PRELIMINARY DETERMINATION HEARING

June 4, 2018

1 Why Is Additional Capital Needed?

2 Capital Referendum

3 IPS Safety and Modernization Project

4 Safety and Security

why is additional capital needed?

4

A

Safety and security needs change everyday.

B

Our students deserve updated facilities reflecting modern needs.

C

Proactive measures create a safer, more responsive environment.

D

Effective communication is key in responding to crises.

A **capital improvement referendum** allows school districts to seek additional funding for building improvements from local taxpayers through a vote.

The Capital Improvement Referendum would seek to:

Generate up to \$52 million to fund the **IPS Safety and Modernization Project**.

Call for a local property-tax levy of no more than \$0.0332 per \$100 of assessed valuation.

Provide all IPS-owned school facilities with enhanced safety and security.

- *Examples include: exterior lighting, technology upgrades, hardened exteriors, classroom safety upgrades, etc.*

1

Lever is locked by key from inside.

2

Need key holder to access room from outside.

Proposed: Retrofit 2500 doors across the district.

1

Bollards reduce risk of collision with vehicles.

2

Barriers can denote where school grounds begin.

3

Bollards can protect the building itself from collision.

Proposed: Creating inconspicuous barriers (such as bollards, etc.) at 61 school entries.

example: exterior lighting

1

New lighting achieves better visual acuity and better uniformity.

2

New lighting will use less energy and save money.

3

New LED lights have long life spans and require little to no maintenance.

Proposed: Additional exterior lighting at 61 school locations.

before

after

1

New fire safety measures will help protect students and faculty.

2

New equipment will help protect the school itself and structure within.

3

New technology will better detect smoke and fire, stopping spread.

Proposed: New equipment at school locations.

- 
- 1 We need additional resources to respond to the changing school safety environment.
 - 2 Facilities must be updated to be more proactive and preventative.
 - 3 Providing a safe learning environment is a major priority.
 - 4 Modernizing infrastructure creates a greater sense of security.
 - 5 IPS strives to be a 21st century district responding to current and future trends.
