Mandy Mourer

William Niles

Francisco Pantoja

Karen Petersen

Jessica Poulson

Alan Rivers

Jacob Roskovensky

Jarren Saucedo

Joshua Smith

Cheryl Swafford

Kelly Truex

Andrea VanLeer

Kristi Wagle

Melissa Willer

End of Year Procedures

DHS planned to have seniors return their chromebook on May 15th, and the remainder of students on May 22nd. Mr. Roskovensky said that plan hasn't worked out too well so far. Annette spoke with most principals individually to try to work out a chromebook return plan for their building. Stay in communication with your building leaders about this and let them know of any problems that arise.

The student chromebook plan for summer school will be the same as last year. Chromebooks will be available at the schools hosting summer school. If you have any questions, email Annette Hummel.

Summer Training Opportunities

MaryEllen Bunton has a Smore that will be coming out soon and it outlines all the summer training opportunities. If you have questions about this, you can email MaryEllen or Annette.

Summer Refresh Process

All devices for the summer refresh have been ordered and should be here within the next month. The student desktop devices that are due for replacement will be a little different this year because what we were getting is no longer being made. We will have summer help and high school interns working with us on the replacement process.

Skyward Q Conversion

We are in the process of training staff on the new Q platform. Dane has been setting staff up in the training hub. Follow the Skyward login instructions you will receive by email when you get setup in the training hub. There will be some open gym training time in June & July. If you have questions about the Skyward Q conversion you can email Cheryl Brumett, Dane Hinds, or Francisco Pantoja, or call the Skyward Help Desk at ext. 3081. You can also call the Skyward Help Desk if you need a password change. The current Skyward SMS platform will go down June 19th and the new Q format will come up live on June 26th. It will take a couple days for security & other information to get set up.

Building Concerns / Needs

Timothy Hubbard asked about Smartboard pen tips. We can replace the smartboard pen, but staff should report this need to the building CRP, then the CRP can report it to their building tech.

Meeting adjourned at 7:35am

This was the last Tech P.I.E. meeting for SY 2022-23
