

Car Rider Information for PreK Families

1. You will be issued two car rider tags at Meet the Teacher. If you need additional tags or lose them, you will need to purchase replacement tags. They are \$5 for the first replacement tag and \$10 for any more replacements. (If you have children in K/1, we will use your tags from last year. If you turned them in at the end of school, you will need to pick them up at Meet the Teacher. If you still have them, they are ready to use. If you lost them, you will need to purchase replacement tags.)
2. Please make sure that you have a CarRider Pro tag issued from Kilgore Primary School hanging from your rearview mirror. Please keep the rearview mirror free of other tags, freshies, jewels, etc...
3. You will enter the car line from Highway 259. Please create a single file car line. If the line backs up to the highway, please move the line along the playground fencing as shown on the map. Do not block or park on Highway 259. Once you turn left from the stop sign, you will see the tag reader. Do not pass this until 2:00.
4. KPS staff will not cross in front of other cars to deliver your child to the car or to load on the driver's side. We will only load into the passenger side, preferably the back seat.
5. Please teach your child how to buckle and unbuckle themselves into car seats. KPS staff will not be allowed to do this for them.
6. If your child is requiring more time to buckle themselves in the car seat or your assistance is needed in this process, you may be asked to move forward to keep the car rider line moving.
7. Please do not enter the car rider line before 2:00 due to blocking the flow of traffic around KPS and on Highway 259. The Car Rider Pro system will not read tags prior to 2:00. If you enter before this time and your tag is not read, you will be asked to go back to the end of the line to have your tag read.
8. The car rider line will close at 3:00 in order to prepare the lane for buses to arrive. If you arrive after 3:00, inside the front entrance of the school with your car rider tag and driver's license. Your child will then be brought to you. **Per the PreK parent agreement, your child is expected to be picked up from KPS by 3:00.**
9. Please be patient and remain in your car while in the line. This process will take several days or possibly weeks for your child to learn their car tag numbers and be taught to line up correctly. We will be constantly checking and rechecking that each child's backpack tag number matches that of the tag hanging from car rearview mirrors.

Again, thank you for your patience and understanding during this process!!

We are so excited to have your children at Kilgore Primary this year!! :)
