

PORTRAIT OF A GRADUATE

CFISD scholars lead with:

Communication

Create productive dialogue. Even when stakes are high, listen for understanding while engaging in conversation – whether through writing, speaking, body language, or technology. Share your ideas with care and respect for all viewpoints.

Innovation

Develop new ideas or methods. As challenges and opportunities arise, use your knowledge and skills to think critically and be a problem solver. Improve the world around you.

Integrity

Be honest and trustworthy. When faced with a tough decision, choose to be the best version of yourself – at home, on the job, and out in the world. Have the courage to do what is right, even if it is not easy or popular.

Curiosity

Dare to wonder. No matter your interests, explore limitless possibilities and bring them within your reach. Discover your creativity and dream big.

Resilience

Learn and grow from challenges. Even through failures or difficult circumstances, persist and adapt to find new solutions. Choose to learn from every experience.

Empathy

Think of others and how they feel. Despite our differences, seek to understand those around you and see the world through their eyes. Look for opportunities to serve and support.
