

Period 1 - prep
Period 2 - AP CSA
Period 3 - AP CSA
Period 4 - AP Computer Science Principles
P6 - AP Networking + AP Cybersecurity
P7 - AP Computer Science Principles

After a 10-year career in the tech industry, I transitioned into education **three years ago** to share my practical expertise with the next generation. Now, as an AP CTE instructor, I guide students through AP Computer Science Principles, AP Computer Science A, AP Networking, and AP Cybersecurity, preparing them for success in both higher education and tech careers. Students conclude their studies with valuable IT Certifications, including CompTIA Network+ and CompTIA Security+, making them immediately industry-ready for internships and job opportunities in IT and Cybersecurity.

Reach out to me at sini.thomas@dvusd.org for any questions.
