WHY ST. THOMAS?

Best-in-Class High School Preparatory Program

1 Commitment to Character Development Character is woven into the education at St. Thomas through service projects and academics. We focus on building students' empathy, responsibility, and leadership skills.

2 A Whole School Community

We foster a strong sense of belonging for students, parents, and faculty with numerous opportunities to connect in and out of the classroom. St. Thomas is a close-knit, nurturing environment embracing parent involvement and the building of relationships through community events, assemblies, and gatherings. Uniforms also promote unity and spirit among the students!

3 Smaller Class Sizes = Personalized Attention Our faculty knows each and every student. With low student to teacher ratios, educators gain a deeper understanding of each student, allowing them to tailor lessons and resources to suit individual learning styles and needs.

4 Broad Enrichment Opportunities We offer after-school activities in music, drama, scholastics, athletics, and a variety of clubs at all grade levels, allowing students to explore new interests and develop their talents in a supportive environment.

5 Before and After School Care St. Thomas offers full-day programming, making it easier for families to balance work and school schedules.

6 Goodness and Greatness At St. Thomas, we believe in order to be great one must also be good. We focus on developing the whole child by instilling values of respect, generosity, and a strong work ethic in their daily lives. Our goal is for students to care deeply for others and their community, striving for excellence with a purpose and a desire to give back.

1 Preparation for High School and Beyond

St. Thomas offers a structured academic environment that promotes responsibility through active participation, homework, and preparation for long-term projects and tests (midterms and finals). We support the development of study skills, time management, and self-advocacy to help students build the foundation they need for success in secondary school. We also offer guidance on secondary school placement to find the best fit for each child.

2 Leadership and Confidence

Our students are not just prepared for the future—they're ready to lead it. Our curriculum is designed not only to impart knowledge but to empower students to become confident, decisive leaders who can face any situation with poise and clarity. We create an environment where students are encouraged to take initiative, imagine possibilities, and lead with empathy and integrity. From public speaking and collaborative projects to cross-grade mentoring, every experience helps build a strong foundation for personal growth.

3 Focus on Language Arts

Literacy remains core to the St. Thomas experience. Through a rich, engaging curriculum, we encourage students to explore diverse texts and genres to develop a deep appreciation for reading and writing. Whether dissecting class novels, analyzing complex themes, writing persuasive essays, developing theses for research papers or crafting imaginative stories, we deliver a strong foundation in literacy with skill development in vocabulary, comprehension, and expression.

4 Expansive Opportunities in Math

Our math advancement and intervention programs ensure that every learner is challenged and supported, whether they're mastering foundational concepts or pushing into advanced topics. We offer single- and double-accelerated programs with algebra and geometry. For those needing additional support, our intervention programs provide individual and small-group attention to reinforce foundational skills and build confidence.
