VISION

It is the vision of the MSD of Lawrence Township to provide a safe and secure learning environment in which early adolescent children can grow and flourish intellectually, socially, and physically.

Through partnerships with parents, community members, elementary schools, and high schools, we will provide educational experiences to meet the unique developmental needs of middle level students and to facilitate their growth from elementary school, through middle school, and on to high school.

We will strive to translate what we know and believe about middle school education into our daily practice, creating learners who think clearly and logically, who make rational decisions, who communicate effectively, and who possess the desire and ability to constantly seek new knowledge and understanding of their world and of themselves.

ENVIRONMENT

The MSD of Lawrence Township will create an environment of high expectations for academic performance and social development of all students. This will be achieved by a visionary staff through innovative and creative approaches to instruction, proven teaching strategies, use of time, and assessments. Reading, writing and problem solving skills will be the primary focus for improvement. Physical, social, and emotional well-being will be promoted as well. Citizenship, character education, and community service will be the foundation of each student's social development.

The MSD of Lawrence Township will create this environment through partnership and collaboration among students and parents, staff and community. Each member of this partnership is expected to work together with a clear focus on helping our students achieve excellence in both academic and social performance.

In keeping with our partnership and student focus, School Administration reserves the right to administer disciplinary consequences to those students who may become repeat or habitual violators to the behavioral expectations, rules and regulations of MSDLT. Parents are asked to join with the school to help their student(s) learn from any behavioral mistakes made so that continued behavior at school is in keeping with MSD of Lawrence Township's high expectations of academic performance and social interaction.

SCHOOL SAFETY

Safe Schools

The Metropolitan School District of Lawrence Township believes that the safety and security of students and staff is a major priority. Safe schools require a collaborative effort of the Board, administrators, teachers, students, parents and the community. A variety of prevention and intervention strategies, programs and activities must be in place to work to ensure students' and staff welfare.

Physical aggression, hostile behavior, intimidating acts of harassment, extortion, violent behavior or possession of weapons will not be tolerated. Anyone who demonstrates such behavior will be held accountable for his/her actions in accordance with the student handbooks, board policies, and civil and criminal law.

We believe that:

1. The school district should provide the resources necessary to maintain safe schools.
2. Each school's safety and security plan, with stipulated procedures to be followed, will enhance the feeling of well-being at each school site.
3. Various safety and security measures should be implemented, including intervention and police security, as necessary.
4. Administrators, teachers and support staff are the individuals responsible for appropriately supervising, monitoring and assisting students.
5. Parents' presence in schools, as visitors or volunteers, on a regular basis enhances school security.

The Superintendent shall establish procedures to be followed regarding implementation of school safety and security measures.

(Board Policy 8400)

The Board of School Trustees is committed to maintaining a safe environment in all of the Corporation's schools. To that end, in accordance with State and Federal law, the Corporation shall establish a Safe School Committee for the entire Corporation, the composition of which shall be in accordance with the Superintendent's guidelines.

Each Safe School Committee shall include at least one (1) member who is a member of the school or Corporation career and technical education school.

The Safe School Committee shall be responsible for developing a plan that addresses the following issues:

- A. Unsafe conditions, crime prevention, school violence, bullying, and other issues that prevent the maintenance of safe schools.
- B. Professional development needs for faculty and staff to implement methods that decrease problems identified above.
- C. Methods to encourage involvement by the community and students, development of relationships between students and school faculty and staff, and use of problem solving teams.
- D. Provide a copy of the floor plans for each building that clearly indicates each exit, the interior rooms and hallways, and the location of any hazardous materials located in the building to the local law enforcement agency and the fire departments that have jurisdiction over the school. The Corporation shall not disclose any record or part of any record if the disclosure of which would have a reasonable likelihood of threatening public safety by compromising the Corporation's security.

SCHOOL VISITORS (Board Policy 9150)

The board encourages our families and the community to be involved in and support the educational program of our schools. The board seeks to find a balance between providing a safe and secure learning environment for our students and staff and providing a welcoming environment to our visitors.

Opportunities to Visit Our Schools

To encourage involvement, the following opportunities are provided to visit the schools:

- A. Visitors are welcome to observe and learn about the educational program at each school subject to reasonable rules.
- B. Visitors are invited to attend school events that are open to the public such as athletic events, musical programs, and dramatic productions.
- C. Visitors are welcome to participate in beneficial volunteer activities.
- D. Visitors may engage in other activities, subject to reasonable rules, that would be beneficial to one or more students or the educational environment.

When an individual disrupts the educational environment, acts in a disorderly manner, damages school property, or violates board policy, procedures or the law, the principal or designee has authority to:

- A. Order the individual to leave school property;
- B. Notify law enforcement; or
- C. Take any other action deemed appropriate under the circumstances.

Failure to comply with a request to leave school grounds may result in the filing of trespass charges or other charges as appropriate against the offending individual.

The Superintendent, upon recommendation from the principal, may deny an individual permission to come onto school grounds or enter a school facility for up to one school year if the individual disrupts the educational environment.

ATTENDANCE

(Board Policy 5200)

The Indiana Compulsory School Attendance Law requires students to attend school daily. Without regular attendance at school, students cannot take full advantage of the learning opportunities necessary for their full development as individuals and citizens. The student and his/her family or legal guardians have the primary responsibility for ensuring attendance at school.

The Lawrence Township Board is responsible for providing a rich and diverse learning experience which will provide motivation for student's daily school each day. The Board also believes those students who do not attend school risk failing academically and those who arrive late to school and/or to class interrupt instruction for themselves and others. Finally, the Board is committed to the proposition that it is essential for students, parents and /or legal guardians to understand there are consequences for students who are habitually tardy and/or absent without excuse from school.

The following MSDLT Attendance Policy is intended to outline, for students, parents and educators the Board's expectations, the students', parents', and school personnel's responsibilities and the consequences for violating the district's attendance policy. The Superintendent or his/her designee shall ensure procedures are developed for each of the Kindergarten, elementary, middle and high school levels. Each school can develop attendance monitoring procedures, parent notification, and determine consequences for tardies, truancy and unexcused absences, as long as the procedures and consequences complement the policy.

Truancy:

Under I.C. 20-33-2-11, a child who is designated a habitual truant is defined as "a student who is chronically absent, by having unexcused absences from school for more than ten (10) days of school in one (1) school year."

Excused Absences:

Excused absences are defined as absences that the school corporation regards as legitimate reasons for being out of school, as included in the school policy. These could include:

- Illness verified by note from parent/guardian
- Illness verified by note from Physician
- Family funeral
- Maternity
- Military Connected Families (e.g. absences related to deployment and return)
- Exhibiting at the Indiana State Fair or member of household exhibiting at the same
- Such other good cause as may be acceptable to the Superintendent or permitted by law

Exempt Absences

Exceptions to compulsory attendance that shall be recognized by the school corporation as provided by State statute are:

- A. Service as a page or honoree of the general assembly (I.C. 20-33-2-14)
- B. Service on a precinct election board or helper to a political candidate on the date of an election (I.C. 20-33-2-15)
- C. Subpoena to appear in court as a witness in a judicial proceeding (I.C. 20-33-2-16)
- D. Service in active duty with the National Guard for not more than ten (10) days (I.C. 20-33-2-17)
- E. Participating as a member of the Indiana wing of the civil air patrol for not more than five (5) days (I.C. 20-33-2-17.2)
- F. Exhibiting or participating in the Indiana State Fair for educational purposes by a student or member of the student's household (I.C. 20-33-2-17.7 The student must be in good academic standing as determined by the Corporation. Parents must request the absence in writing, it must be approved in writing by the principal, and it may not exceed five (5) days.
- G. Participating in an educationally related non-classroom activity which is consistent with and promotes educational philosophy and goals of the School Corporation, facilitates the attainment of specific educational objectives, is part of the goals and

objectives of an approved course or curriculum, represents a unique educational opportunity, cannot reasonably occur without interrupting the school day, and is approved in advance by the school principal (I.C. 20-33-2-17.5)

Consequences for Unexcused Absences:

- Required by law: As a parent/guardian, it is your legal duty to ensure that your child attends school. If you fail to ensure your child's school attendance, you may be prosecuted for the crime of Failing to Ensure School Attendance, a Class B misdemeanor. A person convicted of a Class B misdemeanor may be given up to 180 days in jail and a fine of up to \$1,000.00(one thousand dollars).
- If your failure to ensure your child's school attendance worsens to such a point that it is clear you are knowingly and intentionally depriving your child of an education as required by law, you may be prosecuted for Neglect of a Dependent, a Class D felony. A person convicted of a Class D felony may be given up to three (3) years in jail and a fine of up to \$10,000.00 (ten thousand dollars).
- If your failure to ensure your child's school attendance worsens to such a point that it is clear that your child's physical or mental condition is seriously impaired or seriously endangered as a result of your inability, refusal or neglect to supply your child with necessary education, you and your child may be subject to the filing of a Child in Need of Services (CHINS) case in Juvenile court. This may result in your child being removed from your care.

Extended Absences Related to Injury Or Illness:

The MSD of Lawrence Township recognizes that some students will enter school with a chronic illness, or will develop a medical condition that persists; such conditions may have an impact on academic life as well as activities of daily living. To adequately address the impact on student attendance, two (2) specific provisions will apply:

Certificate of Incapacity - Pursuant to IC 20-33-2-18 and IC 20-8.1-3-20, the school may:

- Demand that the parent provides a Certificate of Incapacity that is signed by appropriate medical personnel and provides requested detail related to the specific medical diagnosis/condition within six (6) school days of the request; and,
- If the Certificate of Incapacity verifies the illness/condition, and the absence will be less than twenty (20) instructional days, the school will count the student as having an "excused absence" and the student will be able to make up missed assignments and examinations.

Instruction for a Student with an Injury, Temporary or Chronic Illness - The state of Indiana and the MSD of Lawrence Township establish the process for consideration of instruction for students with an injury, temporary or chronic illness pursuant to 511 IAC 7-42-12. As such, the following will apply:

- There must be substantiated medical documentation that the illness or injury will prevent the student from attending school for a minimum of twenty (20) consecutive instructional days or a chronic illness or other medical condition that will require the student's absence for an aggregate of at least twenty (20) instructional days over the period of the school year;
- During the period of time that the student is being provided with instruction under the established guidelines, the student will be counted as "present" for attendance purposes;
- Because the program is a temporary replacement of classes in school, students are expected to participate in the instruction and complete subject requirements and homework assignments; and,
- Failure to participate in or complete requirements of the established process for instruction may lead to lack of Course completion and/or unexcused absences (which would follow the same guidelines as in the **UNEXCUSED ABSENCES** section of this policy.

Tardy Procedures

A tardy policy is in place to reinforce the importance of getting **to school and to class on time**. MSDLT defines a tardy as: "A student is considered tardy if he/she is not in the classroom before the bell rings and is ready to begin class." Each student's tardy count (with regard to the consequences listed in the school tardy policy) will reset at the beginning of each new 9 week grading window. **NOTE: students who are placed on an attendance contract may remain on the contract for the remainder of the current school year.**

Parents/guardians should view and monitor their attendance frequently (daily) through Skyward. This way, if a discrepancy occurs, the student and the appropriate teacher are able to quickly discuss the mark and come to an understanding about expectations in that particular class.

Late Buses:

The school is directly made aware of busses that are arriving late to school each day this happens. When this occurs, those students are given a “Late Bus Pass,” and are not counted tardy to class.

Late to School:

Students who are dropped off at school and not in class by 8:50 a.m. are considered tardy and will be subject to the consequences outlined in the school tardy policy. If a student is tardy due to an appointment (doctor, dentist, etc) a note from the appointment must accompany the student into school.

SCHOOL HEALTH

MSD Lawrence Township/Community Health Network

CLINICS:

Parents/guardians have primary responsibility for the health care their children receive, but school clinics are available for emergencies, injuries, and illness that arise while the child is at school, in addition to management of chronic illnesses and special needs. Each Lawrence Township clinic is staffed with a Community Health Network nurse (RN or LPN). Nurses do not make medical diagnoses, but they are skilled in assessment, planning, intervention, evaluation, promotion of wellness, health counseling/education, prevention, emergency care, and referral.

School nurses may provide non-emergency first aid treatment, emergency care, and conduct health screenings to students, without the return of the Permission for School Nurse Services form. This form must be filled out for your student to receive student specific medications, treatment and procedures during the school day. If you do not want your student to receive basic first aid in the clinic, please contact your school nurse.

The school clinics are open daily during normal school day hours. Students must have a pass to enter the clinic, unless it is an emergency. Students without a pass will be sent back to class to obtain one. They will be asked the nature of the complaint, will have their temperature taken, and may be allowed to rest for a short period of time. Please remember that time in the clinic is time out of a class—instructional time is being lost. If the nurse needs to send a student home due to a sign of illness (see below), the nurse will call the phone numbers listed in Skyward. If contact information changes, it is essential that phone numbers be updated in Skyward. If the nurse is unable to reach a contact, the student will be sent back to class unless there are signs of a contagious illness (below). An illness-related early release from school is only excused when sent home by the nurse. If the student has an emergent or urgent health need and/or the parent or other contact cannot be reached, EMS may be contacted.

If a student has a chronic illness and needs an emergency care plan followed at school, it is the parent’s responsibility to get these plans filled out by a doctor and returned to school. Some examples of chronic illnesses are asthma, seizures, diabetes, allergies and sickle cell anemia. Any other health related accommodations for the school day will be initiated after the nurse receives written doctor’s orders. This includes, but is not limited to, open bathroom passes, physical restrictions, PE restrictions, and concussion accommodations. If a student needs a procedure during the school day, the nurse must also have doctor’s written orders. This includes, but is not limited to, gastrostomy tube feedings, in and out catheterizations, wound dressing, diabetes care, and medication administration.

ILLNESS:

General guidelines for illness follow the guidelines, laws, and recommendations of the Indiana Department of Health, the Marion County Health Department, Community Health Network, and Indiana State Code to prevent the spread of communicable diseases. If the nurse should call home for a student pick up, they are acting in accordance with these laws and their professional nursing judgement. Parents should make every effort to come to the school to pick up their students in a timely manner. Bus transportation should not be utilized if the child exhibits symptoms of a contagious illness (below).

Please do NOT send a student to school if one or more of the following symptoms are present: diarrhea*, vomiting*, undiagnosed body rash, sore throat with swollen lymph nodes, severe coughing, eye discharge or redness*, or fever of 100 degrees or above. Please do NOT send a child back to school until he/she has been fever-free (without fever-reducing medications) and without vomiting/diarrhea for 24 hours. Antibiotics which have been prescribed for eye or throat infections must have been given for 24 hours before the student returns to school. This will help prevent the spread of infection to others and ensure that the student is feeling well enough to learn. Students who have had a surgery or hospital stay may be asked to provide a doctor’s note to return to school.

*Diarrhea – Student with diarrhea, defined as three or more loose or liquid stools in 24 hours, should stay home or be sent home from school.

*Vomiting – Students who vomits more than two times in a 24 hour period or vomiting and a fever are present should stay home or be sent home from school.

* Eye Discharge and Redness – Some students might have allergies or eye irritation that is normal. If a student normally does not have these eye issues, they should not be at school and be seen by a doctor or nurse practitioner. Nursing assessment and judgement will be used to determine appropriate course of action during the school day.

INJURY:

Students who are injured at school will be assessed at the time of the injury, if they report to the clinic. If a student has a deep laceration, cannot walk, has extreme swelling, pain, obvious deformity, head injury, or has any other sign of an emergent/urgent need for further evaluation, the nurse will determine the best course of action for the situation. This may include a call home or an EMS call. Only an x-ray can determine if a fracture has occurred. The clinics possess wheelchairs for emergency response by school staff only. Lawrence Township cannot provide a wheelchair or any other medical supplies or devices which are necessary for student injuries or recuperation from surgeries, including crutches, dressing supplies, wraps, splints, etc. Parents should contact their healthcare provider or insurance carrier if these devices are needed beyond the school's initial response.

MEDICATIONS:

Lawrence Township clinics do not stock any medications. All medication must be supplied by the parent/guardian. Medication given for the academic success of students or other medications given for acute or chronic conditions may be administered at school. Please try to schedule a three-time-per-day medication at home. Do not send once daily or every twelve hour medications to school. Once a daily morning medications should be given at home unless a note is provided from the student's physician or after discussion and approval by the school nurse. Medication administration forms are available at each school or online. This form must be filled out and signed by the parent or guardian before a medicine will be administered by the nurse. Prescription medication must have the current prescription label with student's name attached to the medication. Per Indiana State code, all medications must be in the ORIGINAL containers. For the safety of your student, if medication is received in a baggie or envelope, it will NOT be given. A physician's order is necessary in order for an emergency medication (EpiPen or inhaler) to be carried by a student. It is helpful and best practice to have a backup of this medication in the clinic. If cough drops are needed, we suggest that hard candy be substituted for the same effect, with no time out of class to go to the clinic.

Over-the-counter (OTC) medications for children must state that the medicine may be given to children under twelve years of age. The label on an OTC serves as the guideline for dosing and frequency. If the parent desires a dose or schedule that is different than the label, a physician's order shall be necessary for administration. Over the counter medications will only be accepted in the clinic in a new, unopened bottle. Used medication will not be accepted. Supplements are not considered appropriate for school administration.

No medication should not be transported by students in grades PK-8. Parents must transport all medications to school. Students in grades 9-12 may transport medications with written permission from the parent or guardian.

LICE:

Students who exhibit scratching or evidence of live bugs in the hair may go to the school clinic for evaluation by the School Nurse. The School Nurse will examine the student's hair and scalp in a confidential manner. If live lice (crawling bugs) are visualized, the parent/guardian shall be contacted by phone. Factors such as the severity of infestation, child's age, or other health concerns influence professional judgment regarding parent pick up and recommended treatment options. Close household contacts should be inspected. Students remaining at school until the end of the day will be discouraged from direct head to head contact with other students in the classroom. School Nurses will assist parents/guardians with strategies for prevention and ways to enable the student to return to school as quickly as possible. If nits only are visualized, the student may remain in school and the parent will be notified at the end of the school day. Nits located closer than ½ inch on the scalp require parental action at home. Nits farther than ½ inch are not considered to be viable.

The American Academy of Pediatrics states that classroom and school wide head checks are not the best use of school time. Therefore, nursing will only check a student with suspected lice.

MISCELLANEOUS:

In the event that Indiana Poison Control is consulted, the advice received shall be absolutely followed by clinic/school personnel, including emergency transport.

It is the parent's responsibility to provide any student-specific supplies that are needed on a regular basis at school. This includes dressing supplies for injuries beyond initial first aid, supplies of clothing, hygiene items, equipment/supplies for any type of special need, etc.

Immunization records shall be reviewed at the time of the student's enrollment or whenever a change in the law requires additional immunizations for current students. Lawrence Township clinics shall inform parents about changes in state laws. All students must meet state requirements for immunizations. Students may be excluded from school if immunizations are not up to date. The nurse may be contacted for further information.

Elementary clinics have some availability of spare clothing for medical needs that may arise during the school day. However, the selection varies from day to day, and there may not be an appropriate size available. In this case, the parent shall be called to bring clothing. Borrowed clothing should be laundered and returned to the school clinic the following day. Donations of clean gently used items are gratefully accepted.

Vision and hearing screenings for certain grade levels take place sometime during the school year and are performed by the Marion County Health Department. Referrals for follow-ups are mailed to the home. Parents should make every effort to act promptly if a referral is received, as vision and hearing deficits greatly impact educational performance. Notice of screenings shall be by newsletter, call system or via the school/district website.

Please do not hesitate to contact the nurse for any concerns during the school year.

Use of school lockers is a privilege, and should only be used in the specified manner. Gym lockers will be available for designates athletic teams for after school use only. All school lockers should ONLY be used by the student they are assigned to.

There is a \$5 replacement charge for each lost/misplaced lock.

There can and will be periodic inspections of lockers by school officials. The building principal and/or designee shall possess the authority to examine the contents of any locker located on the school premises when Administration has sufficient reason to believe

that the contents of the locker may include elements which present an immediate threat to the health, safety, and welfare of the student body, are illegal to possess, would contribute to the disruption of the normal educational program, or have been reported stolen or lost.

Use of school lockers is a privilege, and should only be used in the specified manner. Gym lockers and locks are available to Wellness students and athletes. All school lockers and locks should not be shared with others.

Guidance Department Services:

The Guidance Department is provided to help each student in his/her social, educational, personal and vocational development. The counselors are in the office during the school day and in the cafeteria during the lunch hours. They are eager to talk with students regarding any problem they may have.

To see a counselor, students should request a conference/meeting through the Guidance Page via Canvas.

Education Records (FERPA)

The Family Educational Rights and Privacy Act (FERPA) affords parents certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days of the day the School receives a request for access. Parents should submit to the School principal a written request that identifies the record(s) they wish to inspect. The School official will make arrangements for access and notify the parent of the time and place where the records may be inspected.
2. The rights to request the amendment of the student's education records that the parent believes are inaccurate or misleading. Parents may ask the School to amend a record that they believe is inaccurate or misleading. They should write the School principal, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the School decides not to amend the record as requested by the parent, the School will notify the parent of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent upon request.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. FERPA permits disclosure without consent in at least the following situations: (1) disclosure to school officials with legitimate educational interests; (2) disclosure to officials of another school in which a student seeks or intends to enroll; and (3) disclosure of directory information. A school official includes a person employed by MSDLT as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the school board. A school official also may include a volunteer, contractor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks. A school official typically has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the School to comply with the requirements of FERPA. The name and address of the federal office that administers FERPA will be provided upon request.

As noted above, the School may disclose "directory information" without written consent, unless you have advised the School to the contrary in a written document submitted to the School principal by October 1 of each school year. The School has designated the following information as directory information:

- Student's name
- Participation in officially recognized activities and sports
- Address
- Telephone listing
- Weight and height of members of athletic teams
- Electronic mail address
- Photograph
- Degrees, honors, and awards received
- Date of birth
- Dates of attendance
- Grade level
- The most recent educational agency or institution attended
- Hair and eye color, race, sex, and other similar information which would not generally be considered harmful or an invasion of privacy if disclosed.

One purpose of disclosing directory information is to allow the School to include this type of information from your child's education records in certain school publications. Examples include:

- A playbill, showing your student's role in a drama production;
- The annual yearbook;

- Honor roll or other recognition lists;
- Graduation programs; and
- Sports activity sheets, such as for wrestling, showing weight and height of team members.

DIRECTORY INFORMATION

Each year, the Superintendent shall provide public notice to students and their parents of the Corporation's intent to make available, upon request, certain information known as "directory information". The Board designates as student "directory information": a student's name; address; telephone number; date of birth; major field of study; participation in officially recognized activities and sports; height and weight, if a member of an athletic team; dates of attendance; date of graduation; awards received.

The Board designates school-assigned email accounts as "directory information" for the limited purpose of facilitating students' registration for access to various online educational services, including mobile applications/apps that will be utilized by the student for educational purposes. School assigned email accounts shall not be released as directory information beyond this limited purpose and to any person or entity but the specific online educational service provider.

Directory information shall not be provided to any organization for profit-making purposes. The Superintendent may allow access to a school campus or give students' directory information to organizations that make students aware of educational or occupational options.

In accordance with Federal law, the Board shall comply with FERPA when releasing students' information to a recruiting officer for any branch of the United States Armed Forces or an institution of higher education who requests such information.

Parents and eligible students may refuse to allow the Corporation to disclose any or all of such "directory information" upon written notification to the Corporation within 10 days after receipt of the Superintendent's annual public notice.

Whenever consent of the parent(s)/eligible student is required for the inspection and/or release of a student's health or education records or for the release of directory information, either parent may provide such consent unless specifically stated otherwise by court order.

The Corporation may disclose "directory information" on former students without consent of the parent(s)/eligible student unless the parent or eligible student previously submitted a request that such information not be disclosed without their prior written consent.

15. **Food/Meal Delivery:** Students and/or parents/guardians are not permitted to order food from outside vendors (GrubHub, DoorDash, etc.), to be delivered to them at school, during the school day. This is a safety concern that also disrupts the educational process within our school community. Disciplinary action may be taken for a student that does not abide by this policy. Any unauthorized deliveries may be confiscated by administration.

Hall Passes

Students in the hall during a class period must have a pass signed by a staff member. Students out of class without permission will be considered to be cutting class and a referral will be written on that student. Students are not allowed to linger in the hallways, and must arrive at their designated area (listed on the pass) in a timely manner. Hall Passes (as well as Passing Periods between classes) may be revoked by Administration at their discretion.

Students should not go to Student Services during their passing periods, rather, they should get to class first, then ask for a pass. Teachers/Staff reserve the right to deny such a request based on the nature of the request.

Additional General Guidelines Prohibited Articles

Problems arise when students bring items that are hazardous to the safety of others or interfere with school procedures. Items such as (but not limited to) laser pointers, food, drinks, and bracelets with inappropriate phrases, cards, dice, skateboards, fireworks, radios, matches, lighters, blankets, stuffed animals and toys are not permitted in the school building or its classrooms. If brought to school, such items will be taken from the student and given to Student Services. Only the student's parent/guardian may reclaim confiscated items. School Administration reserves the right to confiscate any item that may interrupt the learning environment or cause a student or staff to raise a concern/issue. Do not allow your student to bring these types of items to school. MSDLT Administration and Staff are not responsible for the safekeeping of any confiscated/prohibited articles brought to school.

DRESS AND GROOMING (Board Policy 5511)

The School Board recognizes that each student's mode of dress and grooming is a manifestation of personal style and individual preference. The Board will not interfere with the right of students and their parents to make decisions regarding their appearance, except when their choices interfere with the educational program of the schools.

Accordingly, the Superintendent shall establish such grooming guidelines as are necessary to promote discipline, maintain order, secure the safety of students, and provide a healthy environment conducive to academic purposes. Such guidelines shall prohibit student dress or grooming practices which:

- A. Present a hazard to the health or safety of the student himself/herself or to others in the school;
- B. Interfere with school work, create disorder, or disrupt the educational program;

The Superintendent shall develop administrative guidelines to implement this policy which:

- A. Designate the principal as the arbiter of student dress and grooming in his/her building;
- B. Instruct staff members to demonstrate, by example and precept, personal neatness, cleanliness, propriety, modesty, and good sense in attire and appearance; I.C. 20-33-8-12

Dress Code

Students, please dress appropriately for the learning environment. We consider MSD of Lawrence Township to be a student's place of "work" and the dress code will be enforced as such. If a student is not dressed properly for school, the student will be placed in our Academic Re-Assignment Room until such time that an appropriate change of clothes can be brought from home. **MSDLT does not maintain substitute clothing.** MSDLT Administration and/or Staff will make the decision as to whether or not clothing worn by a student at school is appropriate for the school environment. If clothing is found not to be appropriate, they may then require the student to call home for a change of clothes and wait in the Academic Reassignment Room until a change of clothing is brought in. It is our intent to have students dress in a manner that shows good judgment and does not distract or interfere with the educational climate here at MSDLT.

Such items include, but are not limited to the following:

- A. Clothing and accessories shall not be worn if they display or suggest inappropriate pictures/sayings including (but not limited to)
 - Profanity or Vulgarity
 - Obscene or foul language
 - Symbols of violence
 - Discriminatory messages
 - Gang or gang-like symbols
 - Sexually suggestive symbols, pictures or words
 - Alcohol, tobacco or drug related symbols, pictures or words

B. Pants/skirts/shorts/dresses with rips, tears, and/or holes should be below the fingertips when arms are relaxed at their sides, not showing any skin above the fingertip level.

At no time should clothing be worn that is too tight; revealing undergarments or private areas; or too loose so that undergarments and/or too much skin is revealed. This includes loose tops that fall from the shoulders as well as pants that sag. If leggings or similar type tight pants are worn, a top must be worn that is at least fingertip length all the way around the body.

Accessories

- **Headphones/earbuds/AirPods** are not permitted to be worn or used in the hallways during school hours. Only with specific permission may they be used in a classroom
- **Pocket/wallet chains** are not permitted

Footwear

- Students are not allowed to walk barefoot at any time during the school day.
- Shoes with laces are to be laced and tied.
- Shoes manufactured with wheels are not permitted.
- Flimsy shoes are discouraged (thin-strap sandals, etc...). These types of shoes are not made to handle the wear and tear of walking and shuffling around all day in a school setting. They will break. If this happens, the student will be sent to the Academic Reassignment Room (ARR) until such time as a parent/guardian can bring another pair of shoes to school. MSDLT does not have the materials/provisions to fix footwear.
- Slippers are not permitted (such as bedroom slippers and house shoes)
- Shoes with lights on them are not permitted.

Headwear

- Non-religious head coverings, including but not limited to caps, hats, costume wigs, bandanas, hair curlers, picks, combs, hoods, do-rags/wavecaps, bonnets, and headscarves of any kind are not allowed, unless provided special permission by school administration.

Pants/Slacks

- Belts must be appropriately buckled.

Pants will be worn fitted to the waist with or without a belt, and they will not expose undergarments. If a student is “sagging”, the student will be asked to fasten the pants at his/her waist, call home for a belt to be brought in and/or be placed in our Academic Re-Assignment Room until such time as an appropriate pair of pants/belt can be brought from home. If the student continues to sag their pants, a disciplinary referral may be written.

- Flannel pants and pajama-looking pants are not permitted.
- Pants/skirts/shorts/dresses with rips, tears, and/or holes should not show any skin above the fingertip level when the student’s arms are at their relaxed state at their sides.
- Pants/leggings should not be so tight that undergarments and private parts can be easily distinguished clearly through them. A long top that falls below fingertip level all the way around the body may be worn over these type of pants/leggings.

Shirts and Tops

A. Clothing that exposes the back, shoulders, torso- including stomach/belly button area, and/or cleavage; such as the following (but not limited to) is not allowed:

- Sheer material whereby undergarments can be seen

B. All shirts must cover the shoulders, belly button area, lower back area and chest area. Bra/undergarment straps should not show.

Leggings/Shorts/Dresses/Skirts

- These items should meet the fingertip test, meaning, “When arms are held relaxed at student’s sides, shorts/skirts/dresses should reach **below** the fingertips”. Skin should not be visible above the fingertips.
- Leggings, jeggings and any kind of tight pants may be worn **ONLY** if the top is at fingertip level **ALL THE WAY AROUND** the body. Tied sweatshirts, sweaters, and jackets around the waist is not a solution to be used as properly covering up tight pants.

Outerwear

- Winter coats and heavy jackets are not permitted to be worn during the school day. Light weight items such as sweat shirts & sweaters are okay.
- Blankets/Throws and the like are not allowed to be “worn” during the school day.

If there is a question as to whether or not any student’s apparel is inappropriate for school, school officials will determine appropriateness. We reserve the right to send a student home or ask the parent to bring a change of clothing if the student’s clothing is not appropriate for the school setting. If an adult is not available to supply a change of clothing, the student will be assigned to the Academic Reassignment Room (ARR) for the remainder of the day and will do their school work from ARR.

Application of Consequences

Continued violations of the Dress Code Policy will become a Disciplinary Issue.

Electronic Devices and Cell Phones

- Personal Communication Devices (PCDs) including cell phones and smart watches must be turned off, put away, and undetectable during instruction time unless:
 - Teacher authorizes use for education purposes.
 - In the event of an emergency.
 - Used to manage student health care.
 - Use is included in IEP or 504.
- Parents who need to speak to their child should call the main office, not the child’s phone. **Students must follow any additional school and classroom rules for phones.**
- Except as authorized by IEP, CCC, or Administrator students are prohibited from using PCD’s during school day including while off campus on field trip, to capture record and/or transit words, images, video of any student, staff member or another person as it is considered an invasion of privacy and is not permitted.
- PCDs with a camera may not be activated at any time where a reasonable expectation of personal privacy would be expected.
- Students shall have no expectation of confidentiality with respect to their use of PCDs on school premises/property.
- Students may not use PCDs in a way to threaten, humiliate, harass, embarrass and/or intimidate.
- Violations of this policy may result in disciplinary action or confiscation of the PCD.

- **The school is NOT responsible for lost or stolen electronic devices and cell phones; and is not obligated to seek the return of such items.**

STUDENT TECHNOLOGY (Board Policy 7540.03)

Technology has fundamentally altered the ways in which information is accessed, communicated, and transferred in society. As a result, educators are continually adapting their means and methods of instruction, and the way they approach student learning, to incorporate the vast, diverse, and unique resources available through the Internet. The School Board provides Technology Resources (as defined in Bylaw 0100) to support the educational and professional needs of its students and staff. With respect to students, Corporation Technology Resources afford them the opportunity to acquire the skills and knowledge to learn effectively and live productively in a digital world. The Board provides students with access to the Internet for limited educational purposes only and utilizes online educational services/apps to enhance the instruction delivered to its students. The Corporation's computer network and Internet system do not serve as a public access service or a public forum, and the Board imposes reasonable restrictions on its use consistent with its limited educational purpose.

The Board regulates the use of Corporation Technology Resources by principles consistent with applicable local, State, and Federal laws, the Corporation's educational mission, and articulated expectations of student conduct as delineated in the Student Code of Conduct. This policy, its related administrative guidelines and the Student Code of Conduct govern students' use of Corporation Technology Resources and students' personal communication devices when they are connected to the Corporation computer network, Internet connection, and/or online educational services/apps, or when used while the student is on Corporation-owned property or at a Corporation-sponsored activity (see Policy [5136](#)).

Users are prohibited from engaging in actions that are illegal (such as libel, slander, vandalism, harassment, theft, plagiarism, inappropriate access, and the like) or unkind (such as personal attacks, invasion of privacy, injurious comment, and the like) when using Corporation Technology Resources. Because its Technology Resources are not unlimited, the Board also has instituted restrictions aimed at preserving these resources, such as placing limits on use of bandwidth, storage space, and printers.

Users have no right or expectation to privacy when using Corporation Technology Resources (including, but not limited to, privacy in the content of their personal files, e-mails, and records of their online activity when using the Corporation's computer network and/or Internet connection).

First, the Corporation may not be able to limit access technologically, through its Technology Resources to only those services and resources that have been authorized for the purpose of instruction, study and research related to the curriculum. Unlike in the past, when educators and community members had the opportunity to review and screen materials to assess their appropriateness for supporting and enriching the curriculum according to adopted guidelines and reasonable selection criteria (taking into account the varied instructional needs, learning styles, abilities, and developmental levels of the students who would be exposed to them), access to the Internet, because it serves as a gateway to any publicly available file server in the world, opens classrooms and students to electronic information resources that may not have been screened by educators for use by students of various ages.

The Board prohibits the sending, receiving, viewing, or downloading of materials that are harmful to minors on computers and other technology related devices owned or leased by the Corporation or connected to the Corporation computer network.

Pursuant to Federal law, the Board has implemented technology protection measures that protect against (e.g., filter or block) access to visual displays/depictions/materials that are obscene, constitute child pornography, and/or are harmful to minors, as defined by the Children's Internet Protection Act. At the discretion of the Board or the Superintendent, the technology protection measures may be configured to protect against access to other material considered inappropriate for students to access. The Board also utilizes software and/or hardware to monitor online activity of students to restrict access to child pornography and other material that is obscene, objectionable, inappropriate and/or harmful to minors. The technology protection measures may not be disabled at any time that students may be using the Corporation Technology Resources if such disabling will cease to protect against access to materials that are prohibited under the Children's Internet Protection Act. Any student who attempts to disable the technology protection measures will be subject to discipline.

The Superintendent or Chief Technology Officer may temporarily or permanently unblock access to websites or online education services/apps containing appropriate material, if access to such sites has been blocked inappropriately by the technology protection

measures. The determination of whether material is appropriate or inappropriate shall be based on the content of the material and the intended use of the material, not on the protection actions of the technology protection measures.

Parents/Guardians are advised that a determined user may be able to gain access to services and/or resources on the Internet that the Board has not authorized for educational purposes. In fact, it is impossible to guarantee students will not gain access through the Internet to information and communications that they and/or their parents may find inappropriate, offensive, objectionable or controversial. Parents of minors are responsible for setting and conveying the standards that their children should follow when using the Internet.

STUDENT ACTIVITIES

MSD of Lawrence Township has extensive extracurricular programs that include clubs and interscholastic athletics. We encourage as many students as possible to participate in these after-school activities.

When the school day is complete, unless special permission is granted by an administrator or a teacher (e.g. staying after school for teacher's help or a tutoring program), students are to leave the school building. This does not include students participating in school approved activities; however, those students should go directly to their activity meeting place (classroom, field, court, etc....) and not linger in the school hallways. Students should be in their designated activity meeting place by 3:55 p.m.

Eligibility:

- A. Students are eligible to participate in sports if they have not reached their 14th birthday in grade 7 and 15th birthday in grade 8 of that school year.
- B. Sports Physicals: All students must have an up-to-date sports physical on file before they are allowed to try out for any sport.
- C. Participation in extracurricular activities and athletics is a privilege, not a right. Any students participating in any activities that represent the school will be subject to school behavioral expectations and consequences.

Please see separate Student Athletic Handbook for more detailed eligibility rules and additional information.

STUDENT DISCIPLINE

(Board Policy 5600)

The School Board acknowledges that conduct is closely related to learning and that an effective instructional program requires an orderly school environment, which is, in part, reflected in the behavior of students.

The Board believes that students should learn to assume responsibility for their own behavior and the consequences of their actions.

- C. Do not demean students;
- D. Do not violate any individual rights constitutionally guaranteed to students.

The Superintendent shall publish to all students and their parents the rules of this Corporation regarding student conduct, the sanctions which may be imposed for breach of those rules, and the due-process procedures that will be followed in administering the Code of Conduct. SUSPENSION AND EXPULSION OF STUDENTS WITH DISABILITIES (Board Policy 5605)

In matters relating to the discipline of students with disabilities, the Board shall abide by Federal and State laws and regulations regarding suspension and expulsion.

The Superintendent shall establish administrative guidelines and require that the guidelines are followed when disciplining any student with a disability. I.C. 20-33-8-34, 20 U.S.C. 1400 et seq., 29 U.S.C. 794, 34 C.F.R. Part 104, 34 C.F.R. Part 300, 34 C.F.R. Part 301, 511 IAC 7-44-1 through 10.

SUSPENSION AND EXPULSION OF STUDENTS (Board Policy 5610)

The School Board recognizes that removal from the educational programs of the Corporation, whether by suspension or expulsion, is the most severe sanction that can be imposed on a student in this Corporation and one that cannot be imposed without due process since removal deprives a child of the right to an education.

No student is to be suspended and/or expelled from an activity, program, or a school unless his/her behavior represents misconduct or substantial disobedience while the student is on school grounds immediately before or during school hours, or immediately after school hours, or at any other time when the school is being used by a school group; off school grounds at a school activity, function, or event; or traveling to or from school or a school activity, function, or event.

In addition to the grounds specified above, a student may be suspended or expelled for engaging in unlawful activity on or off school grounds if the unlawful activity may reasonably be considered to be an interference with school purposes or an educational function, or the student's removal is necessary to restore order or protect persons on school property, including any unlawful activity during weekends, holidays, other school breaks, and the summer period when a student may not be attending classes or other school functions.

Furthermore, a student may be suspended or expelled for bullying, regardless of the physical location in which the bullying occurred, whenever:

- A. The individual committing the bullying behavior and any of the intended targets of the bullying behavior are students attending a school within a school corporation; and
- B. Disciplinary action is reasonably necessary to avoid substantial interference with school discipline or prevent an unreasonable threat to the rights of other to a safe and peaceful learning environment.

A Student Code of Conduct, approved by the Board, shall specify the procedures to be followed by school officials when administering this policy. In addition to the procedural safeguards and definitions set out in this policy and the student/parent handbook, the procedures set forth in Policy 5605 shall apply to students identified as disabled under IDEA.

For purposes of this policy and the Superintendent's administrative guidelines, the following definitions shall apply:

- A. "Suspension" means any disciplinary action that does not constitute an expulsion whereby a student is separated from school attendance for a period not to exceed ten (10) school days. A student may be suspended for a longer period of time in accordance with the provisions of I.C. 20-33-8-23 pending expulsion.
- B. "Expulsion" shall be the removal of a student from the schools of this Corporation for a period not to exceed the number of school days remaining in the school year in which the incident took effect, if the incident occurs during the first semester. If

the incident occurs in the second semester, the Superintendent may expel the student for the remainder of the current school year, summer school, and the first semester of the next school year in accordance with the provisions of I.C. 20-33-8-26.

Any student who brings a firearm, as defined in I.C. 35-47-1-5, or a destructive device, as defined in I.C. 35-47.5-2-4 to school or onto school property or at a school-related activity or is in possession of a firearm shall be expelled for at least one (1) calendar year unless the Superintendent reduces the punishment for reasons justified by the particular circumstances of the incident.

If the student brings a deadly weapon as defined in I.C. 35-31.5-2-86 onto Corporation property or is found to possess a deadly weapon on Corporation property or at a school-related activity, s/he may be expelled for a period of not more than one (1) calendar year unless the Superintendent reduces the punishment for reason justified by the particular circumstances of the incident. The Superintendent shall notify the law enforcement agency designated by the Prosecuting Attorney immediately when a student possesses a firearm, destructive device, or deadly weapon on school property or at a school-related activity.

The Superintendent shall ensure that a copy of this policy is sent to the State Department of Education as well as a description of the circumstances surrounding any expulsions for the above-stated firearms or weapons offense together with the name of the school, the number of students so expelled, and the types of firearms or weapons that were brought on Corporation property.

The Board of School Trustees has voted not to hear any expulsion appeals. Instead, appeals of expulsion must be filed with the County Court.

The Superintendent shall develop administrative guidelines which provide appropriate procedures for implementing this policy and comply with applicable statutes.

The Superintendent shall report all expulsions and second suspensions to the Bureau of Motor Vehicles in accordance with law and the Bureau's guidelines. I.C. 20-33-8-13.5 et seq., 35-31.5-2-86, 35-47-1-5, 35-47.5-2-4 20 U.S.C. 7151

Unlawful Activity

A student may be suspended or expelled for engaging in unlawful activity on or off school grounds if the unlawful activity may reasonably be considered to be an interference with school purposes or an educational function, or the student's removal is necessary to restore order or protect persons on school property. This includes any unlawful activity meeting the above criteria that takes place during weekends, holidays, other school breaks, and the summer period when a student may not be attending classes or other school functions.

Threatening Behavior

Threats, Bullying and Assaults:

The Board believes that the physical, mental, emotional and social well-being of our students is a priority. Threats, bullying and assaults will not be tolerated. Students who commit such acts are subject to suspension, expulsion, arrest and/or prosecution.

Definitions:

Threats are statements of intent made either personally, through others, in writing or by use of technology (e.g. internet) to harm students, staff, or school property, including use of weapons or explosive devices.

Assault means inflicting injury or attempting to inflict injury on another person when coupled with the apparent present ability to do so. Assault includes attempting to cause physical harm with hands, feet, weapons or explosive devices.

Battery is when a student touches, hits, kicks or shoves another student or staff member.

Bullying means overt, repeated acts or gestures, including (1) verbal or written communications transmitted; (2) physical acts committed; or (3) any other behaviors committed by a student or group of students against another student with intent to harass, ridicule, humiliate or intimidate the other student. This rule applies when the bullying student is: (1) on school grounds before or during school hours, immediately; (2) off school grounds at a school activity, function or event; (3) using property or equipment provided by the school. All students may be required to attend informational sessions on the meaning of bullying and the possible repercussions of partaking in such activity.

Parent Involvement: Parents, are expected to be involved with school officials in the process of minimizing bullying as it is defined in this section. Parents should feel free to report suspected acts of bullying to an appropriate school official. In addition, parents of students suspected of bullying will be notified with a phone call or through other appropriate means of correspondence. Conversely, parents and students suspected of being the victim of acts of bullying will also be notified. Parents of students who are disciplined for acts of bullying will be involved in the process as consistent with school policy on procedure.

Reporting: All parents and students should report suspected acts of bullying to an appropriate school official. In turn, all staff shall report or refer all suspected acts of bullying to a school administrator.

Investigation: Once a report of suspected bullying is received by the designated administrator, an investigation shall follow. The investigation should be facilitated by the administrator or other appropriate school staff. Information relating to the investigation will be gathered using means including but not limited to interview and accumulation of suspected bullying correspondence.

Intervention: If a report of suspected bullying is substantiated through an investigation, then the school shall take appropriate disciplinary action as consistent with the school's policy and procedure for discipline. The chosen discipline for a student found to have violated the rules on bullying is subject to school disciplinary such as suspension and expulsion. Also, if the acts of bullying rise to the level of criminal offense, violating students will be referred to the proper authorities and risk arrest and/or prosecution.

Students making threats, either personally, through others, in writing or by use of technology (e.g. Internet), to do physical harm (including use of weapons and explosive devices) to students and/or staff, create psychological threats or threaten to destroy school property in any manner are subject to suspension, expulsion, arrest and/or prosecution. Prior to readmission to school, the Board of Education, or its designee, may require competent and credible evidence, including complete evaluation, from a psychologist or psychiatrist, that the student does not pose a risk of harm to himself or others.

Student Drug Testing (Board Policy 5530.01)

The administration shall have the authority to require any student to submit to a chemical test of the student's breath or urine if the administration has "reasonable suspicion" (as defined below) that the student is using or is under the influence of alcohol, marijuana or any controlled substance (as defined by Indiana law) while:

- a. On school grounds, immediately before, during and immediately after school hours and at any other time when the school is being used by a school group;
- b. Off school grounds at a school activity, function or event; or
- c. Traveling to or from school or a school activity, function or event.

The administration also has the authority to require any student participating in athletics or other extra-curricular or co-curricular activities and any student issued a parking permit to submit to testing if the administration has reasonable suspicion to believe that the student has violated rules adopted by the school prohibiting such students from using or being under the influence of alcohol, marijuana or any controlled substance.

Reasonable suspicion may arise from the following:

- a. A student's behavior, in conjunction with physical appearance and/or odor indicates the possible use of alcohol, marijuana or any controlled substance.
- b. The student possesses drug paraphernalia, alcohol, marijuana or any controlled substance.
- c. Information communicated to an administrator by a teacher, parent, other adult or a student indicating a student is using, possessing or under the influence of alcohol, marijuana or any controlled substance. (Any such report will be investigated by the administration and will be substantiated by other indicators, if deemed necessary.)

A chemical test of the student's breath and/or urine will be conducted in accordance with the adopted procedures. If any student tests positive, disciplinary action may be taken as outlined by the school's Student Handbook.

Students participating in privileges granted by the school such as parking or extracurricular activities are subject to restriction of those privileges as outlined by the school's Student Handbook and/or the respective athletic and extra-curricular/co-Curricular handbooks/guides.

A student's refusal to submit to the chemical test will result in the administration's proceeding with the appropriate disciplinary action. If a parent or guardian refuses to allow the test to be administered to their child, the disciplinary action will be taken as if the test were positive.

Drug Deferral Program:

Students who are found to be in violation of knowingly possessing or transmitting drugs or are under the influence of drugs including alcohol are subject to a 10-day suspension accompanied by a recommendation to the Superintendent for their expulsion from school. For first offense and upon review of the student's disciplinary record and the circumstances of the violation, the principal may at his discretion, recommend to the Superintendent that the student be given the option to enroll in an educational or counseling program of at least 10 hours and complete a drug assessment which includes a laboratory analysis.

With the second and subsequent offenses, the student will be subject to 10 days' suspension accompanied by a recommendation to the Superintendent for his/her expulsion from school.

Re-enrollment after the period of the expulsion requires the presentation of evidence that the student has received the professional intervention to assist with the substance involvement, if specified by a hearing examiner.

LAW ENFORCEMENT AND/OR GOVERNMENTAL AGENCY: INTERVIEWS OF STUDENTS ON SCHOOL PROPERTY (Board Policy 5540)

As used in this policy, an interview involves situations in which the student is not a suspect of the investigation. If the student is a suspect, then the policy regarding interrogations of students shall apply.

Interviews of students by law enforcement officers or other government agents on school property, without parent notification, will be permitted only if the principal or other designated staff member is present during the interview and one of the following circumstances apply:

- A. The interview is essential to the student's immediate well being or the immediate well being of others; or
- B. Conducting the interview with parent notification will further jeopardize the welfare of the student or others.

If neither of the two above circumstances applies, the student's parent shall be notified of the interview request before an interview is conducted.

Upon consultation with the law enforcement officer or government agent, the principal or other designated staff member need not be present if it is determined that such presence may impair the quality of the interview as, for example, interviews by child protective agencies.

This policy shall not preclude any school administrator or designee (including school safety officers) from conducting interviews regarding issues pertaining to school safety and discipline; or the student's ability to independently initiate a report to a law enforcement officer or government agent while on school grounds.

This policy applies to all students regardless of the age of the student.

SEARCH AND SEIZURE (Board Policy 5771)

The School Board recognizes its obligation to balance the privacy rights of its students with its responsibility to provide student, faculty, and authorized visitors with a safe, hygienic, and alcohol/drug-free learning environment.

In balancing these competing interests, the Board directs the Superintendent to utilize the following principles:

- A. School Property - School facilities such as lockers and desks are school property provided for student use subject to the right of the Superintendent and his/her designee to enter the facility as needed and inspect all items in the facility searched. Students shall not have an expectation of privacy in any facility provided by the school and shall not be permitted to deny entry to a Corporation administrator by the use of a lock or other device.
- B. Student Person and Possession - Prior to a search of a student's person and personal items in the student's immediate possession, consent of the student shall be sought by an administrator. If the student does not consent, such a search shall be permitted based only upon the administrator's individualized reasonable suspicion to believe that the search will produce evidence of a violation of a law, school rule, or a condition that endangers the safety or health of the student or others. Searches of the person of a student shall be conducted and witnessed by a person of the same gender as the student and shall be conducted in a private place. A searched student's parent or guardian shall be notified of the search within twenty-four (24) hours.
Searches, pursuant to this policy, shall also be permitted in all situations in which the student is under the jurisdiction of the Board as defined by I.C. 20-33-8-14.
Permission for a student to bring a vehicle on school property shall be conditioned upon consent of the search of the vehicle and all containers inside the vehicle by a school administrator with reasonable suspicion to believe the search will produce evidence of a violation of law, a school rule, or a condition that endangers the safety or health of the student driver or others. The student shall have no expectation of privacy in any vehicle or in the contents of any vehicle operated or parked on school property.
The Superintendent may request the assistance of a law enforcement agency in implementing any aspect of this policy. Where law enforcement officers participate in a search on school property or at a school activity pursuant to a request from the Superintendent, the search shall be conducted by the law enforcement officers in accordance with the legal standards applicable to law enforcement officers.
- C. Breath Test Instruments - Administrators are authorized to arrange for the use of breath-test instruments for the purpose of determining if a student has consumed an alcoholic beverage. It is not necessary for the test to determine blood-alcohol level, since the Board has established a zero tolerance for alcohol use.
- D. Use of Dogs - The Board authorizes the use of specially-trained dogs to detect the presence of drugs or devices such as bombs on school property under the conditions established in the Superintendent's administrative guidelines.

STUDENT WITHDRAWAL

If for any reason a student must withdraw from our school, he/she should report this fact with a written note from the parents or guardian to the Guidance Office at least one day before his/her last day of attendance. To ensure a smooth transition to the new school, the student must:

- Return all books and their laptop/accessories to the School Treasurer in the Main Office and pay any outstanding balance due,
- Complete the withdrawal form and return it to the Guidance Office. If moving within our Lawrence Township School District, a parent/guardian must provide documentation of the new address.
