Matthew Quick, Superintendent Debra Sicking, Elementary Principal Dr. John Underwood, JH/HS Principal

Parents and Guardians,

Muenster ISD is committed to educating our students to become informed, responsible users of technology. We actively monitor all websites, programs, and tools used within our district to ensure compliance with the federal **Children's Online Privacy Protection Act (COPPA)** and the Texas **Securing Children Online through Parental Empowerment (SCOPE)** law, helping to keep your child safe online.

At Muenster ISD, we use **Google Workspace for Education**, which provides students with access to a suite of productivity tools, including Calendar, Docs, Slides, and more. These applications are used by tens of millions of students and educators worldwide. Our students use their Google accounts to complete assignments, communicate with teachers, sign into Chromebooks, and develop essential 21st-century digital citizenship skills. In order to create these accounts, Muenster ISD may need to provide Google with limited personal information about your child, such as their name and login information.

We also recognize that Artificial Intelligence (AI) is rapidly becoming a part of everyday life, influencing everything from the way we search for information to how businesses operate. By introducing students to AI tools in an educational setting, we aim to help them build valuable skills such as critical thinking, problem-solving, and digital literacy. **At Muenster ISD, all student interaction with AI tools will only occur under teacher supervision, will involve age-appropriate content, and will promote the responsible and ethical use of AI.**

By signing this form, I acknowledge that I have read and understood the **Student Use of Digital Programs Agreement** <https://www.muensterisd.net/departments/technology>, which explains that Google will collect, use, and disclose only the minimum necessary student information for educational purposes as outlined in the agreement. I also acknowledge that student use of AI tools will only take place under teacher supervision at Muenster ISD.

I hereby give permission for Muenster ISD to create, maintain, and monitor a Google Workspace for Education account for my child and for Google to collect, use, and disclose the minimum amount of information necessary for the educational purposes described in the Student Use of Digital Programs Policy. I also give permission for my child to learn about and interact with MISD approved AI tools, as listed in the Student Use of Digital Programs Policy, under teacher supervision.

Thank you,

Matthew Quick, Muenster ISD Superintendent
