TEAM FORMATION GUIDELINES

School children attend - Teams are formed with children from the same school first. In the absence of a coach, or not enough kids from a school, those players will be combined with players from the closest school possible. In the 5-6 Grade House league, 6th graders are divided as evenly as possible for competitive parity; however, they will be placed with another player from their school.

Balance of total team numbers - We strive to keep the total team numbers as close to even as possible across each league. Although 8-10 players on a team is optimal for the various leagues, teams can have up to 12 players on a team. In this case, games will have additional play time added to allow each player court time. With leagues that include three or more grades, we strive to have parity among teams with the oldest grade players.

****If a player is unable to attend a certain practice night (chosen by the volunteer coach), we will attempt to move the player to another night if team numbers allow. At a minimum, we will add the player to the waitlist to see if further openings develop. If nothing becomes available, a refund will be processed (minus the $10 drop fee).****

Availability of a volunteer coach - Volunteer coaches are a vital part of our program. There are seasons where we have more teams than coaches. If this occurs and we will have two or more volunteers at the same school and may split a school to have coaches for all teams. This would only occur when there are a sufficient number of players to keep the number of school teammates at three on each squad. In the event of a "no coach" team, we will look to parents to help. If there is no parent commitment, we may be forced to cancel the team and issue a refund.

Late Registration - Players registering after the registration deadline has passed, will only be placed on a team if numbers permit. Jerseys/shirts are NOT guaranteed for late registrations.

SELF DEFENSE FOR CHILDREN

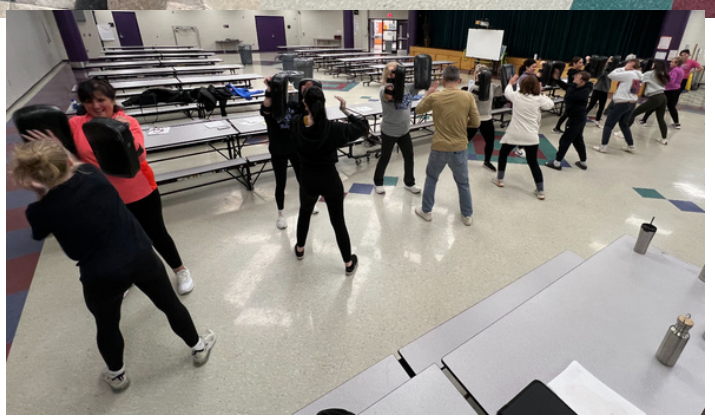

If someone wants to hurt our children, they will not choose a time or a place with witnesses. That means no parents, no teachers, no policemen, just our children and the predator. The safety of our children will depend on their ability to recognize a threat and respond effectively. This fun, interactive and age appropriate workshop teaches essential, lifesaving information about the threats facing our children, strategies for prevention and real-world techniques designed to reduce their risk of abductions, assaults and other forms of violence. But most of all, these programs teach students that they have the right to be safe, that no one has the right to hurt them, and that they are worth protecting.
