Senate Bill 187: Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

- Assessment of school crime committed on school campuses and at school-related functions
- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy (electronic or paper) of the Comprehensive School Safety Plan is provided yearly to the following:

- School staff
- Parents
- After-school program staff
- Oxnard Police Department
- Oxnard Fire Department
- Early Childhood Education staff
- Volunteer Coaches

A copy of the Comprehensive School Safety Plan is available for review online at www.oxnardsd.org or in the James Driffill Elementary School's office.

Safety Plan Vision

At Driffill Elementary School, we believe all students deserve an education that incorporates a comprehensive curriculum, requiring critical thinking and the use of educational technology, where a safe environment, safety and climate are regularly addressed and reviewed. We believe students should be actively involved in a respectful, caring, safe and cohesive educational community.

Assessment of School Safety

Members of the Safety Committee continuously conduct a series of campus security and safety inspections, specifically considering health and safety regulations outlined by the state of California and Ventura County Department of Public Health. The committee has considered safe entry and exits of students, staff, and visitors at all times of the day.

The Principal and Oxnard Police conducted a security inspection of the campus at the beginning of the year. The Principal and the Lead Custodian also conduct monthly safety checks and inspections. Minor changes (such as repairs) are made immediately. In contrast, when relevant, significant changes are recommended to the site leadership team for discussion and planning with stakeholders, including staff and parent groups. When a significant change is made, all stakeholders are informed of the change through verbal and/or written communication.

To ensure students engage in safe behavior, the school implements a Positive Behavioral Interventions and Supports (PBIS) system and a schoolwide protocol that communicates positive behavior expectations. Drifill and OSD provide necessary positive behavior management training for staff. Students are held to high behavior expectations, and teachers reinforce expected behaviors in their classrooms. A progressive discipline system is applied when expectations are not met following a positive behavior intervention protocol.

The safety committee regularly reviews all safety and security procedures, including health and wellness. The committee makes recommendations and enacts changes as necessary. Members of the Drifill safety committee review and discuss procedures to be followed by students and staff during emergencies, conduct an annual inventory of emergency equipment, and replace supplies as needed, including emergency buckets and emergency classroom backpacks. The Emergency Operation Plan and School Safety Plans are reviewed and discussed annually. During in-person learning, the Principal conducts schoolwide safety drills, including a schoolwide evacuation drill. The Oxnard Police Department is present for the whole school evacuation drill.

The committee also reviews school data, including office referrals, attendance rates, suspension and expulsion rates, and local law enforcement juvenile crime data. These findings are shared annually with stakeholders during staff and parent committee meetings. Property damage and other safety issues related to facilities are reported to the administration and are resolved by the lead custodian or through the OSD Facilities Department work order process.

The Risk Management Department from the District conducts a safety inspection of the campus and recommends necessary changes. Changes are implemented by either school personnel or district personnel.

The Oxnard Traffic Police are called periodically to observe the traffic patterns during arrival and dismissal to ensure drivers obey traffic laws and parking regulations.

Adults who are not employees of OSD are not allowed on campus at any time without checking in at the office and obtaining a visitor's badge. All visitors signing out a student must show a valid I.D. and be listed as an approved adult for student check-out.

Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)

The following strategies and programs are consistent with California educational code 32281 and reflect the school's commitment to safety within the following areas:

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

*Please see the Child Abuse Reporting Procedure Flowchart Attachment

GENERAL

As stated in the Board Policy (BP 5141.4), "District employees shall report known or suspected incidence of child abuse in accordance with district regulations and state law. Employees shall fully cooperate with the child protective agencies responsible for reporting, investigating and prosecuting cases of child abuse."

When an employee suspects child abuse, the employee shall immediately meet and discuss the situation with a school counselor or an administrator. Information will be noted (name of person making report, name of child, present location of child, nature and extent of injury, and all other pertinent information.) At that time the counselor or administrator will assist the employee in making a call to Children and Family Services (654-3200) or the local Police Department (Oxnard 385-7600, Sheriff's Dept. 654-2311). The counselor or administrator will make note of time, date and name of official contacted. The employee will then complete and mail the required written report to the local Children and Family services agency. The counselor or assistant principal will notify the principal.

Employees (mandated reporters) have absolute immunity and are not liable for filing a required report. If a mandated reporter does not wish to disclose his/her identity to a district administrator, he/she shall at least provide or mail a copy of the written report to the district without his/her signature or name after making the required call to Children and Family Services or appropriate law enforcement agency. Mandated reports of sexual activity must be reported to either the Department of Children and Family Services (DCFS) or to the appropriate police jurisdiction. This information will then be cross-reported to the other legal agency.

School manager either mails or faxes over the completed abuse form to CFS within 36 hours of the report. School office manager gives a copy to principal and to the Oxnard School District Superintendent.

STAFF TRAINING

All Oxnard School District staff who work with students are trained annually in regard to child abuse. New employees are trained upon being hired. Employees receive training on their legal obligation under law regarding mandated reporting. Employees also receive training to recognize signs and symptoms of child abuse.

(B) Disaster Procedures (EC 35295-35297; GC 8607 and 3100)

GENERAL

This Plan addresses the Oxnard School District's responsibilities in emergencies associated with natural disaster, human-caused emergencies and technological incidents. The Plan establishes an emergency organization to direct and control operations at all sites during a period of emergency by assigning responsibilities to specific personnel. This Plan:

- Conforms to the Federally mandated National Incident Management System (NIMS), State mandated Standardized Emergency Management System (SEMS) and effectively restructures emergency response at all levels in compliance with the Incident Command System (ICS).
- Establishes response policies and procedures, providing Oxnard School District clear guidance for planning purposes.
- Describes and details procedural steps necessary to protect lives and property.
- Outlines coordination requirements.
- Provides a basis for unified training and response exercises to ensure compliance.

OBJECTIVES

- Protect the safety and welfare of students, employees and staff.
- Provide for a safe and coordinated response to emergencies.
- Protect the District's facilities and properties.
- Enable the District to restore normal conditions with minimal confusion in the shortest time possible.
- Provide for interface and coordination between sites and the District Emergency Operations Center (EOC).
- Provide for interface and coordination between sites and the County or city EOC in which they reside.
- Provide for the orderly conversion of pre-designated District sites to American Red Cross shelters, when necessary.

Schools are required by both federal statute and state regulation to be available for shelters following a disaster. The American Red Cross (ARC) has access to schools in damaged areas to set up their mass care facilities, and local governments have a right to use schools for the same purposes. This requires close cooperation between school officials and ARC or local government Representatives, and should be planned and arranged for in advance.

In an Emergency Building Evacuation, all employees will:

- Upon emergency alert, secure work area and depart/report to assigned area.

- Perform duties as pre-assigned by the Principal in cooperation with emergency services personnel.
- DO NOT re-enter the building without permission or request of emergency service authorities.
- Remain in the general assembly areas and calm students if not assigned another duty.
- When signaled to re-enter safe areas of the school, quickly do so.
- Upon safe re-entry, report anything amiss to the Operations Chief.

In an Emergency Building Evacuation, teachers will also:

- Upon alert, assemble students for evacuation using designated routes and account for all students.
- Secure room.
- If possible, leave a note on the door advising where the class evacuated to if other than the standard assembly area.
- Upon arrival at the assembly area, account for all students.
- Secure medical treatment for injured students.
- Report any students missing or left behind because of serious injuries.
- Stay with and calm students.
- If signaled to re-enter school, assure students do so quickly and calmly.
- Account for all students.
- Check room and report anything amiss to the Team Leader and/or Operations Chief.
- Debrief students to calm fears about the evacuation.

In an Emergency Campus Evacuation:

If it is necessary to evacuate the entire campus to another school or relief center, the Principal will:

- Notify the Superintendent of the Campus Evacuation.
- Cooperate with emergency authorities in enlisting students/staff with cars to help transport evacuees.
- Direct the evacuation, assure all students/staff are accounted for as they depart and arrive.

Dismissal of students from the school shall be governed by the emergency procedures outlined in this procedure guide and consistent with the Initial Response System. However, this policy does not preclude the exercise of professional judgment by an administrator when the circumstances of the situation indicate dismissal to be in the best interest of the student.

- Each teacher MUST KEEP THE REGISTER OR ENROLLMENT SHEET OF PUPILS READILY AVAILABLE AT ALL TIMES. The teacher will remain with students until directed otherwise.
- In the absence of orders from the superintendent, each school principal is authorized and directed to implement plans as described herein or take such other action as may be necessary to save lives and mitigate the effects of disasters.
- During an emergency period or condition created by disaster, occurrence students may only be released to parent, guardian or other adult specified on the Emergency Data Card. THERE SHALL BE NO EXCEPTIONS TO THIS POLICY.

CALIFORNIA EMERGENCY SERVICES ACT (CHAPTER 7, DIVISION 1, TITLE 2, CALIFORNIA GOVERNMENT CODE)

The Act provides the basic authorities for conducting emergency operations following a proclamation of Local Emergency, State of Emergency, or State of War Emergency by the Governor and/or appropriate local authorities, consistent with the provisions of this Act.

CALIFORNIA GOVERNMENT CODE, SECTION 3100, TITLE 1, DIVISION 4, CHAPTER 4.

States that public employees are disaster service workers, subject to such disaster service activities as may be assigned to them by their superiors or by law. The term "public employees" includes all persons employed by the state or any county, city, city and county, state agency or public district, excluding aliens legally employed.

The law applies to public school employees in the following cases:

- When a local emergency is proclaimed.
- When a state of emergency is proclaimed.
- When a federal disaster declaration is made.

The law has two ramifications for School District employees:

1. It is likely that public school employees are pressed into service as Disaster Service Workers by their superiors, and may be asked to do jobs other than their usual duties for periods exceeding their normal working hours.
2. When pressed into disaster service, employees' Workers' Compensation Coverage becomes the responsibility of state government (OES), but their overtime pay is paid by the school. These circumstances apply only when a local or state emergency is declared. States that (the Governor's Office of Emergency Services has stated) inadequately trained school staff render school officials potentially liable for acts committed or omitted by school staff acting within the scope of their training during or after a disaster. (Sub Sections 835-840.6). It requires that school districts be prepared to respond to emergencies using SEMS. (Section 8607, the Petris Bill).

CALIFORNIA CIVIL CODE, CHAPTER 9, SECTION 1799.102

It provides for "Good Samaritan Liability" for those providing emergency care at the scene of an emergency. ("No person, who, in good faith and not for compensation, renders emergency care at the scene of an emergency, shall be liable for any civil damages resulting from any act or omission. The scene of an emergency shall not include emergency departments and other places where medical care is usually offered.")

PUBLIC AGENCY USE OF SCHOOL BUILDINGS FOR EMERGENCY SHELTERS

Procedures are in place to allow a public agency, including the American Red Cross, to use school buildings, grounds, and equipment for mass care and welfare shelters during disasters or other emergencies affecting the public health and welfare. The district or county office shall cooperate with the public agency in furnishing and maintaining the services as the district or county office may deem necessary to meet the needs of the community.

AFTER SCHOOL PROGRAM

The after-school program staff is trained annually in regard to disaster response. The District maintains a full-time After School Program Manager, who oversees safety training and disaster preparedness for the program. The After School Program Manager ensures that the following safety components are addressed within the after-school program environment:

- Elements of a safe and orderly environment
- Emergency evacuation procedures
- Student release procedures
- Incident Command Team responsibilities
- Child abuse reporting
- Rules, expectations and consequences
- Non-discrimination and harassment reporting

TRAINING

All staff are trained annually in regard to disaster procedures within the Comprehensive School Safety Plan and the District's Emergency Operations Plan. The school conducts monthly safety drills for fire and earthquake. The school also conducts a lockdown security drill at a minimum of once yearly within the first month of school under the direction of the School Resource Officer.

FOR DISASTER PLAN PROTOCOLS AND PROCEDURES (SEE APPENDICES).

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

The Oxnard School District Governing Board has established policies and standards of behavior in order to promote learning and protect the safety and well-being of all students. When these policies and standards are violated, it may be necessary to suspend or expel a student from regular classroom instruction.

Except where suspension for a first offense is warranted in accordance with law, suspension shall be imposed only when other means of correction fail to bring about proper conduct. (Education Code 48900.5)

Expulsion is an action taken by the Board for severe or prolonged breaches of discipline by a student. Except for single acts of a grave nature, expulsion is used only when there is a history of misconduct, when other forms of discipline, including suspension, have failed to bring about proper conduct, or when the student's presence causes a continuing danger to himself/herself or others. (Education Code 48915)

The grounds for suspension and expulsion and the procedures for considering, recommending and/or implementing suspension and expulsion shall be specified in administrative regulation.

Suspended or expelled students shall be excluded from all school-related extracurricular activities during the suspension or expulsion.

STUDENT DUE PROCESS

The board shall provide for the fair and equitable treatment of students facing suspension and expulsion by affording them their due process rights under the law. The Superintendent or designee shall comply with procedures for notices and appeals as specified in administrative regulation and law. (Education Code 48911, 48915, 48915.5)

ALTERNATIVES TO SUSPENSION / OPTIONS

REQUIRED PARENTAL ATTENDANCE

DEFINITIONS

Suspension from school means removal of a student from ongoing instruction for adjustment purposes.

Expulsion means removal of a student from the immediate supervision and control, or the general supervision of school personnel.

When serious violation of school rules occurs, it is wise to consult with the district office before rendering a decision. Responsible decisions take into account the totality of circumstances, including the welfare of the child, the safety of others, appropriateness of consequences and predicted future behavior.

BULLYING

CALIFORNIA STATE LAW REGARDING BULLYING

Right to Safe Schools. All students and staff of public primary, elementary, junior high, senior high schools, and community colleges, colleges, and universities have the inalienable right to attend campuses which are safe, secure and peaceful.

AB 9 – Seth's Law

Requires schools to establish policies to prevent bullying and to address and be responsive to complaints about bullying.

- Requires school districts to include in its non-discrimination policy a detailed list where discrimination, harassment, intimidation, and bullying are prohibited under existing law—actual or perceived sexual orientation, gender, gender identity expression, race or ethnicity, nationality, religion, disability, or association with a person or group with one or more of these actual or perceived characteristics.
- Requires each school districts non-discrimination policy to describe the district's procedure for addressing discrimination and harassment complaints; and be publicized in places for student and parental access.
- School districts are to strengthen professional development curricula for teachers, school counselors, and administrators with instruction on identifying and stopping discrimination and harassment and creating a school-wide culture of inclusion and respect for differences.

AB 746 - Cyber bullying.

Existing law, the Interagency School Safety Demonstration Act of 1985, defines bullying as one or more acts of sexual harassment, hate violence, or intentional harassment, threats, or intimidation, directed against school district personnel or pupils, committed by a pupil or group of pupils. Under existing law, bullying, including bullying committed by means of an electronic act, as defined, is a ground on which suspension or expulsion

may be based. This bill would specify that an electronic act for purposes of the act includes a post on a social network Internet Web site.

AB 1156 – Bullying In Schools

Redefines California anti-bullying law by expanding the definition of bullying and linking it to academic achievement. It will also strengthen policies and procedures to reduce bullying in schools and keep students safe.

- Requires training of school site personnel in the prevention of bullying
- Links bullying to academic achievement
- Gives victims of bullying priority for school transfer, if requested
- Encourages school districts and county offices of education to include policies and procedures on the prevention of bullying in the school safety plan

OXNARD SCHOOL DISTRICT BOARD POLICY 5131.2

Bullying

The Board of Trustees recognizes the harmful effects of bullying on student learning and school attendance and desires to provide safe school environments that protect students from physical and emotional harm. District employees shall establish student safety as a high priority and shall not tolerate bullying of any student.

No student or group of students shall, through physical, written, verbal, or other means, harass, sexually harass, threaten, intimidate, cyberbully, cause bodily injury to, or commit hate violence against any other student or school personnel.

Cyberbullying also includes breaking into another person's electronic account and assuming that person's identity in order to damage that person's reputation.

Strategies for bullying prevention and intervention shall be developed with involvement of key stakeholders in accordance with law, Board policy, and administrative regulation governing the development of comprehensive safety plans and shall be incorporated into such plans.

Bullying Prevention

To the extent possible, district and school strategies shall focus on prevention of bullying by establishing clear rules for student conduct and strategies to establish a positive, collaborative school climate. Students shall be informed, through student handbooks and other appropriate means, of district and school rules related to bullying, mechanisms available for reporting incidents or threats, and the consequences for perpetrators of bullying.

The district may provide students with instruction, in the classroom or other educational settings, that promotes effective communication and conflict resolution skills, social skills, character/values education, respect for cultural and individual differences, self-esteem development, assertiveness skills, and appropriate online behavior.

School staff shall receive related professional development, including information about early warning signs of harassing/intimidating behaviors and effective prevention and intervention strategies.

Based on an assessment of bullying incidents at school, the Superintendent or designee may increase supervision and security in areas where bullying most often occurs, such as classrooms, playgrounds, hallways, restrooms, and cafeterias.

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Gang-related apparel is defined as apparel that could reasonably be determined to threaten the health and safety of the school environment if it were worn or displayed on a school campus. Clothing must fit the student appropriately. Gang affiliation with sports teams and colors is also inappropriate for school.

California Education Code Title V, Section 302: A pupil who goes to school without proper attention to personal cleanliness or neatness of dress may be sent home to be adequately prepared for school or be required to prepare themselves for the schoolroom before entering.

The dress code policy aims to ensure a safe and secure environment where students can benefit from a quality education. Students may not wear clothing or hairstyles that will disrupt the educational process.

All students at Drifill will be held to the school dress code policy. Students who violate the dress code policy will be requested to resolve the issue by changing into appropriate clothing. During in-person learning, students can call parents or guardians to bring proper clothing, change, and adhere to the school's dress code policy. The teacher or a school administrator will notify the student's parent/guardian.

The school dress codes are regularly reviewed by the School Site Council and the School Safety Committee, following the board of education policies.

1. Shoes must be worn at all times. Sandals must have heel straps. Flip Flops or backless shoes are not acceptable.
2. Clothing, jewelry, and personal items (backpacks, fanny packs, gym bags, water bottles, etc.) shall be free of writing, pictures, or any other insignia which are crude, vulgar, profane, or sexually suggestive, which bear drug, alcohol or tobacco company advertising, promotions, and likeness, or which advocate racial, ethnic, or religious prejudice or are affiliated with gangs.
3. Hats, caps, and other head coverings shall not be worn indoors.
4. Clothes shall be sufficient to conceal undergarments at all times. See-through or fishnet fabrics, halter tops, off-the-shoulder or low-cut tops, bare midriff, and skirts or shorts shorter than mid-thigh are prohibited.
5. Gym shorts should not be worn in classes other than physical education.
6. Shorts that stop between mid-calf and knees worn with long socks are considered gang attire and may not be worn.
7. Hair shall be clean and neatly groomed. Hair may not be sprayed by any coloring that would drip when wet.
8. Students may not wear clothing or hairstyles that will disrupt the educational process.
9. Piercings and jewelry must allow full participation in all school events, prioritizing student safety.

The exception to the dress code can only be made for medical, health reasons, and religious beliefs.

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

The safety Committee continuously assesses the school's needs regarding students' and staff's safe ingress and egress. When working collaboratively with all stakeholders, parent concerns and ideas are considered when making changes to improve student/campus safety.

Students enter and exit campus through grade-level-specific gates/doors. All visitors are asked to sign in at the office before entering the school campus.

Parents/Guardians are asked to provide emergency contact information for their children at the beginning of the year. They are asked to update as soon as possible when contact information changes. Parents/Guardians are responsible for providing the school with legal/custodial paperwork regarding a student. The legal documents are attached to the student's emergency card and will be followed accordingly.

The Principal will send a phone message to all parents to update and explain any changes for ingress and egress for the week through Parent Square. CANVAS is also used to inform staff, parents, and students.

CLOSED CAMPUS

Drifill TK-8 is a closed campus, and parents who do not have school business are not allowed on the campus at the beginning of the school day and must comply with specific procedures for dismissal. Staff continuously monitor the safety of all students upon arrival and dismissal from school, including at the bus stops and throughout the school day.

All parents, guardians, and visitors with school business must enter through the main office on 9th and E Streets. All are required to sign in, obtain a visitor's badge, and check in and out while on campus during school hours. Persons signing a student out for the day must be an adult, 18 years or older, show a valid picture I.D., and be listed on the student's emergency card.

SCHOOL HOURS

The regular student day is from 8:10 a.m. to 2:44 pm. Kindergarten hours are from 8:15 - 2:35, Grades 1-5 8:15-2:30, and Grades 6-8 8:10 - 2:44. Wednesdays are Banking days for Drifill; students leave early. Hours are from 8:15-12:30 for TK-Kindergarten, 8:15-1:30 for First- Fifth Grades, and 8:10-1:44 pm for Grades 6-8th.

For minimum days, Middle School (6-8th) will dismiss at 11:58, and Primary Students (TK-5th) will dismiss at noon.

School hours and schedules are subject to change in an emergency. Parents are notified of changes via Parent Square and student Learning Management Systems such as CANVAS.

Parents dropping students off at school in the morning are notified that supervision IS NOT available before 7:45 am. School office hours are 7:30 a.m. to 4:00 p.m.

Crossing guards are at the intersections of Ninth Street, E Street, Wooley Ave., and E Street in the morning and afternoon hours.

Once arriving at school, students are to immediately enter the campus at the designated entry gates and move to their line-up area. Under no circumstances are students to leave the campus to pick up friends, go to locations other than the school campus, or loiter outside campus gates. Gates are locked after the bell and are not opened again until dismissal. Preschool and Kindergarten entrances and exits follow specific, scheduled times for ingress and egress.

Students not participating in after-school activities are to leave campus immediately by leaving with their parents, walking, or riding a bus. Loitering is prohibited. Students whose parents fail to pick them up after school are walked to the office and parents are called. Parents are then requested to sign students out.

TARDY/LATE POLICY

A student is considered tardy to class if he/she is not in his/her seat when the bell rings.

- If a student is late in the morning (after 8:10 a.m. (6-8th) or after 8:15 (TK-5th.)), he/she must report to the office for a late slip and then go quickly to class.

- A student is considered truant tardy at 8:40 a.m. *A Truant Tardy is when students arrive at school 30 minutes late. When a student is determined to have excessive truant tardies, he /she may be assigned office detention, A parent/student conference with school officials will be held to sign an attendance contract to foster improved attendance.
- An “excused tardy” will be assigned when parents have called the school with a valid excuse, such as a doctor or dentist’s appointment. Please bring copies of doctor/dental notes.
- Oversleeping, missing the bus, etc., are not valid reasons for an “excused tardy.”
- If a student is habitually late or absent from school, various measures may be taken, including an alternate placement and referral to SARB (School Attendance Review Board).

TRUANCY POLICY

Being truant means the student is in a location where neither his/her parent nor teacher has given him/her permission to be. Truancy violates the California Education Code and includes consequences ranging from requiring parents to attend parenting classes at the Oxnard School District/Oxnard High School District and/or fines levied on parents.

The following are considered truantries:

- Being absent from school without a valid reason and parental permission.
- Leaving school grounds during the day without permission.
- Staying out of class without permission.
- If a student is habitually late or absent from school, various measures may be taken, including an alternate school placement and referral to SARB (School Attendance Review Board).

(H) A Safe and Orderly School Environment Conducive to Learning (EC 35294.2)

Component:

Positive School Climate:

At Drifill School we have high expectations for all students, parents, and staff. Classrooms, playground, and all school activities follow positive behavior standards and rules with appropriate social expectations. Drifill School implements and supports a Positive Behavior Intervention System (PBIS).

Element:

School-Wide Positive Behavior Systems:

This year, Drifill is dedicated to revamping our Positive Behavior Supports throughout the campus to support positive student behaviors in common areas, specifically the cafeteria. Drifill aims to provide a positive learning environment for students that fosters a respectful, responsible place for all.

Our PBIS team meets regularly to review campus/classroom needs related to student behaviors.

Drifill's school rules and expectations are shared with students through student/parent handbooks, expectation assemblies, and student meetings with teachers and administrators. Parents are provided with the same school rules via parent meetings, school bulletins, and Back to School Night and via Parent Square.

Drifill expectations and rules are posted in the classrooms and throughout the school. Our Guidelines for Success are stated in the daily morning announcements and reviewed with students during discipline meetings.

Throughout the playground, student activities list the CHAMPS expectations for that designated section to help students understand the expectations for that center activity and how to resolve conflicts positively.

Opportunity for Improvement:

Meet regularly to review safety and behavioral concerns, to develop procedures to support positive behavior and to provide appropriate training. Information is provided to parents, students, and staff.

Each team member has specific responsibilities that must be met if the educational experience is to have the greatest positive results. We have established clear consequences for behavior that interferes with learning, including using social media on and off campus. Additionally, rewards for positive behavior are implemented to encourage all students to maintain appropriate personal conduct. We provide classroom instruction in personal and social skills, incorporating the teaching of school rules and making wise choices to prevent discipline incidents. Students learn that consequences will result when they violate a school or classroom standard. Disruptive, disrespectful behavior or harassment will not be tolerated. Students are not to endanger others, continually disregard rules or repeatedly interfere with others' right to learn.

Note: Students may be disciplined for acts related to school activities or attendance that occur at any time, including:

- While on school grounds;
- While going to or coming from school;
- During the lunch hour, whether on or off campus;
- During, going to, or coming from a school-sponsored activity.

Other causes of disciplinary action:

- Deliberate littering of school premises;
- Chewing gum while at school;
- Using electronic devices during times when use is not allowed or to cause a disturbance.
- Not adhering to the school dress code;
- Making bomb threats or false fire alarms;
- Setting fires or using explosive devices that threaten or cause damage to human life or property on school grounds or at school-sponsored events;
- Habitual tardiness/truancy;
- Forging parents' signatures or school documents (CAC 306).

Consequences

After rules are taught, students may be counseled by their teacher, aide, or principal for a first and second infraction. Parents may be notified in writing and/or by telephone for repeated infractions by the student's teacher and/or principal. After counseling, students will lose privileges and may receive detentions for repeated infractions.

Continued infractions may require a parent conference with the student's teacher and/or principal. Serious infractions may result in immediate suspension and/or recommendation for expulsion for the student.

Positive Reinforcements

Incentives are used to promote exemplary student conduct.

SCHOOL RULES AND PROCEDURES IMPLEMENTATION RESPONSIBILITIES

Expectations:

- Classroom teachers review basic rules with students at the beginning of each year.
- In written form, basic school rules are sent home yearly for parental review.
- Students will be held responsible for their conduct.
- Parents will be responsible for providing and supporting an environment conducive to their child(ren)'s success.
- Teachers will cooperate with other staff in enforcing school rules and helping students understand the benefits of choosing a behavior that shows respect for others and property.
- The principal will establish and enforce rules that conform to district procedures and foster safety and good citizenship.

EVALUATION AND FEEDBACK METHODS

Summary:

Driffill staff, the PBIS Team, the School Site Council, and the site principal will review the school rules and discipline program. These groups will consider the impact of school-wide recognition programs and their effectiveness. The number of discipline referrals and suspensions will be reviewed. All community members are encouraged to maintain an ongoing dialogue about personal conduct and school safety standards.

GENERAL

Education Code 44807: Every teacher in the public schools shall hold Pupils to a strict account for their conduct on the way to and from school, on the playgrounds, or during recess. A teacher, vice principal, principal, or any other certificated employee of a school district, shall not be subject to criminal prosecution or criminal penalties for the exercise, during the performance of his duties, of the same degree of physical control over a pupil that a parent would be legally privileged to exercise but which in no event shall exceed the amount of physical control reasonably necessary to maintain order, protect property, or protect the health and safety of pupils, or to maintain proper and appropriate conditions conducive to learning.

CONDUCT CODE PROCEDURES

The school rules and procedures were developed and adopted in accordance with California education code 35291.5. This document represents the collaborative efforts of teachers, parents and other school staff and administration. These rules and procedures are intended as guidelines for enhancing the instructional climate and personal safety. The school uses a proactive and positive approach to management of student behavior (CHAMPS) with clear expectations and structures in place in classrooms and common areas.

(J) Hate Crime Reporting Procedures and Policies

Oxnard School District Board Policy 5145.9- Hate-Motivated Behavior

In order to create a safe learning environment for all students, the Board of Trustees desires to protect the right of every student to be free from hate-motivated behavior and will promote harmonious relationships among students to enable them to gain a true understanding of the civil rights and social responsibilities of people in society. The district prohibits discriminatory behavior or statements that degrade an individual based on his/her actual or perceived race, ethnicity, culture, heritage, gender, sex, sexual orientation, physical/mental attributes, or religious beliefs or practices.

Any student who believes he/she is a victim of hate-motivated behavior shall immediately contact the teacher and Principal. Upon receiving such a complaint, the Principal shall immediately investigate the complaint in accordance with school-level complaint process/grievance procedures as described in AR 5145.7 - Sexual Harassment. A student who has been found to have demonstrated hate-motivated behavior shall be subject to discipline in accordance with law, Board policy, and administrative regulation. Students are expected to respect all others while on school grounds or while participating in school activities. Any student engaging in hate-motivated behavior will be subject to the school discipline policies in accordance with the district policies and guidelines.

Adaptations for Students with Disabilities

Access and Functional Needs (AFN) Emergency Response – Pupils with Disabilities

On December 2, 2015, terrorists attacked the Inland Regional Center in San Bernardino, California. Because the center serves individuals with intellectual and developmental disabilities, initial reports indicated the attack was an assault on the disabled. Though it was later learned not to be the case; the thought of an attack on individuals with disabilities raised serious concerns. Paramount among those concerns was the general recognition that there was a lack of guidance and training regarding the access and functional needs (AFN) considerations associated with any disaster including an active shooter attack.

When considering emergency/disaster response, the population of any given gathering place should be considered. In the school environment, establishing if any students or staff have access or function needs is primary.

EVACUATION

This should always be a consideration, how to safely evacuate all people from a building in the event of a fire or other emergency requiring evacuation. How do staff members efficiently move students who are in wheel chairs or have developmental needs to the

evacuation area while keeping students safe and calm? Consideration should be taken for making this evacuation as safe as possible.

EARTHQUAKE: DROP, COVER, HOLD ON

In California, Earthquake is always a possibility, and although we live day to day as if a large earthquake won't happen, being prepared is an absolute necessity. The response to drop to the floor, cover your head preferably by getting under a desk or heavy piece of furniture and holding on to it to stay covered while everything else around is shaking is meant to keep people safe from falling objects. Given that this is the standard emergency response for earthquakes consider those who are not able to get under large pieces of furniture. The main goal is the same, ensuring their head is protected from falling debris specifically protecting those who cannot drop and take cover. Ensure that the room itself will be safe in an earthquake, securing bookshelves and their books, any large top-heavy pieces of equipment, any heavy items on the wall should be adequately secured.

If possible:

DROP where you are, onto your hands and knees. This position protects from being knocked down and also allows you to stay low and crawl to shelter if nearby.

COVER your head and neck with one arm and hand

- If a sturdy table or desk is nearby, crawl underneath it for shelter.
- If no shelter is nearby, crawl next to an interior wall (away from windows).
- Stay on your knees; bend over to protect vital organs.

HOLD ON until the shaking stops.

- Under shelter: hold on to it with one hand; be ready to move with your shelter if it shifts.
- No shelter: hold on to your head and neck with both arms and hands.

Adapt for your situation:

If a student has difficulty getting on the ground or cannot get back up again without the help of a caregiver, then follow these recommendations:

If you are in a recliner or bed: Do not try to transfer during the shaking. Cover your head and neck with your arms or a pillow until the shaking stops.

If you use a cane: Follow the Drop, Cover, and Hold on instructions as shown in the section above, OR sit on a chair, bed, etc. and cover your head and neck with both hands. Either way, keep your cane near you so it can be used when the shaking stops.

If you use a walker: LOCK your wheels (if applicable) and carefully get as low as possible. If your walker has a seat, sit and COVER your head/neck with your arms, a book, or a pillow. IF no seat, try to get down with your head lower than the top of the walker. Bend over, then HOLD ON until shaking stops.

If you use a wheelchair: LOCK your wheels. COVER your head and neck with your arms, a book, or a pillow. Bend over and HOLD ON until the shaking stops.

Once shaking stops:

- Check yourself for injury, paying extra attention to areas where you have reduced sensations.
- If you are near the shore and feel strong shaking, first protect yourself as in Step 5 until the shaking reduces such that you can move inland or to a higher location. Do not wait for an official warning.
- Be prepared for aftershocks. Stay close to and aware of the safe spaces in your environment.
- Look around for hazards such as broken glass and objects in your way.
- Furniture may have shifted and sound cues may not be available to individuals with visual disabilities.
- Evacuate only if necessary, otherwise stay where you are.
- If the authorities advise an evacuation for your area, follow their directions immediately.

LOCKDOWN

The best response to an active assailant on campus is to lockdown. The best option for safety during an active assailant disaster is to keep students safe by keeping them quiet in locked rooms. Occasionally, students are in a location where they cannot be locked down so other options should be considered.

The current mantra taught for personal protection during an active shooter attack is “Run, Hide, Fight”. While reasonable and appropriate, each of those steps has AFN-related implications. Persons with disabilities and AFN should ensure their individual needs are integrated into their organization’s emergency evacuation plan, develop a “buddy system” for assistance evacuating or concealing themselves to avoid an attacker and think creatively about how to use personal assistive devices (e.g., canes, crutches, wheelchairs) as weapons if needed during an emergency of any sort including an active shooter attack.

RUN

Individuals with a disability or an AFN have the most awareness of their specific evacuation needs. As such, it is the responsibility of the individual (assisted as appropriate by his or her representative, behavioral therapist or personal care assistant) to: Inform management regarding any gaps or needs for accommodations that exist in their organization’s emergency preparedness or evacuation plans;

- Inform management when individual is expected to be away or out of the office for extended time to ensure the individual is accounted for during safety checks and roll calls;
- Establish a “buddy system” with coworkers. “Buddies” should educate partners concerning the respective physical, psychological and communication assistance needed to increase their safety during an active shooter attack. A back-up buddy system is also recommended;
- Have an escape route and safety plan in mind specific to their respective needs; and
- Practice escape routes and safety plan by locating exits and locking offices and conference rooms before and during drills and exercises.

HIDE

Individuals with a disability or an access and functional need (AFN), depending on their specific disability or AFN, may have difficulty hiding. For example, individuals who use wheelchairs may find it challenging or impossible to hide under a desk or in a closet. Because each individual knows what will or will not work for them, persons with a disability or an AFN (assisted as appropriate, if needed, by their representative, behavioral therapist or personal care assistant) should:

- Plan ahead by identifying potential areas to hide throughout their workplace prior to an incident occurring;
- Coordinate with management and colleagues/“buddies” ahead of time regarding the type of assistance they can provide to help with concealment;
- Use assistive devices or durable medical equipment to secure hiding spot (such as parking and locking heavy wheelchairs in front of a door);
- Practice self-soothing techniques to remain calm and collected; and
- Look for improvised weapons that can be used aggressively within individual’s ability.

FIGHT

Individuals with varying physical, emotional or developmental capabilities may be limited, completely or partially, in the degree to which they are able to fight an active shooter. However, individuals with a disability or AFN should consider using durable medical equipment or assistive devices as improvised weapons with which to attack an active shooter. For example, using a power chair to ram an active shooter; using a cane as a bat; or hitting an active shooter with a cast.

COMMUNICATING EFFECTIVELY DURING AN ACTIVE SHOOTER SITUATION

When communicating with individuals with a disability or AFN during active shooter situations, it is important to always ask the person how you can best assist. Asking the individual before assisting maintains their safety, independence, and health, as they are the expert when it comes to their individual needs. Active shooter situations are rapid, complex events and becoming familiar with tips for effective communication can help ensure a safer and more effective response. The following section outlines tips for communicating effectively with individuals with a disability or AFN. The tips are adapted and modified from the Texas Center for Disability Studies.

BLIND/LOW VISION

Announce your presence, speak out, state the nature of the emergency, and then enter the area.

Avoid shouting and speak directly to the individual.

Offer assistance but allow the individual to explain what help is needed and avoid grabbing or attempting to guide them without first asking permission.

When assisting, offer the individual your arm. As you walk, advise them of any obstacles (i.e. stairs, doorways, narrow passages, ramps, etc.)

If leading more than one individual, ask them to help guide the person behind them.

Once you have reached a safe location, provide a brief orientation of where the individual is located and ask if any further assistance is needed.

COGNITIVE DISABILITIES

Signs to look for that may indicate elevated stress levels:

- Fleeting eye contact;
- Repetitive or self-stimulating behaviors (rocking, hand-flapping; repeating words/sounds/phrases, wiggling fingers in front of the eyes, twirling/ spinning, and/or jumping);
- Self-injurious behaviors (slapping, head banging, biting, hair pulling);
- Fear/panic; Non-responsiveness;
- Aggression;
- Running away; and
- Covering ears or screeching.

To enhance communication during times of elevated stress:

- Make eye contact;
- Be patient;
- Speak slowly, use plain and concrete language;
- Give one-step direction – wait two seconds and repeat;
- Be mindful of your body language (non-verbal cues);
- Do not touch; and
- Model the expected response (hands up, fingers apart, etc.).

Deaf or Hard of Hearing

- If possible, flick the lights when entering an area or room to get the individual's attention.
- Establish eye contact with the individual, not with the interpreter or "buddy", if one is present.
- Use facial expressions and have gestures as visual cues.
- Keep your face visible at all times and keep instructions in the present tense using basic vocabulary.
- Once individual is in a safe location, offer pencil and paper for written communication if no interpreter or "buddy" is present.

Mental/Behavioral Health

- Speak slowly and in a calm tone.
- Keep communication straightforward, clear and brief.
- If the person exhibits confusion, avoid giving multiple commands. Instead, ask or state one command at a time.
- Try to avoid interrupting a person who may be disoriented; just let them know that you have to move quickly.
- Have a forward leaning body position to show interest and concern.

Service Animals

- Evacuate the owner and the animal together. Avoid separating them whenever possible.
- If an animal is wearing a harness or vest, it is on duty. If you are asked to take the animal while assisting the individual, hold the leash and not the harness (if applicable).
- Keep license and ID tags on service animals at all times.
- Keep copies of any service animal certification or documentation including immunization records, medications, and veterinarian's contact information in your service animal's disaster kit.
- Keep photo of service animal along with student to assist with reuniting if they are separated.
- Store extra animal food, water and feeding bowls.
- Keep an extra harness and/or leash with your disaster supplies.
- Some service animals are not registered and there is no proof that the animal is a service animal. If the person tells you it is a service animal, treat it as such. However, if the animal is out of control or presents a threat to the individual or others, remove it from the scene.

- The animal may not be specially trained as a service animal. People with psychiatric and emotional disabilities may have a companion animal. Be understanding and treat the animal as a service animal.

Physical Disabilities (short- or long-term disability)

- Ask the individual how you can help before beginning any assistance.
- Ask the individual if he/she is able to stand or walk with or without the use of a mobility device.
- If the conversation will take more than a few minutes, sit or kneel to speak to the person at eye level.

Considerations for refrigerated medications

- When there is a loss of power, keep medications in the refrigerator until it becomes warm, at which point they can be moved into the freezer. When the freezer becomes too warm, transfer medication to a small, insulated container and use chemical cold packs. Wrapping an emergency blanket around the ice chest or cooler will help contents stay cold much longer.
- Ask your doctor or pharmacists how long your medications will last unrefrigerated.
- If you evacuate to a shelter, tell shelter staff that you have refrigerated medication.

Instructional Continuity Plan

Introduction and Purpose of the Instructional Continuity Plan (ICP)

Information about the Instructional Continuity Plan (ICP) requirements, revision and adoption dates.

This Instructional Continuity Plan (ICP) was last revised March 2025 to ensure all students have access to instruction during a natural disaster or emergency, as mandated by Senate Bill 153, Chapter 38, Statutes of 2024 (SB 153), which adds a provision to California Education Code (EC) Section 32282.

This ICP will be included in the LEA's Comprehensive School Safety Plan (CSSP) by July 1, 2025. Inclusion of this ICP in the CSSP will be required to obtain approval of a Form J-13A waiver request beginning in fiscal year 2026-27. This plan is intended to minimize disruptions to instruction and provide support for pupils' social-emotional, mental health, and academic needs.

Engagement with Pupils and Families

- Daily updates will be sent via Parent Square to keep families informed of any changes
- Instructional engagement plans will be communicated with families and instruction will begin within 10 days following the emergency
- School sites and teachers will communicate with families regularly via Parent Square.

Methods of Two-Way Communication

Methods for two-way engagement.

The protocol for engagement with pupils and their families is designed to establish two-way communication. Current existing methods include:

Short messaging service (SMS)
Phone Calls
Email
School Portal
Social Media
Flyers

Plans for Unforeseen Events

Plans to address unforeseen events such as power outages and damage to infrastructure and how they may impact methods for two-way communication.

In the event of power outages, locations will be identified for in-person communication and dissemination of information.

Support for Special Needs

Plans designed to identify and provide support for pupils' social-emotional, mental health, and academic needs.

- Special Education (IEP/504): Virtual or in-person accommodations will be provided per students' IEP/504 plans. Students receiving school-based counseling per their IEP will continue to receive counseling with the site counseling psychologist.
- English Learners (EL): English Language Development (ELD) support and bilingual resources will be available on Canvas. Teachers will continue to provide designated ELD during distance learning.
- Counseling & Mental Health Services: Online counseling sessions and wellness check-ins will be provided. School counselors and clinicians will reach out to students who receive individual counseling and will open weekly zoom sessions for students.

Access to Instruction

Timeline for Access to Instruction

Timeline for access to instruction no more than 10 instructional days following the emergency.

As required, James Drifill Elementary School will provide access to in-person or remote instruction as soon as practicable, but **no more than 10 instructional days** following the emergency.

Conditions for Resuming Access to In-Person Instruction

Conditions under which in-person instruction will resume and any alternative sites or arrangements considering various aspects of recovery.

Outlined below are conditions under which in-person instruction will resume and any alternative sites or arrangements considering various aspects of recovery, including:

- Evacuation orders lifted
- Power and utilities functioning
- Healthy air quality
- Access to safe and clean water
- Campus free from debris and hazards
- Internet fiber lines connected and functioning
- Sufficient staff available
- Kitchens operational for meals

Remote Instruction

Plans for remote instruction.

As required, James Drifill Elementary School remote instruction will align with EC sections 51747 and 51749.5, governing Independent Study instruction modalities. Remote instruction will be designed to meet instructional standards that are, at minimum, equivalent to those applicable in independent study programs.

The expectation is for teachers to deliver standards-based instruction guided by the state framework. They will use the district-adopted curricula for all subjects, most of which have digital components. They have been provided with all necessary materials, resources and access needed to competently deliver instruction. The distance learning schedules and the hybrid (in-person) schedules dovetail nicely and if we have to transition from distance to the hybrid schedule, there should be few transitional issues to contend with.

The district currently uses the learning management system, Canvas. This is the platform that all teachers will use to provide instruction. Due to the digital nature of instruction during distance learning, we have a district-based Educational Technology TOSA (teacher on special assignment) who can support staff in developing their skills to create digital lessons. Additional TOSAs will provide technology and teaching support to teachers.

- Synchronous Learning: Teachers will conduct live instruction via Zoom/Canvas Conferences at scheduled times.
- Asynchronous Learning: Students will engage with online program resources (Lexia, ST Math), assignments, and discussion boards on Canvas.
- Hybrid Learning (if applicable): Combination of in-person and remote learning for students based on circumstances.
- Offline Learning: Printed learning packets will be provided for students with limited internet access.

Access to Instructional Materials

Methods for distributing digital and non-digital materials.

As required, remote instruction offered will align with expectations of access and equity.

All students have access to devices. Students in TK – 5th grade have been issued iPads and students in grades 6 – 8 have been issued Chromebooks for use at school and at home.

- Device: Students will use their assigned iPads or Chromebook.
- Internet Access Support: Hotspots will be available for families lacking stable internet. If schools have to close due to an emergency, school principals, teachers and staff will contact families to check on the need for internet connectivity and basic needs. Our IT department will set up distribution points based on the needs of families.
- Technical Support: A dedicated IT helpdesk at ext. 2100 will be available to assist students, teachers, and families.

Access to Schoolwork

Platforms and processes for accessing and submitting schoolwork.

As required, remote instruction offered will align with expectations of access and equity.

The district currently uses the learning management system, Canvas. This is the platform that all teachers will use to provide instruction. Due to the digital nature of instruction during distance learning, we have a district-based Educational Technology TOSA (teacher on special assignment) who can support staff in developing their skills to create digital lessons. Additional TOSAs will provide technology and teaching support to teachers. The district-adopted curricula will be used for all subjects, most of which have digital components

Temporary Reassignment

Procedures and agreements for temporary reassignment with neighboring LEAs.

James Driffill Elementary School provides support to pupils and families to enroll in or be temporarily reassigned to another site, school district, county office of education, or charter school if an emergency or natural disaster disrupts in-person learning.

Instructional Continuity

Communication Protocols

Communication protocols for families, students, staff and faculty, including how information will be made available and with what frequency including methods and timelines.

- Parent Square notifications with specific information regarding instructional plans will be sent to parents immediately following the decision to move to distance learning and within 5 calendar days following an emergency.
- Instructional engagement plans will be communicated with families and instruction will begin within 10 days following the emergency
- School sites and teachers will communicate with families regularly via Parent Square.
- Regular Updates: The district will provide updates via emails, robocalls, and social media.
- Multilingual Resources: Information will be translated into multiple languages.
- Parent Training: Workshops on using Canvas will be offered to parents to support student learning at home.

Approximately 85% of our students are socio-economically disadvantaged and 51% of our students are English Learners. If we have to close schools due to an emergency, Principals will use a log for teachers to complete to monitor student contact, as well as, conducting grade level/PLC virtual meetings on a regular basis to share information, receive requests for additional support and monitor instruction. There is a Counselor and Outreach Specialist (ORC) at each site to provide support and connect families with services as indicated from the contact teachers are making.

Technological Readiness

Technology readiness for educators and students to support a pivot from in-person to remote learning through independent study including early access to independent study program written agreements, online access to assignments and academic resources, assignment of devices, online instructional platform and access to internet and devices.

All students have access to devices. Students in TK – 5th grade have been issued iPads and students in grades 6 – 8 have been issued Chromebooks for use at school and at home.

- Device: Students will use their assigned iPads or Chromebook.
- Internet Access Support: Hotspots will be available for families lacking stable internet. If schools have to close due to an emergency, school principals, teachers and staff will contact families to check on the need for internet connectivity and basic needs. Our IT department will set up distribution points based on the needs of families.
- Technical Support: A dedicated IT helpdesk at ext. 2100 will be available to assist students, teachers, and families.

Instruction and Assessment

Prioritization of essential learning, making standards-aligned learning objectives, methods for monitoring progress and additional support whenever possible, including tutoring, check-ins, virtual office hours or other methods.

The distance learning schedules are very clear in the number of minutes for each learning space. We are adhering to the state mandated instructional minutes by grade level spans and standards-based teaching. Teachers will synchronously teach “live” through a virtual meeting platform in the mornings and students will engage in asynchronous and independent work for the remainder of the day.

Teachers are able to check in with students and meet with small groups during the asynchronous time periods. This facilitates differentiation and will help mitigate learning loss. Live teaching sessions are not required on Wednesdays, but teachers must check in with all students to provide clarification, answer questions, give reminders and provide any additional support needed. Attendance will be taken each day through our SIS system, “Q,” during synchronous instruction. The district will document daily participation of each student on each school day. If the student does not participate in distance learning, then that student will be marked absent. Participation includes evidence of participation in online activities, completion of regular assignments, completion

of assessments and contact with a staff member, the student, or the parent/guardian of the students. Oxnard School District will use a tiered system of re-engagement for students who are absent from distance-learning. That system will involve and integrate a number of school site staff to address and remediate attendance concerns. The system is based upon a model with four components: 1. Contact 2. Connectivity, 3. Engagement and 4. Participation. These components are all essential to student success within school.

School staff and interventions will be applied based upon the identification of need. Initially, school staff will work to make sure that there are working lines of communication between the home and school. Then, the District will work to ensure that the student has access to distance- learning through connectivity, which involves the use of a District-issued iPad/Chromebook and also (as needed) a Wi-Fi hotspot for access to the Internet. School staff will monitor on a daily basis which students are engaged in school by attending synchronous classes with their teacher(s).

School staff will also monitor and measure student engagement and participation within learning via asynchronous communication with students as they complete learning tasks assigned through Canvas. The District will utilize a wide range of intervention and outreach services to connect with families and to engage students in participating in distance-learning. Schools will use trauma-informed and restorative approaches in working to identify any barriers that might be impeding student success. Once barriers are identified, the District will then utilize the appropriate level of intervention (as described below) to address the concern.

For students who are identified as being truant (missing three days or three periods of 30 minutes or more without a valid excuse), the District will address the attendance concern via the School Attendance Review Board (SARB). If the attendance concern is not resolved after the first identification of truancy, the District will utilize the School Attendance Review Team (SART) process at the school site (see below) to support families by identifying barriers to school attendance and providing interventions and support to meet those needs. In cases where the attendance concern is not resolved through the SART process, the District will utilize SARB to bring additional and more intensive resources to support students and families most in need.

The District will record both daily attendance and engagement for each student within its student information system. That information will be used to identify individual attendance concerns as well as more broad-based concerns of attendance.

Teachers will:

- Maintain updated Canvas courses with lesson plans, assignments, and assessments.
- Follow the distance learning schedule for the grade level/subject area.
- Conduct daily or weekly check-ins with students via Canvas discussions, messaging, or video calls.
- Track student engagement and attendance.
- Provide timely feedback on assignments and communicate regularly with parents.

Access (Equity, Accessibility, and Inclusion)

Equity, Accessibility, and Inclusion

How all students, including those with disabilities, those experiencing homelessness, foster youth, or English learner (EL) students will continue to have equal access to instructional resources.

- Device: Students will use their assigned iPads or Chromebook.
- Internet Access Support: Hotspots will be available for families lacking stable internet. If schools have to close due to an emergency, school principals, teachers and staff will contact families to check on the need for internet connectivity and basic needs. Our IT department will set up distribution points based on the needs of families.

- Technical Support: A dedicated IT helpdesk at ext. 2100 will be available to assist students, teachers, and families.

Risk factors will be identified using Panorama SEL surveys, an online platform that collects aggregate and individual student responses to a series of questions in key social and emotional domains. Students in grades TK-8 who are identified with risk factors will be referred to the school counselor for further screening to determine the appropriate level of care. Early intervention services will include school-based individual or group-based counseling and linkage to community services. School counselors will also use the Columbia Suicide Severity Rating Scale (C – SSRS) to identify any students at risk of harm to self.

Principals will use a log for teachers to complete to monitor student contact, as well as, conducting grade level/PLC virtual meetings on a regular basis to share information, receive requests for additional support and monitor instruction. There is a Counselor and Outreach Specialist (ORC) at each site to provide support and connect families with services as indicated from the contact teachers are making.
