

Updating Samsung Board

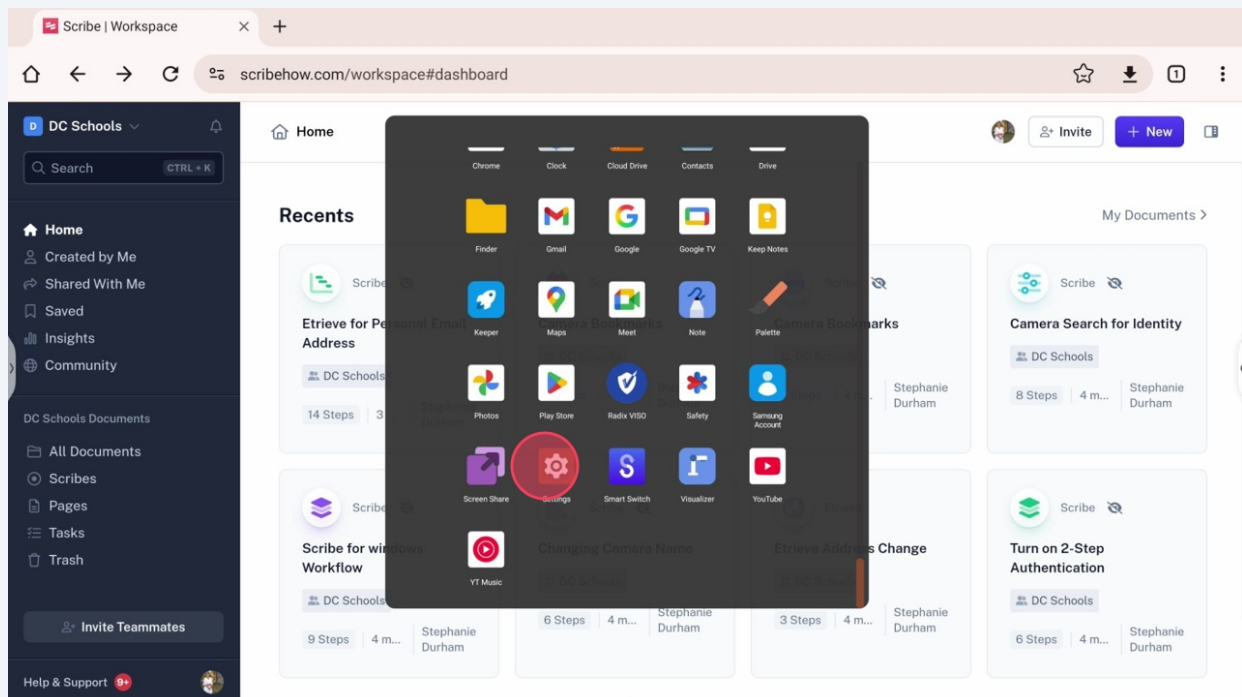

1

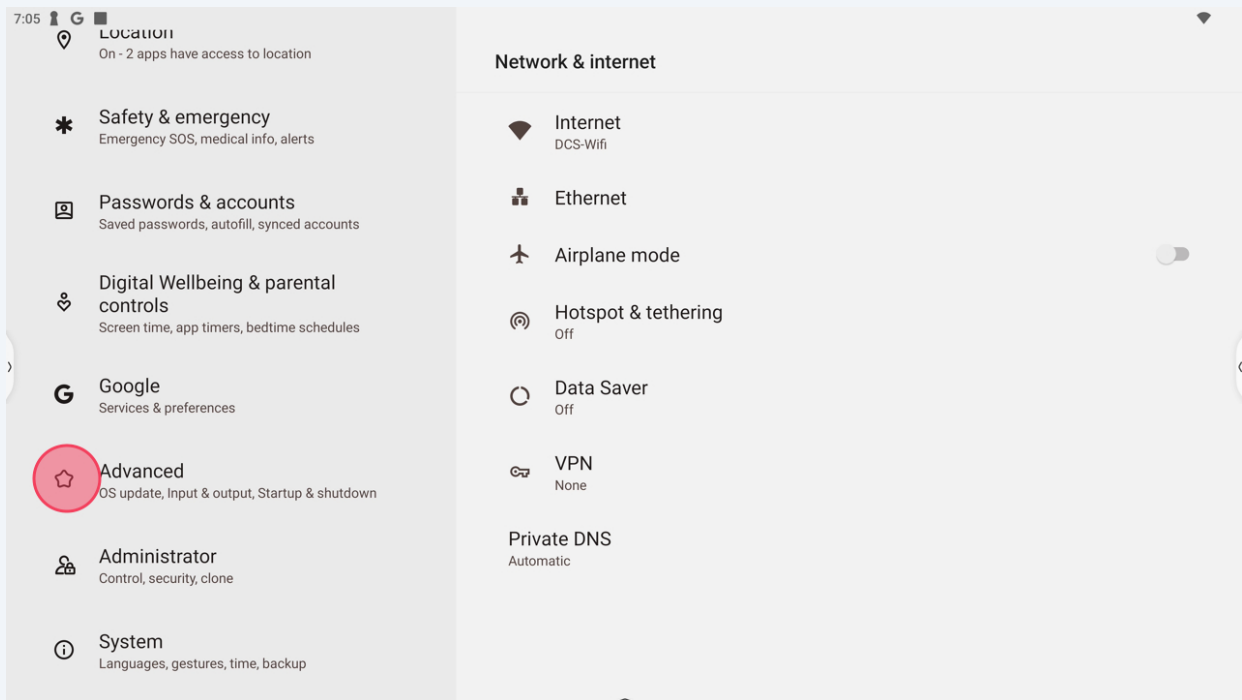

This step must be completed while logged in as the owner. To get to the owner account, swipe down from the top of the board (like a cell phone). Choose the user. At this point you should be able to login as owner. If you get a message saying that **"Child users cannot perform OTA updates, please switch to the main user to operate"** you are not logged in as the owner.

2

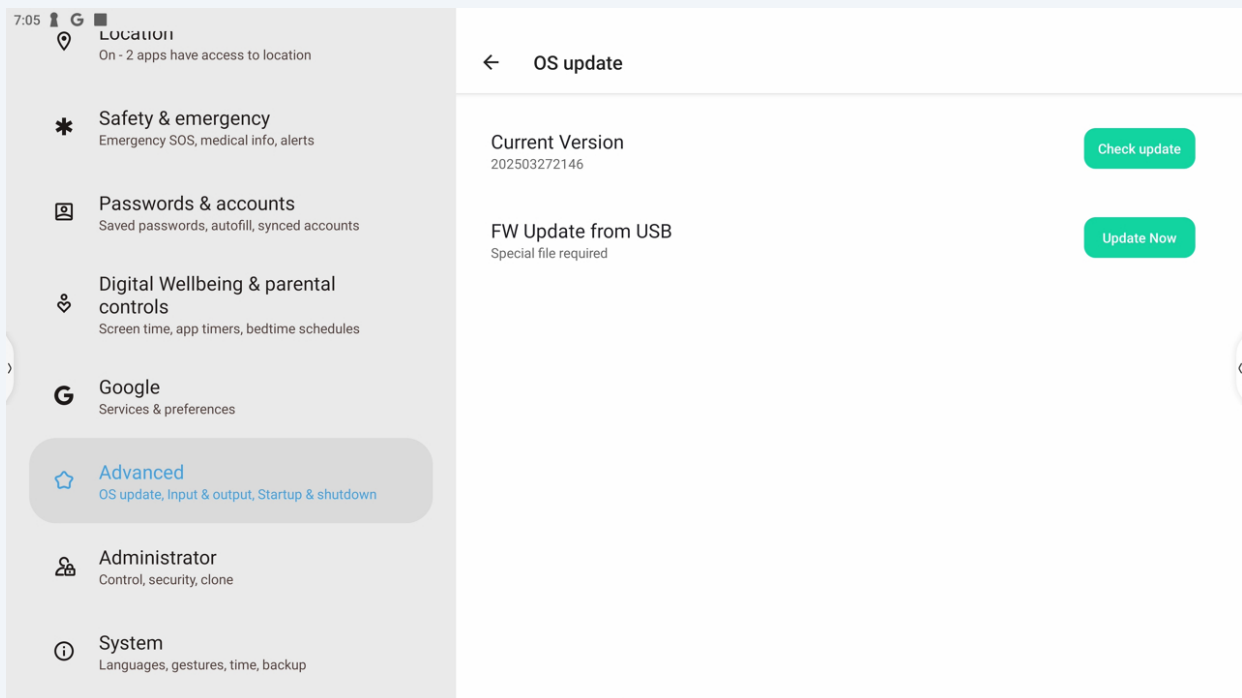

Go to All Apps from the menu and choose Settings

3 Choose Advanced

4 Choose Check version

5

If you need to update, update would show here

Once you have updated, you will need to log back in as yourself.
