College & Career Military Readiness

Coldspring-Oakhurst High School's CCMR ONE PAGER

Overview of CCMR

College, Career, and Military Readiness (CCMR) is a component of the Student Achievement domain in Texas that evaluates how prepared graduates are for college, the military, or the workforce. CCMR is used to help determine a school district's annual accountability rating, and it plays a role in all domains for high school and district ratings. COCISD expects all graduates to demonstrate college, career or military readiness.

Earn Workforce Readiness through Completed Individualized Education Program (IEP)	• A graduate receiving a graduation type code of 04, 05, 54, or 55, which indicates the student has completed his/her IEP and has either demonstrated self-employment with self-help skills to maintain employment or has demonstrated mastery of specific employability and self-help skills that do not require public school services.

Why is CCMR Important?

The Texas Higher Education Board has a goal that by 2030, 60% of young adults will have a certificate or degree. This 60x30TX Plan is designed to ensure that a competitive and prosperous future remains for students seeking to better their lives and the lives of their families.

Regardless if a student wishes to pursue college, a career, or serve in the military, the programs and curriculum that relate to CCMR allow students to develop essential readiness skills and improve their chances for postsecondary success.

There are additional benefits to meeting certain CCMR indicators, such as demonstrating college-readiness on the TSIA-2 assessment, SAT, ACT, or by successfully completing and earning credit for college prep* courses. This college-ready indicator allows students to enroll in college level courses following high school graduation instead of taking remedial reading or math courses. *College Prep TSI Exemption only at participating colleges
