political and social structures, economics, science and technology, and the arts have developed and influenced life in these civilizations. Students investigate the major religions and belief systems throughout history and learn about the importance of trade and cultural exchange. Other topics include the development of agriculture, the spread of democracy, the rise of nation-states, the industrial era, the spread of imperialism, and the issues and conflicts of the 20th century.

World History is designed as the second course in the social studies sequence. Students continue to improve their analytic writing and develop confidence by writing multiple short analytic pieces and longer essays, including document-based questions. Primary documents are embedded in the instruction to encourage students to make frequent connections to evidence from the past.

The content is based on standards from the National Council for History Education (1997), the National Center for History in the Schools (1996), and the National Council for Social Studies (1994) and is aligned to state standards.

U.S. History Honors: 1.0 Credit

U.S. History traces the nation’s history from the pre-colonial period to the present. Students learn about the Native American, European, and African people who lived in America before it became the United States. They examine the beliefs and philosophies that informed the American Revolution and the subsequent formation of the government and political system. Students investigate the economic, cultural, and social motives for the nation’s expansion, as well as the conflicting notions of liberty that eventually resulted in civil war. The course describes the emergence of the United States as an industrial nation and then focuses on its role in modern world affairs.

Moving into the 20th and 21st centuries, students probe the economic and diplomatic interactions between the United States and other world players while investigating how the world wars, the Cold

War, and the “information revolution” affected the lives of ordinary Americans. Woven through this chronological sequence is a strong focus on the changing conditions of women, African Americans, and other minority groups.

The course emphasizes the development of historical analysis skills such as comparing and contrasting, differentiating between facts and interpretations, considering multiple perspectives, and analyzing cause-and-effect relationships. These skills are applied to text interpretation and in written assignments that guide learners step-by-step through problem-solving activities.

Students perfect their ability to use logic and evidence to create persuasive written arguments in five-paragraph essays and in shorter exercises such as document-based questions and analytic discussions.

The content is based on standards from the National Council for History Education (1997), the National Center for History in the Schools (1996), and the National Council for Social Studies (1994) and is aligned to state standards.

U.S. Government and Politics Honors: 0.5 credit

U.S. Government and Politics is a vigorous, writing-intensive course that uses the perspective of political institutions to explore the history, organization, and functions of the U.S. government. Students are encouraged to use their knowledge of the structures and processes of governing to develop their own views on current political issues and apply what they have learned to the promotion of civic action. Beginning with basic theories of government, moving to the Declaration of Independence, and continuing to the present day, the course explores the relationship between individual Americans and the governing bodies. It looks closely at the political culture of the country and gains insight into the challenges faced by presidents, congressional representatives, and other political activists. It also covers the roles of political parties, interest groups, the media, and the Supreme Court.

U.S. Government and Politics is designed to fall in the fourth year of social studies instruction. Students perfect their analytic writing through a series of analytic assignments and written lesson tests. Students perform frequent close readings of primary documents and apply those documents to the course content.

The content is based on standards from the National Council for History Education (1997), the National Center for History in the Schools (1996), and the National Council for Social Studies (1994) and is aligned to state standards.

U.S. and Global Economics Honors: 0.5 Credit

U.S. and Global Economics is a wide-ranging course that provides an introduction to key economic principles. Students gain an understanding of choices they must make as producers, consumers, investors, and taxpayers. They have ample opportunity to develop their points of view and apply what they learn to the promotion of civic action. Topics include an examination of markets from both historical and current perspectives; the basics of supply and demand; the theories of early economic philosophers such as Adam Smith and David Ricardo; theories of value; the concept of money and how it

evolved; the role of banks, investment houses, and the Federal Reserve; Keynesian economics; the productivity, wages, investment, and growth involved in capitalism; unemployment, inflations, and the national debt; and a survey of markets in areas such as China, Europe, and the Middle East.

U.S. and Global Economics is designed to fall in the fourth year of social studies instruction. Students perfect their analytic writing through a series of analytic assignments and written lesson tests. They also apply basic mathematics to economic concepts. Students read extensive selections from crucial primary documents and apply those readings to the course content.

The content is based on standards from the National Council for History Education (1997), the National Center for History in the Schools (1996), and the National Council for Social Studies (1994) and is aligned to state standards.

World Languages

French I Honors: 1.0 Credit

Balanced between the thematic and communicative approaches to learning language, French I teaches students to greet people, describe family and friends, talk about hobbies, and communicate about other topics, such as sports, travel, and medicine. Each lesson presents vocabulary, grammar, and culture in context, followed by explanations and exercises. Vocabulary includes terms to describe school subjects, parts of the body, and people, as well as idiomatic phrases. Instruction in language structure and grammar includes the verb system, adjective agreement, formal and informal address, reflexive verbs, and past tense. Students also gain an understanding of the cultures of French-speaking countries and regions within and outside Europe, as well as insight into Francophone culture and people.

The content is based on the American Council on the Teaching of Foreign Languages (ACTFL) standards.

French II Honors: 1.0 Credit

Building on French I concepts, French II students learn to communicate more confidently about themselves, as well as about topics beyond their own lives — both in formal and informal address. Balanced between the thematic and communicative approaches to learning language, each lesson presents vocabulary, grammar, and culture in context, followed by explanations and exercises. Vocabulary includes terms in cooking, geography, and architecture. Instruction in language structure and grammar includes verb conjugations and uses in the present tense, past tense, and imperative and conditional moods, as well as direct and indirect objects and personal, possessive, and relative pronouns. Students deepen their knowledge of French-speaking regions and cultures by learning about history, literature, culture, and contemporary issues. To further connect to French culture and people, students are encouraged to view supplementary materials on the Web or to consult community resources or other media.

The content is based on the American Council on the Teaching of Foreign Languages (ACTFL) standards.

Spanish I Honors: 1.0 Credit

Spanish I covers the five Cs of the ACTFL standard: communication, cultures, connections, comparisons, and communities. The instruction is balanced between the thematic and communicative approaches to learning language. Spanish I students learn to greet people, describe family and friends, talk about hobbies, and communicate about other topics, such as ecology, travel, and medicine. Each lesson presents vocabulary, grammar, and culture in context, followed by explanations and exercises. Vocabulary includes terms to describe school subjects, parts of the body, and people, as well as idiomatic phrases. Instruction in language structure and grammar includes the verb system, adjective agreement, formal and informal address, reflexive verbs, and past tense. Students explore words used in different Spanish-speaking regions, and they learn about the cultures of Spanish-speaking countries and regions within and outside Europe. Web explorations give students further insight into the culture and people of the Spanish-speaking world, including the United States.

Spanish I is balanced between the thematic and communicative approaches to learning language. The content is based on the American Council on the Teaching of Foreign Languages (ACTFL) standards.

Spanish II Honors: 1.0 Credit

Spanish II covers the five Cs of the ACTFL standard: communication, cultures, connections, comparisons, and communities. The instruction is balanced between the thematic and communicative approaches to learning language. Leveraging Spanish I concepts, Spanish II students learn to communicate more confidently about themselves and their hopes and fears, as well as about topics beyond their own lives — both in formal and informal situations.

Each lesson presents vocabulary, grammar, and culture in context, followed by explanations and exercises.

Students expand their vocabulary in cooking, geography, and architecture. Instruction in language structure and grammar includes verb forms, tenses, moods and uses, impersonal constructions, and reported speech.

Students deepen their knowledge of Spanish-speaking regions and cultures by learning about history, literature, culture, and contemporary issues. Students also are encouraged to consult materials outside the course, such as Web links, community resources, or other media, to better understand Spanish-speaking culture and people.

Spanish II is balanced between the thematic and communicative approaches to learning language. The content is based on the American Council on the Teaching of Foreign Languages (ACTFL) standards.

Advanced Placement Courses

Authorized by the College Board, Apex Learning Advanced Placement* courses meet higher-education expectations of college-level courses and prepare students to demonstrate achievement through success on the AP* exams. Courses target highly motivated students who are reading at grade level or above and who have a track record of success in high school coursework. Each semester course offers

approximately 120–150 hours of direct instruction and integrated formative, summative, and diagnostic assessment. *Advanced Placement and AP are registered trademarks of the College Board.

Math

AP Calculus AB: 1.0 Credit

In AP* Calculus AB, students learn to understand change geometrically and visually (by studying graphs of curves), analytically (by studying and working with mathematical formulas), numerically (by seeing patterns in sets of numbers), and verbally. Instead of simply getting the right answer, students learn to evaluate the soundness of proposed solutions and to apply mathematical reasoning to real-world models. Calculus helps scientists, engineers, and financial analysts understand the complex relationships behind real-world phenomena. The equivalent of an introductory college-level calculus course, AP Calculus AB prepares students for the AP Exam and further studies in science, engineering, and mathematics.

This course has been authorized by the College Board to use the AP designation.

AP Statistics: 1.0 Credit

AP* Statistics gives students hands-on experience collecting, analyzing, graphing, and interpreting real-world data. They will learn to effectively design and analyze research studies by reviewing and evaluating real research examples taken from daily life. The next time they hear the results from another poll or study, they will know whether the results are valid. As the art of drawing conclusions from imperfect data and the science of real world uncertainties, statistics plays an important role in many fields. The equivalent of an introductory college-level course, AP Statistics prepares students for the AP Exam and for further study in science, sociology, medicine, engineering, political science, geography, and business.

This course has been authorized by the College Board to use the AP designation.

Science

AP Biology: 1.0 Credit

In AP Biology, students build the conceptual framework necessary to understand science as a process. The course is divided into three sections with correlating laboratory exercises: molecules and cells; heredity and evolution; and organisms and populations. Students will also explore evolution, energy transfer, continuity and change, the relationship of structure to function, regulation, interdependence in nature, and the balance of science, technology, and nature. The equivalent of an introductory college-level biology course, AP Biology prepares students for the AP exam and for further study in health sciences.

This course requires students to complete hands-on lab activities that do not depend on access to a supervised laboratory facility. It is appropriate both for distance-learning students as well as those in a school setting.

This course has been authorized by the College Board to use the AP* designation and has been approved as meeting all requirements for a laboratory science course.

AP Chemistry: 1.0 Credit

AP* Chemistry builds students' understanding of the nature and reactivity of matter. After studying the structure of atoms, molecules, and ions, students move on to solve quantitative chemical problems and explore how molecular structure relates to chemical and physical properties. Students will examine the molecular composition of common substances and learn to predictably transform them through chemical reactions. The equivalent of an introductory college-level chemistry course, AP Chemistry prepares students for the AP exam and for further study in science, health sciences, or engineering.

This course requires students to complete hands-on lab activities that depend on access to supervised laboratory facilities.

AP Psychology: 0.5 Credit

AP* Psychology provides an overview of current psychological research methods and theories. Students will explore the therapies used by professional counselors and clinical psychologists and examine the reasons for normal human reactions: how people learn and think, the process of human development and human aggression, altruism, intimacy, and self-reflection. They'll study core psychological concepts, such as the brain and sense functions, and learn to gauge human reactions, gather information, and form meaningful syntheses. Along the way, students will also investigate relevant concepts like study skills and information retention. The equivalent of a 100-level college survey course, AP Psychology prepares students for the AP Exam and for further studies in psychology and life sciences.

This course has been authorized by the College Board to use the AP designation.

English

AP English Language and Composition: 1.0 Credit

In AP* English Language and Composition, students learn to understand and analyze complex styles of writing by reading works from a variety of authors. They'll explore the richness of language, including syntax, imitation, word choice, and tone. They'll also learn about their own composition style and process, starting with exploration, planning, and writing, and continuing through editing, peer review, rewriting, polishing, and applying what they learn to a breadth of academic, personal, and professional contexts. The equivalent of an introductory college-level survey class, this course prepares students for the AP Exam and for further study in communications, creative writing, journalism, literature, and composition.

This course has been authorized by the College Board to use the AP designation

AP English Literature and Composition: 1.0 Credit

AP* English Literature and Composition immerses students in novels, plays, poems, and short stories from various periods. Students will read and write daily, using a variety of multimedia and interactive activities, interpretive writing assignments, and class discussions to assess and improve their skills and knowledge. The course places special emphasis on reading comprehension, structural and critical analysis of written works, literary vocabulary, and recognizing and understanding literary devices. The equivalent of an introductory college-level survey class, this course prepares students for the AP Exam and for further study in creative writing, communications, journalism, literature, and composition.

This course has been authorized by the College Board to use the AP designation.

Social Studies

AP Macroeconomics: 0.5 credit

AP* Macroeconomics students learn why and how the world economy can change from month to month, how to identify trends in our economy, and how to use those trends to develop performance measures and predictors of economic growth or decline. They'll also examine how individuals, institutions, and influences affect people, and how those factors can impact everyone's life through employment rates, government spending, inflation, taxes, and production. The equivalent of a 100-level college-level class, this course prepares students for the AP Exam and for further study in business, political science and history.

This course has been authorized by the College Board to use the AP designation.

AP Microeconomics: 0.5 credit

AP* Microeconomics studies the behavior of individuals and businesses as they exchange goods and services in the marketplace. Students will learn why the same product costs different amounts at different stores, in different cities, at different times. They'll also learn to spot patterns in economic behavior and how to use those patterns to explain buyer and seller behavior under various conditions. Microeconomics studies the economic way of thinking, understanding the nature and function of markets, the role of scarcity and competition, the influence of factors such as interest rates on business decisions, and the role of government in promoting a healthy economy. The equivalent of a 100-level college course, AP Microeconomics prepares students for the AP Exam and for further study in business, history, and political science.

This course has been authorized by the College Board to use the AP designation.

AP U.S. Government and Politics: 0.5 Credit

AP* U.S. Government and Politics studies the operations and structure of the U.S. government and the behavior of the electorate and politicians. Students will gain the analytic perspective necessary to critically evaluate political data, hypotheses, concepts, opinions, and processes. Along the way, they'll learn how to gather data about political behavior and develop their own theoretical analysis of American politics. They'll also build the skills they need to examine general propositions about

government and politics, and to analyze the specific relationships between political, social, and economic institutions. The equivalent of an introductory college-level course, AP U.S. Government and Politics prepares students for the AP Exam and for further study in political science, law, education, business, and history.

This course has been authorized by the College Board to use the AP designation.

AP U.S. History: 1.0 Credit

AP* U.S. History analyzes and explores the economic, political, and social changes in America since Columbus. Students master historical knowledge and critical analysis, build reading, writing, and communication skills, and discover how historical events have contributed to American culture. In the process, they'll learn how decisions and events of the past continue to have profound effects on the world today and how knowledge of the causes behind past events can influence future decisions. By the end of the course, students will be ready to put their factual knowledge to work by weighing evidence and interpreting problems presented by historians. The equivalent of an introductory college-level course, AP U.S. History prepares students for the AP Exam and for further study in history, political science, economics, sociology, and law.

This course has been authorized by the College Board to use the AP designation

World Languages

AP Spanish Language: 1.0 Credit

AP* Spanish Language students practice perfecting their Spanish speaking, listening, reading, and writing skills. They study vocabulary, grammar, and cultural aspects of the language, and then apply what they've learned in extensive written and spoken exercises. By the end of the course, students will have an expansive vocabulary and a solid, working knowledge of all verb forms and tenses. The equivalent of a college-level language course, AP Spanish Language prepares students for the AP Exam and for further study of Spanish language, culture, or literature.

Reading

Communication Skills I (Reading): 0.5 credit

The purpose of this course is to provide instruction that enables students to accelerate the development of reading and writing skills and to strengthen those skills so they are able to successfully read and write grade level text independently. Instruction emphasizes reading comprehension, writing fluency, and vocabulary study through the use of a variety of literary and informational texts encompassing a broad range of text structures, genres, and levels of complexity. Texts used for instruction focus on a wide range of topics, including content-area information, in order to support students in meeting the knowledge demands of increasingly complex text. Students enrolled in the course will engage in interactive text-based discussion, question generation, and research opportunities. They will write in response to reading and cite evidence when answering text dependent questions orally and in writing.

The course provides extensive opportunities for students to collaborate with their peers. Scaffolding is provided as necessary as students engage in reading and writing increasingly complex text and is removed as the reading and writing abilities of students improve over time.

The Intensive courses have been designed for the teacher to select and teach only the appropriate standards corresponding to a student's grade level and/or instructional needs.

STANDARD / DESCRIPTION	PE.3.	Participates regularly in physical activity.
ELEMENT	PE H.S.3.	The goal of this standard is to connect the skills and activities that are learned in physical education class to the lives of students outside the classroom. Participation outside of class is critical to developing active and healthy lifestyles and behaviors. Emphasis is placed on developing self-management skills and voluntary participation in areas of interest that are meaningful to the student. Students make a personal commitment to participate in moderate to vigorous physical activity in order to maintain personal fitness goals. Students are knowledgeable of appropriate training principles and understand how to apply these to enhance their participation and desired level of fitness. Achievement of this standard will encourage participation necessary to support and sustain good health.

ELEMENT/GLE	**MGSE9-12.N.RN.1.**	**Explain how the meaning of rational exponents follows from extending the properties of integer exponents to rational numbers, allowing for a notation for radicals in terms of rational exponents. For example, we define 5^(1/3) to be the cube root of 5 because we want [5^(1/3)]^3 = 5^[(1/3) x 3] to hold, so [5^(1/3)]^3 must equal 5.** **GA - Advanced Algebra** **Semester 2: Unit 01: Lesson 01: Activity 01: Study: Basics of Radicals** **Semester 2: Unit 01: Lesson 01: Activity 02: Checkup: Practice Problems** **Semester 2: Unit 01: Lesson 02: Activity 01: Study: Multiplying and Dividing Radicals** **Semester 2: Unit 01: Lesson 02: Activity 02: Checkup: Practice Problems** **Semester 2: Unit 01: Lesson 03: Activity 01: Study: Adding and Subtracting Radicals** **Semester 2: Unit 01: Lesson 03: Activity 02: Checkup: Practice Problems** **Semester 2: Unit 01: Lesson 04: Activity 01: Study: Rationalizing Denominators** **Semester 2: Unit 01: Lesson 04: Activity 02: Checkup: Practice Problems** **Semester 2: Unit 01: Lesson 04: Activity 04: Journal: Rationalizing Denominators** **Semester 2: Unit 01: Lesson 05: Activity 01: Study: Solving Radical Functions** **Semester 2: Unit 01: Lesson 05: Activity 02: Checkup: Practice Problems** **Semester 2: Unit 01: Lesson 06: Activity 01: Study: Applications of Radical Equations** **Semester 2: Unit 01: Lesson 06: Activity 02: Checkup: Practice Problems** **Semester 2: Unit 01: Lesson 06: Activity 04: Practice: Pendulums and Bridges** **Semester 2: Unit 01: Lesson 07: Activity 01: Study: Rational Exponents** **Semester 2: Unit 01: Lesson 07: Activity 02: Checkup: Practice Problems** **Semester 2: Unit 01: Lesson 10: Activity 01: Checkup: Assignment** **Semester 2: Unit 01: Lesson 10: Activity 02: Review: Radical Expressions and Functions** **Semester 2: Unit 02: Lesson 12: Activity 01: Checkup: Assignment** **Semester 2: Unit 02: Lesson 12: Activity 02: Review: Exponential and Logarithmic Functions**

STANDARD / DESCRIPTION	MGSE9-12.N.RN.	The Real Number System
ELEMENT		Extend the properties of exponents to rational exponents.

ELEMENT/GLE	**MGSE9-12.N.RN.1.**	**Explain how the meaning of rational exponents follows from extending the properties of integer exponents to rational numbers, allowing for a notation for radicals in terms of rational exponents. For example, we define 5^(1/3) to be the cube root of 5 because we want [5^(1/3)]^3 = 5^[(1/3) x 3] to hold, so [5^(1/3)]^3 must equal 5.** **Algebra II Core** **Semester 2: Unit 02: Lesson 08: Activity 01: Practice: Assignment**
