In alignment with the Mississippi Department of Education, the Clarksdale Municipal School District requires that an active shooter drill be conducted within the first 60 days of the academic year. This proactive measure ensures that students and staff are prepared to respond swiftly and safely in the event of a crisis.

This requirement supports the CMSD mission to meet the needs of every student and aligns with our vision of graduating all students ready for college and careers. It also reflects our commitment to Goal 4: providing students with a comprehensive educational experience that includes a safe and secure learning environment.

Early drills help establish emergency procedures, clarify responsibilities, and contribute to the overall safety and success of our schools.

School Resource Officers:
Chief Earnest Moore, Officer Oliver Mitchell, Officer Jovas Haynes, Officer Carl Hinton, Officer Robert Johnson

School Safety Officer:
Officer Shuquanna Logan
