Texas Education Code - EDUC § 37.102. Rules; Penalty

- (a) The board of trustees of a school district may adopt rules for the safety and welfare of students, employees, and property and other rules it considers necessary to carry out this subchapter and the governance of the district, including rules providing for the operation and parking of vehicles on school property. The board may adopt and charge a reasonable fee for parking and for providing traffic control.
- (b) A law or ordinance regulating traffic on a public highway or street applies to the operation of a vehicle on school property, except as modified by this subchapter.
- (c) A person who violates any rule adopted under this subchapter providing for the operation and parking of vehicles on school property commits an offense. An offense under this section is a Class C misdemeanor.

When considering a search of a student's vehicle at school, a warrant is not needed. If a school employee is a person conducting the search, then he or she only needs reasonable suspicion for a search.

If a police officer were conducting the search, then the probable cause is needed. In many cases, a school resource officer is a police officer. If a search of a student's vehicle is based on law enforcement information, then the probable cause must be present. If the search was directed by the administrator of the school, then reasonable suspicion is needed.
