The School Plan for Student Achievement (SPSA) is a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement. SPSA development should be aligned with and inform the Local Control and Accountability Plan (LCAP) process.

This SPSA template consolidates all school-level planning efforts into one plan for programs funded through the Consolidated Application (ConApp), and for federal Additional Targeted Support and Improvement (ATSI), pursuant to California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act (ESEA) as amended by the Every Student Succeeds Act (ESSA). This template is designed to meet schoolwide program planning requirements for both the SPSA and federal ATSI planning requirements.

California's ESSA State Plan supports the state's approach to improving student group performance through the utilization of federal resources. Schools use the SPSA to document their approach to maximizing the impact of federal investments in support of underserved students. The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the local educational agency (LEA) that are being realized under the state's Local Control Funding Formula (LCFF).

The LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement. Consistent with EC 64001(g)(1), the Schoolsite Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications to the plan that reflect changing needs and priorities, as applicable.

This plan is being used by C.W. Haman Elementary School for meeting ESSA's planning requirements for in alignment with the LCAP and other federal, state, and local programs.

This template is based on the December, 2023 CDE revision of the School Plan for Student Achievement. Some modifications have been made inform the SPSA development process.

CAASPP Results English Language Arts/Literacy (All Students)

The Smarter Balanced Summative Assessments for ELA and mathematics are an annual measure of what students know and can do using the Common Core State Standards for English language arts/literacy and mathematics.

The purpose of the Smarter Balanced Summative Assessments is to assess student knowledge and skills for English language arts/literacy (ELA) and mathematics, as well as how much students have improved since the previous year. These measures help identify and address gaps in knowledge or skills early so students get the support they need for success in higher grades and for college and career readiness.

All students in grades three through eight and grade eleven take the Smarter Balanced Summative Assessments unless a student's active individualized education program (IEP) designates the California Alternate Assessments.

Visit the California Department of Education's [Smarter Balanced Assessment System](#) web page for more information.

The English Language Proficiency Assessments for California (ELPAC) system is used to determine and monitor the progress of the English language proficiency for students whose primary language is not English. The ELPAC is aligned with the 2012 California English Language Development Standards and assesses four domains: listening, speaking, reading, and writing.

Visit the California Department of Education's [English Language Proficiency Assessments for California \(ELPAC\)](https://www.cde.ca.gov/ta/tg/eng/elpac/) web page or the [ELPAC.org](https://elpac.org) website for more information about the ELPAC.

School and Student Performance Data

Student Population

The 2024 California School Dashboard provides parents and educators with meaningful information on school and district progress so they can participate in decisions to improve student learning.

The California School Dashboard goes beyond test scores alone to provide a more complete picture of how schools and districts are meeting the needs of all students. To help parents and educators identify strengths and areas for improvement, California reports how districts, schools (including alternative schools), and student groups are performing across state and local measures.

Goal 1

Title and Description of School Goal

Broad statement that describes the desired result to which all strategies/activities are directed.

Academic Performance / Curriculum Delivery

Each student will demonstrate growth, and we will reduce achievement gaps between higher and lower performing students towards mastering California State Standards as measured by state and district assessments:

CAASPP ELA grades 3-5

CAASPP Mathematics grades 3-5

iReady ELA & Math grades K-5

Fountas & Pinnell grade K-5

LCAP Goal to which this School Goal is Aligned

LCAP goal to which this school goal is aligned.

LCAP Goals:

All students will make measurable annual progress toward mastering California Standards and toward graduation. We will raise student achievement overall and accelerate achievement of historically underserved student groups to narrow opportunity gaps.

All students will equitably receive the social emotional and behavioral support they need to be resilient, future ready, lifelong learners who think critically, solve problems collaboratively and are prepared to thrive in a global society.

SCUSD will partner with students and families, and with labor, business and community members to create and expand opportunities for students to be resilient, future ready, lifelong learners who think critically, solve problems collaboratively and are prepared to thrive in a global society.

Haman Priorities:

Integrated/Designated English Language Development & English Language Arts Foundational Skills (classroom) / Phonics / Morphology

Collaborative Data Inquiry Cycles (Team)

MTSS: Intervention (School)

Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

Haman Elementary has a need to focus on all students by improving outcomes and closing the achievement gap.

The Haman Staff will focus on the progress of our English Learners and 3-5 Math CAASPP using iReady Math and iReady ELA assessments.

The Haman Staff will focus on Literacy Foundational Skills / Phonics / Morphology. All students will benefit from the work we will do in Literacy Foundational Skills.

Annual Measurable Outcomes

Identify the metric(s) and/or state indicator(s) that your school will use as a means of evaluating progress toward accomplishing the goal.

Annual Review

SPSA Year Reviewed: 2024-25

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required, and this section may be left blank and completed at the end of the year after the plan has been executed.

Analysis

Describe the overall implementation and effectiveness of the strategies/activities to achieve the articulated goal.

The Site Support TOSA will support UFLI Phonics, Designated ELD, Math and Reading for students. The Instructional Coach supports UFLI Phonics and Literacy.

Describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

The Targeted budget has increased \$6,000 for the 2025-2026 school year. This increase will help fund the Site Support TOSA position.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

The entire targeted budget will now support the Site Support TOSA.
