

STUDENT DEVICE EXPECTATIONS

Your student device is a vital learning tool, please follow these rules to keep your device in good working condition.

Care and Maintenance

- The student is responsible for the care of his/her device at all times. The device should not be left unattended unless it is in a secure location.
- Students may not remove, alter, or change any part of the device including removing or adding software/apps.
- Students should not deface the device or accessories in any way. This includes applying stickers to the device, writing names or drawing pictures, etc.
- Laptops are to be closed when moved about the building and papers or other items are not to be stored inside the laptop.
- Liquids can severely damage a laptop and lead to costly repairs. Open cans or bottles are particularly risky. Avoid placing any liquid bottles, even sealed ones, in a backpack with a laptop.
- Laptops should be shut down, correctly, at the end of each day and returned to their assigned location for recharging unless other arrangements are made with a teacher or administrator.

Responsible Usage

- Each student is assigned a device to use and should not use anyone else's assigned device.
- Students should NOT share their personal login information with anyone.
- Students should report any problems with their device to their teacher as soon as reasonably possible.

Student school technology, including device, chargers, accounts (to include email accounts) are the property of Pamlico County Schools. If the assigned device is lost, damaged, or stolen, the student's parent/ guardian is responsible for the repair/ replacement cost.
