K-12 Tech - Protection Plan for WWS

K12 Tech is going to offer protection plan coverage for all school provided Chromebooks for students in 3rd grade through 12th grade. K12 Tech has been a great partner for the school district for over 7 years. **This is an optional program, but we highly recommend that you purchase it. Repairs can be very expensive and this will offset all costs.**

The pricing for students within 3rd grade through 12th grade is \$23.00 per student. That price includes accidental device protection for their school-issued Chromebook. It also covers as many damage incidents that happen throughout the year. There are no deductibles. **Students in Kdg. through 2nd grade do not need the protection plan.**

You can sign up by scanning the QR code or following this [link](#). If you don't know your child's student ID, please call their school.

Damage that is covered includes the following.

<ul style="list-style-type: none"> • Screens (LCD) • All casings, Keyboards • Motherboards 	<ul style="list-style-type: none"> • Charging Ports • Headphone Jacks • WiFi Cards • USB Ports 	<ul style="list-style-type: none"> • Buttons • Theft (with police report) • Batteries
---	--	--

What is NOT covered

- Catastrophic Damage (Flood, Fire, etc)
- Chargers
- Damage done while the device is outside of the protective case.
- Vandalism or purposeful damage

All Chromebooks are deployed with a protective case. **It will be incredibly important that every student uses the protective case that is provided with the Chromebook. Failure to do so, will result in the device not being covered, if it's damaged.**

See reverse side for repair costs that will be incurred if you do not elect for coverage.
