

Course:Technology & Design	
Intro to Tech Lab: Unit 1	
Grade Level(s): 1	Length of Unit: 1 week
<p>Unit Rationale: Students will be using technology to support their learning in a variety of platforms during the school year. In this unit, students will learn about safety and rules of the tech lab, and how they should behave appropriately during technology classroom. Teacher will discuss appropriate and acceptable usage of the computers and technology equipment not only within the lab, but within their classrooms as well. Students will also receive their passwords, and log onto the Chromebooks.</p>	
Stage 1 - Desired Results	
<p>Understandings:</p> <p><i>Students will understand that...</i></p> <ul style="list-style-type: none"> • <i>Students will be using technology to support their learning in a variety of platforms during the school year. In this unit, students will learn about safety and rules of the tech lab, and how they should behave appropriately during technology classroom. Teacher will discuss appropriate and acceptable usage of the computers and technology equipment not only within the lab, but within their classrooms as well. Students will also receive their passwords, and log onto the Chromebooks.</i> • 	<p>Essential Questions:</p> <ul style="list-style-type: none"> • -What does it mean to use the computer appropriately? • What are the expectations of behavior in the technology lab? • How does a student log onto the computer network at school? • What projects are you excited about this year?
<p>Content:</p> <p><i>Students will know...</i></p> <ul style="list-style-type: none"> • <i>the appropriate rules in the technology lab.</i> • <i>log on to the chromebooks, using their username and password.</i> • 	<p>Skills:</p> <p><i>Students will be able to...</i></p> <ul style="list-style-type: none"> • <i>- Identify the rules of the technology lab.</i> • <i>Know the procedures of the classroom.</i> • <i>Understand safety in the classroom.</i> • <i>Memorize username and password.</i> •
<p>NJ Student Learning Standards - 21st Century College & Career Practice Standards</p>	

CRP2. Apply appropriate academic and technical skills

CRP11. Use technology to enhance productivity

NJSLS-Career Readiness, Life Literacies, and Key Skills: Standards & Disciplinary Concepts (Career Readiness, Life Literacies, and Key Skills Practices and 9.2 Career Awareness, Exploration and Preparation Standards)

Career readiness, life literacies, and key skills education provides students with the necessary skills to make informed career and financial decisions, engage as responsible community members in a digital society, and to successfully meet the challenges and opportunities in an interconnected global economy.

<https://www.nj.gov/education/standards/clicks/index.shtml> or

<https://www.nj.gov/education/standards/clicks/Docs/2020NJSLS-CLKS.pdf> (Pgs 15-16)

Two or three Career Readiness, Life Literacies, and Key Skills Practices standards should be left in each unit, the rest should be removed from the list below.

CLKS Practices:

1. Act as a responsible and contributing community members and employee
5. Demonstrate creativity and innovation
8. Use technology to enhance productivity increase collaboration and communicate effectively

Explanation of how **CLKS Practices** connect to the unit:

Students will learn about the responsibilities of learning in the technology lab, learning how technology, collaboration and creativity will be used throughout the school year.

9.2 standards should be listed when appropriate. The appropriate grade band must be used for these standards.

<https://www.nj.gov/education/standards/clicks/Docs/2020NJSLS-9.2CareerAwareness.pdf> (Starts on pg.37)

Explanation of how **9.2 standards** connect to the unit:

Interdisciplinary Standards

SL.1.1 Participate in collaborative conversations with diverse partners about grade 1 topics and texts with peers and adults in small and larger groups.

Explanation of how interdisciplinary standards connect to the unit:

Collaborative conversations

Technology Integration (9.4 Standards) -

<https://www.nj.gov/education/standards/clicks/Docs/2020NJSL-9.4LifeLiteraciesandKeySkills.pdf>

• **9.4.2.DC.3: Explain how to be safe online and follow safe practices when using the internet (e.g., 8.1.2.NI.3, 8.1.2.NI.4).**

9.4.2.DC.5: Explain what a digital footprint is and how it is created.

9.4.2.DC.6: Identify respectful and responsible ways to communicate in digital environments.

Explanation of how 9.4 standards connect to the unit:

Students will be involved in discussions on how to use the technology safely within the classroom setting, and at home, and what it means to use computers responsibly.

Stage 2- Assessment Evidence:

Assessment:

Formative	Informal assessment through questioning, exit tickets, health and wellness journal, student reflections
Summative	Student portfolios, end of unit project based on journal entries, Kahoot, Quizlet, presentations
Alternative	Slideshow, poster, oral presentation
Benchmark	Questionnaire, survey
Other	Informal assessment through questioning, exit tickets, sketch book journal, student reflections

Stage 3 - Learning Plan	
<p>Learning Activities:</p> <ul style="list-style-type: none">• (please bullet) <p><i>Trajectory of how you are bringing students to develop the understandings listed above</i></p>	<p>Differentiation:</p> <p>ELL:</p> <ul style="list-style-type: none">• Extend time requirements• Preferential seating• Check often for understanding• Oral/visual directions/prompts when needed• Provide hands-on materials and/ manipulatives for students to practice using new content knowledge <p><i>The ELL Math Resources Folder is located HERE</i></p>
	<p>G&T:</p> <ul style="list-style-type: none">• Allow students to take an active role in teaching content to other students in the school• Propose interest-based extension activities for early finishers
	<p>Special Ed:</p> <ul style="list-style-type: none">• Utilize a multi-sensory approach during instruction• Modify test content and/or format• Preferential seating as needed
	<p>504:</p> <ul style="list-style-type: none">• Review, restate and repeat• Provide notes• Chunk assignments
	<p>Students at Risk:</p> <ul style="list-style-type: none">• Deliver instruction utilizing varied learning styles including audio, visual and tactile/kinesthetic

	<ul style="list-style-type: none">• Provide individual instruction as needed• Meet with students frequently to ensure understanding• Allow verbal rather than written responses <p>Link to Math Differentiation Chart and 2021 Accommodations Chart</p>
--	---

<p>Core Instructional Resources</p> <p>Teacher Pedagogical Resources: <i>What skills/strategies, and resources helped the teacher design this unit</i></p> <p>Student Materials: <i>What materials are provided to students during this unit. (core texts, websites, etc.)</i></p> <p><i>**All materials must list a Lexile Level (https://hub.lexile.com/find-a-book/search)</i></p>
--

<p>Notes:</p>

Course:Technology & Design	
Find the Technology Unit 2	
Grade Level(s): 2	Length of Unit: 1 week
<p>Unit Rationale: Technology is all around us. Technology is designed to expose students to all the computer's capabilities so that they are aware of how it can be a helpful and useful tool for them at school and at home. The students are challenged to envision technology of their future which in turn will reinforce their feelings as lifelong learners. There are multiple purposes of this equipment, and it is important for students to understand which technology will help them perform the task needed. It is also important for students to appreciate and understand how computers have changed and evolved in their existence, so that they can help progress technology in the future. With so many different types of technology available to students, it is important that they know the names of the various devices, and can understand their purpose. This unit will help them identify the various types of technology, and how they would use them first in the classroom all around them, then in an interactive online game.</p>	
Stage 1 - Desired Results	
<p>Understandings:</p> <p><i>Students will understand that...</i></p> <ul style="list-style-type: none"> ● <i>different technology devices can be used for different purposes</i> ● <i>there are numerous technology devices used in the classroom to benefit learning</i> 	<p>Essential Questions:</p> <ol style="list-style-type: none"> 1. How are some technology devices different from others? 2. Can you identify the various technology devices in the room, and how they are used? 3. Can you compare and contrast two devices and think about what each of them can do better than each other? 4. How has technology changed and evolved? 5. How might technology change in the future?
<p>Content:</p> <p><i>Students will know...</i></p> <ul style="list-style-type: none"> ● <i>differentiate technology devices from one another.</i> ● <i>understand the different purposes of technology devices</i> 	<p>Skills:</p> <p><i>Students will be able to...</i></p> <ul style="list-style-type: none"> ● <i>Identify the technology devices in the lab.</i> ● <i>Know the different uses for technology in the classroom.</i> ● <i>compare two technology devices with each other.</i> ● <i>understand how computers have changed.</i>
NJ Student Learning Standards -	

8.1.2.A.1 Identify the basic features of a digital device and explain its purpose.

8.2.2.A.2 Describe how designed products and systems are useful at school, home and work.

8.2.2.B.3 Identify products or systems that are designed to meet human needs.

8.2.2.B.4 Identify how the ways people live and work has changed because of technology.

8.1.2.A.4 Demonstrate developmentally appropriate navigation skills in virtual environments (i.e. games, museums).

21st Century College & Career Practice Standards

CRP2. Apply appropriate academic and technical skills

CRP6. Demonstrate creativity and innovation.

CRP11. Use technology to enhance productivity

NJSLS-Career Readiness, Life Literacies, and Key Skills: Standards & Disciplinary Concepts (Career Readiness, Life Literacies, and Key Skills Practices and 9.2 Career Awareness, Exploration and Preparation Standards)

Career readiness, life literacies, and key skills education provides students with the necessary skills to make informed career and financial decisions, engage as responsible community members in a digital society, and to successfully meet the challenges and opportunities in an interconnected global economy.

<https://www.nj.gov/education/standards/clicks/index.shtml> or

<https://www.nj.gov/education/standards/clicks/Docs/2020NJSLS-CLKS.pdf> (Pgs 15-16)

Two or three Career Readiness, Life Literacies, and Key Skills Practices standards should be left in each unit, the rest should be removed from the list below.

CLKS Practices:

4. Demonstrate creativity and innovation
5. Utilize critical thinking to make sense of problems and persevere in solving them
8. Use technology to enhance productivity increase collaboration and communicate effectively

Explanation of how **CLKS Practices** connect to the unit:

Students will use technology devices to enhance how they discover new technology

9.2 standards should be listed when appropriate. The appropriate grade band must be used for these standards.

<https://www.nj.gov/education/standards/clicks/Docs/2020NJSLS-9.2CareerAwareness.pdf> (Starts on pg.37)

Explanation of how 9.2 standards connect to the unit:

Interdisciplinary Standards

SL.1.1 Participate in collaborative conversations with diverse partners about grade 1 topics and texts with peers and adults in small and larger groups.

Explanation of how interdisciplinary standards connect to the unit:

Collaborative conversations with peers.

Technology Integration (9.4 Standards) -

<https://www.nj.gov/education/standards/clicks/Docs/2020NJSLS-9.4LifeLiteraciesandKeySkills.pdf>

At minimum two standards from the 9.4 list must be included. The appropriate grade band must be used for these standards. (Starts on pg.22)

- **9.4.2.TL.4: Navigate a virtual space to build context and describe the visual content.**
- **9.4.2.TL.1: Identify the basic features of a digital tool and explain the purpose of the tool (e.g., 8.2.2.ED.1).**

Explanation of how 9.4 standards connect to the unit:

Understand how to use digital tools and virtual spaces as ways to help learning.

Stage 2- Assessment Evidence:

Assessment:

Formative	Informal assessment through questioning, exit tickets, health and wellness journal, student reflections
Summative	Student portfolios, end of unit project based on journal entries, Kahoot, Quizlet, presentations
Alternative	Slideshow, poster, oral presentation

Benchmark	Questionnaire, survey
Other	Informal assessment through questioning, exit tickets, sketch book entries, student reflections

Stage 3 - Learning Plan	
<p>Learning Activities:</p> <ul style="list-style-type: none"> • (please bullet) <p><i>Trajectory of how you are bringing students to develop the understandings listed above</i></p>	<p>Differentiation:</p> <div style="border: 1px solid black; padding: 5px; margin-bottom: 5px;"> <p>ELL:</p> <ul style="list-style-type: none"> • Extend time requirements • Preferential seating • Check often for understanding • Oral/visual directions/prompts when needed • Provide hands-on materials and/ manipulatives for students to practice using new content knowledge </div> <div style="border: 1px solid black; padding: 5px; margin-bottom: 5px;"> <p>G&T:</p> <ul style="list-style-type: none"> • Allow students to take an active role in teaching content to other students in the school • Propose interest-based extension activities for early finishers </div> <div style="border: 1px solid black; padding: 5px; margin-bottom: 5px;"> <p>Special Ed:</p> <ul style="list-style-type: none"> • Utilize a multi-sensory approach during instruction • Modify test content and/or format • Preferential seating as needed </div> <div style="border: 1px solid black; padding: 5px;"> <p>504:</p> <ul style="list-style-type: none"> • Review, restate and repeat • Provide notes • Chunk assignments </div>

	<p>Students at Risk:</p> <ul style="list-style-type: none">• Deliver instruction utilizing varied learning styles including audio, visual and tactile/kinesthetic• Provide individual instruction as needed• Meet with students frequently to ensure understanding• Allow verbal rather than written responses <p>Link to Math Differentiation Chart and 2021 Accommodations Chart</p>

--

<p>Notes:</p>

Course:Technology & Design	
How it works Unit 3	
Grade Level(s): 1	Length of Unit:3 weeks
<p>Unit Rationale: Using Ipad applications to teach the design process, and how things work is an important skill to develop at an early age. By bringing these concepts into the classroom, students are excited to learn through interactive and exploring. Some of these activities will include: Little Builders, Pettison’s Inventions, My very first garage, How it works, and Invention at play.</p>	
Stage 1 - Desired Results	
<p>Understandings: <i>Students will understand that...</i></p> <ul style="list-style-type: none"> ● <i>different technology devices can be used for different purposes</i> ● <i>there are numerous technology devices used in the classroom to benefit learning</i> ● <i>the design loop is a process helps solve problems</i> 	<p>Essential Questions:</p> <ol style="list-style-type: none"> 1. How are things made? 2. What are simple machines? 3. How does an engine work? 4. What is the design loop?
<p>Content: <i>Students will know...</i></p> <ul style="list-style-type: none"> ● <i>differentiate technology devices from one another.</i> ● <i>understand the different purposes of technology devices</i> 	<p>Skills: <i>Students will be able to...</i></p> <ul style="list-style-type: none"> ● <i>Identify the technology devices in the lab.</i> ● <i>Know the different uses for technology in the classroom.</i>
<p>NJ Student Learning Standards - 8.2.2.B.3 Identify products or systems that are designed to meet human needs. 8.2.2.B.4 Identify how the ways people live and work has changed because of technology. 8.1.2.A.4 Demonstrate developmentally appropriate navigation skills in virtual environments (i.e. games, museums). 8.2.2.C.5 Describe how the parts of a common toy or tool interact and work as part of a system. 8.2.2.C.6 Investigate a product that has stopped working and brainstorm ideas to correct the problem. 8.2.2.C.2 Create a drawing of a product or device that communicates its function to peers and discuss.</p>	

21st Century College & Career Practice Standards

CRP2. Apply appropriate academic and technical skills

CRP6. Demonstrate creativity and innovation.

CRP11. Use technology to enhance productivity

NJSLS-Career Readiness, Life Literacies, and Key Skills: Standards & Disciplinary Concepts (Career Readiness, Life Literacies, and Key Skills Practices and 9.2 Career Awareness, Exploration and Preparation Standards)

Career readiness, life literacies, and key skills education provides students with the necessary skills to make informed career and financial decisions, engage as responsible community members in a digital society, and to successfully meet the challenges and opportunities in an interconnected global economy.

<https://www.nj.gov/education/standards/clicks/index.shtml> or
<https://www.nj.gov/education/standards/clicks/Docs/2020NJSLS-CLKS.pdf> (Pgs 15-16)

Two or three Career Readiness, Life Literacies, and Key Skills Practices standards should be left in each unit, the rest should be removed from the list below.

CLKS Practices:

3. Consider the environmental, social and economic impacts of decisions
4. Demonstrate creativity and innovation
8. Use technology to enhance productivity increase collaboration and communicate effectively

Explanation of how **CLKS Practices** connect to the unit:

Discover how technology has changed and evolved to help our society, while exploring how things work.

9.2 standards should be listed when appropriate. The appropriate grade band must be used for these standards.

<https://www.nj.gov/education/standards/clicks/Docs/2020NJSLS-9.2CareerAwareness.pdf> (Starts on pg.37)

Explanation of how **9.2 standards** connect to the unit:

--

Interdisciplinary Standards

SL.1.1 Participate in collaborative conversations with diverse partners about grade 1 topics and texts with peers and adults in small and larger groups.

RL.1.1 Ask and answer questions about key details in a text.

<p>Explanation of how interdisciplinary standards connect to the unit: <i>Collaborative conversations with peers, asking questions.</i></p>

Technology Integration (9.4 Standards) -

<https://www.nj.gov/education/standards/clicks/Docs/2020NJSL-9.4LifeLiteraciesandKeySkills.pdf>

--

<p>Notes:</p>

Course: Technology & Design	
Keyboarding Unit 5	
Grade Level(s): 1	Length of Unit: 5 weeks throughout the year
<p>Unit Rationale: Communicating on the computer with word processing will be essential to the success of students within their academic careers, and beyond. Students will learn proper technique and keyboarding skills using a typing program. To enhance these typing skills, students will need repetition and practice, and by tracking their progress, students and teachers will be able to assess how well they have improved in their typing skills throughout the year.</p>	
Stage 1 - Desired Results	
<p>Understandings:</p> <p><i>Students will understand that...</i></p> <ul style="list-style-type: none"> ● <i>Keyboarding technique is an essential tool for computer literacy.</i> ● <i>Different hands work for different sides of the keyboard.</i> ● <i>The row in the middle of the keyboard is the home row.</i> ● <i>The shift key enables you to make a capital letter.</i> ● <i>there are specific purposes of the space bar, enter, and backspace button.</i> ● ● 	<p>Essential Questions:</p> <ol style="list-style-type: none"> 1. Where are the proper places to put your fingers on the keyboard? 2. How do you delete a letter? 3. How do you make a space between letters? 4. How do you get to the next line in a document? 5. Why would you want to make a document? 6. How do you create a border in a document? 7.
<p>Content:</p> <p><i>Students will know...</i></p> <ul style="list-style-type: none"> ● <i>where to place their fingers on the keyboard.</i> ● <i>several of the major functional keys on the keyboard.</i> 	<p>Skills:</p> <p><i>Students will be able to...</i></p> <ul style="list-style-type: none"> ● <i>type the alphabet.</i> ● <i>create an uppercase letter.</i> ● <i>delete a mistake</i>

- *to write a sentence using a sentence starter.*

- *use the enter key to get to next line.*
- *make a border.*
- *know the keys on the home row*

NJ Student Learning Standards -

8.1.2.A.1 Identify the basic features of a digital device and explain its purpose.

8.1.2.A.2 Create a document using a word processing application.

8.1.2.A.4 Demonstrate developmentally appropriate navigation skills in virtual environments (i.e. games, museums).

21st Century College & Career Practice Standards

CRP2. Apply appropriate academic and technical skills

CRP6. Demonstrate creativity and innovation.

CRP11. Use technology to enhance productivity

NJSLS-Career Readiness, Life Literacies, and Key Skills: Standards & Disciplinary Concepts (Career Readiness, Life Literacies, and Key Skills Practices and 9.2 Career Awareness, Exploration and Preparation Standards)

Career readiness, life literacies, and key skills education provides students with the necessary skills to make informed career and financial decisions, engage as responsible community members in a digital society, and to successfully meet the challenges and opportunities in an interconnected global economy.

<https://www.nj.gov/education/standards/clicks/index.shtml> or

<https://www.nj.gov/education/standards/clicks/Docs/2020NJSLS-CLKS.pdf> (Pgs 15-16)

Two or three Career Readiness, Life Literacies, and Key Skills Practices standards should be left in each unit, the rest should be removed from the list below.

CLKS Practices:

8. Use technology to enhance productivity increase collaboration and communicate effectively
9. Work productively in teams while using cultural/global competence

Explanation of how **CLKS Practices** connect to the unit:

Students will work productively as a team to use keyboarding as a way to communicate effectively. Discussions will take place on how keyboarding will help students will their future communications within the workspace.

9.2 standards

9.1.2.CAP.1: Make a list of different types of jobs and describe the skills associated with each job.

Explanation of how 9.2 standards connect to the unit:

Keyboarding is a skill required by many professions, and students will discuss the importance of learning the proper technique.

Interdisciplinary Standards

W.K.6 With guidance and support from adults, explore a variety of digital tools to produce and publish writing, including in collaboration with peers.

NJSLSA.W6 Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.

Explanation of how interdisciplinary standards connect to the unit:

Students will learn how to use digital tools as a way to produce writing and publishing.

Technology Integration (9.4 Standards) -

<https://www.nj.gov/education/standards/clicks/Docs/2020NJSLS-9.4LifeLiteraciesandKeySkills.pdf>

At minimum two standards from the 9.4 list must be included. The appropriate grade band must be used for these standards. (Starts on pg.22)

- **9.4.2.TL.2: Create a document using a word processing application.**
- **9.4.2.TL.6: Illustrate and communicate ideas and stories using multiple digital tools (e.g., SL.2.5.).**
- **9.4.2.TL.4: Navigate a virtual space to build context and describe the visual content.**

Explanation of how 9.4 standards connect to the unit:

Keyboarding is an important skill to use when word processing, and this tool will allow students to communicate their ideas better within many different digital tools.

Stage 2- Assessment Evidence:

Assessment:

Formative	<i>Student reflection</i>
Summative	<i>Leveled typing tests</i>
Alternative	
Benchmark	<i>Benchmark typing tests</i>
Other	<i>Class typing competitions</i>

Stage 3 - Learning Plan	
<p>Learning Activities:</p> <ul style="list-style-type: none"> Students will create documents that include a sentence expressing their idea. These sentences will be directed by the teacher throughout the year based on the season and event going on in the school at the time. 	<p>Differentiation:</p> <div style="border: 1px solid black; padding: 5px; margin-bottom: 5px;"> <p>ELL:</p> <ul style="list-style-type: none"> Extend time requirements Preferential seating Check often for understanding Oral/visual directions/prompts when needed Provide hands-on materials and/ manipulatives for students to practice using new content knowledge </div> <div style="border: 1px solid black; padding: 5px; margin-bottom: 5px;"> <p>G&T:</p> <ul style="list-style-type: none"> Allow students to take an active role in teaching content to other students in the school Propose interest-based extension activities for early finishers </div> <div style="border: 1px solid black; padding: 5px;"> <p>Special Ed:</p> <ul style="list-style-type: none"> Utilize a multi-sensory approach during instruction Modify test content and/or format Preferential seating as needed </div>

	<p>504:</p> <ul style="list-style-type: none">● Review, restate and repeat● Provide notes● Chunk assignments <p>Students at Risk:</p> <ul style="list-style-type: none">● Deliver instruction utilizing varied learning styles including audio, visual and tactile/kinesthetic● Provide individual instruction as needed● Meet with students frequently to ensure understanding● Allow verbal rather than written responses <p>Link to Math Differentiation Chart and 2021 Accommodations Chart</p>
--	--

<p>Core Instructional Resources</p> <p>Teacher Pedagogical Resources: <i>What skills/strategies, and resources helped the teacher design this unit</i></p> <p>Student Materials: <i>What materials are provided to students during this unit. (core texts, websites, etc.)</i></p> <p>**All materials must list a Lexile Level (https://hub.lexile.com/find-a-book/search)</p>
--

Notes:

Course:Technology & Design

Tornado Tower Unit 6

Grade Level(s): 1	Length of Unit: 1 week
--------------------------	-------------------------------

Unit Rationale:
 Beginning design challenges at an early age will help build a foundation for students each year, as they will be continuing these challenges each year as they develop their technology and problem solving skills. Continuing here in 1st grade, students will learn about different types of structures all around the world, including buildings, structures, statues, bridges, landmarks, monuments, and locations. They will explore towers, historical sites, and famous landmarks in this unit. They will also identify what each building is used for, as they create and design their own building. In this Unit, students will be manufacturing a building that meets a very specific need. They will be presenting the building to the head of the design and production of construction company, and the building will in some way help the town. The final structure will be built entirely out of paper and tape based on their model, to compete to see who can build the tallest structure.

Stage 1 - Desired Results

<p>Understandings:</p> <p><i>Students will understand that...</i></p> <ul style="list-style-type: none"> ● <i>buildings have a variety of different purposes that all help a community.</i> ● <i>buildings are made of an assortment of shapes including 2D and 3D shapes</i> ● <i>technology involving buildings have changed in many ways since they were invented.</i> ● <i>technology is created, used and changed by humans</i> ● <i>technology is using science and industry to</i> 	<p>Essential Questions:</p> <ol style="list-style-type: none"> 1. In what ways do humans create, use, and change technologies? 2. How do we combine shapes to make different shapes? 3. How is technology helpful to humans? 4. How have buildings changed over time? 5. What are some different uses of buildings? 6. What is technology? <p>Specific questions: How can we make this paper</p>
---	---

<p><i>help solve common problems in life.</i></p> <ul style="list-style-type: none"> • <i>Technology is very helpful to humans.</i> 	<p>building stronger, using only tape and paper? Why does folding it make the paper stronger? How would adding different layers of tape make the building stronger. How do we balance the paper? What are the forces acting upon the paper to make it tilt or fall? What is the science behind making the paper stronger?</p>
<p>Content:</p> <p><i>Students will know...</i></p> <ul style="list-style-type: none"> • <i>design a blueprint for their building.</i> • <i>develop a building that will be used for a very specific purpose.</i> • <i>design a building and identify the shapes involved in the design process.</i> • <i>present their building to a construction company.</i> • <i>decide what type of building they will make</i> • <i>build their building out of shapes, illustrate your building, and build your building out of legos.</i> 	<p>Skills:</p> <p><i>Students will be able to...</i></p> <ul style="list-style-type: none"> • Create blueprint design for building • - Design 3-d shapes within structure • - Gather supplies and locate recyclables • - Use cooperative teamwork skills • - Utilize the design process • - Build and construct using supplies given • - Create a model design that resembles the original design •
<p>NJ Student Learning Standards -</p> <p>8.2.2.A.3 Identify a system and the components that work together to accomplish its purpose.</p> <p>8.2.2.A.4 Choose a product to make and plan the tools and materials needed.</p> <p>8.2.2.A.5 Collaborate to design a solution to a problem affecting the community.</p> <p>8.2.2.B.1 Identify how technology impacts or improves life.</p> <p>8.2.2.B.2 Demonstrate how reusing a product affects the local and global environment.</p> <p>8.2.2.B.3 Identify products or systems that are designed to meet human needs.</p> <p>8.2.2.B.4 Identify how the ways people live and work has changed because of technology.</p> <p>8.2.2.D.1 Collaborate and apply a design process to solve a simple problem from everyday experiences.</p> <p>8.2.2.D.2 Discover how a product works by taking it apart, sketching how parts fit, and putting it back together.</p> <p>8.2.2.D.3 Identify the strengths and weaknesses in a product or system.</p> <p>8.2.2.D.4 Identify the resources needed to create technological products or systems.</p> <p>8.2.2.D.5 Identify how using a tool (such as a bucket or wagon) aids in reducing work.</p> <p>8.2.5.C.1 Collaborate with peers to illustrate components of a designed system.</p> <p>8.2.5.C.2 Explain how specifications and limitations can be used to direct a product's development.</p> <p>8.2.5.C.3 Research how design modifications have lead to new products.</p> <p>8.2.5.C.4 Collaborate and brainstorm with peers to solve a problem evaluating all solutions to provide the best results with supporting sketches or models.</p>	

8.2.5.C.5 Explain the functions of a system and subsystems.

8.2.5.C.6 Examine a malfunctioning tool and identify the process to troubleshoot and present options to repair the tool.

8.2.5.C.7 Work with peers to redesign an existing product for a different purpose.

8.2.5.D.1 Identify and collect information about a problem that can be solved by technology, generate ideas to solve the problem, and identify constraints and trade-offs to be considered.

8.2.5.D.2 Evaluate and test alternative solutions to a problem using the constraints and trade-offs identified in the design process to evaluate potential solutions.

21st Century College & Career Practice Standards

CRP2. Apply appropriate academic and technical skills

CRP4. Communicate clearly and effectively and with reason

CRP5. Consider the environmental, social and economic impacts of decisions.

CRP6. Demonstrate creativity and innovation.

CRP9. Model integrity, ethical leadership and effective management.

CRP11. Use technology to enhance productivity

CRP12. Work productively in teams while using cultural global competence.

NJSLS-Career Readiness, Life Literacies, and Key Skills: Standards & Disciplinary Concepts (Career Readiness, Life Literacies, and Key Skills Practices and 9.2 Career Awareness, Exploration and Preparation Standards)

CLKS Practices:

1. Act as a responsible and contributing community members and employee
2. Consider the environmental, social and economic impacts of decisions
3. Demonstrate creativity and innovation
4. Utilize critical thinking to make sense of problems and persevere in solving them
5. Work productively in teams while using cultural/global competence

Explanation of how **CLKS Practices** connect to the unit:

Students will work in teams to create a tower using recyclables and understanding the environmental impact of their project, and along the way demonstrate creativity and innovation, through critical thinking and problem solving.

9.2 standards

9.1.2.CAP.1: Make a list of different types of jobs and describe the skills associated with each job.

- **9.2.5.CAP.3: Identify qualifications needed to pursue traditional and non-traditional careers and occupations.**

Explanation of how 9.2 standards connect to the unit:

Identify what requirements are needed to become an architect, and then discuss the different roles and parts of each job.

Interdisciplinary Standards

- **6.1.2.CivicsPD.1:** Engage in discussions effectively by asking questions, considering facts, listening to the ideas of others, and sharing opinions.
- **6.1.2.CivicsPD.2:** Establish a process for how individuals can effectively work together to make decisions.

Explanation of how interdisciplinary standards connect to the unit:

Students will listen to one another and work together in groups to create their own version of their tower.

Technology Integration (9.4 Standards)

- **9.4.2.CI.2: Demonstrate originality and inventiveness in work (e.g., 1.3A.2CR1a).**
- **9.4.2.CT.3: Use a variety of types of thinking to solve problems (e.g., inductive, deductive).**

Explanation of how 9.4 standards connect to the unit:

Within this unit, students will use original ideas and inventiveness to create their tower.

Stage 2- Assessment Evidence:

Assessment:

Formative	Informal assessment through questioning, exit tickets, health and wellness journal, student reflections
Summative	Student portfolios, end of unit project based on journal entries, Kahoot, Quizlet, presentations
Alternative	Slideshow, poster, oral presentation

Benchmark	Questionnaire, survey
Other	Informal assessment through questioning, exit tickets, sketch book journal, student reflections

Stage 3 - Learning Plan	
<p>Learning Activities:</p> <ul style="list-style-type: none"> ● Learn about different types of towers ● Sketch out a prototype ● Brainstorm how you will use different materials ● Build project with your team ● Take a picture of your project and submit into Seesaw ● Present your project to small and large groups 	<p>Differentiation:</p> <div style="border: 1px solid black; padding: 5px; margin-bottom: 5px;"> <p>ELL:</p> <ul style="list-style-type: none"> ● Extend time requirements ● Preferential seating ● Check often for understanding ● Oral/visual directions/prompts when needed ● Provide hands-on materials and/ manipulatives for students to practice using new content knowledge </div> <div style="border: 1px solid black; padding: 5px; margin-bottom: 5px;"> <p>G&T:</p> <ul style="list-style-type: none"> ● Allow students to take an active role in teaching content to other students in the school ● Propose interest-based extension activities for early finishers </div> <div style="border: 1px solid black; padding: 5px; margin-bottom: 5px;"> <p>Special Ed:</p> <ul style="list-style-type: none"> ● Utilize a multi-sensory approach during instruction ● Modify test content and/or format ● Preferential seating as needed </div> <div style="border: 1px solid black; padding: 5px;"> <p>504:</p> <ul style="list-style-type: none"> ● Review, restate and repeat ● Provide notes ● Chunk assignments </div>

	<p>Students at Risk:</p> <ul style="list-style-type: none">• Deliver instruction utilizing varied learning styles including audio, visual and tactile/kinesthetic• Provide individual instruction as needed• Meet with students frequently to ensure understanding• Allow verbal rather than written responses <p>Link to Math Differentiation Chart and 2021 Accommodations Chart</p>
--	--

<p>Core Instructional Resources</p> <p>Teacher Pedagogical Resources: <i>What skills/strategies, and resources helped the teacher design this unit</i></p> <p>Student Materials: Teacher provides box fan <i>Cardboard, paper plate, paper clips, rubber band, tape</i></p> <p><i>**All materials must list a Lexile Level (https://hub.lexile.com/find-a-book/search)</i></p>

<p>Notes:</p>

Course: Technology & Design	
Coding Unit 7	
Grade Level(s): 1	Length of Unit: 3 weeks
<p>Unit Rationale: In the growing world of technology, there are increasingly more ways to create and design applications and programs, in very kid friendly ways. Students will need to understand that there are easy ways to program on the computer, to create projects. Learning to code can open a world of possibilities for students, including the avenue to create video games, apps, and websites. In this introduction to programming, students will learn basics that they can continue from home on the websites www.code.org, and www.scratch.mit.edu. Students will also be developing an understanding of algorithms as they demonstrate steps to an everyday task.</p>	
Stage 1 - Desired Results	
<p>Understandings: <i>Students will understand that...</i></p> <ul style="list-style-type: none"> ● <i>Understand the importance of coding in our world today.</i> ● <i>Discover how to complete simple coding tasks.</i> ● <i>Use online tools to solve multiple problems.</i> ● <i>an algorithm can be a list of every day tasks</i> 	<p>Essential Questions:</p> <ol style="list-style-type: none"> 1. - What is code? 2. - Why is important to learn how to code? 3. - What can you create from code? 4. What is an algorithm? 5. Why is it important to complete tasks in order? 6.
<p>Content: <i>Students will know...</i> some simple coding basics. how to create a simple code action.</p> <ul style="list-style-type: none"> - how to list and demonstrate the steps to an every day task - an understanding of how a computer takes input through a series of written commands and 	<p>Skills: <i>Students will be able to...</i></p> <ul style="list-style-type: none"> ● - create a simple code action ● - create algorithms to solve simple code problems ● -demonstrate

interprets and displays information as an output	
--	--

NJ Student Learning Standards -

- 8.2.2.E.1 List and demonstrate the steps to an everyday task.
- 8.2.2.E.2 Demonstrate an understanding of how a computer takes input through a series of written commands and then interprets and displays information as output.
- 8.2.2.E.3 Create algorithms (a sets of instructions) using a pre-defined set of commands (e.g., to move a student or a character through a maze).
- 8.2.2.E.4 Use appropriate terms in conversation (e.g., basic vocabulary words: input, output, the operating system, debug, and algorithm).

21st Century College & Career Practice Standards

- CRP2. Apply appropriate academic and technical skills
- CRP6. Demonstrate creativity and innovation.
- CRP11. Use technology to enhance productivity

NJSLS-Career Readiness, Life Literacies, and Key Skills: Standards & Disciplinary Concepts (Career Readiness, Life Literacies, and Key Skills Practices and 9.2 Career Awareness, Exploration and Preparation Standards)

CLKS Practices:

- 4. Demonstrate creativity and innovation
- 5. Utilize critical thinking to make sense of problems and persevere in solving them
- 8. Use technology to enhance productivity increase collaboration and communicate effectively
- 9. Work productively in teams while using cultural/global competence

Explanation of how **CLKS Practices** connect to the unit:
 Within this coding unit, students will use creativity and innovation, critical thinking and technology to help aid them in solving algorithms. Students will also work in teams to help each other, and understand that code is a worldwide activity and can be written in different languages, and can be learned in a variety of languages.

9.2 standards

9.1.2.CAP.1: Make a list of different types of jobs and describe the skills associated with each job.

**Explanation of how 9.2 standards connect to the unit:
Discuss how coding is used in every day life in a variety of professions.**

Interdisciplinary Standards

Explanation of how interdisciplinary standards connect to the unit:

Technology Integration (9.4 Standards)

- **9.4.2.TL.4: Navigate a virtual space to build context and describe the visual content.**
- **9.4.2.CT.3: Use a variety of types of thinking to solve problems (e.g., inductive, deductive).**

**Explanation of how 9.4 standards connect to the unit:
Students will learn how to use the virtual space to solve projects within the coding application, and explore different ways of thinking to arrive at their answers.**

Stage 2- Assessment Evidence:

Assessment:

Formative	<i>Small day-to-day assessments</i>
Summative	<i>Large end-of-unit</i>
Alternative	<i>For students that can't complete normal assessment</i>
Benchmark	<i>Standard style assessment to gauge if all students in the course are on pace. Only in a mid and last unit. If the benchmark will not be in this unit, list which unit and provide a brief description of the skills/content the benchmark is expecting.</i>
Other	<i>Diagnostic, Projects, etc.</i>

Stage 3 - Learning Plan	
<p>Learning Activities:</p> <ul style="list-style-type: none">• Participate in code.org hour of code activities. <p><i>Trajectory of how you are bringing students to develop the understandings listed above</i></p>	<p>Differentiation:</p> <p>ELL:</p> <ul style="list-style-type: none">• Extend time requirements• Preferential seating• Check often for understanding• Oral/visual directions/prompts when needed• Provide hands-on materials and/ manipulatives for students to practice using new content knowledge
	<p>G&T:</p> <ul style="list-style-type: none">• Allow students to take an active role in teaching content to other students in the school• Propose interest-based extension activities for early finishers
	<p>Special Ed:</p> <ul style="list-style-type: none">• Utilize a multi-sensory approach during instruction• Modify test content and/or format• Preferential seating as needed
	<p>504:</p> <ul style="list-style-type: none">• Review, restate and repeat• Provide notes• Chunk assignments
	<p>Students at Risk:</p> <ul style="list-style-type: none">• Deliver instruction utilizing varied learning styles including audio, visual and tactile/kinesthetic

	<ul style="list-style-type: none">● Provide individual instruction as needed● Meet with students frequently to ensure understanding● Allow verbal rather than written responses <p>Link to Math Differentiation Chart and 2021 Accommodations Chart</p>
--	---

<p>Core Instructional Resources</p> <p>Teacher Pedagogical Resources: <i>ipads, code.org</i></p> <p>Student Materials: <i>What materials are provided to students during this unit. (core texts, websites, etc.)</i></p> <p><i>**All materials must list a Lexile Level (https://hub.lexile.com/find-a-book/search)</i></p>
--

<p>Notes:</p>
