

Welcome to Fifth Grade!

Your teachers this year are Mrs. Rebecca Mozzochi (Grade 5 ELA & Social Studies) and Mrs. Amanda Brodaski (Grade 5 Math & Science). Our team also includes the Unified Arts Team for technology, music, health, physical education, and art.

The emphasis in fifth grade is for students to develop skills that will help them successfully transition from elementary learners to middle school and beyond. By encouraging students to operate more independently, take on additional responsibility and advocate for themselves they will feel empowered in their learning experiences. Throughout this transition period we will continue to communicate these successes with students and their families.

In preparation for a wonderful school year, it is recommended that students obtain the following supplies for the first day:

- ☐ Binder (2 inch preferred)
- ☐ Pencil box or pouch
- ☐ Pencils (They go fast!)
- ☐ Erasers (They also go fast!)
- ☐ Small Post-It notes (3 in. x 3 in.)
- ☐ Highlighters
- ☐ Water bottle (plastic or aluminum!)
- ☐ A **healthy** snack and lunch, including the first day!
 - Look for lunch ordering information on the school's website.

Lastly, we would greatly appreciate a contribution of a box of tissues or a box of pencils to the class to help all students get through the school year!

Assignment books (planners), subject specific folders and notebooks (for L.A., Math, Science, and Social Studies) will be provided by the school. If you have any questions, or difficulty obtaining the recommended items listed above, the best way to contact members of the fifth grade team during the 2025-2026 school year is through the email addresses below. For more effective communication, please include all email addresses unless it is focused on one particular academic area or class.

We look forward to seeing our new students on the first day of school!
