Periodic compliance inspections	-	NC
Compliance re-inspections	-	\$100

Violations

Installation violations	-	\$150
Operational violations	-	\$100

Billing and Payment:

The fees for registrations and permits will be due at time of application. Fees for re-compliance reviews and re-inspections will be due and payable within 30-days of the date of issue. One and on-half (1-1/2%) percent interest will be applied pro-rated monthly to the unpaid balance of all bills outstanding beyond the 30 days and are subject to be secured by sewer user liens.

Fines and penalties will be due and payable within 30-days of the date of issue. One and on-half (1-1/2%) percent interest will be applied pro-rated monthly to the unpaid balance of all bills outstanding beyond the 30 days and are subject to be secured by sewer user liens.

Enforcement:

Every establishment and or user violating any provision of the regulations or refusing to comply with any order made hereunder within 10 days after notice of violation shall be subject to fines and/or penalties as established by the WPCA.

Each occurrence of a violation and each such month that such violation shall continue, shall constitute a separate violation and shall be subject to a separate penalty.

Notwithstanding the foregoing, the WPCA may defer all or part of fines or penalties for good cause shown.

FOG Discharge, Sewer Stoppages and Maintenance cost:

Fees, fines and penalties are in addition to all expenses incurred by the WPCA resulting from the failure of an Establishment or user complying with the regulations. The expenses may include, but are not limited to, the cost of services of the WPCA employees or contractors for work and or inspections necessary to relieve resulting damage to any other effected properties.

In the event the collection system needs to be cleaned due to FOG discharged by an Establishment or user, the Establishment or user shall pay to the WPCA the expense incurred to clean the sewer or appurtenance therefore.

Appeal:

In the event any establishment and or user believes a fee, fine or penalty imposed under the FOG regulations by the WPCA Inspectors or Administrator was not properly made or that there is good cause to not impose the fee, fine or penalty the amount imposed should be modified. Then the person or entity against which the fee, fine or penalty was imposed may apply to the WPCA for relief provided a written application setting forth the facts is filed in the office of the WPCA Administration before the fee, fine or penalty becomes delinquent and subject to interest.

A decision of the WPCA upon such an appeal is a final decision from which any appeal must be taken pursuant to Connecticut General Statutes Section 7-255.
