CALENDAR GUIDE 2025 - 2026

All of the following days are Instructional Days and attendance will be taken:

What are Virtual Days?

Virtual Days are instructional days that students work on projects from home. They are required to check-in with their Advisor daily and submit assignments.

What are Semester Launch and Onboarding Days?

These are days at the beginning of the semester where students are able to get oriented or re-oriented to being back at school. School norms and expectations will be discussed and relationship-building activities will be hosted. This is also where teachers have engaging launch events for the projects that the students will be working on for the semester. During this time, students will also be enrolling for dual credit, internships and service learning opportunities.

What are Community Based Learning Days?

These are days that students will participate in events within their community and are an instructional day. Instructions will be provided by the student's Advisor.

What is Social Emotional Based Learning or Work Based Learning Day?

Students will be able to choose one of two: a day to focus on Social Emotional Learning and mental health, or do a day of service at a community organization of their choice. This is an instructional day. Instructions will be provided by the student's Advisor.

What are testing days?

These are the various required days to conduct testing, your student will get more information about what testing they are required to do closer to that date. Tentative dates (subject to change):

IReady - 8/26/25, 1/27/25, 5/4/25; ***PSAT*** - 10/30/25; ***SAT*** - 3/12/25; ***WIDA*** - 2/11/25; ***ASSR*** - 4/8/25

What are Reflections of Learning?

This is a week for students to be able to work closely with their Advisor and Project Teacher to assess and reflect on what they have learned for the first part of the semester and create goals on how to be successful for the rest of the semester. This is also a time for students to work on their portfolio in preparation for Family Meetings the following week.

What are Celebrations of Learning?

Celebrations of Learning is a beautiful event where students are able to showcase their projects at the end of the semester. Families, Community Partners and other Stakeholders are more than welcome to attend and support.

What are Family Engagement and Community Engagement Weeks?

Family and Community Engagement week consists of Student-Led Conferences where families meet with their Student's Advisor to discuss their student's progress, needs and goals. There will be community-lead workshops hosted at the school, virtual and in-person, that students will be attending when they are not participating in their Student-Led Conference. Community resources will also be available.

What is Interim School?

These are days set aside for students to meet with their Project Teachers to get additional work completed in order to be able to earn their credits.
