

Flora Vista Traffic & Parking Safety

Dear FV Families,

Here is some critical information to keep the drop-off and pick-up flow moving safely. The primary thing to keep in mind is to pull all the way forward. ***Getting out of your car or stopping near the K/1 gate creates major safety issues by backing up traffic into the street and/or requiring other cars to cut in and out from the curb.***

Morning drop-off:

- Please pull forward as far as possible towards the **end** of the **yellow drop-off zone**.
- Students should be completely ready to get out, on the curb side of the car. Parents/guardians need to **remain in the car**. *If you or your child(ren) need extra time, or if you want to watch them all the way to the gate, please park in a marked space or on the street (plenty of spaces).*
- Students may only be dropped off at the curb, not the “through” lane.

Afternoon pick-up:

- Students may only be picked up at the curb, not the “through” lane.
- Please pull forward. If the cars in front of you move up, please move up also.
- *If you are concerned with being blocked in, please find a place to park and walk in.*
- We ask that you be patient and courteous, and to also turn off your car while waiting.

Bike safety:

- All bikers should walk their bikes on campus, including on the sidewalk that runs in front of the building and on the grassy courtyard by the upper grade gate.

Thank you for keeping our community safe!

Arlene Oyagi, Principal
