

SkillsUSA is an organization that serves students who are preparing for careers in trade, technical, and skilled service occupations. It focuses on developing a highly skilled workforce through education, competitions, and leadership development.

**Mission:**

SkillsUSA aims to empower members to become world-class workers, leaders, and responsible citizens by equipping them with technical skills and leadership abilities. Students are currently working hard and preparing for competitions in February. They are making projects, speeches, and preparing for interviews. Students are polishing their resumes that are required for each competition.

When we are not busy preparing to compete, our chapter participates in community service projects like Winter Wonderland, Trunk or Treat, Earth Day, and Highway Clean-Up.

**Club Sponsor:** Mrs. Walker
