

The Cherokee County Board of Education has determined that providing home study students the opportunity to participate in designated school programs/activities is a vehicle to develop and enhance their educational experiences, while ensuring that such opportunities are not at the expense of regularly enrolled students.

Accordingly, the Superintendent of Schools is authorized to establish guidelines which define and authorize the participation of home study parents/students in designated programs/activities of the School District.

ADOPTED: May 2, 2002
REVISED: July 16, 2020

Cherokee County Board of Education
