

## **GAC: Values/Citizenship Education**

The Divide County School Board believes that the American public education system is a critical part of the means by which we transmit our ideals and beliefs to our children. It will be the goal of this school district to ensure that the values enunciated in the Bill of Rights, the Constitution and the many laws protecting human worth and dignity are understood and accepted by those who will lead and support our nation in the future.

It is the intention of the School Board that faculty and other staff will conduct themselves in such a way as to impart the mutual values of the community. These include honesty, courtesy, responsibility, respect for parents and the home, the dignity and necessity of honest labor, respect for others and obedience to law.

Every student shall receive instruction in the democratic principles of freedom, justice and equality; proper use and display of the national flag; the method for casting and counting votes; the Pledge of Allegiance; the National Anthem, the Constitution of North Dakota.
