

## **ICA: Bus Scheduling & Routing**

The Superintendent shall secure descriptions or maps of district school bus routes and schedules for Board Committee approval. Approved description and maps may be distributed to parents of students eligible for school bus transportation.

Bus routes shall be established through the District to best accommodate the majority of eligible students.

Children shall not be put off the bus until reaching their destination. Children shall be transported to the designated bus routes site only.

In-city bus routing has been established to pick up and drop students within the city limits.

Extra-curricular busing exists to transport students to school sponsored events. It is the procedure for the staff member to determine their transportation needs and submit same to the bus supervisor who prepares bus drivers and units for departure.
