Meeting Minutes

May 27, 2025, 5:30 PM, Turlock Unified School District
1574 E. Canal Drive, Room 102, Turlock, CA 95380

Meeting #27

2. Attendees:

Committee members in attendance: Lacy Elliott, Bryan Tribble, Steve Soderstrom, Patrick Bettencourt, David Folly and Harry Carlson

Staff in attendance: Barney Gordon, Assistant Superintendent of Business Services; Kaitlin Tereshchenko, Facilities Secretary III, Leslie Swisher, Director of Facilities Planning & Safety and Lori Raineri CEO of Government Financial Services Joint Powers Authority

Leslie Swisher started the meeting approximately five minutes before 5:30 p.m. on May 27th without notice, or authorization from the committee.

Leslie Swisher began to read a scripted paragraph. It wasn't known that she was actually speaking to the committee. It is unknow as to what all of her script even said as the meeting was not called. She indicated that the district staff will request that the school board approve the bonds oversight committee to be reappointed for new terms. But since we were all present, she wanted to share some information with the committee in an informal meeting, but if the committee all agreed. Leslie requests that we have an informal work session to review the material and prepare for future action.

Chairperson Lacy Elliott: Ask Leslie Swisher, you are requesting an informal meeting? Will we still be taking minutes? Leslie indicated yes and we can take minutes if requested. The chairperson indicates she was requesting minutes. Leslie started to proceed and indicated she was going to start.

Chairperson Lacy Elliott: Stopped Leslie from continuing and indicated that we can't call the meeting as it was indicated it was 5:27pm. Chairperson asked why we're changing the way that we do things and asked Leslie who provided her with her script. Leslie Swisher indicated we were just discussing it. Chairperson asked who is "We". Leslie stated that the Superintendent and her came up with this request. Committee member: Steve expresses that he is busy and doesn't have time for this and indicated that this meeting was planned two months ago.

Lori Raineri interjected and requested to introduce herself and explain why she was sitting at the committee table. She indicated she was the CEO of Government Financial Services Joint Power Authority and has been working with the district for over 30 years and worked with dozens of citizens oversight committees around the state. The chairperson stopped Lori and asked to verify that the meeting was called.

Chairperson ask Kaitlin Tereshchenko: If the meeting was called

Conducting Meeting: Chairperson, Lacy Elliott called the meeting: Meeting Commenced 5:32 PM

Lacy

Chairperson indicated that everyone was present except Harry Calrson. And requested that Lori Rainer not speak any further until Public Comment as she was not on the agenda. She didn't respect the request to wait until Public Comments and continued to speak. Harry Carlson joined the group at 5:34 p.m.

Lori Rainier states: The opportunity that you have tonight is that you have the auditor here, and you have the opportunity to review and have Leslie review the material that she has prepared for you. There's a procedural concern to have votes taken after the board has confirmed the term extension. It's not required that you make any motions about anything here, except for one thing, and that is that the oversight committee is supposed to report to the public once a year. Chairperson indicated that Lori was the person who came to our meeting in 2017 and told us to remove our bylaws. Lori admitted that she did recommend that. Lori indicated that JPA stands is why the district hired her company. That she doesn't have a conflict of interest with the bond committee and that she is certified broad examiner and a successful class financial advisor.

Chairperson indicated that Lori Rainier was also on the California Bonds Committee at one point. Wherein Lori would know all the rules of being on the California bonds committee, and then still recommended to remove our bylaws. **Lori Rainer indicated that bylaws, are not required in the statute, and I don't feel they're effective.**

Public Member: requested to speak and indicated that the committee has not be reappointed since 2019 as we were only initially appointed for two years. Georgiana that passed away in 2018, was never replaced and we have no member as a bona fide taxpayers organization on the board as required by the education code. The board has never tried to replace the vacant committee positions. Since 2019, the district has been expanding N and O funds with an oversight committee that was never reappointed. The California Association of Bond Oversight Committees recommends there's 15 red flags of what to look for as members of Bond Oversight Committees, our district, has all 15 red flags.

Committee Member: Steve Soderstrom asked if the committee has any legal representatives. The chairperson indicated she suggested las April that the committee needed to obtain separate legal counsel. Steve indicated he's not sure what is happening and Chairperson indicated that district was sent to our meeting to scare and threaten us again.

Lori Rainier stopped a public member from speaking and interjects into the meeting and tried to take over again.

Committee Member: Harry Carlson motions to approve the agenda and the motion was second. There were two voted I, one abstains, and the other committee members didn't comment.

Chairperson request for a motion to approve April 18, 2024, minutes. Lori Rainier interjected again and said no, your agenda wasn't approved.

Committee Member: Steve Soderstrom requested to stop the meeting. The chairperson asked if any other committee members wanted to stop the meeting. Committee Member: Patrick Bettencourt and David Folly agreed.

Lori Rainier then argued with the Chairperson over the issues of approving. Then request the committee a motion to end the meeting, that would be the appropriate thing to do next.

Committee Member Steve Soderstrom requested legal counsel. The chairperson agreed but I also believe that our minutes proving Barney Gordon falsified two of our minutes will never be approved and she asked why Barney is sitting in the public section and inferred probably so it doesn't show he is present at this meeting. The

chairperson is any other Committee Member that would like legal counsel Steven Soderstrom, David Folly and Patrick Bettencourt.

Committee Member: Harry Carlson indicated we have a Motion and Second regarding the Agenda and let's vote on it. The chairperson requested again for a vote: Steve Soderstrom, David Folly, Patrick Bettencourt: Noes; Harry Calrson and Lacy Elliott vote Ayes. Brian Tribble abstained

Committee Member: Steve Soderstrom motioned to stop the meeting, and it was second by David Folly. Steve Soderstrom, David Folly, and Patrick Bettencourt voted for Ayes, Harry Carlson and Lacy Elliott voted Noes. Brian Tribble vote was not heard on the video recording.

3. Review

a) Approval of Minutes from the meeting of November 2, 2023.

Lacy Elliott began with discussing the draft meeting minutes from November 2,2023. She asked Kaitlin Tereshchenko who instructed you to edit, remove and/or alter the information from the November 2, 2023, minutes. Kaitlin indicated Barney Gordon asked her to change the minutes as they were too long. Lacy asked Kaitlin who Barney was to her Kaitlin indicated my supervisor. Lacy asked if Barney was at the meeting. Kaitlin indicated he was not. Lacy indicated the Barney had no knowledge of what happened in that meeting. Kaitlin indicated correct. Lacy asked if she requested Kaitline to edit, remove or alter and of the information in the November 2, 2023, minutes. Kaitlin indicated no. Lacy asked do you know the reason besides they were too long. Kaitlin indicated it

was that we wanted to match kind of how the school board minutes are done. Lacy asked is this the first time a district employee asked you to condense out minutes. Kaitlin response yes. Lacy asked if Kaitlin has any personal notes that she could provide to see what was requested to be removed. Kaitlin indicated yes. Lacy asked is you're your writing or Barney's? Kaitlin indicated it was Barney's. Lacy requested a copy of the minutes that has Barney's handwritten requests. Patrick Bettencourt asks if the board has the original minutes and the minutes that was altered. Lacy indicated she provided both copies in her email to the board. Lacy also provided the original draft meeting minutes and the altered minutes that were requested by Barney Gordon to be changed to the Bond Oversight committee (BOC) members and to the public that were present to review, as those are the meeting minutes they would like to approve. The committee specifically discussed why the statement of concern by Martell Taylor was removed. Barney Gordon stated this was beyond the purview of the Bond Oversight Committee and was not agenized. Lacy Elliott stated that it was presented under the discussion portion of the agenda. Community member Martell Taylor stated that the bond has a responsibility to the city and that we had discussed using mixed funds in the past. Lacy Eliott stated I'm curious why the district hasn't read all of our minutes and removed everything that had nothing to do with the bonds funds because it is important we know all projects, whether they are bond or not so we can inform the community if they ask.

Committee member, Steve Soderstrom, stated while the statement of concern by Martell Taylor was not out place to start with, we need to include it in the minutes as it was discussed during the meeting. Lacy asked the committee to sign the original meeting minutes, and she will scan them to the district office to post to ensure the correct minutes were posted as she didn't trust that the correct copy would be on the website otherwise.

Lacy Elliott motion to approve the original meeting minutes from meeting on November 2, 2023.

Motion by Steve Soderstrom

Seconded by Bryan Tribble

b) Approval of Minutes from the meeting of December 5, 2023.

Lacy Elliott began with discussing the draft meeting minutes from December 5, 2023. She asked Kaitlin Tereshchenko who instructed you to edit, remove and/or alter the information from the December 5, 2023, minutes. Lacy asked all the same questions about the December minutes as these there were also two version of the December 5th minutes. All the answers were the same Barney Gordon decided he wanted to make changes to the bond oversight committee minutes to a meeting he did not attend. The committee reviewed the difference between the two minutes and Lacy pointed out that she mentioned that she felt threated by Fernado Ureno when Mr Ureno informed that committee during the public comments if we didn't table to minutes Martell might be in violation of deformation as well as the bonds committee and personally which was removed from the original December minutes. Community member Grady Welch asked what authority Barney has to change the minutes. Lacy states he has no authority he's actually a guest to our meetings. Mr. Welsh also asked it if the BOC had assistance from H.R. before and if it was normal for Marjorie Bettencourt to attend. Lacy stated HR has never unless to make a report or at their first meeting, and that Marjorie never has, nor have we ever had public comments on our agenda when HR showed up at the December meeting, they requested to make a committee during the public comments, and we have to add that to the agenda. Patrick pointed out on the minutes there was

Lacy

two difference dates. Lacy asked to make a motion to amend the date that was on the December meeting minutes from December 7, 2023, to December 5, 2023

Lacy Elliott motion to approve the amended date for the meeting minutes from meeting on December 5,2023.

4. Public Comment

Community member Martel Taylor discussed his concerns with the public about the scope of auditor, scope of BOC, Schedule A, Maximizing the use of funds (part of purview spending money efficiently), Administration trying to hide a mistake, how TUSD missed potential funds because plans didn't comply, changing of meeting minutes, feeling intimated and that is why he felt the need to leave.

Committee Member Lacy Elliott stated she received a letter from the school board the Friday before the meeting. She felt like it was a cease-and-desist letter, without it saying it and it made her feel like she needs to leave the committee.

Community member Grady Welch stated he has received a cease-and-desist letter in the past from TUSD and threatening emails. He has been told he is not welcome without an appointment when coming to the district office. Grady mentioned that an off-duty officer was reached out to via text by Barney Gordon asking her to stick close to the office on November 1st, as there is a disgruntled member of the community coming on campus. Grady believes he was going to be cited for trespassing.

Community member stated that the BOC is entitled to an attorney and that TUSD would have to pay for it. Lacy Eliott said we do not currently have one, but when are minutes don't get posted we might need one.

5. Staff Report

Barney Gordon reported that there was not a lot to report on bond projects as there are no active projects, except for the design services for the next phase at Turlock High School.

6. The Measure N & O Audit Reports and Expenditure and Expense Report

Audit Reports - Barney Gordon reported we received the measures N and O Bond Audit reports from Eide Bailly and that our bond funds are spent according to bond sales. Barney reference page 19 where it states that the N and O audit concludes no issues reported. Both are clean audits and are in accodance with bond sale.

Expense Reports - Barney Gordon reported first on Measure N (Elementary) and summarized all the projects we have completed with that bond over several years. These projects include major renovations to Osborn and Turlock Junior High School, and perimeter fencing. Barney also mentioned $13.000 was encumbered and there are no funds left in N. Barney reported that we received state funds and Lacy Elliott stated so we can talk about state matching funds if we receive them just not when you lose them. Barney had no comment. Barney reported that Osborn is eligible for up to 3 million for modernization and the final phase. Community member Grady Welch asked why the Osborn classrooms were built smaller leading them to be not eligible for funds. Community member Martell Taylor stated that they were hoping to use state matching funds for phase 1 and phase 3. They anticipated that they could have received 3.4 million for modernization and 4.7 million for new construction. Since the classrooms were too small the plans were not eligible, so no funds were received for the project. Community member asked if the architect could be sued for this mistake and if there are any plans to recoup these funds back from the architect?

Committee Member Steve Soderstrom suggested that everyone just keeps reporting this information to the School Board. Barney Gordon discussed that this information is well beyond the purview of the BOC and that the School Board was made aware. Also, they completed an outside investigation/ fact finding investigation and the results were given to the BOC. Grady Welch commented that it was a 4-month analysis completed by their own attorneys. Martell Taylor asked if the BOC could get a copy of the full investigation. Barney mentioned that the board asked for the fact finding. Lacy Elliott asked if this was presented to the board in an open or closed session and requested a copy? Barney continued with reporting on Measure N and mentioned that once they close out Measure N the auditors will audit the documents and then measure N will be officially completed. Next Barney reported on Measure O, Front page of expenditure worksheet updated to April 4, 2024, and about 1.3 million in measure O. The design was submitted by DSA for the Turlock High School H and F wing, which included a portion of bond funds. In the H wing there will be a new culinary arts room, food space, and outdoor eating area, as well as 3 or 4 rooms being turned into special education offices for use on campus. In the F wing there will be a complete remodel of the cafeteria. Shortly after both projects start, the bond funds will be expended.

Committee member Steve Soderstrom asked if this will be taking place while school is in session? Barney reported that the RFP will be received in early May, and it will be a lease back bid process. Their goal is to have the classrooms cleared out and the construction area zoned off. The best-case scenario is August, and they will make use of vacant classrooms for the students on campus, no portables will be used. Committee member Patrick Bettencourt asked for further clarification on the last page of the budget "need to allocation from 003" and if it refers to the budget on page 1? Barney will be checking with Fiscal on that as they are the ones that create those reports and get back to the board in a few days. Lacy Elliott requested that all board members be provided with the answer.

Lacy

7. Conclusion of the Citizen's Bonds Oversight Committee for Measure N & O Adjourn

Lacy asked the committee about meeting next April to review the Audits, and to have Kaitlin send her the meeting minutes from this meeting for review by April 25, 2023 and once approved via e-mail to post to the district website within 7 days of approval.

Lacy Elliott motioned to adjourn the meeting.

CPAs & BUSINESS ADVISORS

October 28, 2024

To the Governing Board and
Citizens' Oversight Committee
Turlock Unified School District
Turlock, California

We have audited the financial statements of Turlock Unified School District's (the District) Building Fund (Measure N and O) as of and for the year ended June 30, 2024, and have issued our report thereon dated October 28, 2024. We have also performed the performance audit of the District's Building Fund (Measure N and O). Professional standards require that we advise you of the following matters relating to our audit.

Our Responsibility in Relation to the Financial Statement Audit of the District's Building Fund (Measure N and O) under Generally Accepted Auditing Standards and *Government Auditing Standards* and the Performance Audit under *Government Auditing Standards*.

As communicated in our letter dated October 14, 2024, our responsibility, as described by professional standards, is to form and express an opinion(s) about whether the financial statements that have been prepared by management with your oversight are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America. Additionally, our responsibility, as described by professional standards, is to conduct a performance audit in accordance with *Government Auditing Standards*. Our audit of the financial statements and performance audit does not relieve you or management of your respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. Accordingly, as part of our audit, we considered the internal control of the District solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

We have provided our comments regarding internal controls during our audit in our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* dated October 28, 2024.

Planned Scope and Timing of the Audit

We conducted our audit consistent with the planned scope and timing we previously communicated to you.

Compliance with All Ethics Requirements Regarding Independence

The engagement team, others in our firm, as appropriate, our firm, and other firms utilized in the engagement, if applicable, have complied with all relevant ethical requirements regarding independence.

Qualitative Aspects of the Entity's Significant Accounting Practices

Significant Accounting Policies

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by the District is included in Note 1 to the financial statements. There have been no initial selection of accounting policies and no changes in significant accounting policies or their application during the year ended June 30, 2024. No matters have come to our attention that would require us, under professional standards, to inform you about (1) the methods used to account for significant unusual transactions and (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments. No such sensitive accounting estimates were identified.

Financial Statement Disclosures

Certain financial statement disclosures involve significant judgment and are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the District's Building Fund (Measure N and O) financial statements relate to:

The Summary of significant accounting policies in Note 1.

Significant Difficulties Encountered during the Audit

We encountered no significant difficulties in dealing with management relating to the performance of the audit.

Uncorrected and Corrected Misstatements

For purposes of this communication, professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that we believe are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole and each applicable opinion unit. There were no uncorrected or corrected missstatements identified as a result of our audit procedures.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the financial statements or the auditor's report. No such disagreements arose during the course of the audit.

Circumstances that Affect the Form and Content of the Auditor's Report

For purposes of this letter, professional standards require that we communicate any circumstances that affect the form and content of our auditor's report. The following Emphasis of Matter paragraph was added to the Auditor's Report:

As discussed in Note 1, the financial statements of the General Obligation Bond Fund specific to Measure N and O are intended to present the financial position and the changes in financial position attributable to the transactions of that Fund. They do not purport to, and do not, present fairly the financial position of the District as of June 30, 2024, and the changes in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Representations Requested from Management

We have requested certain written representations from management which are included in the management representation letter dated October 28, 2024.

Management's Consultations with Other Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

Other Significant Matters, Findings, or Issues

In the normal course of our professional association with the District, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, significant events or transactions that occurred during the year, operating conditions affecting the entity, and operating plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as the District's auditors.

Our responsibility also includes communicating to you any information which we believe is a material misstatement of fact. Nothing came to our attention that caused us to believe that such information, or its manner of presentation, is materially inconsistent with the information, or manner of its presentation, appearing in the financial statements.

This report is intended solely for the information and use of the Governing Board, Citizens' Oversight Committee, and management of the District and is not intended to be, and should not be, used by anyone other than these specified parties.

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the Building Fund (Measure N) of the Turlock Unified School District (the District), as of and for the year ended June 30, 2024, and the related notes to the financial statements, as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the Building Fund (Measure N) of the Turlock Unified School District, as of June 30, 2024, and the changes in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States *(Government Auditing Standards)*. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 1, the financial statements present only Building Fund (Measure N), and do not purport to, and do not, present fairly the financial position of the District, as of June 30, 2024, the changes in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 28, 2024 on our consideration of the Building Fund (Measure N) of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Building Fund (Measure N) of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Building Fund (Measure N) of the District's internal control over financial reporting and compliance.

Note 1 - Summary of Significant Accounting Policies

The accounting policies of the Turlock Unified School District's (the District) Building Fund (Measure N) conform to accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB). The District Building Fund accounts for financial transactions in accordance with the policies and procedures of the California School Accounting Manual.

Financial Reporting Entity

The financial statements include only the Building Fund of the District used to account for Measure N projects. This Fund was established to account for the expenditures of general obligation bonds issued under Measure N. These financial statements are not intended to present fairly the financial position and results of operations of the District in accordance with accounting principles generally accepted in the United States of America.

Fund Accounting

The operations of the Building Fund are accounted for in a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues, and expenditures. Resources are allocated to and accounted for in the fund based upon the purpose for which they are to be spent and the means by which spending activities are controlled.

Basis of Accounting

The Building Fund is accounted for using a flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balance reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources.

Budgets and Budgetary Accounting

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for all governmental funds. The District's governing board adopts an operating budget no later than July 1 in accordance with State law. A public hearing must be conducted to receive comments prior to adoption. The District's governing board satisfied these requirements. The Board revises this budget during the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption. The District employs budget control by minor object and by individual appropriation accounts. Expenditures cannot legally exceed appropriations by major object account.

Encumbrances

The District utilizes an encumbrance accounting system under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation. Encumbrances are liquidated when the commitments are paid, and all outstanding encumbrances lapse at June 30.

Fund Balance - Building Fund (Measure N)

As of June 30, 2024, the fund balance is classified as follows:

Restricted – amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Spending Order Policy

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the governing board has provided otherwise in its commitment or assignment actions.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Note 2 - Investments

Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State: U.S. Treasury instrument; registered State warrants or treasury notes: securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreement; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security, and collateralized mortgage obligations.

Investment in County Treasury

The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (*Education Code* Section 41001). The fair value of the District's investment in the pool is reported in the financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis. The District's investment in the county treasury is measured at fair value on a recurring basis, which is determined by the fair value per share of the underlying portfolio determined by the program sponsor. Positions in this investment pool are not required to be categorized within the fair value hierarchy.

General Authorizations

Limitations as they relate to interest rate risk, credit risk, and concentration of credit risk are indicated in the schedules below:

Authorized Investment Type	Maximum Remaining Maturity	Maximum Percentage of Portfolio	Maximum Investment in One Issuer
Local Agency Bonds, Notes, Warrants	5 years	None	None
Registered State Bonds, Notes, Warrants	5 years	None	None
U.S. Treasury Obligations	5 years	None	None
U.S. Agency Securities	5 years	None	None
Banker's Acceptance	180 days	40%	30%
Commercial Paper	270 days	25%	10%
Negotiable Certificates of Deposit	5 years	30%	None
Repurchase Agreements	1 year	None	None
Reverse Repurchase Agreements	92 days	20% of base	None
Medium-Term Corporate Notes	5 years	30%	None
Mutual Funds	N/A	20%	10%
Money Market Mutual Funds	N/A	20%	10%
Mortgage Pass-Through Securities	5 years	20%	None
County Pooled Investment Funds	N/A	None	None
Local Agency Investment Fund (LAIF)	N/A	None	None
Joint Powers Authority Pools	N/A	None	None

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value is to changes in market interest rates. The District has a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The District manages its exposure to interest rate risk by investing in the Stanislaus County Treasury Investment Pool. The District's Building Fund (Measure N) maintains an investment of $452,352 with the Stanislaus County Treasury Investment Pool, with an average maturity of 297 days.

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District's investment in the County Pool is not required to be rated, nor has it been rated as of June 30, 2024.

Note 3 - Contingencies

Litigation

The District is not currently a party to any legal proceedings related to the Building Fund (Measure N) as of June 30, 2024.

Independent Auditor's Report
June 30, 2024

Turlock Unified School District

EideBailly

CPAs & BUSINESS ADVISORS

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Governing Board and
Citizens Oversight Committee
Turlock Unified School District
Turlock, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the Building Fund (Measure N) of the Turlock Unified School District (the District) as of and for the year ended June 30, 2024, and the related notes of the financial statements, and have issued our report thereon dated October 28, 2024.

Emphasis of Matter

As discussed in Note 1, the financial statements present only Building Fund (Measure N), and do not purport to, and do not, present fairly the financial position of the District, as of June 30, 2024, the changes in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's Building Fund (Measure N) financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

What inspires you, inspires us. | eidebailly.com

6051 N. Fresno St., Ste. 101 | Fresno, CA 93710-5280 | T 559.248.0871 | F 559.248.0875 | EOE

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Building Fund (Measure N) of the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Performance Audit
Building Fund (Measure N)
June 30, 2024

Turlock Unified School District

EideBailly

CPAs & BUSINESS ADVISORS

Independent Auditor's Report on Performance

Governing Board and
Citizens Oversight Committee
Turlock Unified School District
Turlock, California

We were engaged to conduct a performance audit of the Turlock Unified School District (the District) Building Fund (Measure N) for the year ended June 30, 2024.

We conducted this performance audit in accordance with generally accepted government auditing standards issued by the Comptroller General of the United States (*Government Auditing Standards*). Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

Audit Authority/Purpose

The general obligation bonds associated with Measure N were issued pursuant to the Constitution and laws of the State of California (the State), including the provisions of Chapters 1 and 1.5 of Part 10 of the California *Education Code*, and other applicable provisions of law. The bonds are authorized to be issued by a resolution adopted by the Board of Supervisors of the County (the Resolution), pursuant to a request of the District made by a resolution adopted by the Board of Trustees of the District.

The District received authorization from an election held on November 8, 2016, to issue bonds of the District in an aggregate principal amount not to exceed $40,800,000 to finance specific construction and renovation projects approved by eligible voters within the District. The proposition required approval by at least 55% of the votes cast by eligible voters within the District (the 2016 Authorization).

Purpose

To upgrade and repair elementary schools with local funding that cannot be taken by the State, shall Turlock Unified School District provide new classrooms/instructional technology, including necessary infrastructure, for core academics including math, science, reading/writing; modernize classrooms to meet health/safety codes; improve campus safety/security; repair, construct, acquire, equip, classrooms, sites, facilities; by issuing $40,800,000 of bonds at legal rates, with independent citizen oversight, no money for administrators, and all funds used for Turlock Schools.

Authority

On November 7, 2000, California voters approved Proposition 39, the Smaller Classes, Safer Schools and Financial Accountability Act. Proposition 39 amended portions of the California Constitution to provide for the issuance of general obligation bonds by the District, "for the construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, or the acquisition or lease of rental property for school facilities", upon approval by 55% of the electorate. In addition to reducing the approval threshold from two-thirds to 55%, Proposition 39 and the enacting legislation (AB 1908 and AB 2659) requires the following accountability measures as codified in *Education Code* sections 15278-15282:

1. Requires that the proceeds from the sale of the bonds be used only for the purposes specified in Article XIIIA, Section 1(b)(3)(C) of the California Constitution, and not for any other purpose, including teacher and administrator salaries and other school operating expenses.

2. The District must list the specific school facilities projects to be funded in the ballot measure and must certify that the governing board has evaluated safety, class size reduction and information technology needs in developing the project list.

3. Requires the District to appoint a citizen's oversight committee.

4. Requires the District to conduct an annual independent financial audit and performance audit in accordance with the Government Auditing Standards issued by the Comptroller General of the United States of the bond proceeds until all of the proceeds have been expended.

5. Requires the District to conduct an annual independent performance audit to ensure that the funds have been expended only on the specific projects listed.

Objectives of the Audit

Our audit was limited to the objectives listed below which includes determining the compliance with the performance requirements as referred to in Proposition 39 and outlined in Article XIIIA, Section 1(b)(3)(C) of the California Constitution and Appendix A contained in the *2023-2024 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* issued by the California Education Audit Appeals Panel. Management is responsible for the District compliance with those requirements.

1. Determine whether expenditures charged to the Building Fund have been made in accordance with the bond project list approved by the voters through the approval of Measure N.

2. Determine whether salary transactions, charged to the Building Fund were in support of Measure N and not for District general administration or operations.

Scope of the Audit

The scope of our performance audit covered the period of July 1, 2023 to June 30, 2024. The population of expenditures tested included all object and project codes associated with the bond projects. The propriety of expenditures for capital projects and maintenance projects funded through other State or local funding sources, other than proceeds of the bonds, were not included within the scope of the audit. Expenditures incurred subsequent to June 30, 2024, were not reviewed or included within the scope of our audit or in this report.

In planning and performing our performance audit, we obtained an understanding of the District's internal control in order to determine if the internal controls were adequate to help ensure the District's compliance with the requirements of Proposition 39 and outlined in Article XIIIA, Section 1(b)(3)(C) of the California Constitution but not for the purpose of expressing an opinion of the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

Methodology

We obtained the general ledger and the project expenditure reports prepared by the District for the fiscal year ended June 30, 2024, for the Building Fund (Measure N). Within the fiscal year audited, we obtained the actual invoices, purchase orders, and other supporting documentation for a sample of expenditures to ensure compliance with the requirements of Article XIIIA, Section 1(b)(3)(C) of the California Constitution and Measure N as to the approved bond projects list. We performed the following procedures:

1. We identified expenditures and projects charged to the general obligation bond proceeds by obtaining the general ledger and project listing.

2. We selected a sample of expenditures using the following criteria:
    a) We considered all expenditures recorded in all object codes.
    b) We considered all expenditures recorded in all projects that were funded from July 1, 2023 through June 30, 2024 from Measure N bond proceeds.
    c) Additionally, if payroll costs were noted, obtained backup for the source of the expenditures regardless of the amount to determine if they related to administrative duties not related to project management.

3. Our sample included transactions totaling $369,418 This represents 93% of the total expenditures of $397,727.

4. We reviewed the actual invoices and other supporting documentation to determine that:
    a) Expenditures were supported by invoices with evidence of proper approval and documentation of receipting goods or services.
    b) Expenditures were supported by proper bid documentation, as applicable.
    c) Expenditures were expended in accordance with voter-approved ballot language.
    d) Bond proceeds were not used for salaries of school administrators or other operating expenses of the District.

5. We determined that the District has met the compliance requirement of Measure N if the following conditions were met:
    a) Supporting documents for expenditures were aligned with the voter-approved ballot language.
    b) Supporting documents for expenditures were not used for salaries of school administrators or other operating expenses of the District.

The results of our tests indicated that the District expended Building Fund (Measure N) funds only for the specific projects approved by the voters, in accordance with Proposition 39 and outlined in Article XIIIA, Section 1(b)(3)(C) of the California Constitution.

Audit Results

The results of our tests indicated that, in all material respects, the District has properly accounted for the expenditures held in the Building Fund (Measure N) and that such expenditures were made for authorized Bond projects.

This report is intended solely for the information and use of the District, Governing Board, and Citizens Oversight Committee, and is not intended to be and should not be used by anyone other than these specified parties.

Turlock Unified School District
Turlock, California

Report on the Financial Statements

We have audited the accompanying financial statements of the Turlock Unified School District's (the District), Building Fund (Measure O), as of and for the year ended June 30, 2024, and the related notes to the financial statements, as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the Building Fund (Measure O) of the Turlock Unified School District, as of June 30, 2024, and the changes in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 1, the financial statements present only Building Fund (Measure O), and do not purport to, and do not, present fairly the financial position of the District, as of June 30, 2024, the changes in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 28, 2024 on our consideration of the Building Fund (Measure O) of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Building Fund (Measure O) of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Building Fund (Measure O) of the District's internal control over financial reporting and compliance.

See Notes to Financial Statements

Note 1 - Summary of Significant Accounting Policies

The accounting policies of the Turlock Unified School District's (the District) Building Fund (Measure O) conform to accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB). The District Building Fund accounts for financial transactions in accordance with the policies and procedures of the California School Accounting Manual.

Financial Reporting Entity

The financial statements include only the Building Fund of the District used to account for Measure O projects. This Fund was established to account for the expenditures of general obligation bonds issued under Measure O. These financial statements are not intended to present fairly the financial position and results of operations of the District in accordance with accounting principles generally accepted in the United States of America.

Fund Accounting

The operations of the Building Fund are accounted for in a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues, and expenditures. Resources are allocated to and accounted for in the fund based upon the purpose for which they are to be spent and the means by which spending activities are controlled.

Basis of Accounting

The Building Fund is accounted for using a flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balance reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources.

Budgets and Budgetary Accounting

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for all governmental funds. The District's governing board adopts an operating budget no later than July 1 in accordance with State law. A public hearing must be conducted to receive comments prior to adoption. The District's governing board satisfied these requirements. The Board revises this budget during the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption. The District employs budget control by minor object and by individual appropriation accounts. Expenditures cannot legally exceed appropriations by major object account.

Encumbrances

The District utilizes an encumbrance accounting system under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation. Encumbrances are liquidated when the commitments are paid, and all outstanding encumbrances lapse at June 30.

Fund Balance - Building Fund (Measure O)

As of June 30, 2024, the fund balance is classified as follows:

Restricted – amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Spending Order Policy

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the governing board has provided otherwise in its commitment or assignment actions.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Note 2 - Investments

Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State: U.S. Treasury instrument; registered State warrants or treasury notes: securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreement; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security, and collateralized mortgage obligations.

Investment in County Treasury

The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (*Education Code* Section 41001). The fair value of the District's investment in the pool is reported in the financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis. The District's investment in the county treasury is measured at fair value on a recurring basis, which is determined by the fair value per share of the underlying portfolio determined by the program sponsor. Positions in this investment pool are not required to be categorized within the fair value hierarchy.

General Authorizations

Limitations as they relate to interest rate risk, credit risk, and concentration of credit risk are indicated in the schedules below:

Authorized Investment Type	Maximum Remaining Maturity	Maximum Percentage of Portfolio	Maximum Investment in One Issuer
Local Agency Bonds, Notes, Warrants	5 years	None	None
Registered State Bonds, Notes, Warrants	5 years	None	None
U.S. Treasury Obligations	5 years	None	None
U.S. Agency Securities	5 years	None	None
Banker's Acceptance	180 days	40%	30%
Commercial Paper	270 days	25%	10%
Negotiable Certificates of Deposit	5 years	30%	None
Repurchase Agreements	1 year	None	None
Reverse Repurchase Agreements	92 days	20% of base	None
Medium-Term Corporate Notes	5 years	30%	None
Mutual Funds	N/A	20%	10%
Money Market Mutual Funds	N/A	20%	10%
Mortgage Pass-Through Securities	5 years	20%	None
County Pooled Investment Funds	N/A	None	None
Local Agency Investment Fund (LAIF)	N/A	None	None
Joint Powers Authority Pools	N/A	None	None

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value is to changes in market interest rates. The District has a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The District manages its exposure to interest rate risk by investing in the Stanislaus County Treasury Investment Pool. The District's Building Fund (Measure O) maintains an investment of $1,063,432 with the Stanislaus County Treasury Investment Pool, with an average maturity of 297 days.

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District's investment in the County Pool is not required to be rated, nor has it been rated as of June 30, 2024.

Note 3 - Contingencies

Litigation

The District is not currently a party to any legal proceedings related to the Building Fund (Measure O) as of June 30, 2024.

Independent Auditor's Report
June 30, 2024

Turlock Unified School District

EideBailly

CPAs & BUSINESS ADVISORS

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Governing Board and
Citizens Oversight Committee
Turlock Unified School District
Turlock, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the Turlock Unified School District (the District) Building Fund (Measure O) as of and for the year ended June 30, 2024, and the related notes of the financial statements, and have issued our report thereon dated October 28, 2024.

Emphasis of Matter

As discussed in Note 1, the financial statements present only Building Fund (Measure O), and do not purport to, and do not, present fairly the financial position of the District, as of June 30, 2024, the changes in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's Building Fund (Measure O) financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

What inspires you, inspires us. | eidebailly.com

6051 N. Fresno St., Ste. 101 | Fresno, CA 93710-5280 | T 559.248.0871 | F 559.248.0875 | EOE

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Building Fund (Measure O) of the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Performance Audit
Building Fund (Measure O)
June 30, 2024

Turlock Unified School District

EideBailly

CPAs & BUSINESS ADVISORS

Independent Auditor's Report on Performance

Governing Board and
Citizens Oversight Committee
Turlock Unified School District
Turlock, California

We were engaged to conduct a performance audit of the Building Fund (Measure O) of the Turlock Unified School District (the District) for the year ended June 30, 2024.

We conducted this performance audit in accordance with generally accepted government auditing standards issued by the Comptroller General of the United States (*Government Auditing Standards*). Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

Audit Authority/Purpose

The general obligation bonds associated with Measure O were issued pursuant to the Constitution and laws of the State of California (the State), including the provisions of Chapters 1 and 1.5 of Part 10 of the California *Education Code*, and other applicable provisions of law. The bonds are authorized to be issued by a resolution adopted by the Board of Supervisors of the County (the Resolution), pursuant to a request of the District made by a resolution adopted by the Board of Trustees of the District.

The District received authorization from an election held on November 8, 2016, to issue bonds of the District in an aggregate principal amount not to exceed $48,000,000 to finance specific construction and renovation projects approved by eligible voters within the District. The proposition required approval by at least 55% of the votes cast by eligible voters within the District (the 2016 Authorization).

Purpose

To upgrade and repair high schools with local funding that cannot be taken by the State, shall Turlock Unified School District provide science, technology/engineering labs; provide new classrooms/instructional technology, including necessary infrastructure, for core academics; modernize facilities to meet health/safety codes; improve campus safety/security; repair, construct, acquire, equip, classrooms, sites, facilities; by issuing $48,000,000 of bonds at legal rates, with independent citizen oversight, no money for administrators, and all funds used for Turlock Schools.

Authority

On November 7, 2000, California voters approved Proposition 39, the Smaller Classes, Safer Schools and Financial Accountability Act. Proposition 39 amended portions of the California Constitution to provide for the issuance of general obligation bonds by the District, "for the construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, or the acquisition or lease of rental property for school facilities", upon approval by 55% of the electorate. In addition to reducing the approval threshold from two-thirds to 55%, Proposition 39 and the enacting legislation (AB 1908 and AB 2659) requires the following accountability measures as codified in *Education Code* Sections 15278-15282:

1. Requires that the proceeds from the sale of the bonds be used only for the purposes specified in Article XIIIA, Section 1(b)(3)(C) of the California Constitution, and not for any other purpose, including teacher and administrator salaries and other school operating expenses.

2. The District must list the specific school facilities projects to be funded in the ballot measure and must certify that the governing board has evaluated safety, class size reduction and information technology needs in developing the project list.

3. Requires the District to appoint a citizen's oversight committee.

4. Requires the District to conduct an annual independent financial audit and performance audit in accordance with the Government Auditing Standards issued by the Comptroller General of the United States of the bond proceeds until all of the proceeds have been expended.

5. Requires the District to conduct an annual independent performance audit to ensure that the funds have been expended only on the specific projects listed.

Objectives of the Audit

Our audit was limited to the objectives listed below which includes determining the compliance with the performance requirements as referred to in Proposition 39 and outlined in Article XIIIA, Section 1(b)(3)(C) of the California Constitution and Appendix A contained in the *2023-2024 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* issued by the California Education Audit Appeals Panel. Management is responsible for the District compliance with those requirements.

1. Determine whether expenditures charged to the Building Fund have been made in accordance with the bond project list approved by the voters through the approval of Measure O.

2. Determine whether salary transactions, charged to the Building Fund were in support of Measure O and not for District general administration or operations.

Scope of the Audit

The scope of our performance audit covered the period of July 1, 2023 to June 30, 2024. The population of expenditures tested included all object and project codes associated with the bond projects. The propriety of expenditures for capital projects and maintenance projects funded through other State or local funding sources, other than proceeds of the bonds, were not included within the scope of the audit. Expenditures incurred subsequent to June 30, 2024, were not reviewed or included within the scope of our audit or in this report.

In planning and performing our performance audit, we obtained an understanding of the District's internal control in order to determine if the internal controls were adequate to help ensure the District's compliance with the requirements of Proposition 39 and outlined in Article XIIIA, Section 1(b)(3)(C) of the California Constitution but not for the purpose of expressing an opinion of the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

Methodology

We obtained the general ledger and the project expenditure reports prepared by the District for the fiscal year ended June 30, 2024, for the Building Fund (Measure O). Within the fiscal year audited, we obtained the actual invoices, purchase orders, and other supporting documentation for a sample of expenditures to ensure compliance with the requirements of Article XIIIA, Section 1(b)(3)(C) of the California Constitution and Measure O as to the approved bond projects list. We performed the following procedures:

1. We identified expenditures and projects charged to the general obligation bond proceeds by obtaining the general ledger and project listing.

2. We selected a sample of expenditures using the following criteria:
    a) We considered all expenditures recorded in all object codes.
    b) We considered all expenditures recorded in all projects that were funded from July 1, 2023 through June 30, 2024 from Measure O bond proceeds.
    c) Additionally, if payroll costs were noted, obtained backup for the source of the expenditures regardless of the amount to determine if they related to administrative duties not related to project management.

3. Our sample included transactions totaling $489,973. This represents 98% of the total expenditures of $499,887.

4. We reviewed the actual invoices and other supporting documentation to determine that:
    a) Expenditures were supported by invoices with evidence of proper approval and documentation of receipting goods or services.
    b) Expenditures were supported by proper bid documentation, as applicable.
    c) Expenditures were expended in accordance with voter-approved ballot language.
    d) Bond proceeds were not used for salaries of school administrators or other operating expenses of the District.

5. We determined that the District has met the compliance requirement of Measure O if the following conditions were met:
    a) Supporting documents for expenditures were aligned with the voter-approved ballot language.
    b) Supporting documents for expenditures were not used for salaries of school administrators or other operating expenses of the District.

The results of our tests indicated that the District expended Building Fund (Measure O) funds only for the specific projects approved by the voters, in accordance with Proposition 39 and outlined in Article XIIIA, Section 1(b)(3)(C) of the California Constitution.

Audit Results

The results of our tests indicated that, in all material respects, the District has properly accounted for the expenditures held in the Building Fund (Measure O) and that such expenditures were made for authorized Bond projects.

This report is intended solely for the information and use of the District, Governing Board, and Citizens Oversight Committee, and is not intended to be and should not be used by anyone other than these specified parties.
