

Scope

The School District's Acceptable Use Policy applies to all authorized users as defined below who access the School District's network or equipment using district- owned or personally-owned equipment, including wireless devices.

When an individual uses or accesses the School District's computer hardware (including but not limited to desktop computers, tablets, laptops and printers for example Chromebooks), computer software/applications, computer systems and/or computer networks (including the internet and wireless networks), telephone equipment, cellular phones/watches, copy machines, and/or facsimile machines (hereinafter the "School District's computer resources"), he/she assumes certain responsibilities and obligations. Access to the School District's computer resources is subject to federal, state, and local law, as well as Board of Education policy.

For purposes of this Policy, the definition of public social media networks or Social Networking Sites (SNS) are defined to include: websites, Web logs (blogs), wikis, social networks, online forums, virtual worlds, video sites, and any other social media generally available to the School District community which do not fall within the School District's electronic technology network (e.g., Facebook, MySpace, Twitter, LinkedIn, Flickr, Vine, Instagram, SnapChat, TikTok, Discord, BeReal, WeChat, WhatsApp, blog sites, or any other social media platforms). Employees are required to maintain the highest level of professionalism when communicating in their professional capacity as educators. Employees have a responsibility to address inappropriate behavior or activity on these networks, including compliance with all applicable School District policies and regulations.

"Internet-enabled devices" shall mean and include any smartphone, tablet, smartwatch, or other device capable of connecting to the internet and enabling the user to access content on the internet, including social media applications; provided, however, that "internet-enabled devices" shall not include:

(i) non-internet-enabled devices such as cellular phones or other communication devices not capable of connecting to the internet or enabling the user to access content on the internet; or

(ii) internet-enabled devices supplied by the school district, charter school, or board of cooperative educational services that are used for an educational purpose.

For purposes of this Policy, "school day" is defined as the entirety of the instructional day, during all instructional and non-instructional time, including but not limited to homeroom periods, lunch, recess, study halls, and passing time.

For purposes of this Policy, "school grounds" is defined as in or on or within any building, structure, athletic playing field, playground, or land contained within the real property boundary

lines of the School District's schools.

Purpose

1. The School District's computer resources are provided to support the educational and administrative activities of the School District and should be used for those purposes. Use is a privilege, not a right. Incidental personal use of the School District's computer resources must not interfere with the School District community member's performance, the School District community's ability to use the resources for professional and academic purposes nor violate other School District policies or standards of professional behavior.
2. Use should always be legal, ethical, and consistent with the School District's policies on honesty and integrity and its general standards for community behavior.

Authorized Use

1. Authorized users include members of the Board of Education, administrators, supervisors, faculty, staff, students, parent/person in parental relation, and any other person who has been granted access to the School District's computer resources. Unauthorized use is strictly prohibited. By utilizing the School District's computer resources or personally-owned equipment, the user consents to the School District's exercise of its authority and rights as set forth in this Policy with respect to the School District's computer resources, as well as with respect to any information or communication stored or transmitted over the School District's computer resources.
2. Faculty, staff members, and students (where applicable) may be provided with e-mail accounts and Internet access.
3. Whenever a user ceases being a member of the School District community or if such user is assigned a new position and/or responsibilities, use of the School District's computer resources for which he or she is not authorized in his or her new position or circumstances shall cease and property returned. When a School District employee separates from service from the School District, access to all School District accounts, including email, will be disabled.
4. All School District business being conducted electronically must be performed with a School District account or service. Employees should not use private email accounts. There is no expectation of privacy when utilizing School District email.

Privacy Expectations

1. The School District's computer resources, including all telephone and data lines, are the property of the School District. The School District reserves the right to access, view or monitor any information or communication stored on or transmitted over the network, or on or over equipment that has been used to access the School District's network and it

may be required by law to allow third parties to do so. Electronic data, e.g., may become evidence in legal proceedings. In addition, others may inadvertently view messages or data as a result of routine systems maintenance and monitoring or mis-delivery.

2. Users must recognize that there is no guarantee of privacy associated with their use of School District computer resources. Users should not expect that e-mail, voice mail or other information created with or maintained in the School District's computer resources (including the use of Google Drive or a similar application and even those marked "personal" or "confidential") are private, confidential, or secure. Email used for School District purposes may be subject to disclosure required by law, including pursuant to FOIL.

Responsible Use

1. All users must not act in ways that invade the privacy of others, are unethical or fail to comply with all legal restrictions regarding the use of electronic data. All users must also recognize and not violate the intellectual property rights of others.
2. All users must maintain the confidentiality of student information in compliance with federal and state law including, but not limited to, FERPA, HIPAA, and Education Law, section 2-d.
3. Disclosing and/or gossiping (including but not limited to via e-mail, voice mail, Internet instant messaging, social media, chat rooms or on other types of Web pages) about confidential or proprietary information related to the School District is prohibited.
4. All users must refrain from acts that waste School District computer resources or prevent others from using them. Users will not access, modify, or delete others' files or system settings without express permission. Tampering of any kind is strictly forbidden. Deliberate attempts to tamper with, circumvent filtering or access, or degrade the performance of the School District's computer resources or to deprive authorized users of access to or use of such resources are prohibited.
5. Students may not send unauthorized broadcast e-mail, mass emails, or broadcast voice mail.
6. Users are responsible for both the content and possible effects of their messages on the network. Prohibited activity includes, but is not limited to, creating or propagating viruses, material in any form (text, sound, pictures, or video) that reflects adversely on the School District, "chain letters" (which proffer incentives to relay them to others), inappropriate messages (including illegal, offensive, harassing, intimidating, discriminatory, sexually explicit or graphic, pornographic, obscene, or which constitute sexting, bullying, cyberbullying, or harassing material, or are otherwise inconsistent with the values and general standards for community behavior of the School District), and billable services.

7. Official email communications must be professional, ethical, and meet the standards of other School District publications bearing in mind that the writer is acting as a representative of the School District and in furtherance of the School District's mission.
8. Users are prohibited from using personal links and addresses such as blogs, YouTube videos, etc. in School District email unless used in the furtherance of business of the School District as part of the curriculum of the School District.
9. The School District recognizes the value of teacher and professional staff inquiry, investigation and communication using new technology tools to enhance student learning experiences. The School District also realizes its obligations to teach responsible and safe use of these new technologies.
10. The signature portion of the user's email may not include external links or graphics that are unrelated to the content of the email.
11. Altering electronic communications to hide the identity of the sender or impersonate another person is illegal, considered forgery and is prohibited.
12. Users will abide by all copyright, trademarks, patent, and other laws governing intellectual property. No software may be installed, copied, or accessed online, or used on School District equipment except as permitted by law and approved by the K-12 Coordinator of Instructional and Administrative Technology or his/her designee in accordance with the procedures established for use of software/hardware with the School District's computer resources. All software license provisions must be strictly adhered to.
13. Students are not permitted to record classroom instruction without the express permission of the teacher.
14. The School District fully supports the experimental educational and business use of digital resources including, but not limited to, software, third party applications, websites, web-based programs and/or any applications/resources which require a login/password and has a K-12 Coordinator of Instructional and Administrative Technology to support this purpose. Since the installation of digital resources, other than School District-owned and School District-tested digital resources could damage the School District's computer resources, compromise student data/privacy and/or interfere with others' use, digital resources downloaded from the Internet or obtained elsewhere must be approved by the K-12 Coordinator of Instructional and Administrative Technology or his/her designee. Digital resources may not be accessed online or installed onto any School District-owned or School District-leased computer unless in compliance with the Board of Education's policies concerning purchasing and computer resources. Once digital resources have been approved by K-12 Coordinator of Instructional and Administrative Technology, installation will be scheduled and performed.

Inappropriate Materials

1. The School District prohibits faculty, staff, and students from developing, maintaining, and transmitting pornography in any form at school, including, but not limited to, magazines, posters, videos, electronic files or other electronic materials.
2. Accessing the School District's network or equipment to create, access, download, edit, view, store, send or print materials that are illegal, offensive, harassing, intimidating, discriminatory, sexually explicit, or graphic, pornographic, obscene, or which constitute sexting or cyberbullying or are otherwise inconsistent with the values and general standards for community behavior of the School District is prohibited. The School District will respond to complaints of harassing or discriminatory use of the School District's computer resources in accordance with Policy 0100 (Equal Opportunity), Policy 0110 (Prohibition Against Sexual Harassment) and/or Policy 0115 (Dignity for All Students Act). These provisions are not intended to prohibit an authorized user from carrying out his or her assigned educational, employment or administrative function.

Student Use of Personal Electronic Devices During the School Day

The use of internet enabled devices as defined above by students during the school day anywhere on school grounds is prohibited, unless such use is included in a student's Individualized Educational Plan or 504 Plan.

Students are required to turn off or silence all internet-enabled devices upon arrival to school for the entire school day from the opening bell until dismissal in each school building.

1. At the elementary schools, students are discouraged from bringing internet-enabled devices to school. Any internet-enabled device that is brought to school must be silenced and kept in the classroom in the location designated by the teacher.
2. At the middle school, students are discouraged from bringing internet-enabled devices to school. Any internet-enabled device that is brought to school must be silenced and stored in the student's locker until student dismissal.
3. At the high school, internet-enabled devices must be silenced and stored in student lockers until student dismissal.

The building administration has the discretion to allow students to use internet enabled devices during the school day on school grounds in the following limited instances:

- (i) if authorized by a teacher, principal, or the School District for a specific educational purpose;
- (ii) where necessary for the management of a student's healthcare;
- (iii) in the event of an emergency;
- (iv) for translation services;

-
- (v) on a case-by-case basis, upon review and determination by a school psychologist, school social worker, or school counselor, for a student caregiver who is routinely responsible for the care and wellbeing of a family member; or
 - (vi) where required by law

Parents/persons in parental relation to students shall be permitted to contact students during the school day by leaving a message with the Main Office of the building where the student attends school. Parents/persons in parental relation to students shall receive written notification of the method(s) and phone number for contacting students upon enrollment and annually at the beginning of each school year.

The School District reserves the right to monitor, inspect, and/or confiscate internet enabled devices when the Building Principal or his/her designee has reasonable suspicion that a violation of this policy has occurred.

Staff Use of Internet Enabled Devices/School District Issued Devices

The Board of Education authorizes staff to use internet enabled device(s) and/or school district issued devices as defined above to access the Internet using the School District's computer resources for educational purposes. Individuals connecting to the Internet using the School District's computer resources are required to comply with the School District's Internet Safety Policy, as well as the provisions of this policy. Failure to abide by this policy will result in disciplinary action including, but not limited to, revocation of access to the School District's computer resources.

Use of the School District's Computer Resources

The School District maintains a "public" wireless network, a "private" wireless network, an "instructional" wireless network and a "hard wired" network. The "hard wired" and "private" wireless networks are limited only to district-owned and managed devices. Any attempt to connect an internet-enabled or personal electronic device to either of these networks will be considered a violation of this policy. The "public" wireless network is the sole network that students and faculty may connect to using their personal electronic devices. The School District reserves the right to alter or disable access to the "public" wireless network as it deems necessary without prior notification.

Internet-enabled or personal electronic devices that have the ability to offer wireless access to other devices and personal virtual private networks (VPN) must not be used to provide that functionality to others in any School District building. The use of personal VPN is prohibited. The ability to connect internet-enabled or personal electronic devices to the School District's computer resources is a privilege and not a right.

When internet-enabled or personal electronic devices are used in School District facilities or on the School District's wireless network, the School District reserves the right to:

-
1. make determinations on whether specific uses of the internet-enabled or personal electronic device is consistent with this policy.
 2. log Internet use and monitor storage disk space utilized by such users.
 3. remove or restrict the user's access to the Internet and suspend the right to use the internet-enabled or personal electronic device in School District facilities at any time if it is determined that the user is engaged in unauthorized activity or in violation of Board of Education policy.

In addition, when staff members choose to use their own internet-enabled or personal electronic devices to perform job-related functions, the following will apply:

1. The School District may choose to maintain a list of approved mobile devices and related software applications and utilities. The School District reserves the right to deny any staff member permission to utilize a personal electronic device within the boundaries of the School District. The Superintendent of Schools or his/her designee reserves the right to make these decisions in his/her discretion.
2. Internet-enabled or personal electronic devices connected to the Internet using the School District's computer resources must have updated and secure operating systems and proper forms of anti-virus and anti-malware protection. Staff must not make any attempt to connect devices that are not properly secured.
3. The cost to acquire all internet-enabled or personal electronic devices is the responsibility of the staff member. Services that include a financial cost to the School District, such as phone options or other "apps" are not allowed. The School District does not agree to pay such charges and staff who desire these options must assume all costs incurred for such charges.
4. Internet-enabled or personal electronic devices are not covered by the School District's insurance if lost, stolen or damaged. Loss or damage to any internet-enabled or personal electronic device is solely the responsibility of the staff member. If lost or stolen, the loss should be reported immediately to the K-12 Coordinator of Instructional and Administrative Technology or his/her designee so that appropriate action can be taken to minimize any possible risk to the School District's computer resources and the School District.
5. Staff members shall remain responsible for the maintenance of internet-enabled or personal electronic devices, including maintenance to conform to School District standards. Staff members also assume all responsibility for problem resolution, as well as the use and maintenance of functional, up-to-date anti-virus and anti-malware software and any other protections deemed necessary by the K-12 Coordinator of Instructional and Administrative Technology or his/her designee.

-
6. Staff must also meet any expectations of continuity in formatting of files, etc. when making changes to documents for work purposes (i.e., do not change the format of a file so that the original file is unusable on School District-owned hardware/software).
 7. All internet-enabled or personal electronic devices used with the School District's computer resources are subject to review by the K-12 Coordinator of Instructional and Administrative Technology or his/her designee, or individuals/entities designated by the Superintendent of Schools, if there is reason to suspect that the internet-enabled or personal electronic device is causing a problem to the School District's computer resources.
 8. The use of internet-enabled or personal electronic devices in the course of a staff member's professional responsibilities may result in the equipment and/or certain data maintained on it being subject to review, production and/or disclosure (i.e., in response to a FOIL request, discovery demand or subpoena). Staff members are required to submit any such information or equipment, when requested.
 9. Staff members using a mobile device (personal or School District-owned), are responsible for compliance with all security protocols normally used in the management of School District data on conventional storage infrastructure are also applied on that mobile device. All School District-defined processes for storing, accessing, and backing up data must be used on any device used to access the School District's computer resources.

Further, the School District will not be liable for the loss, damage, theft, or misuse of any personal electronic device(s) brought to school. The School District will bear no responsibility nor provide technical support, troubleshooting, or repair of electronic devices owned by anyone other than the School District. Students and staff are responsible for understanding and inquiring about the use of technology prior to engaging in such use.

School District Social Media Platforms

The Board of Education recognizes that social media platforms may be utilized by staff as "content owners" to engage parents, community members, students, and employees. The School District's social media platforms provide a mechanism to share information with the school community concerning various events, accolades, and accomplishments in the School District. In addition, social media platforms may be used to provide information regarding school news, closures, or information to be shared with the school community.

"Social Media" includes the various online technology tools that enable people to communicate and share information over the Internet. Social media can include text, audio, video, images, and other multimedia communications.

School District presence on any social media site, including School District-related accounts, such as clubs, teams, or other sites associated with the School District or a school in the School District

must be authorized by the Public Information Officer. Any accounts existing prior to this policy's adoption will be subject to review.

For emergency and data collection purposes only, each School District-related site or social media account must name the Public Information Officer as an administrator. However, the content owner shall be responsible for monitoring and maintaining these accounts. The School District's primary, official social media platforms will be managed by the Public Information Officer. Official School District social media accounts will not participate in advertising, nor promote commercial enterprises. School District social media accounts may share relevant community events and updates.

Before posting any student work, photographs/videos, or other personally identifiable information (PII), online or to social media, content creators shall review the child's "Release of Information" status to ensure that the parent/guardian(s) have allowed such content to be published digitally. No student photographs or videos should be published for personal, promotional use or any other non-school related purpose.

Maintenance and Monitoring Responsibilities

Content owners are responsible for monitoring and maintaining official School District social media accounts as follows:

1. Content must conform to all applicable state and federal laws, as well as the Board of Education's policies and the School District's administrative procedures.
2. Content must not violate any copyright or intellectual property laws and the content owner must secure the consent of all involved parties for the right to distribute materials.
3. Confidential information about students, families, staff or School District/Board of Education business and operations (e.g., grades, attendance records, or other pupil/personnel record information) must never be shared.
4. Account administrators must have the profanity filter set to the strongest possible setting on the social media platforms being utilized and hide any inappropriate comments. Postings and comments of an inappropriate nature must be reported and deleted promptly.
5. Postings of a serious nature may warrant additional reporting to the appropriate agency. Such postings include, but are not limited to, threats or inappropriate images.
6. In the event of an emergency/crisis, School District social media platforms shall not be used for providing information or updates concerning the emergency/crisis without the prior written approval of the Superintendent of Schools or his/her designee.

Guidelines for responsible and ethical staff use of social media

1. Work/Personal Distinction – Staff members are encouraged to maintain a clear distinction between their personal social media use and any School District-related social media sites. Personal social media accounts must be kept (other than relatives) separate from work-related accounts.
2. Use of Student Information – Staff members may not send, share, or post pictures, text messages, emails or other material that personally identifies School District students on personal social media pages. Staff members may not use images of students, emails, student examples or work-product, or other personally identifiable student information for personal gain or profit.
3. Professional Conduct – Existing policies and guidelines that cover employee conduct on School District premises and at school-related activities similarly apply to the online environment in those venues.

Confidentiality and Privacy Rights

Individuals must take all reasonable precautions to prevent unauthorized access to accounts or data by others, both inside and outside the School District. Individuals will not leave any devices unattended with confidential information visible. All devices are required to be locked down when an individual steps away from the device, and settings enabled to freeze and lock after a set period of inactivity.

Data files and electronic storage areas shall remain School District property, subject to School District control and inspection. The K-12 Coordinator of Instructional and Administrative Technology or his/her designee may access all such files and communications without prior notice to ensure system integrity and that users are complying with requirements of this policy.

Security

1. Each user is responsible for the security and integrity of information stored on his or her computer or voice mail system. Computer accounts, passwords, security codes and other types of authorization are assigned to individual users and must not be shared with or used by others. The School District, at its sole discretion, reserves the right to bypass such passwords and to access, view or monitor its systems and all of their contents. By accessing the district's system, the individual consents to the School District's right to do so.
2. Removing School District computer resources from the School District's facilities and/or relocating School District computer resources (not including portable technology devices) requires prior authorization from the K-12 Coordinator of Instructional and Administrative Technology or his/her designee.

-
3. Unless approved by the K-12 Coordinator of Instructional and Administrative Technology or his/her designee, modem use is prohibited on computers that are directly connected to the School District network. Personal computer devices may not be connected to the School District's computer resources and may be confiscated.
 4. Storage of copyrighted materials such as music, video and games is prohibited.
 5. Users may not attempt to circumvent or subvert the security provisions of any other system. Without authorization from the K-12 Coordinator of Instructional and Administrative Technology or his/her designee, no one may attach a server to or provide server services on the School District computer resources.

The Internet at the School District

1. There are risks involved with using the Internet. To protect personal safety, Internet users should not give out personal information to others on website, chat rooms or other systems. The School District cannot guarantee that users will not encounter text, pictures or references that are objectionable. Responsible attitudes and appropriate behavior are essential in using this resource. As with e-mail, information that a user places on the Internet is akin to sending a postcard rather than a sealed letter. Its contents may be accessed by system administrators in this School District and elsewhere.
2. Users must be aware that some material circulating on the Internet is copyrighted and subject to all copyright laws. Materials taken from the Internet must be properly cited.
3. Users must be aware that some material circulating on the Internet is illegally distributed. Users must never use the School District's computer resources to download illegally distributed material.
4. Users are cautioned not to open e-mail attachments or download any files from unknown sources in order to avoid damaging School District computers and bringing destructive viruses into the School District's system. Anything questionable should be reported immediately to the K-12 Coordinator of Instructional and Administrative Technology or his/her designee.
5. With permission, students, faculty, and staff may create or modify web pages on the School District web servers. To ensure the integrity of these sites, users must abide by the School District's web practices. It is the user's responsibility to update and maintain all links and content, keeping in mind the Inappropriate Materials section and the copyright requirements.

School District Limitation of Liability

The School District does not warrant in any manner, express or implied, that the functions or the services provided by or through the School District computer resources will be error-free or

without defect. The School District shall not bear any liability for any damage suffered by users including, but not limited to, loss of data or interruption of service. Similarly, the School District shall not bear any liability for financial obligations that arise out of the unauthorized, inappropriate, or illegal use of the School District's computer resources.

Users of the School District's computer resources, including Internet use, do so at their own risk. Each user is responsible for verifying the integrity and authenticity of the information that is used and provided. Further, even though the School District may use technical or manual means to regulate access and information, these methods do not provide a foolproof means of enforcing the provisions of the Board of Education and School District policy and regulations.

Policy Enforcement and Sanctions

1. All members of the School District community are expected to assist in the enforcement of this policy. Persons in violation of this policy are subject to a full range of sanctions, including, but not limited to, the loss of computer, telephone or network access privileges, disciplinary action, monetary damages and/or dismissal/termination from the School District. Some violations may constitute criminal offenses as defined by local, state, and federal laws, and the School District may initiate or assist in the prosecution of any such violations to the full extent of the law.
2. Any suspected violation of this policy should be reported immediately to the K-12 Coordinator of Instructional and Administrative Technology, as well as to the Principal (if the suspected violator is a student), or the Deputy Superintendent of Schools (if the suspected violator is a faculty or staff member).

Additional Policies and Guidelines for Use of School District Computer Resources

Use of the School District's computer resources in the School District must comply with the following:

1. Cyberbullying, sexting, using sexually explicit, graphic, threatening, or obscene language or images, or otherwise using language or images inconsistent with the values and general standards for community behavior of the School District are prohibited.
2. Anyone leaving such inappropriate messages on voice mail may face disciplinary action.
3. Anyone receiving a threatening message should record/save the message and report the incident to the Principal. The K-12 Coordinator of Instructional and Administrative Technology or his/her designee will attempt to trace the message and report the results to the Principal and the Deputy Superintendent of Schools.
4. Use of voice mailboxes for commercial purposes or advertising is not permitted.
5. Use of security codes is required in order to guarantee privacy for mailbox users.

6. Override permission codes are held by the Principals and the Library/Media Specialists in each school.

Wireless Policy and Guidelines

Cellular phones, pagers and walkie-talkies are provided to selected members of the School District by the Facilities Department. Wireless devices including, but not limited to, Chromebooks, iPhones, iPod Touches, iPads and notebook computers are provided to staff members and/or students of the School District by the K-12 Coordinator of Instructional and Administrative Technology or his/her designee. The Facilities Department maintains the inventory for all these devices, auditing of wireless use by the staff, and efficient and effective resolution of billing and service-related issues. The use of wireless technology has been identified by the School District as useful in maintaining communications among the School District community and School District personnel in emergency situations or situations where immediate access to an employee is necessary. The use of such wireless technology is subject to the requirements of the School District's technology and telecommunications practices. By using wireless devices provided by the School District, the individual consents to the School District's exercise of its authority and rights as set out in this policy.

School District Issued Cellular Phone Use

Purpose

All School District-issued cellular phones shall be used for the purpose of supporting the School District's education and business objectives. This policy is intended to facilitate effective School District operations relating to cellular phone usage, encourage the responsible use of district-provided cellular phones, provide guidelines for appropriate cellular phone use, and help manage cellular phone usage costs.

Authorized Users

A list of those employees to whom cellular phones will be given for School District business purposes shall be maintained by the Director of Facilities and reviewed annually by the Board of Education. This list shall also state with specificity, for each employee, the basis for the issuance of a School District cellular phone.

Acceptable Use Guidelines

1. Cellular phones shall be used only for necessary phone calls in furtherance of school business purposes. Charges or fees for personal cellular phone calls shall be reimbursed by the employee to the School District.
2. The School District shall monitor whether employee cellular phone use or expenses are unreasonable, excessive, personal, unauthorized, or unwarranted.

-
3. School District cellular phones shall not be used for the purpose of illegal transactions, harassment, obscene or offensive behavior, or other violations of School District policies or law.
 4. Cellular phone service contract rights and equipment shall be the property of the School District, and any applicable determinations or changes as to them shall be made by the Business Office.
 5. Employees shall have no expectation of privacy in the use of School District cellular phones. All cellular phone bills for district-issued phones are the property of the School District and will be used as appropriate to investigate the personal use of district-issued cellular phones.
 6. School District cellular phones are valuable and should be handled with due care. If loss, theft, or damage to a School District cellular phone results from the known negligence of the employee to whom such phone is assigned, the employee will be required to reimburse the School District for the repair or purchase of replacement equipment.
 7. Upon request, district-issued cellular phones shall be returned to the appropriate School District official.
 8. The School District may discontinue cellular phone privileges at any time.

The Superintendent of Schools or his/her designee shall conduct regular cost-benefit analyses to determine whether the current cellular phone usage is advantageous to the School District, as well as whether cellular phone service plans should be changed in order to reduce costs and maximize the benefit to the School District.

Policy on Wireless Device/Radio Use

The School District insists that all employees act responsibly in their jobs so as not to endanger the lives of themselves or others. Hand-held cellular phones, and other wireless communication devices, while driving cars, trucks and golf carts both on and off campus, during School District work time or on School District business must be used only in accordance with law.

The School District acknowledges that members of the school administration, members of the facilities department and computer services and athletic trainers often use two-way radios and radio-telephones in the School District in the performance of their daily duties. In addition, the use of wireless devices by building administration and security guards are both prevalent and necessary. These employees are reminded to use these devices in such a manner so as not to compromise safety.

Liability for School District Issued Electronic Devices

SYOSSET CENTRAL SCHOOL DISTRICT

ACCEPTABLE USE POLICY

POLICY 4526

The person to whom the School District has issued an electronic device will be liable for the loss, damage, theft, or misuse of said electronic device(s) issued by the School District. In addition, a student or staff member will be responsible for the full replacement cost of the device if the loaned device is lost, damaged, stolen or misused.

The failure to comply with this policy may result in the loss of privileges/access to the School District's computer resources and possible disciplinary action consistent with law or the applicable collective bargaining agreement.
