E-SPLOST 2025

1 What is E-SPLOST?

It's a one-cent sales tax on things people buy in Gwinnett County that supports the capital needs of the school system, including renewal of existing schools, new classrooms, technology, buses, safety systems, and more.

2 The ask is to continue E-SPLOST.

E-SPLOST has been in place in Gwinnett County since 1997. Voters are being asked to renew E-SPLOST to continue supporting the GCPS Capital Plan.

3 E-SPLOST supports our Capital Plan.

The sales tax helps build new schools and additional classrooms, fix roofs and HVAC systems, upgrade playgrounds, and buy buses, computers, and textbooks. By using E-SPLOST funding other revenue resources are not diverted from teaching and learning.

4 E-SPLOST benefits every school.

If E-SPLOST 2025 is approved, all clusters will see improvements, including additions, renovations, safety upgrades, and better technology and every GCPS school will benefit from at least one project.

5 E-SPLOST keeps property taxes down.

The one-cent sales tax can help keep property taxes lower by providing the revenue for capital projects. Even visitors who shop, eat, and recreate in Gwinnett County but do not live in our county help support our students and schools.

6 Voting Day is November 4, 2025.

All registered voters in Gwinnett County can vote. November 4 is also a Digital Learning Day for students. The last day to register to vote on November 4 is October 6, 2025.

7 There are financial implications if E-SPLOST doesn't pass.

GCPS may have to raise the millage rate which will increase property taxes for homeowners or delay needed repairs and school construction which may impact the safety and comfort of our learning environments.

8 E-SPLOST supports student safety and learning.

E-SPLOST funds will improve and support safety and security systems, provide updated learning tools, and support safe transportation for students through safe, reliable buses.

9 Everyone pays their share.

Whether you live in Gwinnett or are just passing through—if you shop here, you help fund better schools.

10 It's an investment in our children's future.

E-SPLOST helps create safe, modern, and engaging schools for all students in GCPS—now and in the future.

Additional information is available on the school district's website at gcpsk12.org/capital-plan.
