

Gulfport School District
Exceptional Education Department

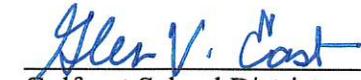

Destruction of Exceptional Education Records

The Gulfport School District is continuing its process of destroying selected records pertaining to Exceptional Education, Gifted and related services. The records pertain to former students who have reached their 26th birthday on or before August 1, 2025.

These records are no longer needed to provide educational services, and destruction of the records is the best protection against unauthorized disclosure. The records may, however, be needed by former students or parents of former students for Social Security benefits, Vocational Rehabilitation eligibility purposes and more. The records are available to parents or former students with proper identification until December 31, 2025.

Details: Dr. William Greb 228-865-4686 in the Gulfport School District Exceptional Education Department

Witness my signature this the 4th day of August 2025.
