

Getting Started With StudentSquare

Welcome! StudentSquare is where you'll get messages and updates from your teachers and school. This quick guide will help you set up your account and get started.

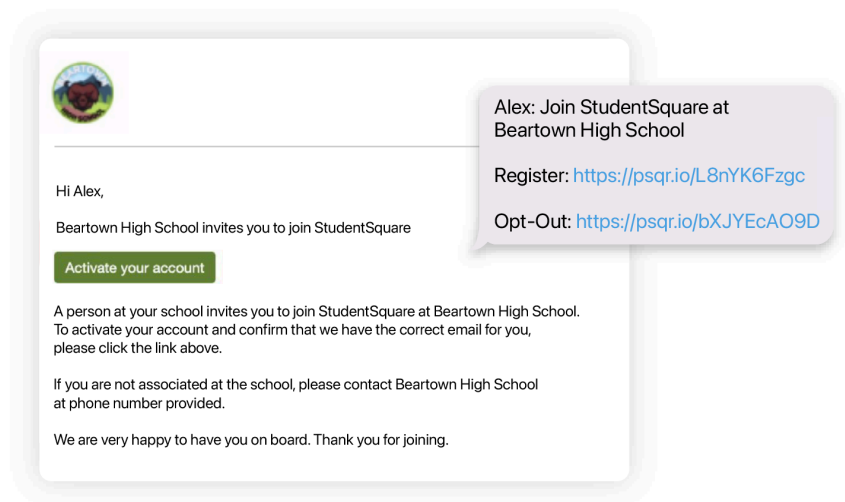

Set up your StudentSquare account

Depending on how your school set things up, there are two ways to join StudentSquare. Follow the steps below that match how your school invited you.

Join with an email or text message invitation

Your school will send you an invitation to the email address or phone number they have on file. The message will come from **ParentSquare**, the platform that powers StudentSquare.

The invitation will look like this:

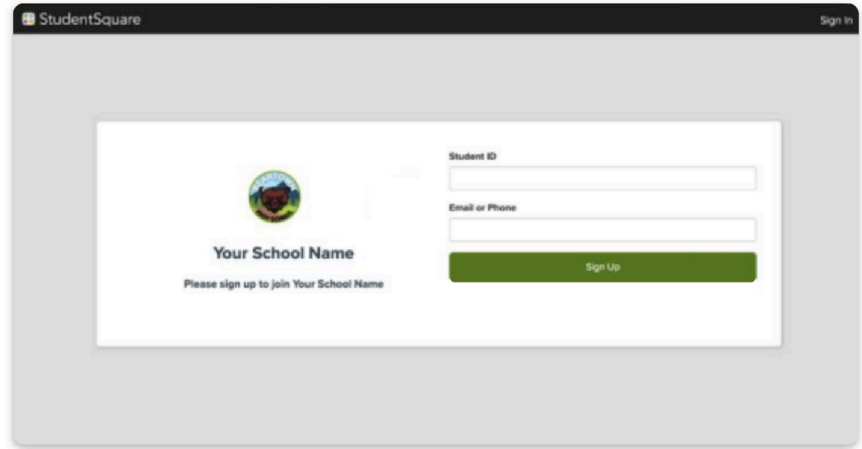

1. Open the invitation in your email or text messages.
2. Click **Activate your account** or tap the link in the message.
3. Create a password you'll remember, then click **Register**.
4. Check your contact information. If it looks correct, click **Confirm**.
5. You'll get a verification code by text or email. Enter the code when asked.
6. If everything looks correct, click **Yes, this is me**.

Join with a URL

Your teacher or school might give you a website link to sign up. Open the link in your browser; it should take you to a page like this:

1. Enter your student ID number and your email address or phone number.
2. Click **Sign up**.
3. You'll get a verification code by text or email. Enter the code when asked.
4. Create a password you'll remember.
5. Click **Register**.

A screenshot of a web browser showing the StudentSquare sign-up page. The page has a dark header with the StudentSquare logo on the left and a 'Sign In' link on the right. The main content area is white and contains a school logo on the left, the text 'Your School Name' and 'Please sign up to join Your School Name' in the center, and a sign-up form on the right. The form has two input fields labeled 'Student ID' and 'Email or Phone', and a green 'Sign Up' button at the bottom.

That's it! Now you can log in to your StudentSquare account.

Download the StudentSquare app

The free StudentSquare app helps you stay in the loop wherever you are. It's available for iPhone and Android.
