

TOMBALL INDEPENDENT SCHOOL DISTRICT

Request for Qualifications for Professional Services Consultants on an Indefinite Delivery,
Indefinite Quantity (IDIQ) Basis
RFQ-IDIQ #992-25/31

Addendum No. 04

July 24, 2025

Questions and Clarifications to the RFQ Document:

1. Note: during the Pre-Proposal meeting, respondents were instructed to contact their respective references to let them know a survey would be forthcoming after the proposal submission. If they do not see it by Wednesday, July 30, please have them check the SPAM folder.
2. Note: To ensure adequate time is available for references, TISD has determined the IDIQ results will not be going to the August Board and is now scheduled for the September BOT meeting.

There is no change in the Proposal Submission Due Date.

The reference response for the survey monkey from your reference contacts submitted, is now Tuesday, August 5th by noon, to be considered.
This will allow sufficient time for anyone to respond.

3. *Question:* In response to question 8 of Addendum #03, you noted waiting for a final answer. Do you expect to have that response before proposals are submitted?

Response: We have discussed this with TISD, and they have stated they are not issuing an Additions and Deletions report at this time.

4. *Question:* Will you be issuing another addendum after Addendum #03?

Response: Per the RFP, the final Addendum is due out July 24, 2025. This Addendum #04 is the final Addendum planned for issue on this IDIQ.

5. *Question:* Are the following items required for Surveying?

Response: See below for Surveying and similar disciplines. Do not leave anything blank.

Name of client and/or owner/operator (District Name, Company Name, Etc. Name):	Required
Name of client and/or owner/operator contact (Person Name):	Required
Client and/or owner/operator contact phone number:	Required
Client and/or owner/operator contact email address:	Required
Original scheduled date for completion (Construction):	Not Applicable
Actual completion date (Construction):	Not Applicable
Explanation of variance between original and actual completion dates:	Not Applicable
