Professional Math Tutor

- 25+ years of experience professionally tutoring math.
- 15+ years of online tutoring experience.
- I truly care and want to help you succeed.

“I cannot stress enough how much this tutoring helped me through online calculus.

Blue is very good at clearly explaining concepts that at first glance in lecture feel like a foreign language. If I was forced to take another math class I would use his services again.”

~ G. Coughlin

- AP Calculus AB
- High School Math Courses
- College Level Calculus
- College Level Algebra
- College Level Trig
- Math Placement Exams
- SAT and ACT Math Prep
- Middle School Math Courses

“Blue’s tutoring for my senior in high school was beyond wonderful. He knew that Nick was motivated to graduate and willing to work hard to accomplish passing his math course. Without Blue’s guidance, I do not believe our family would be celebrating sending him to college this fall. I absolutely recommend him”

~ King Family

“Has a great work ethic, very kind and doesn't mind repeating or explain things in different ways to help you understand, extremely detailed notes that he sends to you for reference and practice. The price is 100% worth it. He honestly cares about tutoring and wants to help people, this man helped me get my degree, and every penny was worth it. Thank you!!!”

~ T. Ferguson
