

# Sociology

## **Course Description/Goals:**

The sociology course deals with the study of people and their interaction with one another. It involves learning about institutions found in all societies, such as the family and community organizations as well as political and social activities. Broad areas of content include mobility of people, human relationships, and factors in society, which influence human personality.

## **Course TEKS/Objectives:**

The Sociology (Texas Essential Knowledge and Skills) are organized into reporting categories, each focusing on a specific area of sociology.. These categories include: foundations of sociology, culture and social structure, individual and society, social inequality, social institutions, changing world and social studies skills Each category contains specific standards (TEKS) that students are expected to master.
