Career Outlook

Nursing Services is designed to prepare students to pursue careers in the field of nursing. Upon completion of this program, a proficient student will be able to implement communication and interpersonal skills, maintain residents' rights and independence, provide care safely, prevent emergency situations, prevent infection through infection control, and perform the skills required of a nursing assistant. Careers in the field of nursing do vary from a Nursing assistant to a Nurse Practitioner. All healthcare workers are needed in our area as we do have a high concentration of healthcare facilities compared to the rest of the nation.
