

## **ANNUAL COLLEGE CREDIT PLUS NOTICE**

**To: District Students (Grades 6 through 11) and Parents**

**Date: January 2025**

**From: Leetonia Exempted Village School District**

**Re: ANNUAL COLLEGE CREDIT PLUS NOTICE**

The Board of Education recognizes the value to students and to the District for students to participate in programs offered by accredited colleges and universities in Ohio. Through the College Credit Plus program, eligible students can take a course and earn high school and college credit that appears on both their high school and college transcripts. There is no cost to students to participate in the College Credit Plus program when the student is enrolled in a public college or university and earning both high school and college credit. Students choosing to enroll in a participating private college or university might incur costs. Additionally, economically disadvantaged students who choose to attend a nonpublic college or university can do so at no cost. To participate in the College Credit Plus program, the student must meet the standards for admission, enrollment, and course placement established by his/her college or university and relevant academic program. Students must be remediation-free in one of the assessments established under R.C. 3345.061(F) (i.e., uniform statewide standards in mathematics, science, reading, and writing established by college presidents). A student who scores within one standard error of measurement below the remediation-free threshold for one of those assessments is considered to have met this requirement if the student also either: (1) Has a cumulative high school grade point average of at least 3.0. If the student is seeking to participate in seventh or eighth grade, the student must have an equivalent cumulative grade point average in the applicable grade levels. (2) Receives a recommendation from a school counselor, Principal, or career-technical program advisor. The college/university to which the student applies pays for one assessment to determine eligibility. Any additional assessments to determine eligibility are the student's financial responsibility. The student and his/her parents must also participate in a counseling session provided by the district prior to participating. The District will not limit a student's participation in the College Credit Plus program to only the courses offered in that school. Students may also participate online or at any other participating college or university, or any combination thereof. Students may also concurrently enroll in multiple colleges and universities and may take courses from such institutions concurrently.

**Below are the College Credit Plus courses tentatively offered at the District for the 2025--2026 school year:**

### **College Writing I, Stories that Built the World**

Students should review the course catalog of the participating colleges and universities for a full listing of course offerings.

For further information about the College Credit Plus program, students and parents may contact
