The 50th day of school during our 50th year

Would the weather cooperate? Predictions for more rain were 50/50. Could we go ahead with the picture? Yes! Grade 1 dashed back from a morning performance of *Macbeth*. The kitchen staff finished lunch service and ran out to the playground. Each grade moved quickly outside to join the crowd. The rain held off. All cooperated to celebrate the 50th school day in ASL's 50th year with an all-school photograph on 29 November 2001. And then, just as we finished, it began to rain again. ... Whew!
