

Early Science by exploring what happens to porridge when mixed with water... Too runny, too sticky?

Making friends and socialising, taking turns and helping each other to overcome difficulties.

Guided play...What are the children learning?

Counting the spoonfuls of porridge and using the language of time e.g. how long do we think it will take to cook the porridge?

Early Literacy by following the sequence of instructions in the children's cookery book.

Developing fine motor skills and hand -to -eye coordination as the mixture is spooned into the different bun case spaces and using hand whisks.

The adult may ask some open - ended questions or provide comments to support the children's learning...

I wonder what will happen if we add more water to the mixture?

It's sticky, squishy, squashy, lumpy, gooey!

The children are becoming confident, creative, motivated thinkers, helping to build an enquiring spirit.
