

SILVER CREEK ELEMENTARY

CAR RIDER PROCEDURE 2025-2026

Cars will pull into our 7 staging lanes. You may get in any lane you choose. All cars should stop at the painted white line. Staff will release one car at a time to move into our single lane drop off/pick up area by doors A & V. Note: this one lane will travel out of the staging area and around the circle. Once on the circle, students will be dropped off and picked up as they have been the last few years. Cars will exit the campus by following the yellow line out to HWY 31.

- AM/PM staging will occur in the car rider area behind the white line- cars will not stage around the circle.
- Please wait for staff to release one car at a time. Then pull forward one car length at a time as the cars move forward.
- It is helpful to all when cars pull tightly up to one another in the lanes to get as many cars into the car rider lines as possible while staging.

KEY

- Entrance to Campus
- Exit from Campus
- AM Drop Off
- PM Pick Up
