- Please note commendable progress over the last year.

The board is impressed with lots of evidence in this report. A few highlights include:

- The number of students participating in sports is back to pre-pandemic rates.
- Great progress expanding Promise K to full year and an inclusive preschool model with developmental preschool.
- Half of high school students enrolled in world language courses.
- Graduation rates up for all groups of students.

We would like to end with our belief that there is solid evidence that the Superintendent and his team are developing a very broad range of new, innovative, improving programs and educational strategies to achieve the outcomes specified in The Bellingham Promise. The report offers data to show that these are working.

- Please note areas for additional improvement.

The COVID-19 pandemic impacted student performance and was out of anyone's control. It will be of interest to see continued progress to make up and surpass those deficits.

- Comments on the report itself.

The board appreciates continuing efforts to refine the report with well organized and solid information. Well done.
