

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Helix Charter High School

CDS Code: 37681303732732

School Year: 2025-26

LEA contact information:

Elena Smith

Director of Ed Services

osborn@helixcharter.net

6196441940

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2025-26 School Year

This chart shows the total general purpose revenue Helix Charter High School expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Helix Charter High School is \$44,130,289, of which \$37,411,018, is Local Control Funding Formula (LCFF), \$4,206,109 is other state funds, \$1,314,882 is local funds, and \$1,198,280 is federal funds. Of the \$37,411,018, in LCFF Funds, \$6,310,459 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Helix Charter High School plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Helix Charter High School plans to spend \$43,899,553 for the 2025-26 school year. Of that amount, \$43,899,553 is tied to actions/services in the LCAP and \$0 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

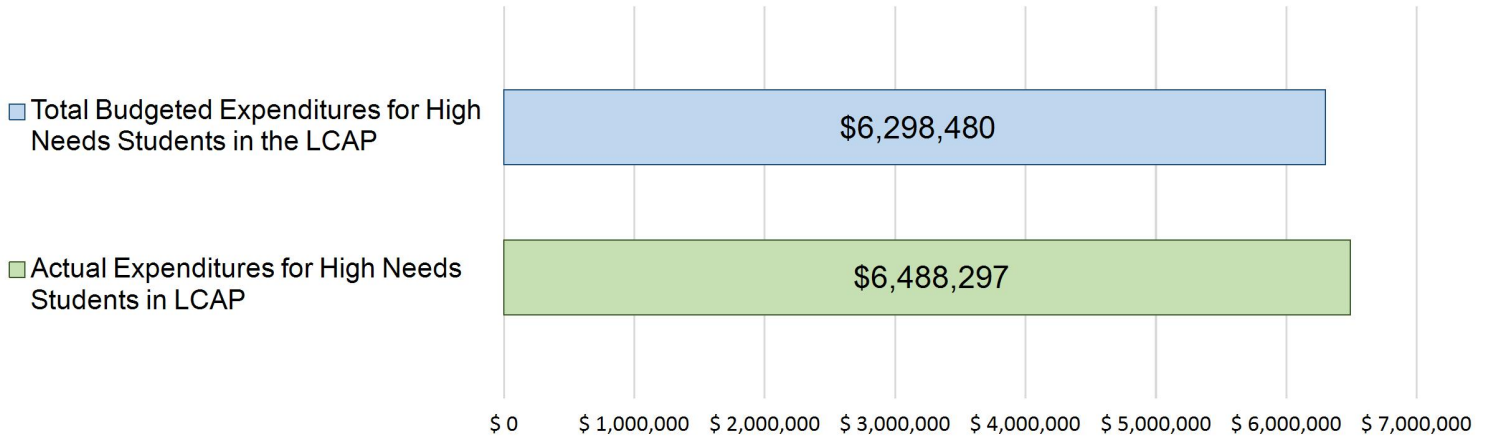

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Helix Charter High School is projecting it will receive \$6,310,459 based on the enrollment of foster youth, English learner, and low-income students. Helix Charter High School must describe how it intends to increase or improve services for high needs students in the LCAP. Helix Charter High School plans to spend \$6,102,198 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

Prior Year Expenditures: Increased or Improved Services for High Needs Students

This chart compares what Helix Charter High School budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Helix Charter High School estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Helix Charter High School's LCAP budgeted \$\$6,298,480.00 for planned actions to increase or improve services for high needs students. Helix Charter High School actually spent \$\$6,488,297.00 for actions to increase or improve services for high needs students in 2024-25.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2025-26]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Since 1952, Helix Charter High School has stood as a pillar in the East County community, serving a diverse student body of 2,500 alongside approximately 200 dedicated staff members. In 1997-98, Helix transitioned to a comprehensive charter high school, becoming California's 150th charter school. Rooted in innovation, effective collaboration, and accountability, Helix is committed to ensuring every student achieves their personal and academic potential. Drawing students from 35-40 feeder middle schools, the school emphasizes college readiness and comprehensive support systems.

Helix's mission centers on preparing all students for college and career success through a rigorous curriculum that meets UC/CSU A-G requirements. It offers a variety of Honors, Advanced Placement, and Community College Dual Enrollment courses, alongside Career Technical Education programs in fields such as sports medicine, business entrepreneurship, education, and biotechnology.

Beyond academics, Helix provides a wide array of extracurricular and co-curricular activities. Its extensive athletic program, among the largest in San Diego County, spans multiple sports levels. Performing arts programs and numerous clubs cater to diverse student interests, fostering a crucial sense of belonging for personal and academic growth.

Personalized support is ensured through Grade Level Teams dedicated to each graduating class, comprising a principal, counselor, academic advisor, and administrative assistant. These teams, complemented by before and after-school programs, offer consistent support and intervention for students' academic and social-emotional needs.

Helix's strength lies in its demographic diversity, with Hispanic or Latino students comprising the largest subgroup at 46.3%. The student body also includes White, African American, and other racial and ethnic groups. Addressing challenges associated with socioeconomic disparities, Helix supports 67% of students from economically disadvantaged backgrounds and fosters first-generation college-bound students.

Benefiting from the flexibility of its charter status, Helix pioneers creative educational programming while upholding rigorous accountability standards. Recognized for its achievements, the school holds a six-year accreditation from the Western Association of Schools and Colleges (WASC) and received a National Blue Ribbon Award in 2022 for outstanding performance on state and national assessments. Helix continues its journey of excellence, focusing on closing achievement gaps and nurturing the holistic development of all students.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Based on the 2024 Annual Dashboard Performance, Helix Charter High School is most proud of the following aspects of its program:

Graduation Rate

- 97.9% of students graduated, maintaining the previous rate.
- State Comparative: 86.7%

College and Career Ready Outcomes

- 82.5% of students were prepared for college and career, maintaining the previous rate.
- State Comparative: 45.3%

A-G Requirements for UC/CSU

- 94.8% of students met the A-G requirements for University of California and California State University entrance.
- State Comparative: 51.1%

English Language Arts (ELA)

- Students scored 86.5 points above the standard.
- State Comparative: 13.2 points below the standard

Mathematics Performance

- Students scored 36.2 points above the standard.
- State Comparative: 47.6 points below the standard

English Learner Progress Indicator

- 62.5% of English learners made progress towards English language proficiency.
- State Comparative: 45.7%

These outstanding performance metrics highlight Helix Charter High School's commitment to academic excellence and student preparedness, significantly surpassing state averages in multiple areas.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

N/A

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Helix Charter High School is not identified for Comprehensive Support and Improvement.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Helix Charter High School is not identified for Comprehensive Support and Improvement.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Helix Charter High School is not identified for Comprehensive Support and Improvement.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Helix Staff and Leadership Team	Embedding LCAP Discussions in Existing Meetings: <ul style="list-style-type: none"> • LCAP information was incorporated into regular meetings and gatherings, allowing widespread participation and commentary from all groups involved. • The Executive Director and Grade Level Principal on Special Assignment presented LCAP updates and facilitated discussions in community meetings.
Decision-Making Bodies:	<ul style="list-style-type: none"> • Administration, Charter Board, Department Chair Council, and Restructuring Committee: These groups reviewed LCAP goals, metrics, and Dashboard data within their meetings. • Charter Board Meetings: Included opportunities for feedback on LCAP goals and action items. • Bargaining Unit Meetings, PTSA, and English Learner Program Development Meetings: Additional platforms for stakeholders to participate and comment on the LCAP.
Student Input:	<ul style="list-style-type: none"> • Surveys, ASB Discussions, and Student Equity Advisory Meetings: These methods were used to gather insights from students, ensuring their perspectives were included in the LCAP development process.
Feedback Sessions:	<ul style="list-style-type: none"> • Sessions involved a comprehensive review of the Local Control Funding Formula (LCFF), the purpose of the LCAP, and an analysis of program demographics and data.

Educational Partner(s)	Process for Engagement
	<ul style="list-style-type: none"> • Participants assessed the effectiveness of the current LCAP's goals and action items • Translators were available to facilitate engagement and feedback from all student and educational partner groups.
Public Participation Timeline:	<ul style="list-style-type: none"> • Public Hearing Date: May 19, 2025 (First Read) • Public Comment Period: May 19 through May 23, 2025

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Summary of Educational Partner Concerns and Feedback

During the engagement process, educational partners at Helix Charter High School voiced significant concerns and provided valuable feedback, highlighting the continuing needs of students post-Covid. The impact of the school shutdown, the trauma of the pandemic, and racial tensions in the nation were prominently noted. There was a consensus among educators and families on the necessity of addressing students' emotional needs as a priority before tackling academic learning loss.

Specific Group Feedback:

1. Parents:

- Focus on school safety
- Need for Career Technical Education (CTE) and real-world experiences for students
- Improved opportunities for student and parent voice in school and administration
- Effective use of technology

2. English Learner Advisory Committee (ELAC):

- Need for increased support for English Learners
- Importance of maintaining strong communication between school and home

3. Students:

- Importance of seeking student voice
- Continued focus on school safety and equity practices
- Support for social and emotional needs

4. Classified and Certificated Bargaining Units:

- Emphasis on workload

- Continued professional development for staff
- Support for staff well-being

5. Teachers and Classified Staff:

- Need for staff support and social/emotional support for students
- Focus on maintaining academic rigor
- Importance of school safety and improving student attendance

6. Administration:

- Maintaining a safe school culture with ample learning and growth opportunities
- Continued focus on equity work
- Support for at-risk students and improving attendance
- Enhancements to classroom audiovisual infrastructure
- Building school spirit and culture to boost morale among students and staff

Influences on the 2025-26 LCAP:

Based on the feedback received, several aspects of the LCAP were influenced and refined:

1. Social Emotional Supports:

- Focused action steps to increase intervention supports for students

2. Equity Practices:

- Regular review and improvement of equity practices on campus.
- Student access within structure of classroom seating

3. Academic Supports:

- Maintained focus on providing rigorous academic supports while addressing learning loss.
- Additional strategies to improve student attendance and engagement.

4. School Safety:

- Continued emphasis on maintaining a safe and secure school environment.
- Implementation of feedback on improving school safety measures.

5. Parent and Student Voice:

- Improved mechanisms for incorporating parent and student input into school decision-making processes.
- Increased opportunities for real-world learning experiences through CTE programs.

6. Technology and Infrastructure:

- Investment in classroom audiovisual infrastructure to enhance the learning environment.

- Continued effective use of technology to support both in-person and remote learning needs.

7. School Spirit and Culture:

- Initiatives to build school spirit and culture, aiming to increase morale among students and staff.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	<p>Develop a Safe and Supportive Environment that Supports Social Emotional Wellness, Good Citizenship, and a Healthy Lifestyle</p> <p>Objectives:</p> <ol style="list-style-type: none"> 1. Enhance Social Emotional Wellness: <ul style="list-style-type: none"> • Provide comprehensive mental health services. • Implement school-wide programs promoting emotional well-being. • Ensure easy access to counseling and support resources. 2. Promote Good Citizenship: <ul style="list-style-type: none"> • Integrate character education programs into the curriculum. • Foster a culture of respect, responsibility, and community involvement. • Encourage student participation in community service projects and leadership opportunities. 3. Encourage a Healthy Lifestyle: <ul style="list-style-type: none"> • Promote physical health through sports and physical education programs. • Educate students on nutrition and healthy lifestyle choices. • Provide resources and programs that support overall student well-being. <p>By focusing on these objectives and strategies, Helix Charter High School aims to create an environment where students feel safe, supported, and empowered to thrive both academically and personally.</p>	Focus Goal

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 5: Pupil Engagement (Engagement)
- Priority 6: School Climate (Engagement)
- Priority 7: Course Access (Conditions of Learning)

An explanation of why the LEA has developed this goal.

Students and staff support for social emotional wellness is essential to our success on campus. Post-pandemic trauma-informed care is needed to bridge the return to school and mitigate learning loss. We will focus on building a bridge to external supports, implementing in-house proactive supports, and raising schoolwide awareness of social emotional wellness. Addressing and enhancing social-emotional

learning (SEL) at Helix, will foster the development of essential qualities such as empathy, self-control, and problem-solving in students. These skills are pivotal for success in school, life beyond school, and the broader world. SEL will also contribute to improved academic performance, reduced bullying, positive classroom climates, stress management, healthy identity development, and responsible decision-making. SEL skills will complement and enhance academic achievement by fostering a more engaged and motivated student body.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

No substantive differences in planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Minimal material differences between between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Students and staff support for social emotional wellness was essential to our success on campus. Post-pandemic trauma-informed care continues to be needed to bridge the return to school and mitigate learning loss. Addressing and enhancing social-emotional learning (SEL) at Helix, fostered the development of essential qualities such as empathy, self-control, and problem-solving in students. These skills are pivotal for success in school, life beyond school, and the broader world. Our SEL and school safety focus contributed to improved academic performance, reduced bullying, positive classroom climates, stress management, healthy identity development, and responsible decision making.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

No significant anticipated changes in goals or metrics, continued refinement and analysis will continue.

Furniture Maintenance Plan: To ensure all classrooms have functional, separate desks and chairs by the start of the next school year, the facilities team will coordinate with the district to identify and remove broken, unfixable, or connected desks, confirm district ownership, and arrange for removal. An inventory of available surplus desks will be conducted to identify usable replacements. School leadership and department chairs will collaborate to select a standard desk and chair model for future purchases. Department chairs will work with teachers to inventory broken and connected desks, ensuring each classroom has the appropriate number of functional desks and chairs. The total number of replacements needed will be determined and orders will be placed promptly. Once delivered, new desks will be inventoried and labeled as Helix property. Moving forward, teachers will report broken desks by labeling them and notifying the appropriate staff. Nightly desk

replacements will occur, and broken, unfixable desks will be promptly removed. Classrooms using tables, such as in science, computer, or art courses, may continue using tables as appropriate.

Based on the Needs Assessment for the LREBG, Goal 1 Action 2: Wellness Center Program will be funded in part with LREBG funds. This action supports students' mental health and social-emotional wellness, which were identified as critical needs following the COVID-19 pandemic. The Wellness Center provides trauma-informed care, access to mental health services, and promotes schoolwide SEL practices. It aligns with allowable uses of funds by addressing student wellness and fostering a positive school climate. These supports are essential for helping students re-engage in learning and recover from pandemic-related challenges.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Grade Level Team Support	<p>At Helix, Grade Level Teams (GLTs) comprising a Grade Level Principal, Counselor, Social Worker, Academic Advisor, Administrative Assistant, and Attendance Clerk work with students from grades 9-12, offering a continuous support structure and a consistent point of contact for families. This model enhances several key aspects of the school environment:</p> <p>1. Holistic Student Support with Comprehensive Guidance & Coordinated Interventions With dedicated grade level counselors and social workers, students receive tailored support addressing academic, social, and emotional needs. Teams can develop and implement intervention plans collaboratively, ensuring students receive the help they need in a timely and effective manner.</p> <p>2. Consistency and Continuity building Stable Relationships & Ongoing Monitoring Students and families benefit from consistent relationships with team members throughout the high school journey, fostering trust and better communication. Teams can track student progress over multiple years, allowing for early identification of issues and consistent support strategies.</p>	\$2,958,687.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>3. Enhanced Communication with a Single Point of Contact & Streamlined Information Flow Families have a go-to team familiar with their child’s history, making communication more efficient and effective. Coordination among team members ensures that critical information about students is shared promptly and appropriately.</p> <p>4. Tailored Academic Support allowing for Individualized Advising & Focused Attention Academic advisors can provide personalized guidance on course selection, college preparation, and career planning based on a deep understanding of each student’s strengths and aspirations. Each grade level team can address the specific developmental and academic needs of students in that grade, from transitioning into high school in grade 9 to preparing for graduation in grade 12.</p> <p>5. Effective Attendance Management with Proactive Monitoring & Personalized Follow-Up Attendance clerks can closely monitor attendance patterns, quickly identifying and addressing issues to prevent chronic absenteeism. Teams can implement personalized follow-up strategies for students with attendance issues, involving counselors and social workers as needed.</p> <p>6. Administrative Efficiency with Dedicated Support and Organized Coordination Administrative assistants can handle logistical tasks and communications, freeing up educators to focus on direct student support. Grade Level Principals oversee team efforts, ensuring alignment with school-wide goals and policies.</p> <p>By leveraging the strengths of a diverse team of professionals, Helix’s Grade Level Teams can provide a robust, consistent support system that addresses the comprehensive needs of students and enhances their overall educational experience.</p>		

Action #	Title	Description	Total Funds	Contributing
1.2	Wellness Center Program	<p>Staffing: Our team consists of 4 Full-Time Equivalent (FTEs) dedicated to Counseling and Social Work Support. Office Assistant for front office management.</p> <p>Department Budget: Allocated for materials, program implementation, and ongoing support to ensure the effectiveness of our wellness initiatives.</p> <p>Schoolwide Wellness Assessment: We conduct regular assessments to gauge the overall wellness of our student body and identify areas for improvement.</p> <p>CTK - Apricot Select: We utilize this software for meticulous record-keeping and to meet our data management needs efficiently.</p>	\$693,260.00	Yes
1.3	School Safety	<p>School Safety Overview</p> <p>The safety of our campus is essential to providing education to our students. The Helix School Safety Department is dedicated to ensuring a secure environment through comprehensive measures and proactive strategies.</p> <p>Key Components of Our School Safety Department:</p> <ol style="list-style-type: none"> 1. Manager of Campus Safety: <ul style="list-style-type: none"> • Oversees all safety operations and ensures compliance with safety regulations. • Coordinates with local law enforcement and emergency services. • Develops and implements safety policies and procedures. 2. Campus Supervisors: <ul style="list-style-type: none"> • Monitor daily activities to maintain a safe and orderly environment. • Assist in conflict resolution and provide support during emergencies. • Conduct regular safety drills and checks. 3. Professional Development: 	\$1,038,498.00	No

Action #	Title	Description	Total Funds	Contributing
		<ul style="list-style-type: none"> • Provides ongoing training for staff on safety protocols and emergency response. • Conducts workshops and seminars to keep the community informed and prepared. • Implements best practices in school safety and security. <p>4. Event Security & Safety Needs:</p> <ul style="list-style-type: none"> • Ensures all school events are safe and secure. • Coordinates security measures for large gatherings and special occasions. • Implements crowd management strategies and emergency plans for events. <p>Together, these elements form a robust framework to protect our students, staff, and visitors, fostering a safe and conducive learning environment.</p>		
1.4	Positive School Culture	<p>A positive school culture is indeed crucial as it significantly influences the success and well-being of students, teachers, and the broader school community. Here are examples of programs that can be implemented to foster a positive school culture:</p> <p>Link Crew:</p> <ul style="list-style-type: none"> • Objective: To help incoming freshmen transition smoothly into high school by pairing them with upperclassmen who serve as mentors. • Activities: Orientation days, team-building activities, and regular check-ins. <p>Student 2 Student Organization (S2S):</p> <ul style="list-style-type: none"> • Objective: To support new students, particularly those who are military-connected, in adjusting to their new school environment. • Activities: Welcome committees, buddy systems, and social events. <p>Scottie Pride Day:</p>	\$300,083.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<ul style="list-style-type: none"> • Objective: To promote school spirit and unity among students and staff. • Activities: School-wide events such as assemblies, pep rallies, and community service projects. <p>Upper Grade/Mid Year Transfer Student Services:</p> <ul style="list-style-type: none"> • Objective: To provide resources and support for students who transfer into the school mid-year. • Activities: Orientation sessions, peer mentoring, and academic counseling. <p>School Climate/Culture Training & Implementation of Restorative Practices (Scottie Restore):</p> <ul style="list-style-type: none"> • Objective: To create a more supportive and respectful school environment through restorative justice practices. • Activities: Training for staff and students on conflict resolution, restorative circles, and mediation sessions. <p>Staff and Student Recognition:</p> <ul style="list-style-type: none"> • Honor Roll: • Objective*: To acknowledge academic excellence among students. • Activities: Awards ceremonies, certificates, and public recognition. • Perfect Attendance: • Objective: To encourage and reward consistent school attendance. • Activities: Certificates, incentives, and special events. • Platinum at Graduation**: • Objective: To honor students who have excelled throughout their high school career. • Activities: Special cords or stoles at graduation, plaques, and scholarships. <p>Dads Achieving Daily for Students (D.A.D.S.):</p> <ul style="list-style-type: none"> • Objective: To increase male role model presence and involvement in the school community. • Activities: Volunteer opportunities, mentoring programs, and school event support.

1.6	Green Schools & Sustainability Initiatives	<p>Helix Green Schools & Sustainability Initiatives, which aim to promote environmental sustainability and responsible energy use within our schools. The key components of this initiative include:</p> <p>Cost of Solar Generation: This involves the financial investment required to implement solar energy systems across our school campuses. By harnessing solar power, we aim to reduce our carbon footprint and achieve long-term savings on energy costs.</p> <p>0.25 FTE Sustainability Coordinator: To support and manage our sustainability efforts, we are allocating a 0.25 Full-Time Equivalent (FTE) position for a Sustainability Coordinator. This individual will oversee the planning, execution, and monitoring of various sustainability projects and initiatives.</p> <p>Additional Implementation Costs: These are the costs associated with the execution of sustainability initiatives beyond solar generation. This may include costs for educational programs, eco-friendly infrastructure improvements, and other sustainability-related projects.</p>	\$362,946.00	
1.7	Co-Curricular & Extra Supports	<p>As we continue to prioritize the holistic development of our students at Helix High School, we place high importance of our Co-Curricular and Extra Support Programs in fostering social-emotional wellness, promoting good citizenship, and encouraging healthy lifestyles among our student body.</p> <p>Our commitment to these programs is evident in our robust services across various domains:</p> <p>Athletic Program: Staff: Dedicated coaches and trainers who mentor and guide our student-athletes. Supplies: Equipment and resources necessary for training and competition. Transportation: Ensuring safe and reliable travel to and from events.</p>	\$1,911,375.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>Performing Arts Program: Staff: Experienced instructors who nurture artistic talent and creativity. Supplies: Instruments, costumes, and other materials crucial for performances. Transportation: Facilitating logistical needs for rehearsals and performances.</p> <p>Academic League Program: Staff: Educators who support intellectual growth through academic competitions. Supplies: Study materials and resources for enhancing academic prowess. Transportation: Arrangements for travel to competitions and events.</p> <p>These programs play a pivotal role in enriching our students' educational experience beyond the classroom. By participating in these activities, students not only develop valuable skills and knowledge but also cultivate teamwork, discipline, and leadership qualities.</p>		

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	<p>Closing the Achievement Gap through Equity, Effective Collaboration, and Innovative Practices</p> <p>To close the achievement gap by prioritizing equity, fostering effective collaboration among all stakeholders, and implementing innovative educational practices. This goal aims to ensure that all students, regardless of their background, have access to high-quality education and the support they need to succeed academically and personally.</p>	Focus Goal

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 2: State Standards (Conditions of Learning)
- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 5: Pupil Engagement (Engagement)
- Priority 6: School Climate (Engagement)
- Priority 7: Course Access (Conditions of Learning)

An explanation of why the LEA has developed this goal.

At Helix, we believe that equitable access to high-quality education and resources is essential for improving academic outcomes for all students. Our commitment to innovative and culturally responsive teaching practices aims to enhance student engagement and motivation. We recognize that effective collaboration with families and community organizations creates a supportive network for our students. By focusing on equity and data-driven instruction, we can significantly reduce achievement gaps among different student groups.

Our dedication to equity and inclusion fosters a school culture where every student feels valued and supported. By prioritizing equity, encouraging collaboration, and embracing innovative practices, we are committed to closing the achievement gap and ensuring that every student has the opportunity to succeed and thrive.

No significant anticipated changes in goals or metrics, continued refinement and analysis will continue.

Based on the Needs Assessment for the LREBG, Goal 2 Action 1: Academic Support will be funded in part with LREBG funds. This action provides targeted intervention and tutoring to help students recover from learning loss caused by the COVID-19 pandemic. It aligns with allowable uses of funds by extending instructional support and addressing academic gaps. The program focuses on improving student achievement and ensuring equitable access to learning resources. These supports are essential for helping all students succeed and stay on track academically.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	<p>Sustain a High-Performing Academic Culture that Equips Students to Reach Personal and Academic Potential</p> <p>Our goal is to foster an academic environment that emphasizes rigor and excellence, ensuring that all students are challenged and supported to reach their highest personal and academic potential. By maintaining high standards and expectations, we aim to cultivate a culture of continuous improvement and achievement.</p>	Broad Goal

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 2: State Standards (Conditions of Learning)
- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 5: Pupil Engagement (Engagement)
- Priority 6: School Climate (Engagement)
- Priority 7: Course Access (Conditions of Learning)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Helix chose to sustain a high-performing academic culture as a goal because it is foundational to the success and future opportunities of our students.

This goal is essential for preparing Highlander students for future success. Academic rigor will prepare our students for the demands of higher education and the competitive job market. By challenging Helix students to reach their full potential, we equip them with the critical thinking, problem-solving, and analytical skills necessary for success in college and future careers.

Additionally, a high-performing academic culture fosters a love of learning and encourages students to become lifelong learners. By instilling the values of curiosity, perseverance, and intellectual engagement, we prepare students to continuously seek knowledge and adapt to an ever-changing world. Rigorous academic environments also support the development of essential life skills such as time management, resilience, and self-discipline. These skills are crucial for personal growth and contribute to the overall well-being and success of our students.

Helix students are future leaders, innovators, and citizens who will shape our communities and the world. By providing a high-performing academic culture, we empower them to make meaningful contributions and drive positive change in their communities and beyond.

Goal

Goal #	Description	Type of Goal
4	<p>Expanded School: Continue Opportunities for Expanded Student Learning: Career Technical Education, Community College Dual Enrollment, College and Career Outreach, and other innovative educational programs.</p> <p>Our goal is to expand learning opportunities for our students by integrating Career Technical Education (CTE), Community College Dual Enrollment, College and Career Outreach, and other innovative educational programs into our curriculum. These initiatives are designed to provide students with diverse pathways to success, ensuring they are well-prepared for both higher education and the workforce.</p>	Broad Goal

State Priorities addressed by this goal.

- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 5: Pupil Engagement (Engagement)
- Priority 7: Course Access (Conditions of Learning)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Expanding opportunities for Helix students through Career Technical Education (CTE), Community College Dual Enrollment, College and Career Outreach, and other innovative educational programs aligns seamlessly with our mission to provide a comprehensive and dynamic education that prepares students for success in both higher education and the workforce. Every student possesses unique talents, interests, and career aspirations. By offering a diverse array of educational pathways, we ensure that all students have the opportunity to pursue their passions and achieve their full potential. Whether students excel in academics, technical skills, or creative endeavors, they deserve the chance to thrive and succeed.

In today's rapidly evolving landscape of higher education and the job market, it's crucial to equip students with the knowledge, skills, and experiences needed to navigate these changes successfully. By exposing students to CTE programs, dual enrollment options, and college and career outreach initiatives, we provide them with not only academic credentials but also practical skills and real-world experiences that make them competitive in today's workforce. At Helix, we firmly believe that access to high-quality educational opportunities should be universal, irrespective of socioeconomic status or geographic location. By expanding access to our expanded school opportunities, we ensure that all students, regardless of background, have the chance to pursue their dreams and achieve success.

Collaborating with community colleges, businesses, and industry leaders enriches the educational experience for our students. These partnerships offer invaluable resources, mentorship opportunities, and real-world connections that expose students to a myriad of diverse

career pathways. Education extends beyond mere academic achievement; it encompasses personal growth and development. By providing a range of educational programs tailored to different interests and learning styles, we foster the holistic development of our students, nurturing their intellectual curiosity, creativity, and resilience.

In summary, Helix's unwavering commitment to expanding opportunities for student learning through CTE, dual enrollment, college and career outreach, and other innovative programs underscores our dedication to providing a well-rounded education that prepares students for success in the 21st-century world. This goal epitomizes our belief in the potential of every student and our steadfast resolve to empower them to achieve their goals and make meaningful contributions to society.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Actions proved effective in advancing our goals during the three-year LCAP cycle, with significant growth in student participation in expanding school options. The Helix CTE program expanded its offerings and achieved improved outcomes, and we are pleased to announce that our Aspire grant has been refunded once again.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

In 2025-26, the Library EDGE/Maker Lab is being prepared to host 9th grade technology classes, with the goal of increasing lab use among all students. Library and Technology staff will assess whether the current furniture can be rearranged to accommodate 30 students and have been authorized to purchase any additional pieces needed. Please support them in ordering and setting up any necessary furniture to ensure the space functions effectively as a classroom. They have been authorized to make necessary purchases, and your support is needed to help them order and set up any new technology to ensure the lab is fully equipped for classroom use.

Based on the Needs Assessment for the LREBG, Goal 4 Action 4: Summer School will be funded in part with LREBG funds. This action addresses learning loss caused by the COVID-19 pandemic by providing students with targeted academic support and credit recovery opportunities. Summer School aligns with allowable uses of funds by extending instructional time beyond the regular school year. It is designed to support students who have fallen behind and need additional help to stay on track for graduation. This action helps meet identified needs for academic intervention and equitable access to learning resources.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

No substantive differences in planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Minimal material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Effective maintenance goal actions. Students were supported with one to one technology, staff were supported with upgraded wireless Screen Beam presentation and increased wireless connectivity.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

The following addition of platform supports are the only anticipated changes in goals or metrics, continued refinement and analysis will continue.

To address evolving technology needs in education, the school is implementing several key programs that enhance efficiency, data use, and instructional support. ****InformedK12**** streamlines workflow and approval processes, reducing administrative burdens. ****Schoolytics****

provides actionable insights through student performance data, helping educators personalize instruction. **Brisk** supports curriculum planning and content creation with AI-powered tools, while **ChatGPT** offers on-demand instructional support and creative resources for both staff and students. Together, these tools foster a more responsive, data-informed, and innovative learning environment.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
5.1	Information Technology Support Services	<p>Staffing IT Support Services: Hire and maintain a team of IT professionals to provide technical support.</p> <p>Explanation: This action involves ensuring adequate staffing of IT support services to address technical issues and provide assistance to students, teachers, and staff. By providing dedicated IT support staff, Helix can ensure timely resolution of technology-related issues, minimizing disruptions to teaching and learning. Implementing this action ensures consistent access to IT support services across campus, promoting efficiency and equity in technical assistance.</p>	\$1,493,596.00	No
5.2	Information Technology Hardware & Modernization	<p>Upgrade infrastructure to support modern technology needs.</p> <p>This action involves upgrading the infrastructure for internet and technology services, ensuring that Helix is equipped to meet the demands of 21st-century learning.</p> <p>By providing modernized technology maintenance and infrastructure, Helix ensures reliable access to internet and technology services for all students and staff. Ensures consistency, efficiency, and equity across all campuses, fostering a conducive environment for teaching and learning.</p>	\$434,388.00	

Action #	Title	Description	Total Funds	Contributing
5.3	One to One: Chromebook Access	One-to-one Chromebook access ensures that each student has their own Chromebook for academic use. By providing and maintaining Chromebooks for all students, Helix can facilitate equitable access to technology resources, promote digital literacy, and support personalized learning experiences.	\$404,250.00	Yes
5.4	Schoolwide Technology Platforms	<p>By implementing schoolwide technology platforms, Helix can optimize operations, improve communication, and facilitate personalized learning experiences for students. These platforms empower educators, students, and parents to actively participate in the educational journey and adjust to changing academic requirements.</p> <p>Platform Examples: Learning Management Systems (LMS) - Canvas Student Information Systems - Synergy Communication Platform - Remind, ParentSquare Digital Assessment Tools - Kahoot, Edpuzzle Data Analytics and Reporting - Kelvin Virtual Learning Environments - Zoom, Google Chat Professional Development Platforms - Schoology, Edmodo</p> <p>2025 Additions InformedK12 Schoolytics Brisk ChatGPT</p>	\$215,000.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
6	<p>Maintain Parent/Community Partnerships Expanding Helix as a Community Support Center</p> <p>Our goal is to strengthen and maintain partnerships with parents and the broader community, transforming Helix into a hub of support and resources for all stakeholders. By fostering collaborative relationships and expanding our reach beyond the school walls, we aim to create a supportive ecosystem that enhances student success and community well-being.</p>	Maintenance of Progress Goal

State Priorities addressed by this goal.

Priority 3: Parental Involvement (Engagement)
 Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Research consistently shows that strong parent and community partnerships contribute to improved academic achievement, attendance, behavior, and overall student success. By expanding Helix as a community support center, we can provide students with the support they need to thrive academically, socially, and emotionally. Engaging parents and community members as partners in education empowers them to play an active role in shaping the school environment and supporting student learning. By fostering meaningful engagement opportunities, we can harness the collective expertise, resources, and energy of our community to enrich the educational experience for all. Building strong parent and community partnerships is essential for promoting equity and inclusion within our school community. By actively involving diverse voices and perspectives, we can better understand and address the unique needs and challenges faced by different families, ensuring that all students have access to the support and resources they need to succeed.

Helix has the potential to serve as more than just an educational institution; it can also serve as a hub of support and resources for the broader community. By expanding our partnerships and services, we can address the holistic needs of families, promoting community well-being and resilience. In summary, maintaining parent and community partnerships and expanding Helix as a community support center is essential for enhancing student success, empowering families, promoting equity and inclusion, fostering community well-being, and ensuring the long-term sustainability of our school. This goal reflects our commitment to collaboration, empowerment, and collective impact in service of our students and the broader community.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
6.1	Parent/Guardian Attendance Rate of Participation (attending parent training, learning opportunities and education workshops and meetings)	2022-23 Internal Data 2000 Attendees	2023-24 Internal Data 2828 Attendees		2026-27 Internal Data 2500 Attendees	Increased by 828 attendees
6.2	Participation in the California Healthy Kids Survey	2021-22 WestEd 506 Responses	2023-24 WestEd 89 Responses		2026-27 WestEd 1000 Responses	Significant lack of participation in Summer months administration

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The primary differences in planned actions include clarifications to streamline similar services and the addition of a focus on community schools partnerships.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

No significant material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Actions in this goal were effective as we increased parent communication and involvement in campus activities. We increased Helix outreach with community organizations as well.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

No anticipated changes in goals or metrics, continued refinement and analysis will continue.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.2	<p>Action: Wellness Center Program</p> <p>Need: Students and staff support for social emotional wellness is essential to our success on campus. Post-pandemic trauma-informed care is needed to bridge the return to school and mitigate learning loss. We will focus on building a bridge to external supports,</p>	<p>Unduplicated students (e.g., low-income, English learners, foster youth)—often face unique and compounded challenges that necessitate social-emotional supports in high school. Here are several reasons why these supports are crucial:</p> <p>Trauma and Stress: Students from low-income backgrounds or those in foster care may have experienced trauma or chronic stress. Social-emotional supports provide a safe space to</p>	<p>California Healthy Kids Survey</p> <p>**School Safety**</p> <p>**Connectedness**</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>implementing in house proactive supports, and raising schoolwide awareness of social emotional wellness. Addressing and enhancing social-emotional learning (SEL) at Helix, will foster the development of essential qualities such as empathy, self-control, and problem-solving in students.</p> <p>These skills are pivotal for success in school, life beyond school, and the broader world. SEL will also contribute to improved academic performance, reduced bullying, positive classroom climates, stress management, healthy identity development, and responsible decision making. SEL skills will complement and enhance academic achievement by fostering a more engaged and motivated student body.</p> <p>Scope: LEA-wide</p>	<p>process these experiences and develop healthy coping mechanisms.</p> <p>Mental Health: The pressures and stresses associated with being part of multiple at-risk categories can contribute to mental health issues such as anxiety and depression. Access to counseling and mental health resources is vital for addressing these concerns and promoting overall well-being.</p> <p>Behavioral Issues: Unduplicated students may exhibit behavioral issues as a response to external stressors and unmet needs. Social-emotional supports can help address the root causes of these behaviors, promoting better self-regulation and positive behavior.</p> <p>Family and Community Factors: Many unduplicated students come from families facing economic hardship or instability. Social-emotional supports can provide additional resources and connections to community services that benefit both students and their families.</p> <p>College and Career Readiness: Preparing for post-secondary education and careers requires not only academic skills but also social-emotional competencies such as goal-setting, perseverance, and interpersonal skills. Supports in high school can lay the groundwork for future success.</p> <p>By addressing the social-emotional needs of unduplicated students, schools can create a more supportive and effective learning environment that</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		fosters academic achievement, personal growth, and overall well-being.	
1.4	<p>Action: Positive School Culture</p> <p>Need: The need for a positive school culture is identified by its comprehensive impact on enhancing academic success, promoting well-being, reducing behavioral issues, supporting teachers, engaging the community, ensuring inclusivity, fostering social-emotional development, and building resilience.</p> <p>Scope: LEA-wide</p>	<p>Helix implemented several key resources that directly impact the success and well-being of students, teachers, and the broader school community:</p> <p>Academic Achievement: Promotes an environment where students feel safe, supported, and motivated to learn. This leads to higher levels of engagement, attendance, and academic performance.</p> <p>Student Well-being: Promotes student well-being allows Helix students to feel valued and respected, thus they are more likely to have higher self-esteem and better mental health. A positive culture fosters a sense of belonging, reducing feelings of isolation and anxiety.</p> <p>Behavioral Outcomes: Helix positive culture creates an environment with fewer disciplinary issues. Positive relationships and clear, consistent expectations help students develop self-regulation and social skills, leading to a decrease in disruptive behaviors.</p> <p>Teacher Retention and Satisfaction: Teachers are more likely to stay at Helix where they feel appreciated and part of a collaborative, supportive environment. This positive culture reduces burnout and increases job satisfaction, which in turn benefits students through higher quality instruction.</p>	<p>California Healthy Kids Survey **School Safety** **Connectedness**</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>Inclusive Environment: Helix is committed to a positive culture for all student groups emphasizing inclusivity and equity, ensuring that all students, regardless of their background, feel welcomed and have equal opportunities to succeed.</p> <p>Development of Social and Emotional Skills: We are prioritizing the development of social and emotional competencies, which are critical for students' long-term success. Skills such as empathy, resilience, and collaboration are nurtured in this supportive environment.</p>	
2.1	<p>Action: Academic Support Program</p> <p>Need: At Helix, we believe that equitable access to high-quality education and resources is essential for improving academic outcomes for all students. Our commitment to innovative and culturally responsive teaching practices aims to enhance student engagement and motivation. We recognize that effective collaboration with families and community organizations creates a supportive network for our students. By focusing on equity and data-driven instruction, we can significantly reduce achievement gaps among different student groups.</p> <p>Our dedication to equity and inclusion fosters a school culture where every student feels valued and supported. By prioritizing equity, encouraging collaboration, and embracing innovative practices, we are committed to</p>	<p>Unduplicated students in unduplicated student groups need academic support and tutoring in high school for several reasons, which stem from the unique challenges and barriers they face. These supports are crucial for ensuring that these students have equitable access to education and opportunities for success. Here are some key reasons:</p> <p>Language Barriers: English learners, a significant portion of unduplicated students, often face language barriers that can make understanding and completing assignments challenging. Academic support and tutoring can help bridge this gap, providing tailored instruction and language development support.</p> <p>Gaps in Prior Education: Many unduplicated students may have experienced interruptions in their education due to factors like frequent relocations (common among foster youth) or migration. Tutoring helps fill these gaps by</p>	<p>DataQuest **Graduation Rate** **UC/CSU a-g completion rate** **CAASPP Scores**</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>closing the achievement gap and ensuring that every student has the opportunity to succeed and thrive.</p> <p>Scope: LEA-wide</p>	<p>providing targeted instruction that addresses missed content and skills.</p> <p>Limited Access to Resources: Students from low-income families may lack access to educational resources such as books, technology, and private tutoring. School-provided academic support and tutoring can help level the playing field by giving these students the resources they need to succeed.</p> <p>Parental Support: Unduplicated students might come from families where parents or guardians are unable to provide academic support due to language barriers, limited education, or demanding work schedules. School-based tutoring offers these students the academic assistance they might not receive at home.</p> <p>Higher Academic Expectations and Standards: High school curricula can be demanding, and unduplicated students may struggle to meet academic standards without additional help. Tutoring provides personalized instruction and practice, helping students keep up with coursework and improve their understanding.</p> <p>Individualized Attention: Class sizes can limit the amount of individual attention teachers can provide to each student. Tutoring offers one-on-one or small group instruction, allowing for personalized learning experiences that address each student's specific needs and learning style.</p> <p>Confidence and Motivation: Academic challenges can impact a student's confidence and motivation.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>Tutoring can help build academic skills and knowledge, which in turn boosts students' confidence in their abilities and motivates them to engage more actively in their education.</p> <p>Preparation for Higher Education: Many unduplicated students aspire to attend college or pursue vocational training. Academic support and tutoring can help prepare them for the rigors of post-secondary education by strengthening their foundational knowledge and study skills.</p> <p>Homework Help: Homework can be a significant source of stress for students who struggle academically. Tutoring provides a structured environment for completing homework, ensuring that students understand and can apply the material covered in class.</p> <p>Providing academic support and tutoring to unduplicated students helps address these challenges, promoting educational equity and enabling these students to achieve their full potential.</p>	
<p>2.3</p>	<p>Action: Helix First: 9th Grade Transition Program</p> <p>Need: At Helix, we believe that equitable access to high-quality education and resources is essential for improving academic outcomes for all students. Our commitment to innovative and culturally responsive teaching practices aims to enhance student engagement and motivation. We recognize that effective</p>	<p>Students in unduplicated student groups need a 9th grade transition support class when starting high school to help them navigate the significant academic, social, and emotional changes that come with this transition. Here are several reasons why such a class is essential:</p> <p>Adjustment to High School Rigor: The academic demands in high school are often much greater than in middle school. A transition support class can help students develop effective study habits,</p>	<p>DataQuest **Graduation Rate** **UC/CSU a-g completion rate** **CAASPP Scores**</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>collaboration with families and community organizations creates a supportive network for our students. By focusing on equity and data-driven instruction, we can significantly reduce achievement gaps among different student groups.</p> <p>Our dedication to equity and inclusion fosters a school culture where every student feels valued and supported. By prioritizing equity, encouraging collaboration, and embracing innovative practices, we are committed to closing the achievement gap and ensuring that every student has the opportunity to succeed and thrive.</p> <p>Scope: LEA-wide</p>	<p>time management skills, and strategies for handling increased coursework.</p> <p>Building Academic Foundations: Many unduplicated students may enter high school with gaps in their academic knowledge. A transition support class can provide targeted instruction to strengthen foundational skills in core subjects, ensuring students are prepared for high school-level work.</p> <p>Social-Emotional Support: The transition to high school can be stressful and overwhelming, particularly for students facing additional challenges such as language barriers, economic instability, or lack of family support. A transition class can offer social-emotional learning to help students develop resilience, manage stress, and build positive relationships.</p> <p>Navigating a New Environment: High school often involves a larger and more complex environment than middle school, with more students, teachers, and extracurricular opportunities. A transition class can help students acclimate to this new setting, understand school policies and procedures, and learn how to access resources like counseling and tutoring.</p> <p>Building a Supportive Peer Network: Ninth grade is a crucial time for students to form new friendships and peer support networks. A transition class can facilitate activities and discussions that help students connect with one another, fostering a sense of community and belonging.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>College and Career Readiness: High school is a critical period for setting students on a path toward college and career readiness. A transition support class can introduce students to goal-setting, career exploration, and the importance of academic achievement for future opportunities.</p> <p>Personalized Attention: Unduplicated students often benefit from additional individualized support to address their unique needs. A transition class can provide personalized attention, helping students set academic and personal goals, and offering guidance on how to achieve them.</p> <p>Parental Involvement: Engaging families in the high school transition process can be challenging, especially for unduplicated students whose parents may face language barriers or work long hours. Transition classes can include components that encourage parental involvement and provide information on how parents can support their child's education.</p> <p>Extracurricular Engagement: Participation in extracurricular activities is linked to higher academic achievement and better school engagement. A transition class can help students explore and get involved in clubs, sports, and other activities, enhancing their high school experience.</p> <p>Long-Term Success: Early support during the 9th grade transition is linked to higher graduation rates and better long-term academic outcomes. By providing a strong foundation, transition support</p>

		<p>classes help set students up for success throughout their high school years and beyond.</p> <p>Overall, a 9th grade transition support class is essential for helping unduplicated students successfully navigate the challenges of starting high school, providing them with the tools, resources, and support they need to thrive academically, socially, and emotionally.</p>	
2.4	<p>Action: Summer Institute</p> <p>Need: At Helix, we believe that equitable access to high-quality education and resources is essential for improving academic outcomes for all students. Our commitment to innovative and culturally responsive teaching practices aims to enhance student engagement and motivation. We recognize that effective collaboration with families and community organizations creates a supportive network for our students. By focusing on equity and data-driven instruction, we can significantly reduce achievement gaps among different student groups.</p> <p>Our dedication to equity and inclusion fosters a school culture where every student feels valued and supported. By prioritizing equity, encouraging collaboration, and embracing innovative practices, we are committed to closing the achievement gap and ensuring that every student has the opportunity to succeed and thrive.</p>	<p>Students in unduplicated student groups need staff to consistently work on professional development and investigate best practices and impactful education literature to ensure they receive the most effective and equitable education possible. Here are several reasons why continuous professional development and engagement with education research are essential:</p> <p>Staying Current with Effective Strategies: Education research continually evolves, providing new insights into effective teaching strategies, especially for diverse and at-risk student populations. By engaging in professional development, staff can stay current with these developments and implement the most effective practices in their classrooms.</p> <p>Addressing Diverse Needs: Unduplicated students often have diverse and complex needs. Professional development helps staff learn and apply differentiated instruction techniques, culturally responsive teaching methods, and other strategies tailored to meet the unique needs of these students.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Scope: LEA-wide</p>	<p>Improving Academic Outcomes: Research-based practices have been shown to improve academic outcomes. By investigating and implementing best practices, staff can enhance the academic performance of unduplicated students, helping to close achievement gaps and promote equity.</p> <p>Enhancing Social-Emotional Learning: Professional development can provide staff with the tools and knowledge to support the social-emotional development of unduplicated students. This includes learning about trauma-informed practices, restorative justice, and other approaches that address the social and emotional challenges these students may face.</p> <p>Reducing Bias and Promoting Equity*: Continuous professional development helps staff recognize and address their own biases and understand systemic inequities that affect unduplicated students. This awareness is crucial for creating an equitable learning environment and promoting fairness in educational opportunities and outcomes.</p> <p>Building a Collaborative Culture: Professional development often involves collaborative learning and sharing of best practices among educators. This collaboration can lead to a more cohesive and supportive school culture, where staff work together to address the needs of unduplicated students.</p> <p>Implementing Data-Driven Instruction: Professional development can equip staff with skills in data analysis and interpretation, enabling</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>them to use student performance data to inform instruction and provide targeted support where it is most needed.</p> <p>Adapting to Technological Advancements: Technology plays a significant role in modern education. Ongoing professional development ensures that staff are proficient in using educational technology to enhance learning and provide equitable access to digital resources for all students.</p> <p>Fostering a Growth Mindset in Educators: Just as students benefit from a growth mindset, so do educators. Professional development encourages continuous learning and improvement among staff, fostering a culture of lifelong learning that ultimately benefits students.</p> <p>Supporting School-Wide Initiatives: Professional development helps align individual teaching practices with broader school-wide initiatives and goals, ensuring a consistent and cohesive approach to supporting unduplicated students across all classrooms and grade levels.</p> <p>Ensuring Sustainability of Effective Practices: Regular engagement with professional development and educational research ensures that effective practices are not just implemented as short-term fixes but are sustained and refined over time, leading to long-term improvements in student outcomes.</p> <p>In summary, consistent professional development and engagement with best practices and impactful</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>education literature enable staff to provide high-quality, equitable education to unduplicated students. This ongoing learning and improvement are essential for addressing the diverse needs of these students, promoting their academic and personal success, and fostering an inclusive and supportive school environment.</p>	
<p>2.5</p>	<p>Action: Double-Dosed Math</p> <p>Need: At Helix, we believe that equitable access to high-quality education and resources is essential for improving academic outcomes for all students. Our commitment to innovative and culturally responsive teaching practices aims to enhance student engagement and motivation. We recognize that effective collaboration with families and community organizations creates a supportive network for our students. By focusing on equity and data-driven instruction, we can significantly reduce achievement gaps among different student groups.</p> <p>Our dedication to equity and inclusion fosters a school culture where every student feels valued and supported. By prioritizing equity, encouraging collaboration, and embracing innovative practices, we are committed to closing the achievement gap and ensuring that every student has the opportunity to succeed and thrive.</p>	<p>Students in unduplicated student groups need double dosed math in high school to address specific educational challenges and to ensure they achieve proficiency in essential mathematical skills. Here are several reasons why this additional support is crucial:</p> <p>Closing Achievement Gaps: Many unduplicated students, including English learners, low-income students, and foster youth, often enter high school with significant gaps in their math knowledge. Double dosing provides extra instructional time to help close these gaps and bring students up to grade level.</p> <p>Reinforcement of Concepts: Math concepts can be difficult to grasp with limited instructional time. Double dosing allows for additional practice and reinforcement, ensuring students fully understand and can apply mathematical concepts before moving on to more advanced topics.</p> <p>Personalized Instruction: Additional math classes enable teachers to provide more individualized attention and support, catering to the specific needs of each student. This can include differentiated instruction, targeted interventions,</p>	<p>DataQuest **Graduation Rate** **UC/CSU a-g completion rate** **CAASPP Scores**</p>

	<p>Scope: LEA-wide</p>	<p>and the use of various teaching strategies to address diverse learning styles.</p> <p>Building Confidence: Struggling with math can lead to a lack of confidence and a negative attitude towards the subject. Double dosing helps students build their confidence by giving them more opportunities to succeed, practice, and see their progress.</p> <p>Preparation for High-Stakes Testing: High school students often face standardized tests and exams that are crucial for graduation and college admission. Extra math instruction helps ensure students are well-prepared for these assessments, improving their chances of success.</p> <p>Foundation for Future Courses: Proficiency in math is essential for success in higher-level courses such as algebra, geometry, and calculus. Double dosing in the early years of high school helps build a strong foundation, making it easier for students to tackle more complex math courses later on.</p> <p>Mitigating the Effects of Socioeconomic Factor*: Students from low-income families may have less access to out-of-school tutoring and other educational resources. Double dosing helps mitigate these disparities by providing additional support within the school environment.</p> <p>Fostering a Growth Mindset: Extra math instruction can help foster a growth mindset, encouraging students to view challenges as opportunities for growth rather than insurmountable obstacles. This</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>mindset is crucial for long-term academic and personal success.</p> <p>College and Career Readiness: Many careers and college programs require strong math skills. Providing extra math instruction ensures that unduplicated students are equipped with the necessary skills and knowledge to pursue post-secondary education and career opportunities.</p> <p>Addressing Language Barriers: For English learners, understanding math terminology and word problems can be particularly challenging. Double dosing provides additional time to focus on language development within the context of math, helping students improve both their math and language skills.</p> <p>By providing double dosed math instruction, schools can ensure that unduplicated students receive the support they need to overcome challenges, build a solid mathematical foundation, and achieve success in high school and beyond.</p>	
2.6	<p>Action: Schoolwide Equity</p> <p>Need: At Helix, we believe that equitable access to high-quality education and resources is essential for improving academic outcomes for all students. Our commitment to innovative and culturally responsive teaching practices aims to enhance student engagement and motivation. We recognize that effective collaboration with families and community organizations creates a supportive network for</p>	<p>Students in unduplicated student groups need staff to be equity-focused in high school to ensure they receive the necessary support and opportunities to succeed academically and personally. Here are several reasons why equity-focused staff are essential:</p> <p>Addressing Systemic Inequities: Many unduplicated students, such as those who are low-income, English learners, or foster youth, face systemic barriers that impact their educational experiences. Equity-focused staff work to identify</p>	<p>DataQuest **SubGroup Graduation Rate** **SubGroup UC/CSU a-g completion rate** **SubGroup CAASPP Scores**</p>

	<p>our students. By focusing on equity and data-driven instruction, we can significantly reduce achievement gaps among different student groups.</p> <p>Our dedication to equity and inclusion fosters a school culture where every student feels valued and supported. By prioritizing equity, encouraging collaboration, and embracing innovative practices, we are committed to closing the achievement gap and ensuring that every student has the opportunity to succeed and thrive.</p> <p>Scope: LEA-wide</p>	<p>and dismantle these barriers, creating a more inclusive and supportive learning environment.</p> <p>Cultural Competence and Sensitivity: Equity-focused staff are trained to understand and respect the diverse cultural backgrounds and experiences of unduplicated students. This cultural competence helps create a more welcoming and affirming school climate, where all students feel valued and understood.</p> <p>*ersonalized Support: Recognizing that unduplicated students often have unique needs, equity-focused staff can provide personalized support and resources tailored to each student. This might include differentiated instruction, targeted interventions, and connections to community services.</p> <p>Reducing Bias and Discrimination* Equity-focused staff are committed to recognizing and challenging their own biases and ensuring that discriminatory practices do not take place in the school. This helps create a fair and just educational environment for all students.</p> <p>Promoting High Expectations: Equity-focused staff believe in the potential of every student and hold high expectations for their academic and personal success. This belief can positively influence students' self-perception and motivation, encouraging them to strive for excellence.</p> <p>Creating Inclusive Curriculum: Equity-focused educators work to develop and implement curricula that reflect the diverse experiences and</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>perspectives of all students. This inclusive approach helps unduplicated students see themselves represented in their education and enhances their engagement and learning.</p> <p>Advocating for Resources and Opportunities: Equity-focused educators advocate for the allocation of resources and opportunities that benefit unduplicated students. This includes ensuring access to advanced coursework, extracurricular activities, college and career counseling, and other enrichment programs.</p> <p>Building a Supportive School Culture: Equity-focused staff contribute to creating a school culture that values diversity, equity, and inclusion. This positive culture benefits all students, fostering a sense of belonging and community.</p> <p>Equity-focused staff play a critical role in creating an educational environment where unduplicated students can thrive. By addressing inequities, providing personalized support, and promoting high expectations, these educators help ensure that all students have the opportunity to succeed.</p>	
3.2	<p>Action: Schoolwide Literacy & Numeracy</p> <p>Need: This goal is essential for preparing Highlander students for future success. Academic rigor will prepare our students for the demands of higher education and the competitive job</p>	<p>Students in unduplicated student groups benefit significantly from a schoolwide curriculum in literacy and numeracy programs in high school for several reasons. Such comprehensive and cohesive programs ensure that all students receive the support they need to develop essential skills, leading to improved educational outcomes and greater equity. Here are the key reasons:</p>	<p>DataQuest **SubGroup Graduation Rate** **SubGroup UC/CSU a-g completion rate** **SubGroup CAASPP Scores**</p>

	<p>market. By challenging Helix students to reach their full potential, we equip them with the critical thinking, problem-solving, and analytical skills necessary for success in college and future careers.</p> <p>Additionally, a high-performing academic culture fosters a love of learning and encourages students to become lifelong learners. By instilling the values of curiosity, perseverance, and intellectual engagement, we prepare students to continuously seek knowledge and adapt to an ever-changing world. Rigorous academic environments also support the development of essential life skills such as time management, resilience, and self-discipline. These skills are crucial for personal growth and contribute to the overall well-being and success of our students.</p> <p>Scope: LEA-wide</p>	<p>Consistency in Instruction: A schoolwide curriculum ensures that all students receive consistent, high-quality instruction in literacy and numeracy across all classes and grade levels. This consistency helps reinforce learning and provides a coherent educational experience, reducing gaps and redundancies in instruction.</p> <p>Equitable Access to Resources: Unduplicated students often face barriers to accessing educational resources. A schoolwide curriculum ensures that all students, regardless of background, have access to the same high-quality materials, teaching strategies, and support systems, promoting equity in education.</p> <p>Closing Achievement Gaps: A standardized curriculum helps identify and address achievement gaps more effectively. By implementing schoolwide literacy and numeracy programs, schools can provide targeted interventions and support to students who are behind, helping them catch up and succeed.</p> <p>Comprehensive Skill Development: Literacy and numeracy are foundational skills that impact success in all subject areas. A schoolwide curriculum ensures that these skills are developed systematically and thoroughly, enabling students to excel in other academic disciplines.</p> <p>Support for English Learners: English learners benefit from a structured and consistent approach to literacy that includes language development. A schoolwide curriculum can integrate language support within literacy instruction, helping these</p>

		all students have the opportunity to thrive academically and personally.	
3.3	<p>Action: Best Practices & Standards Based Curriculum</p> <p>Need: This goal is essential for preparing Highlander students for future success. Academic rigor will prepare our students for the demands of higher education and the competitive job market. By challenging Helix students to reach their full potential, we equip them with the critical thinking, problem-solving, and analytical skills necessary for success in college and future careers.</p> <p>Additionally, a high-performing academic culture fosters a love of learning and encourages students to become lifelong learners. By instilling the values of curiosity, perseverance, and intellectual engagement, we prepare students to continuously seek knowledge and adapt to an ever-changing world. Rigorous academic environments also support the development of essential life skills such as time management, resilience, and self-discipline. These skills are crucial for personal growth and contribute to the overall well-being and success of our students.</p> <p>Scope: LEA-wide</p>	<p>Students in unduplicated student groups benefit significantly from a school that implements best practices and a standards-based curriculum in high school. Here are the key reasons why this approach is crucial for their academic success and overall development:</p> <p>Ensuring Equity and Access: Implementing best practices and a standards-based curriculum ensures that all students, regardless of background, have access to a high-quality education. This approach helps level the playing field by providing consistent, equitable learning opportunities for unduplicated students, who may face additional challenges.</p> <p>Providing High-Quality Instruction: Best practices in education are research-based and proven to be effective in promoting student learning. By adhering to these practices, schools can ensure that unduplicated students receive instruction that is engaging, effective, and responsive to their needs.</p> <p>Aligning with Educational Standards: A standards-based curriculum aligns instruction with state and national educational standards, ensuring that all students, including those in unduplicated groups, are learning the necessary content and skills. This alignment helps prepare students for standardized tests, graduation requirements, and post-secondary education.</p>	<p>DataQuest **SubGroup Graduation Rate** **SubGroup UC/CSU a-g completion rate** **SubGroup CAASPP Scores**</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>Addressing Diverse Learning Needs: Unduplicated students often have diverse learning needs, including language barriers, learning gaps, and socio-economic challenges. Best practices and a standards-based curriculum include differentiated instruction, scaffolding, and other strategies that address these diverse needs and promote student success.</p> <p>Supporting English Learners: Many unduplicated students are English learners who require additional language support. Best practices in language instruction, integrated into a standards-based curriculum, help these students develop their English proficiency while also mastering academic content.</p> <p>Enhancing Academic Achievement: By implementing best practices and a standards-based curriculum, schools can improve academic outcomes for unduplicated students. These practices ensure that instruction is rigorous, relevant, and aligned with educational goals, leading to higher achievement and closing achievement gaps.</p> <p>Building a Supportive School Culture: Implementing best practices and a standards-based curriculum helps create a school culture that values high expectations, continuous improvement, and collaboration. This positive culture supports unduplicated students by fostering a sense of belonging and encouraging them to strive for excellence.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>Engaging Families and Communities: Best practices in education include strategies for engaging families and communities in the educational process. This engagement is particularly important for unduplicated students, whose families may face language barriers or other challenges. Involving families in their children's education can provide additional support and improve student outcomes.</p> <p>Professional Development for Teachers: A focus on best practices and standards-based instruction often involves ongoing professional development for teachers. This training helps educators stay current with the latest research and effective teaching strategies, enhancing their ability to support unduplicated students.</p> <p>For unduplicated students, who often face additional barriers to academic success, a school that implements best practices and a standards-based curriculum provides the structured, equitable, and effective education they need. This approach ensures that all students receive high-quality instruction, support for their diverse needs, and the preparation necessary for future success in college, careers, and beyond.</p>	
4.1	<p>Action: College & Career Center, College/Career Outreach</p> <p>Need: Expanding opportunities for Helix students through Career Technical Education (CTE), Community College Dual Enrollment, College</p>	Students in unduplicated student groups benefit significantly from a school that implements a College & Career Center and provides college/career outreach. These programs are essential for ensuring that these students have the resources, guidance, and support needed to pursue higher education and career opportunities	First Generation College Acceptance Participation in College/Career Day, Trades Day & C4ME, UCSD, SDSU Participation in Summer Programs

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>and Career Outreach, and other innovative educational programs aligns seamlessly with our mission to provide a comprehensive and dynamic education that prepares students for success in both higher education and the workforce. Every student possesses unique talents, interests, and career aspirations. By offering a diverse array of educational pathways, we ensure that all students have the opportunity to pursue their passions and achieve their full potential. Whether students excel in academics, technical skills, or creative endeavors, they deserve the chance to thrive and succeed.</p> <p>In today's rapidly evolving landscape of higher education and the job market, it's crucial to equip students with the knowledge, skills, and experiences needed to navigate these changes successfully. By exposing students to CTE programs, dual enrollment options, and college and career outreach initiatives, we provide them with not only academic credentials but also practical skills and real-world experiences that make them competitive in today's workforce. At Helix, we firmly believe that access to high-quality educational opportunities should be universal, irrespective of socioeconomic status or geographic location. By expanding access to our expanded school opportunities, we ensure that all students, regardless of background, have the chance to pursue their dreams and achieve success.</p>	<p>successfully. Here are several reasons why these initiatives are crucial:</p> <p>Providing Information and Resources: Unduplicated students often lack access to information about college and career options, application processes, financial aid, and scholarship opportunities. A College & Career Center provides a centralized source of information and resources, helping students make informed decisions about their futures.</p> <p>Offering Personalized Guidance: Unduplicated students may require additional support and personalized guidance to navigate the complex processes of college admissions and career planning. College & Career Centers offer counseling services that help students identify their strengths, interests, and goals, and develop individualized plans to achieve them.</p> <p>Enhancing College Readiness: Many unduplicated students face barriers to college readiness, such as academic gaps or lack of preparatory coursework. College & Career Centers can provide academic support, tutoring, and college readiness programs to help students build the skills and knowledge necessary for success in higher education.</p> <p>Facilitating Career Exploration: College & Career Centers offer opportunities for students to explore various career paths through workshops, job shadowing, internships, and career fairs. This exposure helps students understand different</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Collaborating with community colleges, businesses, and industry leaders enriches the educational experience for our students. These partnerships offer invaluable resources, mentorship opportunities, and real-world connections that expose students to a myriad of diverse career pathways. Education extends beyond mere academic achievement; it encompasses personal growth and development. By providing a range of educational programs tailored to different interests and learning styles, we foster the holistic development of our students, nurturing their intellectual curiosity, creativity, and resilience.</p> <p>Scope: LEA-wide</p>	<p>professions and make informed decisions about their career aspirations.</p> <p>Supporting Financial Aid Applications: Applying for financial aid can be a daunting process, particularly for students from low-income families. College & Career Centers assist students and their families with completing financial aid forms, such as the FAFSA, and identifying scholarship opportunities, making higher education more accessible and affordable.</p> <p>Building a College-Going Culture: By emphasizing the importance of higher education and providing continuous support, College & Career Centers help create a college-going culture within the school. This culture encourages all students, including those in unduplicated groups, to aspire to and prepare for college.</p> <p>Bridging the Gap to Postsecondary Education: Unduplicated students may face unique challenges in transitioning from high school to college or the workforce. College & Career Centers provide programs and support that bridge this gap, ensuring students have the tools and confidence needed to succeed in their postsecondary endeavors.</p> <p>Engaging Families: College and career outreach programs often include family engagement components, providing information and support to parents and guardians. This involvement helps families understand the importance of higher education and how they can support their children's aspirations.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>Promoting Equity and Inclusion: College & Career Centers and outreach programs focus on promoting equity by ensuring that all students, regardless of their background, have access to the same opportunities and support. This helps to close opportunity gaps and promote inclusion in higher education and the workforce.</p> <p>Encouraging Early Planning: Early planning is crucial for college and career success. By providing information and support starting in the early years of high school (or even earlier), College & Career Centers encourage students to start thinking about and preparing for their futures well in advance.</p> <p>For unduplicated students, who often face additional challenges in accessing higher education and career opportunities, a school that implements a College & Career Center and provides college/career outreach is essential. These programs offer the resources, guidance, and support necessary to navigate the complex processes of college admissions and career planning, ensuring that all students have the opportunity to pursue their academic and professional goals.</p>	
4.3	<p>Action: Community College Access</p> <p>Need: Expanding opportunities for Helix students through Career Technical Education (CTE), Community College Dual Enrollment, College</p>	<p>Students in unduplicated student groups benefit significantly from a school that offers community college access via dual enrollment and concurrent enrollment programs in high school for several important reasons:</p>	<p>Participation in Dual Enrollment, Concurrent Enrollment and Advanced Placement Pass Rate</p>

By expanding access to our expanded school opportunities, we ensure that all students, regardless of background, have the chance to pursue their dreams and achieve success.</p>	<p>Early Exposure to College-Level Courses: Dual enrollment and concurrent enrollment programs allow high school students to take courses at a community college while still in high school. This exposure to college-level coursework helps students understand the academic expectations of higher education and prepares them for the rigor of college courses.</p> <p>Accelerated College Progression: By earning college credits during high school, students can accelerate their progress towards a college degree. This can shorten the time and reduce the cost required to complete a postsecondary education, making college more accessible and affordable for unduplicated students, many of whom may be first-generation college students.</p> <p>Increased Motivation and Engagement: Participating in dual enrollment programs can increase students' motivation and engagement in their high school education. Knowing that they are earning college credits and working towards their future goals can inspire students to perform at a higher academic level and stay focused on their studies.</p> <p>Smooth Transition to College: Dual enrollment programs provide a smooth transition from high school to college. Students become familiar with the college environment, academic expectations, and campus resources, which can reduce anxiety and help them feel more confident when they begin full-time college studies.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Collaborating with community colleges, businesses, and industry leaders enriches the educational experience for our students. 	<p>effectiveness. By prioritizing ongoing professional development and infrastructure upgrades, we can ensure that our technology remains current and aligned with the needs and expectations of our school community.</p> <p>In summary, maintaining systematically integrated technology in the Helix culture is essential for preparing students for the future, enhancing learning experiences, fostering efficiency and innovation, promoting equity and access, and supporting continuous improvement throughout our school community. This goal reflects our commitment to leveraging technology as a powerful tool for advancing educational excellence and empowering all students to reach their full potential.</p> <p>Scope: LEA-wide</p>	<p>have access to the necessary technology at home. A one-to-one Chromebook program ensures that every student has access to a personal device, thereby bridging the digital divide and providing equal opportunities for learning and engagement.</p> <p>Enhancing Learning Opportunities: Access to Chromebooks allows students to take advantage of a wide range of digital resources and educational tools. This can include online textbooks, interactive learning platforms, educational apps, and virtual labs that enhance the learning experience and provide diverse ways to understand and engage with the curriculum.</p> <p>Supporting Personalized Learning*: With individual Chromebooks, teachers can implement personalized learning strategies more effectively. This allows for differentiated instruction tailored to meet the unique needs of each student, which is particularly beneficial for unduplicated students who may require additional support or enrichment.</p> <p>Increasing Engagement and Motivation: Technology can make learning more engaging and interactive. Chromebooks allow students to participate in multimedia projects, collaborate with peers online, and engage in gamified learning experiences. These opportunities can increase student motivation and make learning more enjoyable.</p> <p>Facilitating Access to Online Resources: Chromebooks provide students with access to a vast array of online resources, including research databases, e-books, and academic journals. This</p>	<p>of improvement and ensure that the program is meeting the needs of all stakeholders.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>access supports independent learning, critical thinking, and research skills, which are essential for success in higher education and beyond.</p> <p>Preparing for the Future: Proficiency in using digital tools is essential for success in today's technology-driven world. By using Chromebooks regularly, students develop important digital literacy skills, such as typing, online research, digital communication, and data analysis, which are valuable for both college and career readiness.</p> <p>Supporting Collaboration and Communication: Chromebooks facilitate easy communication and collaboration among students and between students and teachers. Tools like Google Workspace for Education allow for real-time collaboration on documents, spreadsheets, and presentations, fostering teamwork and collaborative learning.</p> <p>Ensuring Continuity of Learning: In cases where students cannot attend school physically, such as during illness or other disruptions (e.g., pandemics), having individual Chromebooks ensures that they can continue their education remotely. This continuity is crucial for maintaining academic progress and minimizing learning loss.</p> <p>Providing Access to Digital Assessments: Chromebooks enable schools to administer digital assessments efficiently. These assessments can provide immediate feedback, helping teachers quickly identify areas where students need additional support and allowing for timely interventions.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>Supporting Project-Based Learning: Chromebooks allow students to engage in project-based learning, which emphasizes hands-on, real-world applications of knowledge. This approach can be particularly effective for unduplicated students, helping them see the relevance of their education and stay motivated.</p> <p>Enabling Blended Learning Models: Chromebooks support blended learning models, where students can learn partly through online content and partly through face-to-face instruction. This flexibility allows for a more customized and adaptable learning experience, catering to the diverse needs of unduplicated students.</p> <p>Supporting Special Education Needs: Chromebooks come with various accessibility features that support students with special education needs, such as text-to-speech, speech-to-text, and other assistive technologies. These tools help ensure that all students can participate fully in their education.</p> <p>A schoolwide one-to-one Chromebook program provides unduplicated students with essential access to technology, enhancing their learning experience and ensuring that they have the tools and resources needed to succeed academically. By promoting equity, personalized learning, and digital literacy, such programs prepare students for the challenges of higher education and the workforce, ensuring they have the skills and confidence to thrive in a technology-driven world.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
6.2	<p>Action: Family First: Parent Education & Engagement</p> <p>Need: Research consistently shows that strong parent and community partnerships contribute to improved academic achievement, attendance, behavior, and overall student success. By expanding Helix as a community support center, we can provide students with the support they need to thrive academically, socially, and emotionally. Engaging parents and community members as partners in education empowers them to play an active role in shaping the school environment and supporting student learning. By fostering meaningful engagement opportunities, we can harness the collective expertise, resources, and energy of our community to enrich the educational experience for all. Building strong parent and community partnerships is essential for promoting equity and inclusion within our school community. By actively involving diverse voices and perspectives, we can better understand and address the unique needs and challenges faced by different families, ensuring that all students have access to the support and resources they need to succeed.</p> <p>Helix has the potential to serve as more than just an educational institution; it can also serve as a hub of support and resources for the broader community. By expanding our partnerships and services, we can address the holistic needs of families, promoting</p>	<p>Implementing a Family First approach with parent education and engagement in high school is crucial for students in unduplicated student groups for several important reasons:</p> <p>Enhancing Student Achievement: Parental involvement is a key factor in student success. When parents are engaged and informed, they can better support their children's academic efforts. This involvement leads to higher grades, better attendance, and increased motivation among students.</p> <p>Bridging Communication Gaps: Many unduplicated students come from diverse backgrounds, which can include language barriers and cultural differences. Family engagement programs can provide parents with the tools and resources they need to effectively communicate with teachers and school staff, ensuring that they are fully aware of their children's academic progress and school requirements.</p> <p>Empowering Parents with Knowledge: Parent education programs equip parents with the knowledge to support their children's education at home. This can include understanding the curriculum, helping with homework, and knowing how to access additional academic resources. Educated parents can become advocates for their children's education.</p> <p>Creating a Supportive Home Environment: A supportive home environment is essential for student success. Parent education programs can provide strategies for parents to create a positive</p>	Family First Attendance, Parent Participation in Activities

	<p>community wellbeing and resilience. In summary, maintaining parent and community partnerships and expanding Helix as a community support center is essential for enhancing student success, empowering families, promoting equity and inclusion, fostering community well-being, and ensuring the long-term sustainability of our school. This goal reflects our commitment to collaboration, empowerment, and collective impact in service of our students and the broader community.</p> <p>Scope: LEA-wide</p>	<p>and conducive learning environment at home. This includes establishing routines, providing a quiet study space, and encouraging reading and learning activities.</p> <p>Building Stronger School-Home Connections: When parents are engaged in their children's education, it strengthens the connection between the school and home. This partnership fosters a collaborative environment where parents and educators work together to support student learning and address any issues that may arise.</p> <p>Addressing Socioeconomic Challenges: Many unduplicated students face socioeconomic challenges that can impact their education. Parent education programs can provide information and resources on how to access financial aid, scholarships, and community services. This support can help alleviate some of the external pressures that families may face, allowing students to focus more on their studies.</p> <p>Encouraging Higher Education Aspirations: Parents play a significant role in shaping their children's aspirations. By educating parents about the benefits of higher education and the steps needed to achieve it, schools can help foster a college-going culture within families. This encouragement is particularly important for first-generation college students.</p> <p>Supporting Mental and Emotional Health: Parental engagement programs can include education on supporting the mental and emotional health of students. This is critical for unduplicated students</p>

	<p>educational experience for all. Building strong parent and community partnerships is essential for promoting equity and inclusion within our school community. By actively involving diverse voices and perspectives, we can better understand and address the unique needs and challenges faced by different families, ensuring that all students have access to the support and resources they need to succeed.</p> <p>Helix has the potential to serve as more than just an educational institution; it can also serve as a hub of support and resources for the broader community. By expanding our partnerships and services, we can address the holistic needs of families, promoting community wellbeing and resilience. In summary, maintaining parent and community partnerships and expanding Helix as a community support center is essential for enhancing student success, empowering families, promoting equity and inclusion, fostering community well-being, and ensuring the long-term sustainability of our school. This goal reflects our commitment to collaboration, empowerment, and collective impact in service of our students and the broader community.</p> <p>Scope: LEA-wide</p>	<p>school year. Early intervention can include academic support plans, social-emotional resources, and other targeted interventions that can be implemented before problems escalate.</p> <p>Building Strong Relationships: Personalized meetings help build strong relationships between students, teachers, and counselors. These relationships are crucial for creating a supportive school environment where students feel valued and understood. Strong relationships can lead to increased trust and better communication throughout the school year.</p> <p>Setting Goals and Expectations: Summer conferencing allows students to set academic and personal goals for the upcoming school year. By discussing these goals with educators, students can develop a clear understanding of expectations and create a roadmap for achieving them. This goal-setting process can increase motivation and focus.</p> <p>Enhancing College and Career Readiness: Personalized meetings can focus on college and career readiness, providing unduplicated students with information and resources related to postsecondary education and career planning. This is particularly important for students who may not have access to these resources at home.</p> <p>Providing Social-Emotional Support: Many unduplicated students face social and emotional challenges that can impact their academic performance. Summer conferencing provides a platform to address these issues and connect</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>students with necessary resources, such as counseling or mental health services, before the school year begins.</p> <p>Tailoring Academic Plans: Every student has unique academic needs and strengths. Personalized meetings allow educators to tailor academic plans to suit individual students, ensuring they receive appropriate coursework, support services, and enrichment opportunities that align with their abilities and interests.</p> <p>Involving Families: Summer conferencing can also involve families in the educational process, helping parents understand their child's academic standing and needs. Engaged parents are better equipped to support their child's education at home, creating a more cohesive support system for the student.</p> <p>Promoting Equity and Inclusion: By providing personalized support and attention, summer conferencing promotes equity and inclusion. It ensures that unduplicated students, who might otherwise be overlooked, receive the necessary resources and interventions to succeed, thereby leveling the playing field.</p> <p>Encouraging Self-Advocacy: Personalized meetings can teach students to advocate for themselves. By discussing their needs, goals, and challenges with educators, students learn to take ownership of their education and communicate effectively about their needs.</p> <p>Reducing Transition Anxiety: Transitioning to a new school year can be stressful for many</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>students, particularly unduplicated students who may face additional challenges. Summer conferencing helps reduce this anxiety by providing a clear plan and support system, making the transition smoother and less daunting.</p> <p>Implementing personalized student meetings during summer conferencing is crucial for the success of unduplicated students in high school. These meetings provide tailored support, early intervention, and relationship-building opportunities that help students start the school year prepared and confident. By addressing academic, social, and emotional needs in a personalized manner, schools can ensure that unduplicated students have the resources and support necessary to thrive.</p>	
<p>6.4</p>	<p>Action: Community Schools</p> <p>Need: Research consistently shows that strong parent and community partnerships contribute to improved academic achievement, attendance, behavior, and overall student success. By expanding Helix as a community support center, we can provide students with the support they need to thrive academically, socially, and emotionally. Engaging parents and community members as partners in education empowers them to play an active role in shaping the school environment and supporting student learning. By fostering meaningful engagement opportunities, we can harness the collective expertise, resources,</p>	<p>Students in unduplicated student groups benefit significantly from a school that implements Community Schools supports in high school. Community Schools provide an integrated approach to education, offering a range of services and resources that address the holistic needs of students and their families. Here are the key reasons why these supports are essential:</p> <p>Addressing Barriers to Learning: Unduplicated students often face various barriers to learning, including poverty, health issues, and lack of access to basic needs. Community Schools offer wraparound services such as healthcare, mental health counseling, and access to nutritious food, which help mitigate these barriers and create a stable environment conducive to learning.</p>	<p>Participation in Events</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>and energy of our community to enrich the educational experience for all. Building strong parent and community partnerships is essential for promoting equity and inclusion within our school community. By actively involving diverse voices and perspectives, we can better understand and address the unique needs and challenges faced by different families, ensuring that all students have access to the support and resources they need to succeed.</p> <p>Helix has the potential to serve as more than just an educational institution; it can also serve as a hub of support and resources for the broader community. By expanding our partnerships and services, we can address the holistic needs of families, promoting community wellbeing and resilience. In summary, maintaining parent and community partnerships and expanding Helix as a community support center is essential for enhancing student success, empowering families, promoting equity and inclusion, fostering community well-being, and ensuring the long-term sustainability of our school. This goal reflects our commitment to collaboration, empowerment, and collective impact in service of our students and the broader community.</p> <p>Scope: LEA-wide</p>	<p>Providing Comprehensive Support Services: Community Schools integrate academic support with essential services, such as tutoring, afterschool programs, and mentoring. These services are tailored to meet the diverse needs of unduplicated students, ensuring they receive the comprehensive support necessary to succeed academically and personally.</p> <p>Enhancing Family and Community Engagement: Community Schools actively engage families and the broader community in the educational process. They offer programs and resources that help parents support their children's education, such as parent workshops, family literacy programs, and community resource centers. This engagement fosters a strong support network for students.</p> <p>Promoting Equity and Inclusion: By providing equitable access to resources and opportunities, Community Schools help level the playing field for unduplicated students. They ensure that all students, regardless of their socioeconomic background, have access to high-quality education and the support needed to achieve their full potential.</p> <p>Creating a Positive School Climate: Community Schools foster a positive and inclusive school climate by promoting a sense of belonging and community. They implement restorative practices, peer mentoring, and leadership programs that empower students and create a supportive and respectful school environment.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>Building Strong Community Partnerships: Community Schools leverage partnerships with local organizations, businesses, and agencies to provide a wide range of services and resources. These partnerships enhance the school's ability to address the comprehensive needs of students and their families, creating a stronger and more resilient community.</p> <p>Encouraging Civic Engagement and Leadership: Community Schools encourage civic engagement and leadership by involving students in community service projects and leadership development programs. These opportunities help students build a sense of agency and responsibility, preparing them to be active and engaged members of their communities.</p> <p>Providing Holistic Education: Community Schools focus on the holistic development of students, addressing not only their academic needs but also their physical, emotional, and social well-being. This comprehensive approach ensures that students are well-rounded and prepared to succeed in all aspects of their lives.</p> <p>Implementing Community Schools supports in high school is crucial for the success of unduplicated students. 2.2	<p>Action: English Learner Program</p> <p>Need: At Helix, we believe that equitable access to high-quality education and resources is essential for improving academic outcomes for all students. Our commitment to innovative and culturally responsive teaching practices aims to enhance student engagement and motivation. We recognize that effective collaboration with families and community organizations creates a supportive network for our students. By focusing on equity and data-driven instruction, we can significantly reduce achievement gaps among different student groups.</p> <p>Our dedication to equity and inclusion fosters a school culture where every student feels valued and supported. By prioritizing equity, encouraging collaboration, and embracing innovative practices, we are committed to</p>	<p>Students in unduplicated student groups benefit significantly from a school that implements an English Learner (EL) Program in high school for several important reasons:</p> <p>Academic Support for Language Development: Many unduplicated students are English Language Learners (ELLs) who may need additional support to develop proficiency in English. An EL Program provides targeted instruction in English language skills, including speaking, listening, reading, and writing. This support is crucial for academic success across all subjects.</p> <p>Access to Content Instruction: EL Programs ensure that ELLs have access to grade-level content instruction that is comprehensible and scaffolded to support language acquisition. This allows students to engage meaningfully in classroom activities, understand academic content, and participate actively in discussions and assignments.</p>	<p>English Learner **Progress **Reclassification</p>

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	<p>closing the achievement gap and ensuring that every student has the opportunity to succeed and thrive.</p> <p>Scope: Limited to Unduplicated Student Group(s)</p>	<p>Fostering Language Fluency: Consistent exposure to English through an EL Program helps unduplicated students build fluency in the language. As they progress through the program, students develop proficiency levels that enable them to effectively communicate and comprehend academic and social language in various contexts.</p> <p>Promoting Cultural Understanding and Inclusivity: An EL Program celebrates linguistic and cultural diversity, fostering an inclusive school environment where all students feel valued and respected. By acknowledging and respecting students' linguistic backgrounds, the program promotes cultural understanding among peers and educators.</p> <p>Supporting Transition and Adjustment: Many unduplicated students, especially newcomers and recent immigrants, face challenges related to adjusting to a new educational system, language, and cultural norms. An EL Program provides support and resources to ease this transition, helping students acclimate to their new school environment and feel more comfortable and confident.</p> <p>Tailoring Instruction to Individual Needs: EL Programs offer differentiated instruction tailored to the individual needs of ELLs. Educators use strategies such as small-group instruction, language accommodations, visual aids, and technology to address diverse learning styles and language proficiency levels, ensuring that all students can succeed academically.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
		<p>Preparing for College and Career Readiness: Proficiency in English is essential for success in higher education and the workforce. An EL Program prepares unduplicated students for college and career readiness by strengthening their English language skills, academic vocabulary, and critical thinking abilities necessary for academic achievement and future endeavors.</p> <p>Engaging Families in the Education Process: EL Programs involve families in their child's education by providing resources, workshops, and support in multiple languages. Engaged parents can better support their child's learning at home, reinforcing language development and academic progress in partnership with educators.</p> <p>Building Confidence and Self-Efficacy: Through an EL Program, unduplicated students gain confidence in their ability to communicate effectively in English and participate actively in academic and social settings. This increased self-efficacy enhances students' overall academic motivation and engagement.</p> <p>Addressing Equity and Access: An EL Program promotes equity by ensuring that all unduplicated students, regardless of their language background or proficiency level, have equitable access to educational opportunities and resources. It supports their academic growth and empowers them to achieve their full potential.</p> <p>Supporting Multilingualism and Global Competence: An EL Program values and supports multilingualism as an asset. It prepares</p>	

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
		<p>unduplicated students to become global citizens who can navigate multicultural contexts, appreciate diverse perspectives, and contribute to a globalized society through their linguistic and cultural competencies.</p> <p>Implementing an English Learner Program in high school is essential for supporting the academic, linguistic, and socio-emotional needs of unduplicated students who are English Language Learners. The program ensures that these students receive the necessary support, resources, and opportunities to achieve academic success, develop proficiency in English, and prepare for future educational and career pathways in an inclusive and supportive school environment.</p>	

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

With the additional \$509,893 Concentration Grant Funding, targeted for unduplicated students, Helix plans to implement a series of programs and staffing enhancements to support academic success and well-being. Here's a detailed breakdown of how the funds can be allocated and the expected impact of each initiative:

1. Assistant Manager of Academic Support Program

Objective: To support incoming 9th grade students in their transition to high school, ensuring they have the academic and social skills needed to succeed.

Funding Allocation: Salary and benefits for the Assistant Manager. Program resources and materials for academic support activities.

Expected Impact:

- Improved academic performance and engagement among 9th graders.
- Smooth transition to high school, reducing dropout rates and increasing retention.
- Enhanced early identification and support for at-risk students.

2. Continued Addition of Wellness Center Staffing

Objective: To provide comprehensive mental health and wellness support to all students, addressing emotional, social, and psychological needs.

Funding Allocation: Salaries and benefits for additional wellness center staff.

Expected Impact:

- Improved student mental health and well-being.
- Increased access to counseling and support services.
- Better coping mechanisms and reduced incidents of behavioral issues.

3. The DEN – Before and After School Academic Enrichment and Support

Objective: To offer academic enrichment and support outside of regular school hours, providing a safe and productive environment for learning.

Funding Allocation: Staffing for the DEN (teachers, tutors, supervisors). Materials and resources for academic enrichment activities.

Expected Impact:

- Enhanced academic performance through additional learning opportunities.
- Increased student engagement and reduced achievement gaps.
- Safe and supportive environment for students during critical hours.

4. Designated English Language Development (DELD) Course for Redesignated English Learners and Long Term ELs

Objective: To provide focused instruction on state-adopted ELD standards to help English Learners develop critical English language skills necessary for academic content learning in English.

Funding Allocation: Salary for a Teacher on Special Assignment (TOSA) to instruct the DELD course. Curriculum materials and resources for DELD instruction.

Expected Impact:

- Improved English proficiency among English Learners.
- Higher academic achievement as language skills improve.
- Better integration of English Learners into the general curriculum.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		1:26
Staff-to-student ratio of certificated staff providing direct services to students		1:23

Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statutes of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of EC Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
 - If the LEA has unexpended LREBG funds the LEA must provide the following:
 - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
 - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
 - An explanation of how the action is aligned with the allowable uses of funds identified in [EC Section 32526\(c\)\(2\)](#); and
 - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by [EC Section 32526\(d\)](#).
 - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the [LREBG Program Information](#) web page.
 - Actions may be grouped together for purposes of these explanations.
 - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
 - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by EC Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: [EC Section 52060\(g\)](#) and [EC Section 52066\(g\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: [EC Section 47606.5\(d\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062](#);
 - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see [Education Code Section 52068](#); and
- For charter schools, see [Education Code Section 47606.5](#).

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
 - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
 - Inclusion of metrics other than the statutorily required metrics
 - Determination of the target outcome on one or more metrics
 - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
 - Inclusion of action(s) or a group of actions
 - Elimination of action(s) or group of actions
 - Changes to the level of proposed expenditures for one or more actions
 - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
 - Analysis of effectiveness of the specific actions to achieve the goal
 - Analysis of material differences in expenditures
 - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
 - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
 - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
 - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
 - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
 - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: [EC Section 42238.024\(b\)\(1\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
 - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
 - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds:** To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
 - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #
<ul style="list-style-type: none"> • Enter the metric number.
Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
 - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
 - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
 - Indicate the school year to which the baseline data applies.
 - The baseline data must remain unchanged throughout the three-year LCAP.
 - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
 - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 . Leave blank until then.	Enter information in this box when completing the LCAP for 2026–27 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 and 2026–27 . Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
 - Include a discussion of relevant challenges and successes experienced with the implementation process.
 - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
 - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
 - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
 - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
 - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
 - Professional development for teachers.
 - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
 - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
 - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
 - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to [EC Section 32526\(d\)](#). For information related to the required needs assessment please see the Program Information tab on the [LREBG](#)

[Program Information](#) web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the [California Statewide System of Support LREBG Resources](#) web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in [EC Section 32526\(c\)\(2\)](#).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
 - Identify the action as an LREBG action;
 - Include an explanation of how research supports the selected action;
 - Identify the metric(s) being used to monitor the impact of the action; and
 - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 CCR Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA’s percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA’s needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
 - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA’s current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
 - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
 - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
 - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
November 2024
