

# DULLES ELEMENTARY SCHOOL

HOME OF THE DOLPHINS  
[dulles.nlmusd.org](http://dulles.nlmusd.org)

Dulles Elementary School prioritizes the holistic development and well-being of all students as we understand the profound impact school has on students' lives. Our commitment to these principles aligns with best practices in education and aims to provide students with a comprehensive and supportive learning experience. By focusing on academics, the arts, technology, character education, and the development

of critical life skills, Dulles sets a strong foundation for the success and well-being of its students. The sense of community and belonging, along with individualized instruction and staff dedication, contribute to a positive and nurturing atmosphere where each student can thrive. Our philosophy is to not only provide an academically enriching environment but also one that nurtures responsible and well-rounded individuals who are prepared for lifelong success.

- Mrs. Gallegos, Principal
