

Sussex-Wantage Regional School District

SafeSchool requirements for newly hired employees

Sussex-Wantage Regional School District has elected to use the SafeSchools online safety training program to train all employees on school-related safety and social issues. SafeSchools offers training in all facets of school safety issues, and its compliance management system tracks all the training for the District allowing us to easily demonstrate compliance with State and Federal safety mandates.

Goto; <https://swregional-nj.safeschools.com/login>

Use your newly established school email address, which will be emailed to your personal email address, to login to complete your video training. The attached list will appear on the home page after you login.

To begin a course, click on the title then follow the prompts. You do not have to take all the SafeSchools courses in one sitting; however you will need to complete the section you are working on in its entirety in order to have your work saved before exiting. To earn a certificate of completion, you must complete ALL sections of a course and pass the quiz.

You are not required to hand in each course's certificate of completion. Please initial and date each section on the attached form when completed and then return it to the Board of Education office. Thank you.
