

# Manchester Local School District Nutrition Services

News & Updates - August 2025

## Welcome Back!

From the desk of...

Shannon Belcher, Food Service Director

I am thrilled to share some exciting news with you regarding the latest development in our commitment to providing exceptional meals and service at Manchester Local School District. Over the past few months, we have been diligently working on the implementation of online menus through the innovative platform, My School Menus. This new platform will be used alongside PaySchools Central, which will continue to be the system for loading money onto student accounts.

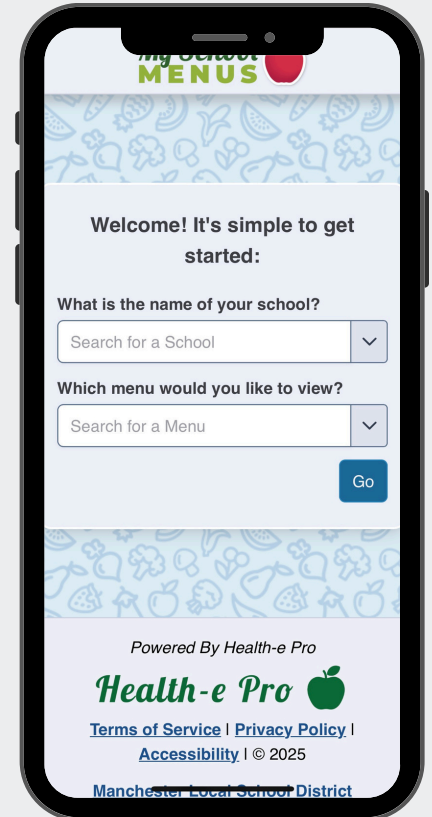

Our primary goal throughout this process has been to enhance transparency and accessibility when it comes to the food options available in our cafeterias. Although menus are subject to change due to product availability, this new tool is designed to keep everyone informed about the delicious and nutritious offerings we provide.

My School Menus serves as a valuable resource for students, staff, and parents, offering real-time information on the daily and weekly menu choices. This platform not only showcases our diverse and well-balanced meal options but also provides insights into the nutritional content of each dish.

By embracing this technology, we aim to empower our school community with the knowledge they need to make informed choices about the food they consume. We believe that My School Menus, along with PaySchools Central, will be a game-changer in fostering a healthier and more transparent approach to child nutrition.

As we begin on this exciting journey, we appreciate your patience and support. We are confident that My School Menus will contribute to an even more positive dining experience for everyone.

Thank you for your ongoing commitment to the well-being of our students.
