High School Programs

Assessments and Data

aimswebPlus is a tool for teachers and educational teams in MTSS/RTI and special education contexts. aimswebPlus offers nationally-normed, skills-based benchmark assessments and progress monitoring integrated into one application across reading and math domains with additional add-on measures across dyslexia and behavior/social-emotional skills.

(Intervention Specialists Only)

Pear Assessment (formally Edulastic) Designed to help teachers assess and monitor students as they work toward mastery of standards. It has more than 80,000 built-in, standards-aligned questions and 10,000 assessments.

Assessment Authoring

- Accessed through [TIDE-Ohio State Testing Portal](#)
- Create Formative and Summative Assessments
 - Question Library pulls from OST sample questions.
 - Teachers can print or have students take the assessment through the Secure Test Browser.
 - Results are reported in the CRS (Field Authored)

Supplemental Programs

Newsela is an online news-as-literacy platform that features high-interest articles on everything from current events to myths and legends and from literature to science.

(Please note that teachers have access to the free version of this program; however, the district does not manage rostering.)

CommonLit provides high-quality instructional resources and assessments. This includes thousands of engaging short stories, poems, and articles that teachers can use with students to build their love of reading and check their comprehension throughout the year. (For our curriculum catalog update, please note that teachers have access to the free version of this program.)
