

## **GBFB: School Libraries**

The library media center is for students, faculty, staff, school board and the community. It is meant to be both a relaxing and stimulating place.

When a student has the privilege to check a book out from the Divide County School Public library, that student has the responsibility to return it. If a book cannot be returned due to an accident or a loss, that responsibility must be assumed by paying for the book.

Teachers are encouraged to make requests for specific materials for the library orally or in writing.
