Empowering Futures:

A HIGH SCHOOL EXPERIENCE THAT PAVES THE WAY FOR LIFELONG SUCCESS

A positive high school experience sets the foundation for lifelong success. At AISK, we create an environment where students can thrive academically, socially, and personally. Our high school program is designed to inspire curiosity, develop critical skills, and help students discover their passions. With a strong academic framework, diverse extracurricular opportunities, and personalized support, we prepare students for a seamless transition to higher education and beyond.

GRADES 9 & 10 COURSES

ENGLISH

Our English program hones students' language and critical thinking skills. Students develop the ability to express themselves confidently and thoughtfully through literature, media analysis, and various writing styles—including argumentative, narrative, analytical, and research writing.

MATHEMATICS

Students engage in Integrated Math 9 and 10 at either the Standard or Higher Level. The curriculum builds a strong mathematical foundation, ensuring students are equipped for advanced business mathematics, statistics, and probability coursework in Grades 11 and 12.

SCIENCE PROGRAM

A hands-on, inquiry-based curriculum integrates biology, chemistry, and physics. Students explore scientific phenomena, conduct experiments, and develop problem-solving skills to prepare them for advanced studies and careers in STEM fields.

THE ARTS

Students choose from Music, Visual Arts, Dance, or Drama and engage in performance, theory, and collaborative projects. The program nurtures creativity, confidence, and artistic expression.

SOCIAL STUDIES

By studying historical events and contemporary issues, students gain a global perspective and a deep understanding of societal structures. They also develop strong research and critical thinking skills, learn to analyze multiple perspectives and engage in meaningful discussions.

MODERN LANGUAGE

Students can study Spanish or French at Beginner, Intermediate, or Advanced levels. The program emphasizes speaking, listening, reading comprehension, and written expression and fosters both linguistic proficiency and cultural awareness.

PHYSICAL EDUCATION

Our PE program promotes lifelong fitness and well-being. Students participate in team sports, fitness training, and swimming, with Grade 10 students having the opportunity to earn a lifeguard certification.

PROGRAMS FOR SUCCESS

Students develop the attitudes and skills necessary to get the most out of school, focus on lessons, participate in classroom activities, get along with peers, follow directions, and make the best choices for themselves.

Quarterly Explorations:

Enrichment opportunities in career exploration, digital citizenship, financial literacy, and more.

Advisory:

Focuses on student well-being, communication, leadership, and conflict resolution.

Academic Clinics:

Built-in support periods where students can receive additional teacher help.

NOTE:

At AISK, we cultivate students who are independent thinkers, global citizens, and lifelong learners. Join us and experience a high school journey that unlocks limitless possibilities!

TECHNOLOGY & STUDENT SUPPORT

1:1 DIGITAL DEVICE PROGRAM

Students use cutting-edge educational tools while learning responsible digital citizenship.

STUDENT SUPPORT SERVICES

Learning Support, English as an Additional Language (EAL), and Counseling ensure every student receives the support they need to succeed.

EXTRACURRICULAR & COLLEGE COUNSELING

AI SK offers a vibrant extracurricular program with academic clubs, artistic pursuits, and athletic activities. Students are also encouraged to create their clubs based on their interests.

Starting in Grade 9, students receive college counseling to help them navigate the admissions process, explore career interests, and build a strong application profile. By Grade 12, they are well-prepared to apply to top universities worldwide.
