

Dear Parents,

New York State law requires that certain information be made available to parents and guardians regarding the use of pesticides on school grounds. Although our use of pesticides is minimal, I need to give you the opportunity to request this information. Please complete and return the form below if you wish to be placed on the “need to know” list.

If you have any questions or concerns, feel free to contact me.

Paul Mueller '82
Director of Facilities
pmueller@sjci.com

I am the parent [or guardian] of _____ in grade _____. It is my understanding that, starting July 1, 2001, a state law requires every school to maintain a list of parents who wish to receive advance notice of pesticide applications at the school their child attends.

Each time pesticides are scheduled to be applied at the school, parents on the list must be provided with a written notice at least 48 hours in advance specifying the specific date and location of the application, the name and EPA registration number of the product being applied, the name and number of a person at the school who can be contacted to discuss the precautions being taken to protect children from exposure, and telephone numbers of information services that can provide specific information about the pesticides being applied.

Please consider this my formal request to be placed on the list to receive those notices and information.

If the notices are to be mailed, please mail them to me at the following address:

I can be reached by phone at the following number: _____

Sincerely,

Signature of Parent or Guardian
