TUBERCULOSIS (TB) INFORMATION

Education Code 49406 requires that public school employees be free of infectious tuberculosis (TB). All county-wide substitutes must provide the required documentation with their registration packet or upon expiration every four years. Freedom of infectious tuberculosis through an employing school district is acceptable (Education Code § 49406 and Health and Safety Code § 121525).

There are two ways to meet this requirement:

1. TB examination via skin test, blood test, or chest x-ray. Results provided by a licensed health care provider.
2. TB Risk Assessment Questionnaire with resulting "Certificate of Completion" completed by a licensed health care provider. The form must include the healthcare provider's stamp.

The TB examination or Risk Assessment Questionnaire can be completed by any licensed health care provider, including a personal doctor or County Health Clinic.

- If you have health insurance, contact your healthcare provider to complete the TB questionnaire, a TB skin test, or a chest x-ray (physicians recommend this in special cases). For new county-wide substitutes, include your clearance in your substitute registration packet.
- If you do not have health insurance, visit the Immunization Clinic (information provided below). Please note: if you have health care coverage, you may be billed for an office visit.

Marin Community Clinic – San Rafael Campus
Address: 3260 Kerner Blvd., San Rafael, CA 94901
Hours: Tuesday & Friday 1:30p.m. – 4:30p.m.
Skin Test Cost: Varies
Phone: (415) 448-1500
Website: www.marinclinic.org

For current county-wide substitutes submitting updated TB clearance, you're welcome to mail or personally deliver the results to the Credentials Analyst.
